Report accepted; order passed, yeas 9.

ORDINANCES.

Coun. BRICKLEY, for the Committee on Ordinances, submitted the following, viz.:

1. Report on message of Mayor and ordinance (referred June 28) concerning the consolidation of the Penal Institutions Department, the Boston Infirmary Department, the Children's Institutions Department and the Institutions Registration Department—that the ordinance ought to pass.

The report was accepted, and the question came on the passage of the ordinance.

Coun. WATSON—Mr. President, I owe it to myself and to the public generally to give my reasons for changing my vote on the ordinance now under consideration. I have taken previously a stand in opposition to the consolidation, and I based my opposition on several facts to which I gave consideration. I have always felt that, in so far as it could be done, the control and management of institutions handling the criminal class and the noncriminal class, our charges in the city, should be kept as far apart as possible. But a condition has arisen concerning a few of the departments which it is proposed to consolidate that compels me to put aside my views concerning that proposition because of the fact that there is an opportunity to improve conditions a little as compared with what they are at present through changing my views. I have tried in many ways, if there was to be a consolidation, to have the consolidation applied to the two institutions that have to do with those who are criminal in a way, keeping aloof from those two departments the unfortunate charges of the city at Long Island. But under the legislation as passed I am informed—properly so, I believe—that the only consolidation that can take place under the act is a consolidation of the three departments under a single head, and the ordinance now here under consideration, looking to that, is similar to the one I voted against at a previous meeting. As a matter of fact, and I believe no one can gainsay it, I think today that the three institutions are absolutely dominated and controlled in every particular by one man, the Penal Institutions Commissioner, by virtue of his appointment as chairman *pro tem.* of the Long Island Hospital and as a member of the Children's Institutions Department, representing, as he does, the Mayor, who is supreme in authority over these institutions. This conditions has been dragging along for months, with no Board of Trustees at Long Island except the one that he has made up, principally of department heads, and he is the one absent man on that Board. There have been some slight improvements at Long Island we will admit, but nothing of a permanent or constructive nature. There has been no movement in the matter of transferring the inmates at Long Island to the mainland or putting them under the control, charge and care of the City Hospital. Nothing of the sort has gone or will go into effect as long as this matter drags along. I think I am big enough, knowing that no actual, positive, constructive improvement concerning Long Island, where my interests lie in particular, will be brought about unless consolidation takes place, to change the position I have heretofore taken in regard to this matter. I want the inmates of Long Island in the closing days of their lives to be given the greatest comfort and the greatest care, medical and otherwise, that they can receive. It belongs to them, we owe it to them, and the longer we delay doing something to bring about such a condition in their behalf the longer I believe, as one member of this Board, I at least, am not doing my duty. I dislike greatly to be compelled to change my position on a public question. They say it is a very brave fellow who takes his position on a matter and stands there. I think it takes some courage to change your mind when you feel that you ought to do so, taking an opposite position to the one you have already taken on a public question, and I am doing that today. I believe the Children's Institutions' Trustees—Mr. John O'Hare, Miss Needham and Miss Foley should remain there and continue the wonderful work they have done with Mr. O'Brien for the community. No other single individuals have ever given their services to the city more willingly, more faithfully, to the extent of 100 per cent, than they have. They deserve all the credit and appreciation possible from every single individual in this community. I know them all personally. They have always been very considerate of any request I have made upon them, and I regret that my vote today will be the means of their terminating officially their positions with the City of Boston. But I believe I owe something to myself, that I owe something to my conscience in the matter. I owe something to the inmates of Long Island. If my vote will do anything to bring help to a class which is obliged to get the assistance afforded by those institutions, I sincerely believe that it should be cast having that in view. I believe personally that by changing my vote the lot of the unfortunates at Long Island is going to be improved immensely, and with that in mind I am going to vote "yes" today on this question.

Coun. McLAUGHLIN—Mr. President, I never expected to speak on this particular matter today,

and I probably would not do so, sir, if it were not for the length at which the previous speaker went in referring to the interests of certain of Boston's worthy poor. Mr. President, he is somewhat elated over the fact that he is showing particular courage in changing his position on this matter. I have no feeling for or against any individual interested in the passage of this particular ordinance, but when it comes to the question of having courage, where men must stand on their feet and be counted, then, sir, I, too, will say that I have some courage, and so have the members of this honorable body who still intend to vote on this question as I do. Courage, Mr. President, is always to be admired in all men. Courage is an absolute essential in the makeup of any man if he wants to be a really honest and faithful public servant. Surely we are demonstrating our courage when we still persist in saying that it is wrong to pass this ordinance today and still insist on voting against it. We yield to no member of this body or to no man higher up in an official capacity in our city, or to no individual citizens in the community, in our interest in the worthy poor or the children of the City of Boston. Our only hope, sir, is to vote right on these most important and humane questions, and I am voting against this ordinance because I do not want to stigmatize the worthy poor on Long Island by having their names classed with those of men who have wilfully committed a wrong against society. Their only wrong, if you want to call it wrong, arises from the fact that they have lived to see the day when they could not earn their own sustenance. That is not a crime, Mr. President, and the worthy poor of the City of Boston, in my belief, should be dissociated from those taken care of in correctional institutions. That institution is not a correctional institution, sir, and it should not be put with a correctional institution. Mr. President, I have always feared that Boston would eventually lose control of a great many of its institutions. I have always feared that the powers that be in the Commonwealth of Massachusetts some day, somehow, through some manipulation, would be able to reach into our city and control our people. There is no use in trying to hide behind false doors; there is no use in trying to be blind to certain efforts being made in various parts of the Commonwealth. They have always reached forth to control Boston's correctional institutions; they have always reached forth, sir, to get control of our children. Today, Mr. President, they are trying to dominate and control the school system of Boston, with the one hope in mind, sir, that they will grab and strangle forever the parochial system now so honorably established in the City of Boston. Courage, Mr. President! Yes, we have courage. No man has ever accused us, when the fight for our people was being waged, when the contest was on, when the line was drawn, of cowardice. Surely we admire courage, sir, but I know that I am doing my duty. Let other men here vote as they will. I do not question the judgment of any man here. I respect every member of this body. I know that they are voting as they think is the proper way to vote. But I say, Mr. President, in the interest of my city, in the interest of the poor, the worthy poor of that city, in the interest of the future of the children of that city, in the interest of the sacredness of the homes of the children and the poor of that city, that I am voting right in this particular matter; and, Mr. President, because I have courage, because I have withstood pressure, because I have not bent like a reed, I am voting against this ordinance today, honestly, fearlessly, because, sir, I think I, too, am right.

Coun. COLLINS—Mr. President, the proposed ordinance has been before this body in one form or another for over a year. A public hearing was held upon the ordinance last year, and I have read what has been said in favor of and against the proposition, and have tried to give to the matter the most earnest consideration. At the close of that hearing I was of the opinion that the people who had considered the proposition from many angles and who were specialists on it were unanimously or practically unanimously in favor of an ordinance of this character. The reason is very plain, that, with the concentration of authority in the hands of an administrative head the unfortunate wards of the city, whether they be derelict from the standpoint of the criminal law or dependent on account of unfortunate financial conditions at home, needed the best the city could give them. As was said by the first speaker today, although occasionally you will find an unpaid board of trustees singularly efficient, such a board as the old Children's Institution Department has been, as a general proposition you will find that they are derelict in their duty, not because they are not well-intentioned but because they cannot devote as much time as they ought to the work, and because, being busy men and women, they frequently exercise their duties as unpaid trustees as subordinate to their main vocation. The consequence is that the unfortunate wards of the city do not get the return in comfort or happiness that the city ought to give them. Consequently, throughout the nation there has been a tendency toward concentration of the departments having jurisdiction over the inmates of charitable and correctional institutions. In Cleveland they have an ordinance similar to this, as well as in New York, and I understand that they also have one in Chicago. This is not really an innovation, a precedent. It is merely following along the line of the best thought on this subject. In other words, my point of view and that of others of us who favor this

ordinance is that we believe that under it there will be more efficiency, that unfortunates will be able to get a better deal at the hands of a paid administrative head. There is not going to be any intermingling of criminals and poor unfortunates under this ordinance. There will be an administrative head, under whom there will be superintendents in charge of each division and the result will not be what it has been in times gone by, when everybody's business was nobody's business. I cannot help saying a word in favor of the point of view set forth by Coun. Watson when he spoke of Long Island. We have at present an unpaid board, simply putting in time that can be taken from other pursuits. It is idle to say that the best return can be obtained for those unfortunates through an unpaid board, considering our experience of the past decade. In other words, this ordinance, in my opinion, spells more efficiency for the inmates, better care for them and a better return from every angle. For that reason, I favor this ordinance.

The ordinance was passed, yeas 5, nays 4.

Yeas—Coun. Collins, Ford, Hagan, Lane, Watson—5.

Nays—Coun. Brickley, Donoghue, McLaughlin, Moriarty—4.

2. Report on message of Mayor and ordinance (referred August 9) increasing salary of Commissioner of Soldiers' Relief to \$5,000 per annum—that the ordinance ought to pass.

Report accepted; ordinance passed.

3. Report on message of Mayor and ordinance (referred July 12) concerning fees for builders' licenses—that the ordinance ought not to pass, without prejudice.

Report accepted; ordinance rejected, without prejudice.

4. Report on message of Mayor and ordinance (referred July 19) relative to itinerant vendors—that the ordinance ought not to pass, without prejudice.

Report accepted; ordinance rejected, without prejudice.

Coun. FORD (Referring to Nos. 3 and 4 above)—Mr. President, I would like to have it appear in the record that we are rejecting these ordinances without prejudice, not for the purpose of depriving the city of further revenue but because of lack of time in which to consider them and lack of a complete report from the committee on additional revenue for the city.

Coun. HAGAN—Mr. President, it might also be advisable to have it stated in the record that it is the purpose of the chairman of the committee to reintroduce these ordinances for the consideration of the Council.

Coun. FORD—Yes, Mr. President, I forgot to state that in my brief remarks.

SOLDIERS' RELIEF.

Coun. BRICKLEY, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of August, 1920.

Report accepted; order passed.

PARKMAN FUND.

Coun. LANE, for the Committee on Parkman Fund, submitted a report on message of Mayor, communication and order (referred August 9) appropriating \$153,650 from the income from Parkman Fund for various purposes—that the order ought to pass.

Report accepted; order passed, yeas 9.

NAMING OF JAMES M. HINES SQUARE.

Coun. WATSON offered an order—That the open space at the junction of Cedar street, Fort avenue and Centre street be named James M. Hines square, in memory of James M. Hines, who died in the service of the United States in the World War.

Passed, under a suspension of the rule.

NAMING OF JOHN F. HOLLAND PLAYGROUND.

Coun. WATSON offered an order—That the Park and Recreation Commissioners be requested, through his Honor the Mayor, to name the playground on Mozart and Bolster streets John F. Holland Playground, in memory of John F. Holland, who gave up his life in the service of the United States in the World War.

Passed, under a suspension of the rule.

NAMING OF JAMES J. MURPHY SQUARE.

Coun. WATSON offered an order—That the space at the junction of Roxbury street and Guild row be named James J. Murphy square, in honor of James J. Murphy, 101st Regiment of Field Artillery, who was killed in action in France August 1, 1918, during the World War, and that said space be suitably marked with signs.

Passed, under a suspension of the rule.

NAMING OF JOHN H. COYLE SQUARE.

Coun. BRICKLEY offered an order—That the open space at the corner of Washington and Market streets and Chestnut Hill avenue be named and known as John H. Coyle square, in honor of said Coyle, who lost his life in the service of the United States in the World War, and that said space be suitably marked with signs.

Passed, under a suspension of the rule.

NAMING OF WILLIAM FRANCIS SMITH PLAYGROUND.

Coun. BRICKLEY offered an order—That the Park and Recreation Commissioners be requested, through his Honor the Mayor, to name North Brighton Playground, William Francis Smith Playground, in memory of William Francis Smith, who gave up his life in the service of the United States in the World War.

Passed, under a suspension of the rule.

SALARY OF SUPERINTENDENT OF PRINTING.

Coun. LANE offered the following:
City of Boston.

In the Year Nineteen Hundred and Twenty.

An Ordinance Concerning the Salary of the Superintendent of Printing.

Be it ordained by the City Council of Boston, as follows:

Chapter three of the Revised Ordinances of 1914 is hereby amended in section five, in the clause establishing the salary of the Superintendent of Printing, by striking out the words "four thousand dollars" and inserting in place thereof the words "five thousand dollars."

Passed, under suspension of the rule.

LOAN FOR OLD HARBOR IMPROVEMENT.

A message of the Mayor and an order for loan of \$100,000 (referred July 19) for Old Harbor Improvement was taken from the files of the Committee on Finance on motion of Coun. McLAUGHLIN.

The order was given its first reading and passed, yeas 9, and will take its final reading not less than fourteen days from date.

CONFIRMATION OF APPOINTMENTS.

President MORIARTY called up unfinished business, Nos. 1, 2, and 3, viz.:

Action on appointments submitted by the Mayor, August 9, 1920, viz.:

1. Albert Chester Norris, to be a Constable.

2. Charles Herbert Boyden, to be a Measurer of Leather.

3. Russell A. Grant, to be a Weigher of Goods. The question came on confirmation. Committee—Coun. Donoghue and Watson. Whole number of ballots cast, 9. Yeas 9, and the appointments were confirmed.

GRADING OF PORTSMOUTH STREET PLAYGROUND.

President MORIARTY called up unfinished business, No. 4, viz.:

4. Ordered, That the expense of building shelter, fencing, grading, etc., at the Portsmouth Street Playground be charged to the appropriation for Portsmouth Street Playground, Locker Building and Shower Baths.

On August 9, 1920, the foregoing order was read once and passed, yeas 8, nays 0.

The order was given its final reading and passed, yeas 9.

PLAYGROUND, WARD 9.

President MORIARTY called up unfinished business, No. 5, viz.:

5. Ordered, That the sum of fifteen thousand dollars (\$15,000) be appropriated, to be expended by the Park and Recreation Department for the purchase and furnishing of a playground in Ward 9, South Boston, and to meet said appropriation the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

On August 9, 1920, the foregoing order was read once and passed, yeas 8, nays 0.

The order was given its final reading and passed, yeas 9.

LOAN FOR CITY HOSPITAL.

President MORIARTY called up unfinished business, No. 6, viz.:

6. Ordered, That the sum of \$200,000 be appropriated to be expended by the trustees of the City Hospital for additional facilities, and that to meet said appropriation the City Treasurer be

hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount. On August 9, 1920, the foregoing order was read once and passed, yeas 8, nays 0. The order was given its final reading and passed, yeas 9.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

THE NEXT MEETING.

Coun. HAGAN—Mr. President, I move that when we adjourn it be to meet on Monday, September 13, at 2 p. m.

Coun. FORD—Mr. President, I would move to amend Coun. Hagan's motion, that when we adjourn it be to meet on Monday, August 30, for this reason. There are two petitions before the Executive Committee not acted upon today with reference to tanks in South Boston. If the Council feels that it should adjourn to September 13 it may be that we ought to take some action on those today. Unless the Council will agree to meet next Monday, and take action, having in view that situation, I am in favor of taking action upon the tanks today. I think the Council ought to consider that for a few minutes before deciding upon a long adjournment today. It is not because I disagree at all with the Council as to the day to which we shall adjourn, but simply because I wish some attention given to that particular situation. If it seems to be the consensus of opinion that we should adjourn to September 13, because of lack of a quorum, before that motion is put I would like to make a further motion in reference to these matters to which I have referred. I would move that we take a recess for about two minutes, Mr. President.

The Council voted at 5.35 p. m. to take a recess, subject to the call of the Chair, and was called to order again by President MORIARTY at 5.40 p. m.

Coun. HAGAN's motion, that when the Council adjourns it be to meet on Monday, September 13, was lost, yeas 3, nays 5.

Yeas—Coun. Collins, Hagan, Lane—3.
Nays—Coun. Donoghue, Ford, McLaughlin, Moriarty, Watson—5.

Adjourned, on motion of Coun. FORD, at 2.41 p. m., to meet on Monday, August 30, at 5 p. m.

BOSTON BANK STATISTICS, 1918-1919.

Bank clearings or exchanges in year 1918 show the largest total on record in Boston, viz., \$15,501,085,308, an increase over 1917 of 22.40 per cent, and over 1916 of 44.11 per cent. Highest single day's clearings on record, \$101,059,681, i. e., on June 17, 1918. Total clearings for first four months of 1919, \$4,984,299,708, or 14.43 per cent increase over same period in 1918. On March 4, 1919, the 14 national banks showed aggregate capital of \$28,200,000; surplus and undivided profits, \$45,878,807; deposits, 419,471,233; loans and discounts, \$307,122,245. On same date the 31 trust companies showed aggregate capital of \$22,008,100; surplus and undivided profits, \$30,038,307; deposits, \$341,078,769; loans and discounts, \$272,523,607; 26 trust companies each have a savings department with total deposits of \$51,993,064. Total resources of the national banks, \$563,772,938; of the trust companies, \$445,380,122; grand total, \$1,009,153,060. Savings banks, 24, with \$321,035,467 deposits (as of October 31, 1918); coöperative banks, 37, with total assets of \$32,624,660 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on May 2, 1919, ranked fifth in these respects, viz., total resources, capital paid in and gross deposits, while as to surplus, total earning assets and total discounts (bills on hand) it stood fourth.

On March 4, 1919, the resources of the 7,732 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$20,017,000,000 or \$305,000,000 more than ever before reported; total deposits, \$15,299,807,000. The number of state banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1856, ranks second to that of New York in number of checks cleared, viz., 35,300 daily average.

SCHOOLHOUSE DEPARTMENT.

On September 7 to Fitz, Dana & Co. as per following communication:

BOSTON, September 1, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—There was but one bid submitted to the Schoolhouse Commissioners at the opening on August 24 in response to advertisement of the Board for proposals for furnishing and installing metal working machinery in the new Dearborn District School. This bid was from Fitz, Dana & Co., in the sum of one thousand four hundred and twenty and 10-100 (1,420.10) dollars. During some years past Fitz, Dana & Co. have done work for this department, and their work has been satisfactory. The Board has therefore voted, subject to the approval of your Honor, to award the contract to Fitz, Dana & Co. at the price named.

Respectfully yours,

J. P. LOMASNEY, Chairman.

On September 9 to Hodge Boiler Works as per following communication:

BOSTON, September 8, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—There was but one bid submitted to the Schoolhouse Commissioners and opened on September 7, 1920, in response to advertisement of the Board for proposals for repairing and retubing horizontal return tubular boilers for various schoolhouses. This bid was from the Hodge Boiler Works in the sum of ten thousand nine hundred and ninety-eight (10,998) dollars. During several years past the Hodge Boiler Works has done considerable work for this department, and its work has been satisfactory. The Board has therefore voted, subject to the approval of your Honor, to award the contract to the Hodge Boiler Works at the price named.

Respectfully yours,

J. P. LOMASNEY, Chairman.

SUPPLY DEPARTMENT.

On September 7 to the Griswoldville Manufacturing Company as per following communication:

BOSTON, August 23, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing dry goods to the Boston City Hospital, which were publicly opened and read at this office under date of August 20, 1920.

I respectfully request permission to award this contract to the lowest bidder, Griswoldville Manufacturing Company. The price on the 25,000 yards of absorbent bleached gauze submitted by Lewis Manufacturing Company is for gauze 20 by 12, whereas our specifications read "20 by 14." In addition to this, the Lewis Manufacturing Company did not comply with the requirements as to filing a check with their bid, and therefore their bid cannot be accepted.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Bids opened August 20 were as follows:
1,000 *Bellevue Rolls*.—New Hartford Cotton Manufacturing Company, 87 cents each; Lewis Manufacturing Company, 90 cents each; Griswoldville Manufacturing Company, 87 cents each;

25,000 *Yards Absorbent Bleached Gauze*.—New Hartford Cotton Manufacturing Company, 20 by 14, 6½ cents per yard; Lewis Manufacturing Company, 20 by 12, 5½ cents per yard; 20 by 16, 5½ cents per yard; Griswoldville Manufacturing Company, 20 by 14, 5.7 cents per yard.

Total.—New Hartford Cotton Manufacturing Company, \$2,432.50; Lewis Manufacturing Company, \$2,306.25, \$2,368.75; Griswoldville Manufacturing Company, \$2,295.

On September 7 to the Boston Woven Hose and Rubber Company as per following communication and bids:

BOSTON, September 1, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids, which were publicly opened and read at this office under date of August 23, 1920, on proposals for furnishing 4,000 feet of 3-inch 2-ply double jacket fire hose with couplings, delivery to be made to the Fire Department. Copies of these bids were referred to the attention of the Fire Commissioner, and he has notified this department that the price bid is higher than expected and that the amount of money available in the Fire Department budget is sufficient to allow the purchase of 3,400 feet of hose instead of 4,000 feet as originally ordered. This department has taken up the matter of the reduction in quantity with the Boston Woven Hose and Rubber Company, the lowest bidder, and they have agreed to accept the contract for the adjusted amount, viz., 3,400 feet.

In view of the above explanations, I respectfully request that the contract be awarded to the Boston Woven Hose and Rubber Company, the lowest bidder, for 3,400 feet of 3-inch 2-ply double jacket fire hose with couplings at a price of \$1.47 per foot.

Yours respectfully,

C. E. THORNTON,
Acting Superintendent of Supplies.

Bids opened August 23 were as follows:
Manhattan Rubber Manufacturing Company, \$1.56 per foot; United States Rubber Company, \$1.65 per foot; Boston Woven Hose and Rubber Company,

\$1.47 per foot; Hewitt Rubber Company, \$1.55 per foot (no bid at Auditor's office).

On September 9 to H. P. Hood & Sons Company and C. Brigham & Co., as per following communication and bids:

BOSTON, September 7, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids, which were publicly opened and read at this office under date of September 3, 1920, on proposals for furnishing milk to the Infirmary Department during the months of September and October, 1920.

I respectfully request permission to award the contract for furnishing the pasteurized milk and the medium cream to the H. P. Hood & Sons Company, the lowest bidder, as indicated on the attached sheet. Regarding the item of certified milk would state that I have awarded this order to C. Brigham & Co., the lowest bidder, without the formality of a contract as the total of the order amounts to approximately \$200.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids opened September 3 were as follows:

Three Thousand Five Hundred Thirty-eight Cans Massachusetts Pasteurized Milk.

—C. Brigham & Co., \$1.198 per 8½-quart can; H. P. Hood & Sons, \$1.15 per 8½-quart can.

Eight Hundred Fifty-four Quarts Certified Milk.—C. Brigham & Co., 23½ cents per quart; H. P. Hood & Sons, 25 cents per quart.

One Hundred Twenty-two Pints Medium Cream.—C. Brigham & Co., 33 cents per pint; H. P. Hood & Sons, 30 cents per pint.

On September 9 to Safety Insulated Wire and Cable Company as per following communication and bids:

BOSTON, August 30, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids covering lead covered cable to be delivered to the Fire Department, which were publicly opened and read at this office under date of August 20, 1920.

These bids were referred to the Fire Commissioner and he has written, as per attached letter, to the effect that prices quoted were higher than he expected, and consequently he has not enough available money to purchase the full amount of cable for which we advertised. He further suggests that this department eliminate from the contract 1,000 feet of 37 conductor cable and 1,000 feet of 20 conductor cable in order to bring the total amount of the contract within his budget appropriation. I have written the Safety Insulated Wire & Cable Company, the lowest bidder, to this effect, and they have replied that they are willing to accept the contract with these corrections.

Commissioner Murphy of the Fire Department further states that his department is buying \$1,400 worth of cable, which is to be used for the signal system of the High Pressure Fire Service, and it is in accordance with his suggestion that we have asked for the approval of the Commissioner of Public Works for the purchase of this \$1,400 worth of cable.

In accordance with the corrections

noted above, I respectfully request permission to award this contract to the Safety Insulated Wire & Cable Company, the lowest bidder.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Bids opened August 20 were as follows:

1,000 *feet 37 Conductor Cable*.—Standard Underground Cable Company, 91.1 cents per foot; Safety Insulated Wire & Cable Company, 93 cents per foot.

1,000 *feet 20 Conductor Cable*.—Standard Underground Cable Company, 69.76 cents per foot; Safety Insulated Wire & Cable Company, 66 cents per foot.

2,000 *feet 19 Conductor Cable*.—Standard Underground Cable Company, 59.03 cents per foot; Safety Insulated Wire & Cable Company, 49 cents per foot.

2,000 *feet 15 Conductor Cable*.—Standard Underground Cable Company, 61.38 cents per foot; Safety Insulated Wire & Cable Company, 48 cents per foot.

21,110 *feet 10 Conductor Cable*.—Standard Underground Cable Company, 38.9 cents per foot; Safety Insulated Wire & Cable Company, 35 cents per foot.

18,269 *feet 6 Conductor Cable*.—Standard Underground Cable Company, 27.7 cents per foot; Safety Insulated Wire & Cable Company, 23½ cents per foot.

3,609 *feet 4 Conductor Cable*.—Standard Underground Cable Company, 33.1 cents per foot; Safety Insulated Wire & Cable Company, 17 cents per foot.

Total.—Standard Underground Cable Company, \$18,086.69; Safety Insulated Wire & Cable Company, \$15,825.24.

Delivery.—Standard Underground Cable Company, 16 to 18 weeks; Safety Insulated Wire & Cable Company, 90 days.

American Steel & Wire Company submitted no bid, as they could not meet delivery of ninety days.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

BOSTON, August 20, 1920.

To the Mayor of Boston:

Authority is respectfully requested to award a contract to Warren Brothers Company to furnish and lay bitulithic pavement in Huntington avenue at Jamaicaaway, to conform to pavement now being laid by the Park and Recreation Department in the Parkway, without inviting proposals therefor by advertisement, the estimated cost for labor and materials being \$1,400. The prices to be paid for this work will be the same as those bid for doing similar work in the Park and Recreation Department contract. Recommended by James H. Sullivan, Division Engineer.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

BOSTON, September 7, 1920.

The authority requested is hereby given.

ANDREW J. PETERS,
Mayor.

BOSTON, August 31, 1920.

To the Mayor of Boston:

Authority is respectfully requested to award a contract to the Eastern Massa-

chusetts Railway Company, without advertising. Item: Excavate the track area on Hyde Park avenue, between Metropolitan avenue and River street, without inviting proposals therefor by advertisement, the estimated cost for labor and material being \$6,000. Recommended by James H. Sullivan, Division Engineer.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

BOSTON, September 7, 1920.

The authority requested is hereby given.

ANDREW J. PETERS,
Mayor.

	\$1,231 20

The contract to be awarded to the DeWolfe & Fiske Company, 20 Franklin street.

These books were purchased through the Boston Public Library in order that we might obtain the special library discount through the library's agent, DeWolfe & Fiske Company. The librarian states

that the prices named opposite each item are the lowest at which the books can be supplied.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Reinforcing Rods.

On September 8 to Edward A. Tucker and Concrete Steel Company as per following communication:

BOSTON, August 27, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

On the 25th instant this office opened bids publicly for furnishing 100 tons of ¾-inch square, deformed reinforcing rods for the Transit Department. No bids were received on the specifications. There were two bids, viz.: Corrugated Bar Company, \$90 per ton of 2,000 pounds, f. o. b. cars Pittsburgh, and New England Bolt Company, \$99 per ton, f. o. b. stockyard of the Transit Department, both bids being based on material other than called for by our specifications.

The Transit Department was communicated with and I am advised that neither bid is acceptable.

In view of the fact that this material is urgently needed, the Transit Department searched the Boston market and found that Edward A. Tucker has 50 tons of ¾-inch square, deformed reinforcing rods at 5.58 cents per pound and the Concrete Steel Company has about 40 tons of 1-inch square, deformed reinforcing rods at 5.52 cents per pound.

I respectfully request that I may be authorized to purchase, without advertising, and enter into contract with the above named concerns covering the material mentioned.

Arthur C. Harvey quotes 6.5 cents for similar material and Brown Wales quotes 6.5 cents per pound. W. E. Clark & Co., the Aberthaw Construction Company and the Massachusetts Steel and Iron Company quoted lower prices, but the material was not satisfactory to the Transit Department.

Owing to the present condition of the steel market, it is my opinion that we cannot obtain better prices than those quoted by Tucker & Co. and the Concrete Steel Company, and I therefore request permission to purchase without advertising.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

On September 7 to the Northern Coal Company as per following communication:

BOSTON, September 3, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Northern Coal Company for furnishing two barges, containing approximately 3,500 tons of New River or Pocahontas coal at a price of \$15 per gross ton, alongside Boston, plus demurrage charge of 10 cents per ton per day if over three days are used for discharging, extra harbor tonnage, if any, to be paid by the City of Boston. Settlement will be on bill of lading weight. One barge is to be delivered alongside South Ferry and the other is to be delivered alongside pumping station, Cow Pasture.

Attached please find list of prices received from the different coal dealers. I respectfully request permission to award

the contract to the Northern Coal Company, the lowest bidder as indicated on the attached sheet.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Bids opened September 3 were as follows:

Northern Coal Company, \$15 per gross ton, alongside ferries and Cow Pasture (New River); City Fuel Company, \$16.80 per gross ton, alongside East Boston (Pennsylvania coal); Spring Coal Company, \$16 per gross ton, alongside ferries and Cow Pasture (New River); Maritime Coaling Company, \$17.50 per gross ton, alongside ferries and Cow Pasture (Pennsylvania); New England Coal and Coke Company, \$15.80 per gross ton, alongside Everett (New River).

The following firms have no coal: Castner, Curran & Bullett, C. H. Sprague & Son, Burton-Furber Coal Company, Stetson Coal Company, Coastwise Coal Company, East Boston Coal Company, Logan Coal Company.

On September 7 to the Coastwise Coal Company as per following communication:

BOSTON, September 2, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Your permission is respectfully requested to award a contract, without publicly advertising the same, for furnishing approximately 600 tons of Pennsylvania semi-bituminous coal to the Infirmary Department, Long Island, from the Coastwise Coal Company at \$13 per gross ton, alongside wharf, East Boston.

This coal was bought under the priority orders under rules which are governed by the Interstate Commerce Commission. This coal is very much lower in price than the market prices received on August 23, and in view of the scarcity of coal at this price we request that the permission asked for be granted.

Yours respectfully,

C. E. THORNTON,
Acting Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Paving Service).

Original contract, \$8,320; total additions, \$154; contract outstanding, \$8,474.

An addition, amounting to \$461.25, on contract with McGahey & O'Connor, dated August 22, 1919, Pauline Agassiz Shaw School, viz.: Applying two coats of raw linseed oil, first coat to contain raw sienna to give the appearance of light oak to the finish floors, add the sum of \$309; for changing the glass in one sash in the window opening in the girls' toilet room

in old building from plain to ribbed glass, add the sum of \$17.25; for setting up shelving in the new storeroom in the old building, as per instructions, add the sum of \$135; total, \$461.25. Original contract, \$95,300; total additions, \$2,228.28; total deductions, \$3,811; contract outstanding, \$93,717.28.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To repair macadam surface on Walter street, from Centre street to South street, the estimated cost for labor and materials being \$2,000.

To resurface with tar macadam and regulate School street, from Main street to Bartlett street, Charlestown, the estimated cost for labor and material being \$1,500.

To set edgestone in Cedar street, from River street to Manchester street, Dorchester, the estimated cost for labor and material being \$5,000.

STREET COMMISSIONERS.

September 3, 1920.

Ordered, That this Board determines that the undermentioned estate sustains damages by the making of the public improvement, consisting of the widening and construction of South street, West Roxbury district, on the southerly side, at Centre street, as a highway, and the discontinuance of a part of South street, West Roxbury district, as a highway, on the northerly side, at Centre street, under an order of this Board of even date herewith, to the amount hereinafter set against it, and awards said amount therefor.

Emma A. Tileston, 3,405 square feet. . . Amount. \$681 00

Ordered, That this Board determines that no estate receives benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement above specified.

Approved September 9.

September 9, 1920.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires that there should be a taking of land on Centre street, West Roxbury, for library purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and that it appoints 12 o'clock m., of September 28, 1920, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH T. SULLIVAN,
Secretary.

APPROPRIATION FOR HEALTH DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, August 24, 1920.
To the City Council:

Gentlemen,—I am herewith attaching a communication from Dr. William C. Woodward, Health Commissioner, requesting an appropriation of funds to combat spread of infantile paralysis. In the opinion both of Doctor Woodward and the Medical Advisory Board, it is of the utmost importance that funds be provided at once to carry on the work outlined in the attached communication, and which the authorities feel is essential to the protection of the community.

As the communication from Doctor Woodward is self-explanatory, I shall not comment on it, but I recommend the passage of the accompanying order which provides the necessary funds.

Respectfully,
ANDREW J. PETERS, Mayor.

City of Boston,
Health Department, August 24, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Infantile paralysis has been more than usually prevalent in Boston and in the surrounding communities during the current month, and is naturally giving rise to some uneasiness. During the week ended August 7, five cases were reported among residents of Boston, whereas during the corresponding weeks of each of the three preceding years no cases were reported, and during the year preceding those years, 1916, which was the epidemic year, nine cases were reported. During the week ended August 14, thirteen cases were reported among residents of Boston, whereas two cases were reported during the corresponding week of 1919, none during 1918 nor 1917, and four during 1916. During the week ended August 21 seven Boston cases were reported, in 1919 no cases, in 1918 one case, in 1917 one case, and in 1916, the epidemic year, eight cases.

In June of the current year, no cases were reported in Boston or in any of the eleven nearby cities and towns, in July Boston and one other community were infected, whereas during the first three weeks in August, Boston and seven other communities were infected.

The epidemic of 1916 reached its peak in the week ended August 7, so that there is a reasonable probability of an increase in the prevalence of the disease in Boston until about that time.

No definite measures are known whereby the spread of the disease can be prevented; the infectious agent escapes from the body through the nasal and post-nasal secretions, and efforts toward the limitation of the spread of the disease are directed toward the limitation of the dissemination of such infected secretions. Early diagnosis tends, of course, to procure the promptest practicable isolation of infective persons and facilitates early inauguration of treatment, with the result, it is believed, that the likelihood of severe paralysis is diminished. By early diagnosis is meant diagnosis before paralysis appears, and this is difficult, depending as it does on lumbar puncture and examination of spinal fluid.

At a conference with the Medical Advisory Board yesterday, and with Dr. Francis W. Peabody, of the Harvard Infantile Paralysis Commission, and at a conference today with Doctor Peabody and Dr. Milton J. Rosenau, also of the commission, it was felt that it would be advisable to provide diagnostic assistants for physicians treating patients in Boston, so as to facilitate early diagnosis, and to provide for the epidemiological study of the disease, in the hope of contributing something toward our knowledge of its spread and in the hope further of discovering something that might aid in limiting its dissemination. The plan outlined contemplated the appointment of three diagnostic experts, who would be on call at all times to aid physicians caring for patients in Boston in the diagnosis of cases, at say \$100 a week each. An epidemiologist should be appointed at a salary of say \$75 a week. Clerical assistance would be necessary, at a cost of say \$50 a week. The diagnostic experts and the epidemiologist would have to be provided with transportation, but the cost of this it is impossible to determine; possibly \$50 a week each would not be excessive. These figures would make the total weekly budget for services and transportation \$625, and if due allowance be made for incidentals, the cost may be estimated as approximating \$3,000 a month. Based on past experience, the outbreak, if it increases, would be expected to last three months or so, making the estimated total cost of the outbreak say \$10,000. As against this amount, the Health Department has at its command \$576, the remnant of the appropriation of \$7,000 for unassigned labor, left after such payments as were necessary for service rendered during the influenza outbreak

of the current year and for the services of substitute caretakers and matrons at our convenience stations during vacations.

I have just conferred with Dr. B. W. Carey, Acting Commissioner of Public Health of the State, with a view to formulating a program that would harmonize with anything that the state may determine to do and with a view to economizing in the cost of any organization that may be needed for the City of Boston, but the State's program has not yet been developed to a point that would enable him to make any definite statement with respect to co-operation with Boston in this matter.

I recommend that \$10,000 be set aside from the Reserve Fund, if possible, for the use of the Health Commissioner in such efforts as he may deem necessary to limit the spread of infantile paralysis and to mitigate its severity during the current year.

It has been suggested that transportation for diagnostic experts and for the epidemiologist may be most economically obtained through the purchase of second-hand Ford automobiles, the machines to be sold when the emergency is over, and it might be well to leave to the judgment of the Health Commissioner and the Purchasing Agent the advisability of following this method if events so indicate.

Respectfully,
WM. C. WOODWARD,
Health Commissioner.

August 28, 1920.

Mr. J. Alfred Mitchell, Esq., City Auditor:

Dear Sir,—Referring to and supplementing the communication of the Health Commissioner, Dr. Wm. C. Woodward, to the Hon. Andrew J. Peters, Mayor of Boston, dated August 24, 1920, in which Doctor Woodward calls attention to the cases of infantile paralysis in Boston and recommends that \$10,000 be set aside for the use of the Health Commissioner in efforts to limit the spread of the disease, I would state that the sum which it is proposed to set aside for the purpose stated be apportioned as follows:

Unassigned labor.....	\$7,000 00
Transportation.....	2,800 00
Equipment.....	200 00
Total.....	\$10,000 00

Very truly yours,
M. VICTOR SAFFORD,
Acting Health Commissioner.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer \$10,000 from the appropriation for Reserve Fund to the appropriation for Health Department, to be apportioned as follows: A-3, \$7,000; B-4, \$2,800; C-12, \$200. Total, \$10,000.

Referred to the Executive Committee.

INFORMATION CONCERNING VAN DRIVERS.

The following was received:

City of Boston,
Office of the Mayor, August 12, 1920.
To the City Council:

Gentlemen,—I have your order of August 9 requesting me to inform the City Council who is the "proper authority" to increase the compensation of the county prison van drivers.

The men are hired by the Commissioner of Public Works and their salaries are paid from the appropriation of the chief justice of the Municipal Court. Under the circumstances the auditor is of the opinion that the proper method of increasing the salaries of these men would be to have the Commissioner of Public Works make a favorable recommendation with the approval of the chief justice of the Municipal Court.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Report accepted.

POWERS OF CITY COUNCIL OVER GASOLINE LICENSES.

The following was received:

City of Boston,
Law Department, August 26, 1920.
To the Honorable the City Council:

Gentlemen,—Under date of August 24 I received a letter from John E. Baldwin, Clerk of Committees, stating that the City Council requested my opinion "as to whether or not they have any jurisdiction over the subject of the petition filed by R. P. Delano, attorney for F. G. Powell *et al.*, asking the City Council to disapprove of a license granted to keep, store and sell gasoline at 395 and 399 Columbia road, at the corner of the Columbia Road Parkway and Quincy street, in the Dorchester district."

As this license was already granted before your body was asked to take action thereon, in my opinion you have no jurisdiction in the matter.

I am of the opinion that whenever a license is necessary to persons or premises under the provisions of chapter 138 of the Acts of the year 1916, that prior to the granting of such license by the Fire Prevention Commissioner or his duly authorized agent, if the license or permit is to be acted under within the limits of the City of Boston, the Mayor and City Council of Boston may disapprove of said license or permit, but once the permit is granted by the commissioner or his duly authorized representative or agent, then the Mayor and City Council have no jurisdiction and no authority to act.

Very truly yours,

JOSEPH P. LYONS,
Acting Corporation Counsel.

Placed on file.

CONFIRMATION OF APPOINTMENTS.

Coun. WATSON called up Nos. 1, 2, 3, 4, 5, 6, unfinished business, viz.:

Action on appointments submitted by the Mayor, August 23, 1920, viz.:

1. Frank S. Bench, to be a Constable.
2. Martin A. Fulton, to be a Constable.
3. John J. Mahoney, to be a Constable.
4. Samuel Smith, to be a Constable.
5. Benjamin Goldstein, to be a Measurer of Leather.
6. Frank Joachim, Ernest H. Beaudet and John J. Donovan, to be Weighers of Goods.

The question came on confirmation. Committee—Coun. Ford and Lane. Whole number of ballots cast 7, yeas 7, and the appointments were confirmed.

RESOLUTIONS CONCERNING GENERAL EDWARDS.

Coun. BRICKLEY offered the following:

Whereas, Gen. Clarence R. Edwards has been relieved of command of the Northeastern Department; and

Whereas, He is to depart from the midst of the men who served under his command in France during the World War; and

Whereas, His soldierly spirit, his devotion to the men of his division, his frankness and gallantry in all his actions, has won for him the love and respect of all with whom he came in contact; therefore be it

Resolved, That the members of the Boston City Council, speaking for themselves and the veterans of General Edwards who are now in civil life, convey to him their warmest wishes for his future and their undying admiration for his nobility of character and soul, and trust that his lines may fall in pleasant places and that he may live long to enjoy the respect and homage of his veterans as feebly expressed in this resolution by one who had the honor of serving under him, and who feels that it is but right and proper for the City Council to honor one who is an honor to Boston.

Ordered, That the City Clerk transmit a copy of these resolutions to General Edwards.

GENERAL RECONSIDERATION.

Coun. FORD moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 3:48 p. m., on motion of Coun. DONOGHUE, to meet on Monday, September 13, at two o'clock p. m.

SETTLEMENT OF BOSTON.

Boston was settled in 1630 by Puritan colonists under Governor Winthrop. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630.

SUPPLY DEPARTMENT.

On September 16 to the Elm Farm Milk Company, as per following communication and bids:

BOSTON, September 7, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing milk to the Consumptives' Hospital until December 30, 1920, which were publicly opened and read at this office under date of September 3, 1920. I respectfully request permission to award this contract to the Elm Farm Milk Company at 15.45 cents per quart as the bid submitted by the H. P. Hood & Sons Company, is for milk other than Massachusetts Standard Grade "A" milk.

Yours respectfully,

G. J. CRONIN,

Superintendent of Supplies.

Bids opened September 3, 1920, were as follows:

Forty Three Thousand Quarts Massachusetts Standard Grade "A" Milk.—Elm Farm Milk Company, 15.45½ cents per quart; H. P. Hood & Sons (Hood's Jersey), 13.53 cents per quart; (Hood's Grade "A"), 15.3 cents per quart.

On September 15 to the Hodge Boiler Works as per following communication:

BOSTON, September 14, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find bid on proposal for furnishing steel pipe and special castings which were opened and read at this office under date of August 30, 1920, and I respectfully request that permission be granted to award this contract to the Hodge Boiler Works, the only bidder, for the sum of \$3,370.

Regarding the delay of submitting this request, would state that owing to the fact that we received but one bid on the day of opening, we thought it possible that other bids might be received after this date, but as no other bids have come in up to time of writing, I respectfully request that the permission asked for be granted.

Very truly yours,

G. J. CRONIN,
Superintendent of Supplies.

ARTIFICIAL STONE SIDEWALKS.

BOSTON, September 11, 1920.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to N. P. Horan, 165 Harrison avenue, city proper, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

EDWARD F. MURPHY,
Acting Commissioner of Public Works.

September 13, 1920.

The authority requested is hereby given.

ANDREW J. PETERS,
Mayor.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

FIRE DEPARTMENT.

An addition, amounting to \$138.50, on contract with the Adams-Pond Company as per following communication:

BOSTON, September 10, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Adams-Pond Company is under contract with this department to place a reinforced concrete floor in the quarters of Engine Company 26-35, Mason street, at a cost of \$7,234.

I request your Honor's approval of the following additions to this contract which are necessary in order that the work of remodeling this house may be properly completed.

Thirty-five dollars for two new concrete thresholds to replace old granite thresholds in which there are two deeply cut channels. These channels were formerly used to guide the wheels of the horse-drawn apparatus, and must now be removed.

Twenty-three dollars to extend the base of the patrol desk one foot out on to the floor. The desk has always been too narrow and this extension in its width would be an improvement.

Seventy dollars to install an extra concrete coal hole, cast iron frame and cover, and break through 24 inches of solid concrete wall. At the present time one coal bin has been located in the front portion of the cellar. With the bin in this location there is not room for a hose rack without doubling hose. By removing this bin to the rear of the cellar there will be a space fifty-six feet in length to stretch a fifty-foot length of hose. This is a decided improvement and should be done.

Ten dollars and fifty cents for red colored concrete hardener for the base around the walls. A concrete hardener was not called for or needed in the base but is necessary in order that the base may match in finish and color with the floor.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioners.

Original contract, \$7,234; total additions, \$138.50; contract outstanding, \$7,372.50.

PUBLIC WORKS DEPARTMENT (Paving Service).

Additions, amounting to \$170, on contract with James Doherty for wood block pavement in Devonshire street, from Water street to Franklin street; and Washington street, from Beach street across Kneeland street, on account of barring and ramming water trench and cementing holes in edgestone caused by lowering of grade where directed, and hauling flagging from intersection of Milk street and north side of Franklin street to Massachusetts avenue lot. Original contract, \$18,417.64; total additions, \$170; contract as standing, \$18,587.64.

An addition, amounting to \$15, on contract with Joseph A. Singarella for artificial stone sidewalks in Ashmont street, Neponset avenue and Olney street, Dorchester, on account of removing tree from the sidewalk in front of 546 Ashmont street. Original contract, \$5,014.24; total additions, \$20; contract as standing, \$5,034.24.

An addition, amounting to \$260, on contract with M. DeMatteo for Topeka pavement in Archdale road, Farquhar and McCraw streets, West Roxbury, on account of hauling straight edgestone and corners from South End yard, Albany street. Price to be paid: for each linear foot of edgestone and corners hauled the sum of \$0.15. Original contract, \$27,164.90; total addition, \$260; contract as standing, \$27,424.90.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$250, on contract with the C. & R. Construction Company for building Muddy river conduit in Brookline avenue, between Beacon street and Audubon road, West Roxbury, on account of removing deposits in old concrete 9 by 11 conduit, between end of new work and stop planks in Muddy river gatehouse in order to prevent during storms the deposit of this material in new work. Original contract, \$280,118; total additions, \$250; contract as standing, \$330,118.

An addition, amounting to \$227.50, on contract with Antony Cefalo for sewerage works in private land and Babcock street, between Salt Creek outlet and Commonwealth avenue, Brighton, on ac-

count of rebuilding 65 linear feet of old 18-inch D S pipe surface drain in Babcock street, at Ashford street, at agreed price of \$3.50 per linear foot, including trench and laying. Original contract, \$10,217.90; total addition, \$227.50; contract as standing, \$10,445.40.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$90, on contract with Louis DeSisto & Co. for laying and relaying water pipes in Landseer, Oriole and Centre streets, West Roxbury, also Cushman road and Falkland terrace, Brighton, on account of furnishing extra labor for assisting Water Service employees on Smith street and cutting telegraph pole in Centre street, grading street fill, rolling pipe and salvaging post hydrant stock in Cushman road. Original contract, \$5,155; total additions, \$140; contract as standing, \$5,295.

An addition, amounting to \$553.53, on contract with the C. & R. Construction Company for laying high pressure fire pipes in North, Commercial, Portland, Medford and Friend streets, Exeter place, Essex, Chauncy, Milk and Berkeley streets, on account of cleaning and painting pipes, hydrants, etc., at the high pressure fire service yard, 596 Albany street, and relocating four (4) inch fire pipes on Portland street, etc. Original contract, \$111,859; total additions, \$991.13; contract as standing, \$112,850.13.

An addition, amounting to \$5, on contract with Frank Drinkwater for laying and relaying water pipes in Burt and Fuller streets and Thetford avenue, Dorchester, on account of cutting granite curb at post hydrant. Original contract, \$6,895; total addition, \$5; contract as standing, \$6,900.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$110, on contract with J. P. Dwyer Company, dated August 13, 1920, Sharp School, viz.: For removing electric cabinet now installed in basement so that return piping may be installed behind it as per proposal, add the sum of \$35; for furnishing and installing two wall radiators containing 75 feet of radiation in hallways as per proposal, add the sum of \$75; total, \$110. Original contract, \$6,680; total addition, \$110; contract outstanding, \$6,790.

REJECTED CLAIMS.

On September 13 the Law Department disapproved twenty-five claims against the city, in ten of which no amounts were specified, and the other fifteen aggregated \$1,032.15, and are classified as follows:

Against the Building Department, one, amounting to \$1; against the Fire Department, two, amounting to \$74; against the Hospital Department, one, in which no amount was specified; against the Park and Recreation Department, five, in four of which no amounts were specified, and the other one amounted to \$100; against the Police Department, three, amounting to \$203.80; against the Public Works Department, twelve, in five of which no amounts were specified, and the other seven amounted to \$593.35; against the Schoolhouse Department, one, amounting to \$60.

All these claims have been disapproved for the reason that there appeared to be no legal liability upon the city.

FIRE DEPARTMENT.

BOSTON, September 9, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The department, in removing material from the Dover street storehouse, found a forced draught engine

which had been purchased many years ago for use on one of the fireboats. The engine, after being in service for a short time, was found unserviceable, and was sent to the junk pile.

We have an offer to exchange this engine for a No. 4 steel pressure blower, such as has been recommended among the

shop improvements, the cost of the blower being approximately \$153. If this blower is acquired it can be installed by the working force of the department, and the item of \$600, which was appropriated in the budget, can be saved.

I would request your Honor's approval of the exchange with B. F. Sturtevant Company, Hyde Park, Mass., of this forced draft engine for No. 4 steel pressure blower valued at \$153.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Approved September 13, 1920.

MAYOR'S CIRCULAR.

BOSTON, September 10, 1920.

To the Heads of Departments:

GENTLEMEN,—I herewith direct you to grant a leave of absence, without loss of pay, to such employees in your department who are duly elected delegates to the Convention of the American Legion, to be held in Cleveland on September 27, 28 and 29, and who plan to attend this convention. The leave of absence should include ample time for making the trip to and from Cleveland.

Very truly yours,

ANDREW J. PETERS,
Mayor.

TAX RATE FOR 1920.

The Board of Assessors of the City of Boston announce that the tax rate for 1920 is \$24.10 on the thousand, an increase of only 50 cents on the thousand, the rate for 1919 having been \$23.60. This is a remarkably small increase considering the enhanced prices of everything the city has to buy and the necessary increases of salary which it has been forced to grant by the high cost of living. In the great majority of cities and towns in Massachusetts which have already declared their tax rates, the increase has been much larger. A compilation of a list of the cities which have thus far declared their tax rates shows an average increase in such tax rates of something more than \$3.50 per thousand, while the average increase in cities and towns was in excess of \$4.10 per thousand.

The most striking feature of the analysis of the tax rate is the reduction in that portion of the rate which is controlled by the Mayor. The tax rate is composed roughly of four different items: the state tax, county tax, school appropriation and the appropriations for other city departments, the last named being the only item under the control of the Mayor.

The tax rate for the schools increased \$2.12, from \$5.02 last year to \$7.14 this year, while the rate for the departments under the control of the Mayor decreased 23 cents from \$12.13 last year to \$11.90 this year. This is a striking illustration of the impossibility of the chief executive of the city keeping down the total tax rate when certain departments, over which he has no control, are allowed by the Legislature to increase their expenditures.

The state tax a year ago was \$5.03. Of this amount \$2 was for the Elevated deficit, showing a net normal state tax of \$3.03. The state tax this year is \$3.64, so that treating the Elevated deficit as a special appropriation, as it really was, the state tax this year shows an increase of 61 cents, or an increase of more than

\$900,000. The county share of the tax rate remains the same as last year, \$1.42.

While ordinary state expenditures showed a substantial increase in cost to the City of Boston, the largest increase was that in the expenditure by schools. The appropriation in 1919 for school purposes totalled \$8,451,234.44. This year the appropriations for school purposes totalled \$12,526,583.31, an increase of \$4,075,348.87, or an increase of 48½ per cent. It is obvious that were the departments under the control of the Mayor operated on the same basis of expenditure as the schools totalled, the city tax rate would be in the vicinity of \$35 instead of the departments under the Mayor's control showing a decrease of 23 cents per thousand on the tax rate.

The various groups entering into the complete tax rate of \$24.10 was as follows in comparison with the same items making up the tax rate for 1919:

	1919.	1920.
State tax.....	\$3 03	\$3 64
Elevated deficit.....	2 00	
County tax.....	1 42	1 42
Schools.....	5 02	7 14
Other city departments.....	12 13	11 90
Totals.....	\$23 60	\$24 10

REGARDING CONTRACT OF BOSTON DEVELOPMENT AND SANITARY COMPANY.

BOSTON, September 16, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Our contract with the City of Boston for the final disposition of ashes, street sweepings, rubbish and garbage, expires on July 1, 1922.

Owing to the increased costs of operation and failure on the part of the city to enforce separation, as called for by the contract and as required by city ordinance, this contract has been a losing one for the company.

We had thought that we would be able to carry it through without default on our part, but we find that because of poor separation and the introduction of so much solid matter other than garbage into our machinery, our plant at Spectacle Island has been placed in such a condition that extensive repairs are necessary in order to enable us to complete the contract; and besides, the increased cost of coal, gasoline and labor makes it impossible for us to fulfill same.

Since the beginning of the contract the city's payments to us have been unchanged, while labor has increased 150 per cent, gasoline, 240 per cent and coal, 400 per cent, as well as necessary repair parts to our machinery.

We desire to be relieved from this contract. If the city will cancel this contract, effective April 1, 1921, we will pay to the city \$100,000, that being the amount of our bond, and release all claim to the building at Spectacle Island.

This disposition of the case will be much simpler for the city than having us default and go into an interminable litigation.

Yours very truly,

BOSTON DEVELOPMENT AND SANITARY
COMPANY.

SETTLEMENT OF BOSTON.

Boston was settled in 1630 by Puritan colonists under Governor Winthrop. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630.

BOSTON NOTES.

METROPOLITAN DISTRICT OR "GREATER BOSTON."

Consists in the most inclusive sense of 40 municipalities, including Boston, or 14 cities and 26 towns, all within 15 miles of the State House. The 7 cities in the first zone, *i. e.*, adjacent to Boston, are these, viz., Cambridge, Chelsea, Everett, Newton, Quincy, Revere and Somerville; the 6 cities in the second zone, not adjacent, are: Lynn, Malden, Medford, Melrose, Waltham and Woburn. The 6 adjacent towns are: Brookline, Dedham, Milton, Needham, Watertown and Winthrop; the 20 other towns are: Arlington, Belmont, Braintree, Canton, Cohasset, Dover, Hingham, Hull, Lexington, Nahant, Reading, Saugus, Stoneham, Swampscott, Wakefield, Wellesley, Weston, Westwood, Weymouth and Winchester. North and northwest of Boston are situated 11 of the cities and 12 of the towns; south and southwest, 2 cities and 14 towns. Area of Northern Division in 1915, 149.18 square miles and population 647,675, or a density of 4,342 per square mile; Southern Division, 219.62 square miles and 193,979 population, or density of only 883 per square mile; in the whole Metropolitan district, 3,851 per square mile. In percentages Boston shows 10.5 per cent of district's area and 47 per cent of population; Northern Division, 36.2 of area and 40.8 of population; Southern Division, 53.3 of area and 12.2 of population. In the period 1910-1915, increase of population 2.18 per cent larger in Northern than in Southern Division.

Total area of district in 1918, 409.5 square miles; population by census of 1915, 1,593,898. Estimated population in 1918, 1,708,860. Of the total population of the state, "Greater Boston" has 43 per cent; of total valuation, 54.66 per cent; of total value of manufactures, 32.56 per cent.

Total valuation of taxable property in district on April 1, 1918, \$2,543,169,288, *i. e.*, for realty and tangible personalty, including bank stock, intangible personalty being exempt from taxation (except income therefrom) in 1917 and thereafter. The said total exceeds the 1917 valuation by \$66,078,893, a gain of 2.67 per cent. Of said total 58.90 per cent was in Boston and 41.10 per cent outside. The four organized metropolitan districts existing for the purpose of constructing and maintaining certain extensive systems of public works under state control are as follows: Metropolitan park district, established by chapter 407, Acts of 1893, including all the cities and towns except Lexington, and managed by a State Board of five commissioners; metropolitan water district, established by chapter 488, Acts of 1895, including 10 cities and 9 towns, and covering an area of 175 square miles; metropolitan sewerage district, established by chapter 439, Acts of 1889, consisting of the north system and south system, including 17 cities and towns in the former system and 8 in the latter, and covering an area of 225 square miles; the last two districts managed by a single state board of three commissioners; Charles River Basin district, established by chapter 465, Acts of 1903, including all the cities and towns except Cohasset and Lexington, and in charge of the Metropolitan Park Commission.

Another metropolitan district, viz., the Fire Prevention District, was organized in 1914, by the enactment of chapter 795. In this district are the 14 cities of "Greater Boston", but only 10 of the towns, to which were added Reading and Rockland, a total of 26 municipalities. The district is in charge of a single commissioner,

assisted by a deputy commissioner, both appointed for a term of three years. The number of fire alarms in the district decreased from 13,477 in 1914 to 10,568 in 1916, and the fire losses in 1916 were less than those of 1915 by \$893,900.

Total gross metropolitan debt for water, parks, sewers and Charles River Basin improvements on July 1, 1918, \$77,064,406; sinking funds, \$23,724,311; net debt, \$53,340,095 or \$1,252,123 less than in 1917. The division of this net debt was: Water supply, \$28,269,187; sewers, \$12,973,168; parks, boulevards, etc., \$8,632,354; Charles River Basin, \$3,465,386. Of the latter, \$1,129,322 is payable by Boston alone, *i. e.*, \$643,359 for Boston Embankment, and \$485,963 for Charles River Bridge. Of 1918 tax rates, the highest among the cities was Revere's (\$26.80) and the highest among the towns, Saugus's (\$27.95); the lowest among the cities was Newton's (\$18.40) and among the towns, Dover's (\$5.30). Mean tax rate of the 13 cities in the district outside of Boston, \$22.64, or \$1.44 in excess of Boston's rate. Mean tax rate of the 26 towns \$18.43 or 68 cents less than in 1917. Mean tax rate in the 23 cities and towns of Northern Division, \$22.99; in the 16 of Southern Division, \$15.96. There were in the district in 1917, 4,409 manufacturing establishments, value of product, \$947,853,776; capital invested, \$616,023,935; value of stock and materials used, \$564,318,619; total wages paid, \$156,950,905; average number of wage earners, 200,106 (maximum number 244,228); increase over 1916 product, 23.9 per cent. Rank, 1 to 10, in value of product: Boston, \$418,096,880; Lynn, \$113,590,818; Cambridge, \$101,605,403; Somerville, \$76,710,204; Watertown, \$35,021,584; Everett, \$28,138,303; Quincy, \$27,866,513; Chelsea, \$26,176,185; Woburn, \$15,930,793; Malden, \$15,713,334. The Northern Division produced 46.26 per cent of district's total manufactures in 1915; the Southern, 7.15 per cent, and Boston alone, 46.59 per cent.

WATER DIVISION, PUBLIC WORKS DEPARTMENT.

Miles of supply and distributing mains, 873.32 on February 1, 1919; number of fire hydrants, 9,669. On January 1, 1918, number of services in use, 105,352, of which 60 per cent were metered. Total receipts for year 1918, \$3,049,453 or \$97,361 more than in 1917. Total expenditures, \$2,920,682 or \$55,030 less than in 1917. Current expenses and extension of mains, \$1,107,442; interest on water debt, \$71,268; metropolitan water assessment for 1918, \$1,741,009 or \$10,996 less than in 1917. Metropolitan Water Works owned by state. Total gallons of water in the 10 storage reservoirs on January 1, 1918, 66,466,000,000; total capacity, 80,680,100,000 gallons. Of all used, about 85 per cent comes from Wachusett Reservoir in Clinton, an artificial lake of 4,135 acres surface area, situated about 32 miles west of Boston and added to the Metropolitan System in 1905. There are also 12 distribution reservoirs with capacity of 2,399,230,000 gallons, and six pumping stations in which 23,608,020,000 gallons of water were pumped during the year 1917, mostly from low-service reservoirs. Daily average amount of water used in Boston during 1918, 94,657,833 gallons (*i. e.*, 12,557,800 gallons more daily than in 1917) or 120 gallons per capita. Net water debt (*i. e.*, for Hyde Park Water Works) February 1, 1919, \$352,000 or \$16,000 less than in 1918. Cochuatate debt, viz., \$1,307,750, all covered by sinking fund.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,309,000; Washington Street Tunnel, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,234,471; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1919 for the Dorchester tunnel, \$10,738,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,000,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) are leased to the Boston Elevated Railway Company (which furnishes the equipment) for term of 25 years (except Tremont Street 20 years) at annual rental of 4½ to 4¼ per cent of net cost (except East Boston Tunnel which is at ⅔ of one per cent of all annual gross receipts of said company). In accordance with chapter 741, Acts of 1911, the various leases were extended to July 1, 1936, the rental to be 4½ per cent of net cost after expiration of the first-term leases.

By chapter 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By chapter 3, Ordinances of 1918, the Transit Department was established, to be in charge of three commissioners, appointed for term of one year.

EXPORTS AND IMPORTS, MASSACHUSETTS CUSTOMS DISTRICT, 1918.

Dating from July 1, 1913, the district includes Boston and the eight minor ports of the state. Value of exports in calendar year, 1918, \$221,477,295, or \$12,509,458 (*i. e.*, 5.99 per cent) more than in 1917; of imports, \$295,907,047 or \$66,665,716 (*i. e.*, 29.08 per cent) more than in 1917; total foreign trade, \$517,384,342, an increase of \$79,175,174 or 18.07 per cent over the same in 1917. Boston's total foreign trade for year 1918, the largest on record, ranks fifth among American ports, New York, Seattle, Philadelphia and New Orleans leading, the latter only slightly. Tonnage of vessels in foreign trade (entered and cleared) in year, 2,427,772, or 547,752 less than in 1917; number of vessels, 1,686 or 352 less than in 1917.

VETO—CITY HOSPITAL LOAN.

The following was received:

City of Boston,
Office of the Mayor, September 8, 1920.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council, passed on August 23, appropriating the sum of \$200,000 to be expended by the trustees of the Boston City Hospital for additional facilities, said appropriation to be met by the issuance of bonds or certificates of indebtedness of the City of Boston.

In the first place, the order is too indefinite in its intent. In the second place, there remains unappropriated at the present time only \$500,000 debt-incurring power. With five months of the current year still to cover it would be exceedingly unwise for the city to appropriate for the purpose mentioned a sum as large as that suggested, for it is at all times necessary for the city to retain a debt-incurring power adequate to meet any emergency which may arise.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—LOAN FOR WARD 9 PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, September 8, 1920.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council, passed on August 23, appropriating the sum of \$15,000 for expenditure by the Park and Recreation Department for the purchase and equipment of a playground in Ward 9.

Upon the receipt of your order I communicated with the Park and Recreation Department, requesting that that department indicate what action it desired to have me take on your order. I am now in receipt of the following letter from the commission:

"At a meeting of the Board of Park and Recreation Commissioners held this day, your communication of August 24, 1920, relative to the appropriation of \$15,000 for the purchase and equipment of a playground in Ward 9, South Boston, passed by the City Council on August 23, 1920, was read, and it was voted that a copy of a letter sent to your Honor on December 5, 1919, be forwarded to you, which explains the feelings of the Board in the matter of additional playgrounds for the city."

The communication referred to in the letter from the Park and Recreation Department is attached, and in view of the fact that the depart-

ment still holds to its opinion of December 5, 1919, I believe that the order in question should be vetoed.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

INVITATION TO CITY COUNCIL.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1920.
To the City Council:
Gentlemen,—I am in receipt of a letter from George L. Dolloff, Grand Master of the Sovereign Grand Lodge, I. O. O. F., requesting me to extend to the members of the City Council, on behalf of the Grand Lodge, an invitation to participate in a boat trip to Plymouth on Saturday, September 25. If you intend to accept the invitation, I should suggest that the several members of the City Council communicate direct with Mr. Dolloff, informing him of the number of tickets desired. Mr. Dolloff can be addressed at 515 Tremont street, Boston.

Respectfully yours,
ANDREW J. PETERS, Mayor.
Referred to the Executive Committee.

REVENUE FROM ITINERANT VENDORS.

The following was received:

City of Boston,
Office of the Mayor, September 7, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting a copy of a report submitted by the Committee on New Sources of Revenue relative to the adoption of an ordinance designed to provide a source of revenue from itinerant vendors. The report covers the situation very thoroughly and I recommend the passage of the accompanying ordinance.

On December 28, 1906, in accordance with a recommendation of the then mayor, dated November 26, 1906, the Board of Aldermen passed an order fixing a fee of \$50 for licenses granted to itinerant vendors under section 6 of chapter 65 of the Revised Laws.

In order that there may be no conflict between this order and the ordinance which I now propose to be adopted, it would be wise to pass the accompanying order, rescinding the order passed on December 28, 1906. I therefore recommend the passage of the order which I am attaching to this message.

This message and recommendation were originally submitted to you on July 16 and these are being resubmitted, as I am informed that they were rejected by you "without prejudice."

Respectfully yours,
ANDREW J. PETERS, Mayor.

LICENSE FEES FOR ITINERANT VENDORS.

The committee has made a study of the licensing of itinerant vendors with the following results:

According to information provided by the Assessing Department there are about two hundred itinerant vendors or merchants who come to Boston regularly during the year and locate with their samples and stocks of goods at storerooms, hotels and other places, making sales at retail from such stocks and samples. These persons are very careful to arrange their time so that no merchandise is located in the city on the 1st of April, thus escaping local taxation. A review of the ordinances and regulations of other cities indicates that a number of cities, such as Providence, Buffalo, Baltimore, Portland, Me., Detroit, St. Louis, Los Angeles, San Francisco and Cincinnati, impose a license fee on itinerant vendors which varies from a minimum of \$10 per year in Buffalo to as high as \$100 per year in San Francisco. In Providence the fee for a city license is \$350 in addition to a state fee of \$200.

MASSACHUSETTS STATUTE RELATING TO ITINERANT VENDORS.

In Boston itinerant merchants have been allowed to operate without the imposition of a license fee despite the fact that under the existing statutes the city has authority to require such a license and the payment of a fee which may be either a fixed sum or an amount equivalent to the taxes assessable against the average stock of goods kept by such merchants. Mention might also be made of an order passed by the old Board of Aldermen in 1906, requiring a license fee of \$50 for itinerant vendors which has not been enforced.

The statutory provisions covering itinerant vendors are set forth in chapter 65 of the Revised Laws, as amended by chapter 120 of the General Acts of 1916, and chapter 237 of the General Acts of 1917. A brief digest of these provisions follows:

Definition of Itinerant Vendor.

The state law defines an itinerant vendor as "any person, either principal or agent, who engages in a temporary or transient business in this commonwealth, either in one locality or in traveling from one place to place selling goods, wares and merchandise, and who, for the purpose of carrying on such business, hires, leases or occupies a building or structure for the exhibition and sale of such goods, wares and merchandise." Section 2 of the law, however, stipulates that its provisions shall not apply to sales made by commercial travelers, or by agents selling to dealers in the usual course of business, nor to *bona fide* sales of goods, wares and merchandise by sample for future delivery, nor to ordinary hawkers and peddlers selling fruit, vegetables, produce, etc., from wagons. In other words, the state law applies only to transient dealers who make sales from actual stocks of goods and who lease, hire or occupy a store, hotel room, public hall or other building for the temporary exhibition of such goods.

State License.

Before commencing business in the state, every itinerant vendor must secure a license from the Commissioner of Weights and Measures of the Commonwealth, paying a state license fee of \$25 therefor, and must also make a special deposit of \$500 with the commissioner.

City License.

The law further provides that before selling under a state license in any city or town every itinerant vendor shall pay a local license fee to the clerk of the city or town in which he proposes to make sales. The mayor and aldermen or the selectmen may determine the amount of the fee according to two different methods. This fee may be established either as a fixed sum or at a sum equivalent to the taxes assessable under the last preceding tax levy against the average quantity and value of the stock of goods kept by the said merchants. If this latter method is employed, the law authorizes the mayor and aldermen to require every itinerant merchant to file a true statement under oath setting forth the average value and quantity of his stock of goods. This statement is then sent to the assessors who shall determine the valuation of the goods and transmit a certificate thereof to the mayor and aldermen who in turn shall forward the same to the City Clerk to be used as the basis for fixing the amount of the license fee.

The present statute leaves it to the discretion of the local authorities to determine whether or not a license shall be required and a fee fixed therefor, but attention is called to a recent statute enacted by the Legislature and according to the interpretation by the state officials, will make it mandatory upon cities and towns to require a license and the payment of a fee by itinerant vendors if such persons are permitted to do business in a locality. (Chapter 257 of the General Acts of 1918.)

A review of the legislation on the subject indicates, therefore, that the city has the legal authority to impose a license fee upon itinerant vendors as defined in the state law. That this power exists is further shown by the fact that an order was passed by the old Board of Aldermen of the City of Boston in 1906 providing for the licensing of itinerant vendors upon the payment of a fee of \$50, which never appears to have been enforced.

REASONS FOR REQUIRING A LICENSE FEE FROM ITINERANT VENDORS.

There is a difference of opinion as to whether or not itinerant merchants should be licensed at all and it is asserted by some that such businesses should not be recognized or allowed to operate in Boston. On the other hand, it is maintained that itinerant merchants should be encouraged to locate in Boston as they increase competition and thus tend to lower prices. The fact remains, however, that there are at least two hundred such vendors doing a regular business in the city who require a certain amount of regulation under the police power, because of the transitory nature of their operations and who should be made to pay for the cost of such regulation. These persons are at present escaping the payment of their share of the necessary expenses incurred for police and fire protection, street improvements, water supply and so on. At the same time, the city is annually losing thousands of dollars by allowing transient merchants with large stocks of goods to operate without payment for the privilege of carrying on business and for the services and opportunities furnished to them by the city. The committee is of the opinion that itinerant merchants should either not be licensed at all or if they are licensed that the provisions of the state law on the subject should be enforced.

Leaving aside then the question as to whether itinerant vendors should or should not be kept out of the City of Boston, the committee is of the belief that the present system of exempting such persons from their just share of the burden of taxation is unfair to the regular merchants who are

subject to all local taxes and who take a more or less active part in the affairs of the community and also to the city because it is deprived of a considerable revenue to which it is justly entitled, amounting to approximately \$50,000 per year.

RECOMMENDATIONS.

For the reasons stated above the committee recommends that the city avail itself of the provisions of the state law and that all itinerant vendors be required to take out a license and to pay a fee therefore which shall be equivalent to the taxes assessable against the average stock of goods kept by such merchants. According to an estimate made by the Chamber of Commerce after inquiry and investigation, the establishment of a fee on this basis would add at least \$50,000 to the revenue of the city.

In order to provide the machinery necessary for action under the state law covering itinerant vendors it is recommended that your Honor request the City Council to rescind its order of December 28, 1906, and that the following ordinance be introduced providing for the licensing and taxation of itinerant vendors.

An Ordinance Concerning Itinerant Vendors.

Section 1. Every itinerant vendor, whether principal or agent, authorized by state license to do business in this commonwealth, before making any sales of goods, wares and merchandise in the city of Boston, shall make application for a local license to the city clerk stating the names, residences and places of business of the owners or parties in whose interest said business is conducted, and shall at the same time file with the city clerk a true statement, under oath, of the average quantity and value of the stock of goods, wares and merchandise kept or intended to be kept or exposed by him for sale. The city clerk shall submit said statement to the assessors who shall forthwith make an examination and valuation of such goods, wares and merchandise and transmit a certificate thereof to the city clerk.

Section 2. Upon the payment of a fee equivalent to the taxes assessable under the last preceding tax levy upon an amount of property equal to the valuation certified by the board of assessors as provided for in section one of this ordinance, the city clerk shall issue to the itinerant vendor a license authorizing the sale of such goods, wares and merchandise within the city of Boston. Such license shall remain in force so long as the license shall continuously keep and expose for sale in the city of Boston such stock of goods, wares and merchandise, but not later than the first day of May following its date of issuance. Every itinerant vendor licensed under this ordinance shall also execute a bond to the city of Boston in the sum of \$500 with two sufficient sureties, conditioned for faithful observance of this ordinance.

Section 3. Every itinerant vendor who is granted a license under the provisions of this ordinance shall exhibit the same at all times, while in force, in some conspicuous part of the place of business for which it is issued.

Section 4. The term "itinerant vendor" for the purposes of this ordinance shall be the same as defined in sections one and two of chapter 65 of the Revised Laws of Massachusetts as amended by chapter 120 of the General Acts of 1916 and chapter 237 of the General Acts of 1917, and shall include any person, either principal or agent, who engages in a temporary or transient business in this city, and who, for the purpose of carrying on such business, hires, leases or occupies a building or structure for the exhibition and sale of such goods, wares and merchandise. The provisions of this ordinance, however, shall not apply to sales by commercial travelers or by selling agents to dealers in the usual course of business, nor to sales of goods, wares and merchandise by any person, either principal or agent, who engages in temporary or transient business within the city and who has paid taxes upon his stock in trade during the current year, nor to hawkers and pedlers as defined by the laws of this commonwealth and the ordinances of the city of Boston.

Section 5. Any person, association or corporation who shall engage in the business of an itinerant vendor, as herein defined, without having secured a license for that purpose as provided in this ordinance or neglects or refuses to file the statement described in section one of this ordinance, or makes a false or fraudulent representation in said statement, or who, having secured such license, shall thereafter fail to pay the sum required herein, shall be guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of twenty dollars for each day during which such goods, wares or merchandise are kept or exposed for sale.

Respectfully submitted,

A. C. HANFORD,
Secretary Committee on
New Sources of Revenue.

An Ordinance.

Be it ordained by the City Council of Boston, as follows:

Section 1. Every itinerant vendor, whether principal or agent, authorized by state license to do business in this commonwealth, before making any sales of goods, wares and merchandise in the city of Boston, shall make application for a local license to the city clerk stating the names, residences and places of business of the owners or parties in whose interest said business is conducted, and

shall at the same time file with the city clerk a true statement, under oath, of the average quantity and value of the stock of goods, wares, and merchandise kept or intended to be kept or exposed by him for sale. The city clerk shall submit said statement to the assessors who shall forthwith make an examination and valuation of such goods, wares and merchandise and transmit a certificate thereof to the city clerk.

Section 2. Upon the payment of a fee equivalent to the taxes assessable under the last preceding tax levy upon an amount of property equal to the valuation certified by the board of assessors as provided for in section one of this ordinance, the city clerk shall issue to the itinerant vendor a license authorizing the sale of such goods, wares and merchandise within the city of Boston. Such license shall remain in force so long as the license shall continuously keep and expose for sale in the city of Boston such stock of goods, wares and merchandise, but not later than the first day of May following its date of issuance. Every itinerant vendor licensed under this ordinance shall also execute a bond to the city of Boston in the sum of \$500 with two sufficient sureties, conditioned for faithful observance of this ordinance.

Section 3. Every itinerant vendor who is granted a license under the provisions of this ordinance shall exhibit the same at all times, while in force, in some conspicuous part of the place of business for which it is issued.

Section 4. The term "itinerant vendor" for the purposes of this ordinance shall be the same as defined in sections one and two of chapter 65 of the Revised Laws of Massachusetts as amended by chapter 120 of the General Acts of 1916 and chapter 237 of the General Acts of 1917, and shall include any person, either principal or agent, who engages in a temporary or transient business in this city, and who, for the purpose of carrying on such business, hires, leases or occupies a building or structure for the exhibition and sale of such goods, wares and merchandise. The provisions of this ordinance, however, shall not apply to sales by commercial travelers or by selling agents to dealers in the usual course of business, nor to sales of goods, wares and merchandise by any person, either principal or agent, who engages in temporary or transient business within the city and who has paid taxes upon his stock in trade during the current year, nor to hawkers and pedlers as defined by the laws of this commonwealth and the ordinances of the city of Boston.

Section 5. Any person, association or corporation who shall engage in the business of an itinerant vendor, as herein defined, without having secured a license for that purpose as provided in this ordinance or neglects or refuses to file the statement described in section one of this ordinance, or makes a false or fraudulent representation in said statement, or who, having secured such license, shall thereafter fail to pay the sum required herein, shall be guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of twenty dollars for each day during which such goods, wares or merchandise are kept or exposed for sale.

Ordered, That the order passed by the Board of Aldermen on December 28, 1906, and approved by the Mayor January 2, 1907, establishing a fee of \$50 for licenses for itinerant vendors, be and the same hereby is repealed.

Referred to the Committee on Ordinances.

NEW SOURCES OF REVENUE.

The following was received:

City of Boston,
Office of the Mayor, September 7, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting to you the following:

1. A copy of a communication received from the chairman of the Board of Examiners on April 14.

2. A report from the Committee on New Sources of Revenue on the letter from the Board of Examiners which I submitted to the committee.

3. A communication from the Building Commissioner submitting to me a form of ordinance which he felt should be put into force, after consultation with the Corporation Counsel on the proposed changes.

I recommend the passage of the accompanying ordinance.

This message and recommendation were originally submitted to you on July 12 and these are being resubmitted as I am informed that they were rejected by you "without prejudice."

Respectfully yours,
ANDREW J. PETERS, Mayor.

Board of Examiners, Building Department,
April 14, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:
Dear Sir,—I hereby desire to submit for your consideration certain suggestions relative to the issuance of builders' licenses, concerning the control of building operations in Boston not regulated by chapter 9 of the Ordinances of 1912.

Section 5 of the ordinances provides that any person who by affidavit or other evidence may show the Board that prior to the passage of the ordi-

nances he has had charge or control of building operations, may be issued such license. Under this section of the ordinances a number of licenses were issued to persons furnishing such recommendation, and in many instances such applicants, applying for extension, were found not qualified to pass the examination given by the Board. This condition we find exists in a number of cases. The building law has been so amended since the passage of this ordinance that we are certain a great number of license holders are unfamiliar with the changes contained in the present law.

The amendments suggested by our Board are in substance a revocation of licenses issued and re-issue of the same, charging an initial fee of five (5) dollars and a yearly renewal fee of two (2) dollars instead of the present two (2) dollar initial fee and no renewal charge. At present a special license is issued by our Board to persons not qualified to hold regular license, but who wish to do work of a minor nature. No charge is made for such privilege and we advise a fee of one (1) dollar.

Besides increasing the revenue of our office we are certain that the amendments suggested will have a good effect in properly regulating the supervision of building operations.

You will readily see that this will require a change in the ordinances of the city, and I would suggest that before this is done, if your Honor thinks best, to refer it to your commission on increased revenue for the city for a study and report on the same, and I as well as the Building Commissioner will be glad to appear before that commission and explain the situation more in detail to them.

Yours very truly,
JOHN F. HICKEY.

Committee on New Sources of Revenue,
Boston, June 1, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—The Committee on New Sources of Revenue has given careful consideration to the letter from the Board of Examiners of the Building Department forwarded by your Honor. As indicated by this letter the Board proposes certain changes in its licenses and fees for foreman and superintendents in charge of construction work in the City of Boston. The most important parts of the above-mentioned letter are as follows:

"The amendments suggested by our Board are in substance a revocation of licenses issued and re-issue of the same, charging an initial fee of five (5) dollars and a yearly renewal fee of two (2) dollars, instead of the present two (2) dollar initial fee and no renewal charge. At present a special license is issued by our Board to persons not qualified to hold a regular license but who wish to do work of a minor nature. No charge is made for such privilege and we advise a fee of one (1) dollar."

The committee doubts the practicability and legality of revoking all present licenses and requiring an annual renewal of the same on the grounds that builders' licenses are in much the same class as other occupational licenses which do not require reissue each year. The committee is of the opinion, however, that the office of the Board of Examiners should be on a self-sufficing basis and therefore instructed me to convey to your Honor its recommendations as follows:

The work of the Board of Examiners consists of the issuing of licenses to foremen and superintendents of construction having charge of building operations in the City of Boston. The fee for these licenses is at present two dollars, and in 1919-20 150 such licenses were issued, netting \$300. The expenses of the Board during the same period were \$2,812, thus leaving a deficit of \$2,512. In order to make the office pay for itself, the committee recommends that the fees for all regular licenses hereafter issued be increased to \$5; that a fee of \$1 be established for special licenses which are now issued free of charge; and that a fee of \$1 be charged for the extension of regular licenses from one class to another. As there are about two hundred regular licenses, 100 extensions and 2,500 special licenses issued each year, the above-mentioned revision of fees would produce a yearly revenue of approximately \$3,500 and make the office of the Board of Examiners self-supporting.

In order to make this change it will be necessary to amend section 8 of chapter 8 of the Revised Ordinances of the city. The committee therefore submits the following proposed amendment to the existing ordinance:

An Ordinance Concerning Control of Building Operations.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section eight of chapter eight of the Revised Ordinances of 1914 is hereby amended by striking out said section and substituting the following: Section 8. The board shall issue a license to each person so certified by the board to the building commissioner, and such license shall not be transferred. The fees to be paid to the board for such licenses shall be as follows: Regular licenses, five dollars; special licenses, one dollar; extensions of licenses from one class to another, one dollar. The fees received by the board shall be paid over to the city collector at least once a week.

The members of the committee who voted in favor of this recommendation were Nathan Matthews, Chairman; William B. Munro, Vice

Chairman; Edward T. Kelly, W. Eugene McGregor, Malcolm E. Nichols, A. C. Ratshesky, John A. Sullivan and Edgar N. Wrightington. Mr. Francis R. Bangs was out of town at the time of the meeting.

Respectfully submitted,
A. C. HANFORD, Secretary.

Boston, July 3, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—I am inclosing herewith copies of the ordinance which will be necessary to pass in order to carry out the recommendations of the Board of Examiners. After consultation with the Corporation Counsel I have decided to leave section 8 without any change and incorporate a new section 8 of chapter 8, the copies of which I am inclosing herewith.

Yours very truly,
HERBERT A. WILSON,
Building Commissioner.

City of Boston,

In the Year Nineteen Hundred and Twenty.

An Ordinance.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section 8 of chapter 8 of the Revised Ordinances of 1914 is hereby amended by striking out said section and substituting the following:—
Section 8. The board shall issue a license to each person so certified by the board to the building commissioner. All licenses hereafter issued, or issued less than one year prior to the passage of this ordinance, shall expire in one year from the date of issuance; and all licenses issued more than one year prior to the passage of this ordinance shall expire on the date in the year 1921, corresponding to the date in the year of issuance. The board may renew a license upon any expiration thereof, for the further period of one year from the date of renewal, with or without re-examination, as the board may determine. The fees to be paid to the board for such licenses and renewals shall be as follows:

New license, five (5) dollars; and each yearly renewal thereof two (2) dollars.

The first renewal of a license heretofore granted, five (5) dollars; and each yearly renewal thereof two (2) dollars.

Special license, one (1) dollar.

The fees received by the board shall be paid to the city collector at least once a week.

Referred to the Committee on Ordinances.

SIDEWALK SCHEDULE.

A communication was received from the Commissioner of Public Works submitting cost of constructing sidewalks and setting edgestones on Woodside avenue, Ward 22, and Worcester street, Ward 7, amounting to \$272.58, and recommending the passage of the following:

Ordered, That the persons named in the foregoing schedule be and the same are hereby assessed the sums set against their respective names as their proportional parts of the cost of constructing sidewalks in front of their estates bordering on the before named streets and the same is ordered to be certified and notice given to the parties as aforesaid.

The order was passed.

PROTEST AGAINST LORD MAYOR MACSWINEY'S IMPRISONMENT.

Coun. WATSON offered the following:

Whereas, It is the opinion of the Boston City Council that a great injustice is being perpetrated upon a great race by the dominating political officials of the British Empire in the unjust and continued imprisonment of the Lord Mayor of the city of Cork, Ireland; and

Whereas, Terence MacSwiney, the Lord Mayor of the city of Cork, is dying in prison because of the action of British officials; therefore be it

Resolved, That the British officials responsible for his imprisonment be requested to liberate Mayor MacSwiney before he passes away.

Ordered, That a copy of these resolutions be cabled by the City Clerk to Lloyd George, Premier of the British Empire.

The rule was suspended on motion of Coun. WATSON, and the preambles, resolve and order were passed.

NAMING OF FALLON SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Calumet and Darling streets, Ward 14, be known as Fallon square, in honor of Joseph John Fallon of the Motor Transport Corps, who lost his life in the service of his country on January 8, 1919, at Frejus, and that said location be suitably marked with signs.

Passed, under a suspension of the rule.

NAMING OF CONNOLLY SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Station and Tremont streets, Roxbury, be named and known as Thomas J. Connolly square, in honor of the said Connolly, who gave his life for the cause of liberty during the World War, and that said location be suitably marked with signs.

Passed, under a suspension of the rule.

NAMING OF JOHN A. DOHERTY PLAYGROUND.

Coun. DONOGHUE offered an order—That the Board of Park Commissioners be requested, through his Honor the Mayor, to name the playground bounded by Dorchester avenue, Gibson street and Park street, Dorchester, the John A. Doherty Playground or Park in honor of said Doherty, who lost his life for liberty's cause during the World War while serving as first lieutenant of Company L, 18th Infantry, and that said Playground be suitably marked with signs.

Passed under suspension of the rule.

Later in the session Coun. COLLINS said:

Mr. President, I move a reconsideration of the passage of the order. My reason is based on the fact that the family of this young man is desirous of having another playground named in his honor. In order that there may be no confusion, I move reconsideration and ask that the order be referred to the Committee on Public Lands. I understand that that is agreeable to the offerer of the order.

Coun. DONOGHUE—Mr. President, as the originator of the order, I have no objection to having it referred to the Committee on Public Lands.

The passage of the order was reconsidered, and the order was referred to the Committee on Public Lands.

NAMING OF MAJOR LEE PARK.

Coun. HAGAN offered an order—That the city playground, located on M street, South Boston, and now known as the M Street Playground, be named and known hereafter as Mayor Lee Park, to commemorate the memory of Major Christopher Lee.

Coun. HAGAN moved a suspension of the rule that the order might go upon its passage.

President MORIARTY—I don't like to leave the chair, but I would say that I am going to vote against the order at this time for the reason that I have already been approached by an organization in South Boston which claims that it has a man whose name should be considered in connection with that playground. That organization has already taken it up with the Park Department.

Coun. HAGAN—Mr. President, I don't want, of course, to have any discussion upon this matter, for reasons that are obvious to all of us. I presented an order here some time ago, at the solicitation of Major Lee's friends, asking for the naming of a certain location which was found not to be advisable. So they took the matter up with the Park Department to get their advice and co-operation, and they suggested the M Street Playground as one that would be acceptable to them if it was acceptable to Major Lee's friends and the City Council. Not knowing that there was any other thought in the mind of anybody else, and acting upon the suggestion of the Park Department, I presented this order today.

Coun. FORD—Mr. President, in view of the controversy—if it is a controversy—in regard to the naming of the square, I move that the matter be referred to the Committee on Public Lands for later discussion and report, if that is satisfactory to the President. Personally, I have no feeling in the matter one way or the other. I might say, however, that Major Lee was an old South Boston boy, living in the lower end of the district for a number of years and I would favor the order at this time except for the statement of the President that some others have been working on the matter with a view to having another name. We have adopted the rule of priority where there has been any controversy. I move that the matter be referred to the Committee on Public Lands for further consideration and report.

The order was referred to the Committee on Public Lands.

LEGION HEADQUARTERS, BRIGHTON.

President MORIARTY offered an order—That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to submit to the City Council an estimate of the cost of placing the Town Hall, Brighton, in proper condition for headquarters for the American Legion Post, Brighton.

Referred to the Executive Committee.

SIDEWALK ORDERS.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Bowdoin street in front of Nos. 64 and 66, Ward 19, in front of the estates bordering thereon, said sidewalks to be from 3 to 10 inches above the gutters adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along both sides of Cedar street, between River and Manchester streets, Ward 21, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of gravel,

with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed.

Coun. WATSON offered an order—That the Commissioner of Public Works make a sidewalk along Washington street, from Archdale road to 75 feet beyond Corinth street, Ward 23, in front of the estates bordering thereon, said sidewalk to be from 3 to 12 inches above the gutter adjoining, to be from 5 to 12 feet in width and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed.

SOLDIERS' RELIEF.

Coun. BRICKLEY, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of September, 1920.

Report accepted; order passed.

RECESS TAKEN.

The Council voted at 3.19 p. m., on motion of Coun. FORD, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 4.26 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Report on order (referred August 30) to rescind order passed by Board of Aldermen December 23, 1906, establishing fee of \$50 for licenses for itinerant vendors—recommending reference of same to Committee on Ordinances.

Report accepted; said reference ordered.

2. Report on message of Mayor (referred today) inviting members of the Council, on behalf of Sovereign Grand Lodge, I. O. O. F., to participate in trip to Plymouth—that the same be accepted and placed on file.

Report accepted; invitation accepted and placed on file.

3. Report on order (referred today) that the Superintendent of Public Buildings submit an estimate to the City Council as to cost of placing Town Hall, Brighton, in condition for Legion Headquarters—that the order ought to pass.

Report accepted; order passed.

4. Report on message of Mayor and orders (referred today) transferring from Reserve Fund—that the orders ought to pass.

Report accepted; orders passed, yeas 9.

5. Report on message of Mayor and orders (referred today) recommending transfers within department appropriations—that the orders ought to pass.

Report accepted; orders passed, yeas 9.

PAYMENT TO JOSEPH W. SMITH.

President MORIARTY offered an order—That there be allowed and paid to Joseph W. Smith the sum of two hundred dollars per annum, to date from August 23, 1920, as part compensation for extra services rendered at meetings of the City Council and committees thereof, such payments to continue until otherwise ordered by the City Council or until the services cease to be rendered, and to be charged to the appropriation for City Council, A-1.

Passed, under a suspension of the rule.

MONEY FOR CITY HOSPITAL.

Coun. DONOGHUE offered an order—That the sum of two hundred thousand dollars be appropriated to be expended by the trustees of the City Hospital as follows, viz.: Thorndike Memorial Building, \$150,000; Pathological Building, \$50,000; and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Coun. DONOGHUE—Mr. President, I don't want to make a lengthy speech on this order, but the Mayor says in his message:

"In the first place, the order is too indefinite in its intent. In the second place, there remains unappropriated at the present time only \$500,000 debt-incurring power. With five months of the present year still to cover, it would be exceedingly unwise for the city to appropriate for the purpose mentioned a sum as large as that suggested, for it is at all times necessary for the city to retain a debt-incurring power adequate to meet any emergency which may arise."

I want to say that I have offered this new order with the express purpose of specifying the two things most needed at the Boston City Hospital, according not to my say so on the proposition but that of the trustees of the City Hospital. I was perfectly willing to allow the matter to rest with their judgment as to what was the most desirable improvement to be made in the City

Hospital. In their letter to the Mayor himself relative to this particular appropriation they said: "If you will remember, Mr. Mayor, we have called to your attention and to that of the Council as well, that the urgent needs of the hospital were as follows:—"

"Urgent needs of the hospital." If that does not mean an emergency, I don't know what an emergency is. I would also like to call to the Mayor's attention at this time the fact that there is, according to his say-so, \$400,000 that will not be spent, that had been appropriated for the new ferryboat for East Boston. I would like to impress upon his mind the fact, if it is possible to do so, that that \$400,000 is still unappropriated and within the debt-incurring power; so if any great emergency, such as a conflagration or something of a like nature, should take place, we would have not only the \$500,000 referred to within the debt-incurring limit, but would have \$900,000. I also notice that even in the order before us on the calendar today it appropriates \$100,000 to be expended by the Commissioner of Public Works for harbor improvements, in accordance with chapter 393 of 1920. And I want to say that that order is no more specific than this order or a great many orders that I have seen introduced in this body. To criticize the order simply because it allowed the trustees to use their own best judgment as to what they needed most at the Boston City Hospital is, to my mind, a very minor, picayune criticism. I feel that at this time this \$200,000 I have asked for the hospital should be signed by his Honor the Mayor, if for no other reason than because of the fact that the trustees themselves have asked for this amount of money. In fact, they asked for \$150,000 more, but, in consideration of the low amount of money left for borrowing purposes, I have offered an order providing for but two of the things most needed in the City Hospital. I say that the City of Boston owes it to its citizens to provide in the City Hospital the best medical attendance and attention possible for money to provide. It can do no better thing for its citizens than to see to it that the poor ordinary person who becomes sick or injured and has not got the means to go to a private institution in order to get back on his feet can go to the City Hospital and be treated as well as he could be treated in any institution in this country of ours. I feel that the policy indicated by the Mayor is a very picayune policy, or possibly one of spite, when he vetoes an order appropriating moneys that are very urgently needed for the Boston City Hospital. I hope that the order will pass. I move a suspension of the rule for its passage, in view of the fact that we have had it before us for some time and the members are thoroughly conversant with it.

Coun. COLLINS—Mr. President, I shall vote against suspension of the rule, first, because there is no doubt that the debt-incurring power of the city is very low, and nothing should be passed unless it is absolutely needed this year, and second, because this money will not be used this year, judging from the Mayor's attitude. It seems to me a waste of time at this time to pass the order again. For that reason I shall vote "no" on the proposition.

The rule was suspended, yeas 7, nays 2:

Yeas—Coun. Brickley, Donoghue, Ford, Hagan, McLaughlin, Moriarty, Watson—7.

Nays—Coun. Collins, Lane—2.

The order was given its first reading and passed, yeas 7, nays 2:

Yeas—Coun. Brickley, Donoghue, Ford, Hagan, McLaughlin, Moriarty, Watson—7.

Nays—Coun. Collins, Lane—2.

LIEUTENANT JOHN A. DOHERTY SQUARE.

Coun. COLLINS offered an order—That the open space on Brent street, near Talbot avenue, Dorchester, in the Ashmont section, be named and known as the John A. Doherty Playground, in honor of Lieutenant Doherty who lost his life in France during the World War, and that said space be suitably designated by signs.

Referred to the Committee on Public Lands.

OLD HARBOR IMPROVEMENTS.

President MORIARTY called up No. 1, unfinished business, viz.:

Ordered, That the sum of \$100,000 be and hereby is appropriated to be expended by the Commissioner of Public Works for Old Harbor Improvements, in accordance with chapter 393 of the Acts of 1920, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On August 23, 1920, the foregoing order was read once and passed, yeas 9.

The order was given its final reading and passed, yeas 9.

GENERAL RECONSIDERATION.

Coun. FORD moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 4.41 p. m., on motion of Coun. McLAUGHLIN, to meet on Monday, September 20, at 2 p. m.

TRUST FUNDS AND BEQUESTS IN BOSTON.

PROPOSALS FOR CLEANING CATCH-BASINS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for taking out and removing about 637 cubic yards of material from about 219 catch-basins and drop inlets in District 6 and giving bond therefor of a surety company approved by the Commissioner in a sum equal to twenty-five (25) per cent of the amount of the accepted bid to secure the due performance of the contract and the full protection of the city. It is to be understood that the quantities given in the notice are assumed solely as a basis for the comparison of proposals. The Commissioner does not expressly or by implication agree that the actual amount of work will even approximately correspond therewith, but reserves the right to increase or diminish the amount of any class or portion of the work as he may deem necessary, without change of price per unit of quantity. Forms of proposals may be obtained at Room 508, City Hall Annex. The proposal, accompanied by a statement clearly setting forth the equipment of which the bidder is possessed for the proper and speedy carrying out of such contract (such equipment to be considered as an essential consideration in the awarding of the contract), should be inclosed in an envelope, sealed, marked "Proposal for Cleaning Catch-basins," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, September 22, 1920, with a certified check for three hundred dollars (\$300), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price bid appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

PROPOSALS FOR MILK.

The supply Department will receive sealed proposals for a supply of milk for the Hospital Department to be delivered during a period of six months from October 2, 1920. The milk supplies to include delivery at the hospital proper, 818 Harrison avenue; the South Department, 745 Massachusetts avenue; Haymarket Relief Station, Haymarket square; East Boston Relief Station, 14 Porter street, East Boston; the Convalescent Home, 2150 Dorchester avenue, Dorchester, and the West Department, Spring street, West Roxbury, Mass. The bidder must leave his proposal at Room 811, City Hall Annex, with a certified check for \$300, payable to and to become the property of the City of Boston if the proposal is not carried out. The quantity of milk desired for all departments, will vary from 900 to 1,200 quarts per day, more or less, according to the requirements of the season and the number of patients. Each receptacle must be cleaned and particularly free from dents, must bear the name of the dairy from which the milk comes, have the name of the contractor and "Boston City Hospital" plainly and indelibly marked thereon, and be sealed when it leaves the dairy. The milk is to be transported in coolers with a capacity of about twenty quarts. These coolers are to be used exclusively for the Boston City Hospital. The contractors will be required to furnish the Trustees a list of the dairies from which the milk supply for the hospital will be taken, to comprise not more than six dairies at any one time. In each case the product and the premises will be subject to the approval of the inspector appointed by the Trustees. The employees must be also subject to an examination by this inspector. The contract calls for pure dairy milk neither skimmed, topped, nor watered, and which when subjected to analysis shall be shown to have none of its natural constituents removed and nothing added thereto. Said milk to be of the quality required by the laws of the Commonwealth. The bacterial count of the raw milk shall not exceed 100,000 per cubic centimeter. The milk should be pasteurized at 145 degrees Fahrenheit for thirty minutes in City Hospital receptacles, with seals intact, and the bacterial count on delivery shall not exceed 100,000 per cubic centimeter. If the dairies are situated outside the Commonwealth the right is reserved to have them inspected by an officer of the State Board of Health, as well as by an inspector appointed by the Trustees. The successful bidder must furnish a bond for \$1,000 with a surety company authorized to do business in Massachusetts, for the faithful performance of the contract. Milk must be delivered at the hospital before 4 p. m., on each day and must not be more than twenty-four hours old. Price quoted to be per quart. The contractor is to be responsible for the cleanness of the coolers. Proposals to be obtained at the office of the Supply Department, Room 811, City Hall Annex, until 12 m., Monday, September 27, 1920, at which time and place they will be publicly opened and read. A duplicate copy, without check, must be filed with the City Auditor before 12 m. on the date given above for receiving proposals. The Superintendent reserves the right to accept or reject any or all proposals and to award the contract as he deems for the best interests of the City.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

William Toon, \$1,200; J. & D. Mitchell, \$1,350.

*No bid at City Auditor's office.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

Pumping Plants.

On September 17 to the Westinghouse Electric Manufacturing Company as per following communication:

BOSTON September 15, 1920.

To the Honorable the Mayor:

I respectfully request permission to award a contract, without advertising, to the Westinghouse Electric & Manufacturing Company for furnishing and erecting two pumping plants for high pressure fire service, one plant to be located at Lincoln power station of the Boston Elevated Railway Company, Commercial street, Boston, Mass., another plant, the 38th Station property of the Edison Electric Illuminating Company, Atlantic avenue, Boston, for the sum of \$174,469.

The City of Boston made a contract under date of January 17, 1914, with this company for the erection of a pumping plant in a proposed underground station in Charles street, at a cost of \$179,300, which location had to be abandoned. The type of plant then proposed would be entirely unsuitable for the stations which we now propose to occupy, and it has been agreed that when the new contract is made, the existing contract will be canceled and the Westinghouse Electric & Manufacturing Company will waive all claims under that instrument.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Coal.

On September 17 to the Coastwise Coal Company as per following communication:

BOSTON, September 15, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract without publicly advertising the same to the Coastwise Coal Company for furnishing approximately 600 tons of Pennsylvania semibituminous coal to be delivered to the Penal Institutions Department at Deer Island, at a price of \$13 per gross ton, alongside wharf, East Boston, plus advance in freight rates in effect since August 26, 1920.

This coal was bought under the priority orders under rules governed by the Interstate Commerce Commission, and in view of the fact that the market price today is higher than the one quoted above, I respectfully request that permission asked for be granted for 600 tons.

Very truly yours,

G. J. CRONIN,
Superintendent of Supplies.

Sugar.

On September 21 to the American Sugar Refining Company as per following communication:

Boston, September 17, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract without publicly advertising for same to the American Sugar Refining Company for furnishing approximately 8,169 pounds of granulated sugar to the Boston City Hospital at a price of \$22.50 per 100 weight. The order covering this delivery was placed under date of August 3, 1920, as an emergency order as the Boston City Hospital was in immediate need of the sugar and through a mistake the matter of asking permission to award the contract to the American Sugar Refining Company was not attended to at the time.

The price quoted, \$22.50 per 100 weight, was the price prevailing everywhere at the time and in view of the explanation submitted above, I respectfully request that the permission asked for be granted.

Very truly yours,

G. J. CRONIN,
Superintendent of Supplies.

FIRE DEPARTMENT ORDERS.

General Order No. 39.

FORAGE.

The following order is issued to the department on the recommendation of the veterinary surgeon of the department, Daniel P. Keogh, regarding the amount of oats and hay to be allowed each horse.

The horses shall be fed as follows: Oats, per day, per horse, 6 quarts; hay, per day, per horse, 14 pounds.

All monthly requisitions for forage must be approved by the department veterinary surgeon.

When, in the opinion of a company commander, the allowance of oats and hay as above specified is not sufficient to maintain the horses under his charge in proper condition, he will notify the department veterinary surgeon of that fact. If the department veterinary surgeon orders the allowance to be increased, the company commander will make a statement on the forage report of the increase ordered.

SMOKING.

The attention of the department is drawn to Rule 83, section J, of the rules and regulations of the department.

This rule forbids smoking on the apparatus floor, stable, stable loft or dormitory.

Company commanders must strictly

enforce this rule. Any violation of it must be reported at once.

SCHOOLHOUSE DEPARTMENT.
ADMINISTRATION BUILDING.

BOSTON, September 16, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston.

DEAR SIR,—At a meeting of the Board held this day, and in compliance with the provisions of chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, it was voted, subject to

your approval, to take for an Administration Building to be occupied by the School Committee, a certain parcel of land with building thereon in the Wendell Phillips district, city proper, offered to the City of Boston for the sum of \$425,000, bounded and described as follows:

Beginning at the northeasterly corner of Beacon street and Freeman place, then northwesterly by line of Freeman place 97 feet to land now or formerly of Charles W. Rowell; thence turning and running northeasterly by land of said Rowell

55 feet to land of said Rowell; thence turning and running southeasterly by land of said Rowell 91 feet to line of Beacon street; thence turning and running southwesterly by said line of Beacon street 55 feet to the point of beginning; being the premises No. 15 Beacon street and contains 5,109 square feet of land. Be all said measurements more or less.

We submit herewith the written approval of the School Committee and we respectfully request your Honor's approval of the taking of the said land with building thereon by eminent domain for an amount not exceeding \$425,000.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

Approved September 17, 1920.

ANDREW J. PETERS, Mayor.

REPORT AND FINDINGS UPON CHARGES AGAINST DIRECTOR OF MUSIC.

A copy of a further communication addressed to His Honor the Mayor by the Boston Finance Commission, under date of Aug. 13, dealing with certain acts of the Director of Music in the public schools, was presented.

Placed on file.

The following statement expressive of the position of the School Committee in the matter was ordered to be printed in full in the minutes and forwarded to His Honor the Mayor:

Hon. Andrew J. Peters,
Mayor of Boston,
City Hall.

Sir:

The attention of the School Committee has been called to a further communication addressed to Your Honor by the Boston Finance Commission, under date of August 13, dealing with certain acts of the Director of Music in the Boston public schools. The School Committee meeting held this day is the first opportunity since the receipt of this communication to give it full consideration.

The School Committee does not desire to prolong discussion with the Finance Commission of the recent charges against the Director of Music in the schools of Boston. Such discussion will serve no useful purpose as the School Committee has made its decision in the case and submitted its findings to Your Honor and the public, together with its reasons for these findings, given in great detail. The School Committee would not answer this last communication from the Finance Commission, but some of the statements contained therein are so insulting and untrue that the School Committee cannot allow them to go unanswered.

In rendering its decision, after investigation of the charges of the Finance Commission against Mr. O'Shea, the School Committee made certain recommendations to the Finance Commission, relative to its procedure in conducting its investigations, which the School Committee believed would result in greater efficiency and usefulness of the Finance Commission. This is what the Finance Commission evidently resents and designates as the School Committee "exceeding its authority," but the School Committee records show that a former School Committee had a similar experience with the Finance Commission when great injustice had been done a janitor in the school service by publicity given to charges against him afterwards not substantiated.

The man in question was advertised to the world as being dishonest or a grafter, but after the investigation conducted by the School Committee, he was found to be guiltless, and the counsel for the Finance Commission admitted at the hearing that the witnesses against the janitor were unreliable and not to be believed. Nevertheless, the Finance Commission took no steps whatever toward a public exoneration of this innocent and unfortunate man.

The suggestions of the School Committee as to a change in the procedure of the Finance Commission in its investigation of similar cases were made with the best of intentions, and to avoid such injustice as has been just mentioned. The School Committee is sorry that the Finance Commission is intolerant of any suggestion as to a change in its procedure.

The Finance Commission in its last instalment to Your Honor, under date of August 13, 1920, digresses from a discussion of their charges against Mr. O'Shea to make a very bitter and unwarranted attack on the School Committee, and one which is unworthy of any commission vested with the great powers and authority of the Finance Commission. If this attack was not directed at a great public institution of immense responsibilities, the School Committee would dismiss the matter with the contempt it deserves.

The action of the School Committee in immediately directing that an investigation of the charges against the Director of Music be made, and in inviting the Finance Commission to appear before it with witnesses and evidence, and in requesting the principal accusing witness before the Finance Commission to appear before it, and its painstaking investigation of these charges, should be sufficient evidence that the School Committee not only did not resent the Finance Commission's bringing the matter to the School Committee's attention, but deemed it the duty of the School Committee to investigate these charges immediately.

Any resentment involved seems to us to be on the part of the Finance Commission that the School Committee should disagree with its conclusions and be willing to give the Director of Music an opportunity to present his side of the case. The Finance Commission evidently resents that the School Committee should "attempt to investigate the matter covered in the Finance Commission's report." The School Committee not only attempted to investigate the case, but did investigate it fully, and in that investigation was not unmindful that Mr. O'Shea and M. Steinert & Sons Company had certain rights generally conceded before any tribunal except the Boston Finance Commission; namely, the right of presenting evidence to meet the accusations against them.

The Finance Commission states:

"The School Committee, without power to administer oaths or compel attendance of witnesses or the production of books and papers, attempted to re-investigate the matters covered in the Finance Commission's report and requested the Finance Commission to submit evidence in substantiation of its findings.

The Finance Commission thereupon offered to assist the School Committee in the only way permitted it by law, namely, by furnishing it with a list of the witnesses and their addresses and with a copy of the stenographic record of the evidence of those witnesses under oath. The School Committee, however, did not see fit to avail itself of either of those offers, but proceeded with a hearing, taking such testimony as was offered by the two city officials involved, their relatives and employees."

The facts are these:

The Finance Commission's report to your Honor and this Board furnished the names of the important witnesses and a synopsis of their testimony before the Finance Commission. The Finance Commission was asked by the School Committee to send a representative to the hearing to present the evidence in its possession against Mr. O'Shea. A representative of the Finance Commission was present, but no evidence was presented by the Finance Commission, the chairman of the Finance Com-

mission stating that the law did not allow this to be done.

The School Committee absolutely disagrees with this statement and finds nothing in the law to substantiate the opinion thus expressed by the Finance Commission.

The Chairman of the Finance Commission did offer the chairman of the School Committee a copy of the stenographic evidence taken before the Finance Commission, but with an injunction that it was not to be furnished the Director of Music or his counsel. The School Committee, conscious of its duty to give the accused a fair hearing, was unwilling to become prejudiced by such ex parte evidence, the purport and significance of which under the injunction imposed by the chairman of the Finance Commission the accused would be ignorant. The offer was not accepted. Reference, however, may be made to our original report to show how carefully the case was investigated by the School Committee.

The Finance Commission further states:

"This course of conduct of the School Committee follows closely its recent action of reinstating a teacher who, after a hearing on charges preferred by the superintendent in January of this year, was forced to resign his position by the unanimous opinion of the then school board and indicates that the present School Committee believes in the policy of retaining unfit persons in the school system."

This is a serious charge, as despicable as it is false. The chairman of the Finance Commission served on the School Committee when the case referred to was before the School Committee, and he must know, in view of all the discussion in the board over this case, that the man was not forced to resign his position "by the unanimous opinion of the School Committee." Two of the members of that board—members of the present School Committee—wished as punishment an immediate suspension of six months without pay. This, in their opinion, was sufficient punishment commensurate with the principal charge proven against the man; namely, the writing of insolent letters to certain school officials. Instead, the majority of the then school board decided to give the man a leave of absence for six months, provided he had his resignation in the hands of the superintendent within a few weeks. This procedure was followed. The man sent in his resignation and was given a leave of absence until the end of June, and his resignation accepted. This was certainly a peculiar disposition of the case, but the one favored by the present chairman of the Finance Commission. If the man was unfit to be retained in the school system, why did not the present chairman of the Finance Commission vote to discharge him then and there?

Before the period of leave of absence ended the man endeavored to withdraw his resignation and asked to be reinstated. In the meantime the personnel of the School Committee had changed, two new members coming upon the Board. The man concerned expressed regret for his actions and the punishment originally favored by two of the members of the former Board was imposed; that is to say, he was suspended for a period of six months without pay and was then reinstated in the service, but assigned to a different position than he had formerly held and at a lower rate of compensation.

To cite this instance among all the perplexing cases coming before the School Committee as justifying the statement in the Finance Commission's communication to Your Honor

that it "indicates that the present School Committee believes in the policy of retaining unfit persons in the school system," does not reflect much credit on the Finance Commission or its judicial poise. The School Committee is well aware that certain members of the Finance Commission would like to usurp the functions of the duly elected School Committee of this city, but the law puts the responsibility of conducting the schools on the School Committee and this Board will continue to perform the duties intrusted to it by the citizens of Boston to the best of its ability. On the other hand, the School Committee welcomes any constructive suggestions that the Finance Committee may make, and will give the same courteous consideration. It is hard, however, to reconcile the professed interest of the Finance Commission in the welfare of the schools with its recent action in alone opposing before the Legislature the three-year building program of the School Committee.

The School Committee trusts that Your Honor will transmit a copy of this communication to the Finance Commission.

Respectfully submitted,

Richard J. Lane,
Chairman.

ORDERED, That in accordance with Chapter 331 of the Acts and Resolves of 1914 and Acts in amendment thereof and in addition thereto, this Board hereby approves the proposed taking of a certain parcel of land with the building thereon in the Wendell Phillips School District, bounded and described as follows:

Beginning at the northeasterly corner of Beacon Street and Freeman Place, then northwesterly by line of Freeman Place 97.00 feet to land now or formerly of Charles W. Rowell; thence turning and running northeasterly by land of said Rowell 55.00 feet to land of said Rowell, thence turning and running southeasterly by land of said Rowell 91.00 feet to line of Beacon Street; thence turning and running southwesterly by said line of Beacon Street 55.00 feet to the point of beginning; being the premises No. 15 Beacon Street and containing 5,109 square feet of land, more or less; as a site for a School Administration Building; the above described site now having a building thereon which, with certain proposed alterations, is to be occupied for a School Administration Building.

This Board hereby also approves the plans of the Board of Schoolhouse Commissioners for the construction, alteration, improvement and furnishing of said building for administration purposes, subject to such modifications and changes as may hereafter be determined upon.

Passed unanimously.

REPORT OF TRIAL BOARD.

The Trial Board, to whom was referred at the meeting of June 28, 1920 (see p. 130), a report made by the Schoolhouse Custodian of a fire which occurred in the Mechanic Arts High School on Friday, June 25, 1920, at 10 o'clock P. M., submitted its report in the matter stating that it held a hearing on Aug. 3, 1920, and it appears from the evidence submitted that the fire originated in some baskets of old overalls which had been placed in an areaway providing entrance to the forge shop; that these overalls were saturated with linseed oil and other highly inflammable material; that the janitor, George W. Fogg, had seen them on the floor in another part of the building, and had directed his assistant to place them in the ash cans; that he had assumed that the assistant had done so until after the fire occurred; that after the fire occurred, in questioning the assistant, he was advised that because of certain work required in the fire room he had not placed them in the ash cans, but had placed them in baskets in the areaway where the fire occurred. The janitor believes that the assistant was wholly responsible through his negligence for the fire and has discharged him from his service. The damage to the building was estimated at \$1,200.

The Trial Board finds that the fire was caused by spontaneous combustion in these soiled overalls; that it was due to the failure of the janitor's assistant to follow the janitor's instructions to place this material in the ash cans, and that the janitor is responsible in that he failed to see that his instructions to the assistant in this important matter were carried out.

The Trial Board recommends that in view of Mr. Fogg's long years of faithful and efficient service in the school service that his punishment be limited to censure of his conduct in failing to properly supervise the work of his assistant in such an important matter.

Placed on file, and the recommendation adopted.

ADJOURNMENT

The Board adjourned at 5:37 o'clock p. m.
Attest:

HOUSING SITUATION IN BOSTON.

The following was received:

City of Boston,
Office of the Mayor, September 14, 1920.
To the City Council:

Gentlemen,—Upon the receipt of your order of August 23, requesting me to issue the proclamation provided for in chapter 554 of the Acts of 1920, and to take immediate steps under the provisions of said act to relieve the present housing situation in the City of Boston, I referred your order to the Corporation Counsel to determine whether such action on my part would be legal.

I have today received an opinion from the Corporation Counsel on this matter, and I am herewith transmitting a copy of it for your information. Under the circumstances, I cannot issue the proclamation requested by you.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Law Department,
73 Tremont street, September 13, 1920.
Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—This is in reply to your letter of September 1, inclosing copy of the order of the City Council, dated August 23, requesting the Mayor to issue the proclamation provided for in Statute 1920, chapter 554, entitled "An Act to Authorize Cities and Towns to Provide Shelter for Their Inhabitants in Cases of Emergency."

In my opinion the Mayor cannot, under the existing circumstances, legally issue the proclamation as requested by the City Council.

The statute in question is based on Article 47 of the Amendments to the Constitution and places the power of decision. It is as follows:

"The maintenance and distribution at reasonable rates during time of war, public exigency, emergency or distress of a sufficient supply of food and other common necessities of life and providing of shelter are public functions and the Commonwealth and the cities and towns therein may take

and may provide the same for their inhabitants in such manner as the General Court shall determine."

The effect of the statute is to make the Mayor the judge whether "the public exigency, emergency or distress" of the kind contemplated by the constitutional provision in fact exists. He is, however, bound to act in the exercise of his judgment, not only in good faith, but upon reasonable grounds.

For the reasons already stated by Mr. Lyons, while Acting Corporation Counsel, in his opinion of August 14, I am of opinion that what was contemplated by the constitutional amendment and the statute in question was such an occurrence as destroyed or rendered uninhabitable a large number of dwellings of the inhabitants of Boston and temporarily deprived them of shelter, or some other unusual event of a similar nature and with similar effects. I do not believe that the mere existence of high prices coupled with a shortage of dwellings, resulting from the war and the existing economic situation, is sufficient to warrant the action requested by the Council.

If a sufficient necessity exists to provide homes for citizens by the expenditure of public money, it should be done by the Commonwealth in accordance with Article 43 of the Articles of Amendment to the Constitution, and not by the city under the provisions of Article 47, which were obviously intended solely for the purpose of meeting an acute and immediate need.

Yours respectfully,
ARTHUR D. HILL,
Corporation Counsel.

Placed on file.

APPROPRIATION FOR FERRYBOAT RECONSTRUCTION.

The following was received:

City of Boston,
Office of the Mayor, September 17, 1920.
To the City Council:

Gentlemen,—At the present time there exists an appropriation of \$400,000 for the construction of a new ferryboat and repairs to runways. I have already indicated that this sum will not be spent for the purpose for which it was originally appropriated inasmuch as other means of providing two new ferryboats for the East Boston service have been made available since the original appropriation of \$400,000.

The Public Works Department has recently received bids for the rebuilding of the "Noddle Island," the boat which is now out of commission. This boat, if reconstructed in accordance with the plans made by the Public Works Department, will be put in splendid condition, and will render the best possible service for a great many years. The hull will be entirely rebuilt and the engines thoroughly overhauled, and instead of two runways which the boat now has, there will be four. The cost of doing this work will be approximately \$160,000.

The reconstruction of the "Noddle Island" will in effect provide a third ferryboat for the East Boston service. The boat will be just as serviceable as a new one, but under the circumstances can be secured at a much less cost than a new vessel. I am therefore submitting an order which will provide funds for the reconstruction of the "Noddle Island" by a transfer from the \$400,000 appropriation for a new ferryboat, and I urge that the City Council take immediate favorable action on this order so that the work of reconstruction of the ferryboat may be started at once.

At the present time the City Council has before it an order transferring the sum of \$105,000 from the \$400,000 appropriation for a ferryboat, to provide a sprinkler system for Long Island. It is of the greatest importance that this sum be made available at once. If the City Council will pass the order transferring from the \$400,000 appropriation the sum of \$160,000 for the reconstruction of the "Noddle Island" and the sum of \$105,000 for the installation of a sprinkler system at Long Island, I will immediately submit a message and the proper orders to provide the sum of \$200,000 still needed for the construction of a municipal building in the South End. This money will be provided by the transfer of the balance of \$135,000 from the appropriation of \$400,000 for the new ferryboat, and a loan order for \$65,000.

Very truly yours,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the sum of \$160,000 from the appropriation for New Ferryboat and Runways to an appropriation for Ferryboat, "Noddle Island," for Reconstruction.

Referred to the Executive Committee.

PROTEST FROM LOYAL COALITION.

The following was received:

The Loyal Coalition, 24 Mt. Vernon street,
September 14, 1920.

Mr. James Donovan,

City Clerk, Boston:

Dear Sir,—Boston morning papers report that the City Council, while obviously neglecting or obstructing the city's business, has gone entirely outside of its proper and legitimate sphere of activity to send an impertinent cablegram to the Premier of Great Britain in regard to the MacSwiney case. As an attempt on the part of a group of Boston office holders to dictate details in the administration of the domestic affairs of a friendly power, this action, without doubt, is unprecedented for what would be insolence were it not for its absurdity.

Reports also state that the city's money is to be used to pay for this cablegram. In behalf of citizens who place America first, we enter protest against any such proposal. The cablegram was sent not in the interest of the City of Boston. It was sent in the interest of Irish propaganda.

We protest and shall make unalterable opposition to the use of American public money for Irish propaganda.

Respectfully,
DEMAREST LLOYD, President.

COUN WATSON—Mr. President—President MORIARTY—I would like to say, before Councilor Watson starts, that I have had a request from the petitioner to appear before the Executive Committee in protest against spending money for the cablegram.

COUN WATSON—Mr. President, it seems to me that if Mr. Lloyd and his associates had any considerable amount of ordinary decency they would not have had printed in the Boston papers an advertisement concerning this very matter a few days ago, which to say the least was insulting and in my opinion is the outcome of British propaganda. If Mr. Lloyd and his associates had been inclined to use common decency in protesting our action on this resolution, they would at least have used language in their advertisement that would be pleasing to the ordinary ear, protesting in decent language, instead of printing in the Boston Herald something that the cheapest of newspapers throughout the world would have refused to print. I doubt if another paper in the country would have printed that ad of Lloyd and his associates, without compelling him to eradicate—eliminate, rather—some of the obnoxious and dirty statements therein made. If this body had any authority by a vote to relegate the communication of Mr. Lloyd to the place it belongs—to wit, the waste basket—I should so move, and if Mr. Lloyd knows as much about American

institutions and the conduct of our American government as he knows about the doings of the city government of Boston, God help anyone who follows his footsteps when he is doing something concerning those matters. He knows that if he desires to protest against the payment of this small sum, the place to protest is the auditor's office. We have passed the resolution, and we have cabled the resolution to the authorities in England. Nothing he can say or do now will change our acts, because immediately before the close of the last meeting a motion was made that action on all matters upon which action was taken be reconsidered, hoping the same motion would not prevail. That motion was lost, and we could not reconsider now if we desired to do so. I think, in answer to his communication, with respect to giving him an audience, I, for one, will not insult my manhood by permitting him to address any committee of which I am a member, let alone a committee of which I am chairman. He is unworthy of any consideration from me. Of course, he has characterized me in a way with his advertisement, and I am not particularly friendly towards him, but he is not entitled to any consideration from any broad-visioned, broad-minded man, regardless of his ancestry. A word about his "hyphenated" stuff. He ought to know that a man who comes from foreign shores until he becomes a citizen is an alien, and when he becomes a citizen he is no longer an alien but an American citizen. But that does not apply simply to those who came across later in our history. It applies to those who came across early, and for Mr. Lloyd's benefit, and with reference to his future plans, let me inform him publicly that I call my friends whom he calls "hyphenates" better Americans than he, and as good Americans as I, and I am a direct descendant of the true Americans,—because on my mother's father's side I am a direct descendant of a Mohawk Indian. Let him show better American descent than that, if he can. And on my father's side I am descended from Brigadier-General Timothy Ruggles, whose ancestor came here in 1634. But, in spite of ancestry, I am not a whit better, and I do not feel so, than a man who has come here from Italy, Ireland, Poland or any other foreign country, early or late. In conclusion, I would respectfully say that if Mr. Lloyd comes before this body or any committee of which I am a member, I shall feel like retaining my manhood by remaining away from the meeting. One word further. I cannot let this opportunity go by without speaking of this. I wonder if Mr. Lloyd is a close relative of the Lloyd who in Chicago was sentenced by the Federal Government to a long term in Leavenworth for sedition and disloyalty during the late war. I would like to ask if another gentleman associated with him, who collects the funds for the organization, was once arrested for ballot-box stuffing in Ward 21, and to escape a prison sentence turned State evidence and sent a few others to jail in his stead. There is a little food for thought for these gentlemen, Americans? No,—hyphenates, American-Englishmen, which means that they are Englishmen, first and always, and nothing else but British propagandists, when they speak of our acting in the interest of Irish propaganda.

Coun. FORD—Mr. President, I just want to say one word. I think we ought to give the gentleman an opportunity to be heard in our Executive Committee, for one reason, if for no other, than by so doing it may be possible to find out the names of those for whom Mr. Lloyd appears. So for that, if for no other reason, I would like to have him there, and, if I may be permitted, I would like to ask him as one of the first questions put to him, "For whom are you appearing?" In other words, who are those who compose the Loyal Coalition? I would like to have him appear before the committee.

Coun. BRICKLEY—Mr. President, I would like to have a few words with him, too. I would like to meet the gentleman in executive session and show him what Americanism is. I defended the American flag, and am not ashamed of so doing, and I would like to meet him as man to man and show him whether I am an American or not.

On motion of Coun. FORD, the matter was referred to the Executive Committee.

ARBITRATION AWARD.

A communication was received submitting arbitration award concerning rate of wages, etc., of Eastern Massachusetts Street Railway Company. Placed on file.

(5.) Harold L. Goodwin, to be a Measurer of Grain.

The question came on confirmation. Committee—Coun. McLaughlin and Brickley. Whole number of ballots cast 8, yeas 8, and the several appointments were confirmed.

HOUSING CONDITION RELIEF.

Coun. HAGAN offered an order—That his Honor the Mayor be requested to inform the City Council what in his opinion would be the most satisfactory remedy to relieve the present distressing housing conditions in Boston.

Coun. HAGAN—Mr. President, I move a suspension of the rule, as the order calls simply for information from the Mayor. I move its immediate passage. The object of the order at this time is simply to focus public attention upon a condition and not a theory that confronts the people of Boston. The Mayor has replied to a recent order sent out from the City Council, giving an opinion of the Corporation Counsel to the effect that the particular legislative act which the City Council called to his attention was never intended to be applied to present conditions, but was only to be applied in case of a conflagration or something of a very serious nature in our community.

In my opinion, that is a mere quibble, an absolute evasion of responsibility that confronts us in view of conditions in this city today. The City Council, being powerless alone to help the citizens, have a right to think that the Mayor, acting in his capacity as Chief Executive of the city, would take advantage of any legislative act or any laws upon the statute books of the Commonwealth that would at least give promise of enabling the city to relieve the situation and do something to cure the present evil. It would seem easy for the Mayor or any other man to make even the most casual examination into conditions to see that an emergency exists in connection with housing conditions in this city today. The condition is certainly most acute within the confines of municipal Boston. It is certainly most deplorable that conditions are so acute and that the hundreds and thousands of people who come here to Boston and its vicinity, as the educational center of America, are unable to find homes and places to live in. The younger element, who are coming and who for years past have been coming to this city, are finding those conditions most serious. The Mayor says the Legislature did not mean that this particular act should be applied to existing conditions. On that point the chairman of the legislative committee, Mr. Abbott, has given a statement to the "Advertiser" of yesterday in which he directly and positively contradicts the Mayor's statement. He says that the act was intended to meet an urgent and distressing need as it was pictured to his committee at public hearings last winter and early spring, a need of more living accommodations, and, sometimes, of control over would-be rent profiteers. I would like to have the opinions of the members of the committee, as set forth in yesterday's paper, printed in our minutes, and, if there is no objection, I will submit them to the stenographer for that purpose.

The statements, submitted by Councilor Hagan, were as follows:

"Chairman Abbott said chapter 554 of the Acts of 1920, under which the City Council asked Mayor Peters to act, was intended to meet an urgent and distressing need as it was pictured to his committee at public hearings last winter and early spring—a need of more living accommodations and, sometimes, of control over would-be rent profiteers.

"Representative Hays said so far as Boston is concerned, the conditions the municipal housing act was intended to relieve are infinitely worse now than when the legislation was in process. He was more than ever convinced, he declared, that if private enterprises will not undertake, at once, to relieve the city's acute shortage of fit places to live in, the municipality must undertake the job, promptly if unwillingly.

COMMUNITY LANDLORDS.

"Article 47 of the amendments to the Constitution of Massachusetts says that during time of public exigency or distress providing shelter is a

public function which the state and its cities and towns may perform 'as the General Court shall determine.' Representative Abbott said, 'The so-called "municipal housing act,"—chapter 554 of the acts of 1920—under which the City Council of Boston asked the Mayor to take steps, was intended to make Article 47 operative.'

"This is what is known as an 'emergency law.' It starts with the declaration that the emergency it is intended to meet is immediate and pressing, and therefore the act is declared necessary for the immediate preservation of the public health, safety and convenience.

"The emergency described to us at our hearings and urged on us constantly was that the state, and particularly the City of Boston, had fallen behind in the building of dwellings during and since the war; that, in consequence, there were not enough living quarters of the different kinds to meet the people's needs properly, and that conscienceless speculators and profiteers were taking advantage of those conditions to demand outrageous prices.

"Along with laws forbidding unreasonable increases in rent, and giving tenants general protection against abuse, we put through the municipal housing law as a means of checking rapacious landlords as well as increasing the supply of dwellings—in fact, quite as much for the former as for the latter purpose. If private capital and enterprise won't provide enough dwellings for the people's health, comfort and moral welfare, the community must, or else suffer itself.

"If those who own or control what dwellings there are won't keep within the bounds of right and decency in their dealings with those who have to live in them, and can't be made to in any other way, the community must take over the property temporarily and constitute itself a just landlord.

"The municipal housing act gives communities the power to do that in such a state of affairs as was pictured to us six or eight months ago. Evidence, as well as assertion and argument, was presented to us. We believed there was reason enough then to provide power which might be used whenever, in the next two years—by the end of which we expected the existing emergency to end—the responsible elected officers of a community considered it necessary.

"The act leaves it to the discretion of the mayor of a city and the selectmen of a town to decide whether there is local necessity for applying the remedy it provides. There is no going back of this discretion. If a mayor decides that there is no need of doing anything in his city, that settles it, no matter how bad people may think his judgment is. The Supreme Court couldn't compel him to do anything. Only public opinion, which makes him change his mind, can accomplish anything.

"If the mayor or selectmen proclaim that a public emergency or emergency or public distress exists because of an insufficient supply of shelter or available dwellings the community can buy houses, or apartment buildings or unimproved property, lease them for long or short terms, take them by right of eminent domain or build them, as seems best. Or, the city need not even buy or lease them in the ordinary way, but can take them from their owners' control for a specified term of years by taking what might be called a leasehold right in them. Then it can dispose of them by sale or lease as may be most desirable. The law provides for financing this.

"The law does not provide for a city or town raising funds to lend its people on mortgages so they can do their own building. That suggestion was made to us, but after careful consideration we decided against it. There are obvious objections to it.

"The law gives a city control over profiteering owners and landlords in this way: If a man manages to elude the restraints put on him by the 25 per cent rent increase law and other emergency housing laws, and shows an intent to be unfair, the city can offer him an upset price for his property, either to buy it or to hire it from him, and if he refuses a fair offer can take it by right of eminent domain. Then it can dispose of it to his tenants, or others, on the terms it would have considered just for him to make with them.

"One horrible example dealt with in this way would probably be enough to put wholesome fear into the hearts of unscrupulous folk. Knowing the city had that power and would use it on occasion would impose a restraint that nothing else could, we believed, I still believe so.

"The purpose of the 'city housing' act was, to repeat, to meet what we were persuaded was, at the time, anyway, a menacing situation in some places by the means I have outlined. What the situation is in Boston today, and whether the Mayor's judgment is good in refusing to act under this law, I'm not prepared to say, for I'm not a Bostonian and have no intimate knowledge of housing conditions in the city. But there can be no question of the Mayor's right or ability to take steps under chapter 554 of the Acts of 1920 to relieve such distress as was represented to us if he wants to."

Representative Hays confirmed this view. "The law was intended to meet just such a crisis as exists here today," he declared. "A lot of people don't seem to see that it is a crisis yet. There has been more than enough proof of a shortage of housing, and all you've got to do to get proof of profiteering and other outrageous treatment of tenants is to try to find a new place to live in or to go to the offices of the rent and housing

committee, any day, and see the line of people there from morning to night, and listen to their stories, and hear the way cases have to be adjusted.

"The rent and housing committee renders great service, but the best it can do, in many cases, is prevent immediate hardship. It can keep a greedy landlord from absolutely driving a tenant out to make way for a more profitable one before he has time to find new living quarters. But that is temporary relief, and one-sided. It doesn't cure the landlord of his evil ways or protect his next victim.

"Protection of the property rights on which our whole legal system is based makes it hard to control conscienceless property owners by ordinary means. Plenty of evidence was brought to us, while we were considering the 'city housing' law and the rent laws, that there were enough conscienceless property owners, speculators and their associates in Boston to constitute a real menace. No one could doubt the extent of rent profiteering and its accompaniments.

"No one who has observed the course of affairs in Boston since that time can doubt that things are worse now than they were then. The most brazen of the real estate men have even boasted of the unheard of things they intended doing in the line of rent raising. They're making good on their boasts now.

"The city housing bill was, as Mr. Abbott says, intended to put fear into the hearts of such people when nothing else would touch them. Of course nobody is going to be afraid of it in a place in which it is not made operative.

"It is entirely up to the Mayor. It is absurd for anyone to take the position that Boston's housing emergency is not the kind of emergency the act contemplated. If there are other reasons why Mayor Peters doesn't want to proclaim an emergency and take steps to have the city take hold of the housing situation in the way this act provides he should say so. Perhaps there are other sufficient ones; the one he offers—the corporation counsel's opinion—won't hold water."

In addition to that article papers outside of the city have taken up the subject. The article commends the Council for taking some definite action or at least trying to do something. I have here also an article from a paper in Rockland, Mass., commending the City Council for the position it has taken and expressing the opinion that an example should be set in this matter by the largest city of the Commonwealth, the capital city, in line of helping citizens who want to live under comfortable conditions. It is of no use for this Mayor or any mayor or the Corporation Counsel to try to convince the average citizen today that an acute and unsatisfactory condition does not exist in this respect, for it does, and the thing for us to do, as members of the city government, is to assume responsibility in the matter, and, by co-operation with his Honor the Mayor, do whatever may be in our power to relieve the situation, not throwing the thing into the discard when it is something that so closely affects the health and comfort of the people of the entire community. I would also ask to have this article printed in our minutes, if there is no objection.

Coun. HAGAN submitted the following from a Rockland, Mass., paper:

"WHAT RIGHTS HAVE THE PUBLIC WHEN MAYOR PETERS OF BOSTON REFUSES TO ACT UNDER THE NEW HOUSING LAW?

"An editorial of June 24 discussed the new housing statute which authorizes cities and towns to buy and build dwelling houses in times of public exigency or emergency. We predicted that this law would be availed of slowly, if at all.

"Lately, the Boston City Council unanimously passed a resolution calling upon the Mayor to proclaim the existence of public exigency under this law. Such a proclamation was necessary if the Council were to vote to purchase or build those houses to shelter all the inhabitants of Boston. And for this purpose the Legislature had authorized the city to borrow \$15,000,000 outside the debt limit.

"The Council order was transferred to the City Law Department and its head, Arthur D. Hill, advised the Mayor that under existing circumstances he could not legally issue such a proclamation.

"We seriously doubt if the facts of the situation justify the City Corporation Counsel in thus advising the Mayor; and also believe that the responsibility for any action in the matter rests with the Mayor, who should use his own brain and comply with the request of the City Council.

"Both the Constitution and the law authorize cities and towns to provide shelter for their inhabitants in times of public exigency or emergency. The facts admit that high prices for tenements prevail, coupled with a shortage of dwellings in Boston. The pivotal question arises concerning a correct definition of the words exigency and emergency. The following is correct,—'a pressing necessity or demand' and 'a sudden occasion.' Consequently, if there is a shortage of dwellings in Boston at the present time, the Mayor could legally act and proclaim that a pressing necessity on a sudden occasion and an exigency or emergency exists.

"The present situation in Boston in regard to the matter is one of grave public concern.

"The City Council acts unanimously and the Mayor sidesteps his responsibility by swallowing whole the Corporation Counsel's advice, which

he may reject if he will. And the Counsel renders an opinion which contains little common sense and much less legal sense on a plain legal proposition about which there ought not to be any difference of opinion.

"The serious aspect of the whole situation is that it is almost impossible to get at either the Mayor or Corporation Counsel through the courts in order to test the validity of their decisions. And, in this way, the whole City of Boston is held up by one man when actually there is a clear shortage of dwellings in Boston. And the towns are apt to follow the decision as a precedent.

"Looking at the situation from a legal point of view, we would like to see the Boston City Council go ahead and declare that a public emergency exists and make an appropriation of the necessary money for the purchase or construction of a limited number of dwellings.

"Such action would seem safe and justified, inasmuch as the constitutional provision must prevail over the statute concerning this matter, and the former provides that the cities and towns (not the mayor alone) may provide shelter for their inhabitants in such manner as the General Court shall determine. The provision of the statute requiring the mayor to declare the emergency thus seems contrary to the Constitution, because the mayor alone is not the city and must be void.

"If the Boston City Council should act in this manner the matter would be in proper shape to be contested in the Supreme Court of the state, and the people would then know whether the new housing law is useless or not."

Coun. McLAUGHLIN.—Mr. President, I heartily agree with what Councilor Hagan has said as to the Mayor's opinion as rendered to us in the communication submitting the opinion of the Corporation Counsel today. It seems to me that no man of any intellect or learning could properly come before any body of men and maintain that a housing situation that is very acute and directly interferes with the morality and health of our people does not exist. For some two years I have been fighting to relieve the housing situation in Boston. If I may be pardoned for recalling it to your minds, over fifteen months ago I had submitted to the Massachusetts Legislature a bill that would aid us to work under Article 47 of the Amendments to the Constitution of the state. It is a very peculiar thing that the people who represented the City of Boston on Beacon Hill saw fit to come before the committee and oppose that legislation, and it is also rather amusing that those who are so closely identifying themselves today with the housing problem on Beacon Hill were the very ones who led the fight against my proposition on the floor of the Legislature some time ago. The housing problem is a vital one and directly confronts us, and it is not up to the Mayor of Boston or the Corporation Counsel to put a strict or narrow interpretation on the acts of the Legislature. The question that any court in rendering an opinion on the law decides is the intent of the men who passed the legislation, and it was the intention of the Massachusetts Legislature to afford us the means of availing ourselves of Amendment 47 of the State Constitution. This opinion of the Corporation Counsel is simply the Mayor's excuse for not coming to the relief of the people who are suffering from this condition. It is not his real reason, and I think the Mayor of Boston should give his reason coldly and coolly, but in some concrete fashion, so that people will know where he really stands. It is a terrible situation, Mr. President. Boston, the center of the entire world, we claim, Boston, with all its institutions surrounding us here and in the suburbs, cannot find a place to house the pupils who come to those institutions. It is a terrible thing that confronts us from the moral standpoint. Hundreds and thousands of girls are coming here from all over New England and the United States and they cannot find proper housing conditions to protect them from the outside world. Yet his Honor the Mayor some ten days ago had the temerity to send for the City Council, in the interest, as he said, of the settlement of problems confronting him as Mayor of Boston, and the only matter he took up was the Station 2 problem, about which there has been so much discussion. That was in spite of the disgraceful housing situation, with hundreds and thousands of young people who are marrying today and unable to find any shelter, with hundreds and thousands of girls and boys who are coming here, and whom we ask to come here, and to whom we cannot afford protection. He says that that does not interest him. The same thing is transpiring on the housing problem that transpired on the gas situation. I offered an order here asking the Mayor of Boston to send auditors to examine the books of the Boston Consolidated Gas Company. At that time we were paying 90 cents a thousand cubic feet for gas. The price has been raised by successive stages to \$1 and to \$1.10, and we are now paying \$1.35 per thousand cubic feet for gas. If the Mayor of Boston was alive to the situation and had exercised merely the moral power he possessed in the matter and the influence he could have brought to bear, the people of Boston today would not be robbed of hundreds of thousands of dollars. I might continue with any number of things, but I will simply say that it seems to me someone somewhere is lax in the performance of duty and that it is up to the Mayor of Boston to give

us his reasons for seeing the conditions that are prevailing and doing nothing, but merely offering such a senile and weak excuse as he offers through the opinion of the Corporation Counsel.

Coun. DONOGHUE.—Mr. President, in view of the fact that the Corporation Counsel says in his opinion that it was not the intent of the legislators who passed the so-called housing act to apply that act in an emergency such as now confronts us in the housing situation, I want to say that I had the honor to introduce that resolution and that article of amendment in the constitutional convention in 1917, and it was my intention then as the introducer of that amendment, which was afterwards amended by the convention itself, to apply only to times of war emergency and distress, to have it understood to be the function of this Commonwealth to provide adequate housing facilities for its inhabitants. I want to refute any statement that it was not my intention, the intention of the constitutional convention or the intention of the Legislature, to say that we were not to provide means to take care of a situation such as has arisen and confronts us now. I feel that the statement of the Corporation Counsel to the contrary is certainly misleading and very weak.

The rule was suspended, on motion of Councilor HAGAN, and the order was passed.

GENERAL RECONSIDERATION.

Coun. HAGAN moved general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 5.10 p. m., on motion of Coun. LANE, to meet on Monday, September 27, at two o'clock, p. m.

MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasias have been resumed at the various municipal buildings.

The following buildings have gymnasias and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.
Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.
Cabot Street Gymnasium and Swimming Pool.—Roxbury.
Vine Street Gymnasium.—Corner Vine and Dudley streets.
Dorchester Gymnasium.—Corner Columbia road and Bird street.
Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.
Ward 5 Gymnasium.—Corner Tyler and Oak streets.
D Street Gymnasium.—South Boston.
North Bennet Street Gymnasium.—North End.
Paris Street Gymnasium.—East Boston.
Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasias where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasias.

Basketball is permitted in certain gymnasias on the part of those who participate in class work.

Esthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls and at 7.30 for working girls.

Tuesday and Friday.—High school boys from 2.30 to 5 p. m. Men from 7.30 to 9.30 p. m.

Saturday.—Grammar school boys from 2 p. m. to 4 p. m. Working boys from 7.30 to 9 p. m.

DELINQUENT TAX SALES.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public, are hereby notified that the taxes and assessments thereon severally assessed for the years hereinafter specified, according to the lists committed by the assessors of taxes of said City to me as collector of taxes for said City, including assessments for the suppression of gypsy and brown-tail moths, remain unpaid, and that the smallest undivided part of said land sufficient to satisfy said taxes and assessments, with interests and all legal costs and charges, or the whole of said land if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, on the second floor of the City Hall Annex on Court street, in said City of Boston, on Wednesday, October 20, 1920, at 9.30 o'clock a. m., for the payment of said taxes and assessments, with interests, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several parcels of land show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said parcels of land is to be sold, but not including the cost and interests thereon and costs and charges incident to this sale:

BOSTON BANK STATISTICS, 1918-1919.

Bank clearings or exchanges in year 1918 show the largest total on record in Boston, viz., \$15,501,085,308, an increase over 1917 of 22.40 per cent, and over 1916 of 44.11 per cent. Highest single day's clearings on record, \$101,059,681, i. e., on June 17, 1918. Total clearings for first four months of 1919, \$4,984,299,708, or 14.43 per cent increase over same period in 1918. On March 4, 1919, the 14 national banks showed aggregate capital of \$28,200,000; surplus and undivided profits, \$45,878,807; deposits, 419,471,233; loans and discounts, \$307,122,245. On same date the 31 trust companies showed aggregate capital of \$22,008,100; surplus and undivided profits, \$30,038,307; deposits, \$341,078,769; loans and discounts, \$272,523,607; 26 trust companies each have a savings department with total deposits of \$51,993,064. Total resources of the national banks, \$563,772,938; of the trust companies, \$445,380,122; grand total, \$1,009,153,060. Savings banks, 24, with \$321,035,467 deposits (as of October 31, 1918); coöperative banks, 37, with total assets of \$32,624,660 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on May 2, 1919, ranked fifth in these respects, viz., total resources, capital paid in and gross deposits, while as to surplus, total earning assets and total discounts (bills on hand) it stood fourth.

On March 4, 1919, the resources of the 7,732 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$20,017,000,000 or \$305,000,000 more than ever before reported; total deposits, \$15,299,807,000. The number of state banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1856, ranks second to that of New York in number of checks cleared, viz., 35,300 daily average.

Best of natural harbors, sheltered, spacious or anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (i. e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to state, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to state, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing state \$764,600 for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed this year, 1,200 feet long and 120 wide, costing over \$3,000,000 and to be taken by United States Government at total cost of same to state. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the city. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines.

In 1915 a revision of the harbor line was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under state control.

In April, 1918, the government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the state, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant is about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1916, \$12,269,996; total expended and provided for by state, \$15,000,000 approximately.

NEW WARD LINES OF BOSTON, 1916.

Chapter 630, Acts of 1914, required the redivision of Boston, by the City Council, into not less than 24 nor more than 36 wards, so arranged as to contain as nearly as may be ascertained an equal number of voters in each ward. On December 28, 1914, the City Council enacted as an ordinance, by vote of 6 to 3, the plan submitted by its Committee on Redivision of Wards. This plan describes the new boundaries of the 26 wards. (See Municipal Register for 1917, pages 176-187.) The subdivision of the 26 wards into 223 voting precincts (two less than before) was enacted by the City Council on June 7, 1915. This became effective on the day of the State Primary, September 26, 1916. (Precinct boundaries described in Municipal Register for 1917, pages 188-231.) The changes effected by the redivision of wards are mainly these, viz.: Wards 1 and 2, East Boston, are divided by Prescott and Princeton streets instead of as before; Charlestown has two wards (3 and 4) instead of three; Ward 5 covers the old Wards 6, 7 and 8; Ward 6 is in place of old Ward 9; Ward 7 in place of old 10; Ward 8 in place of old 11; Wards 9 and 10 cover the old South Boston Wards 13, 14 and 15 mostly; Ward 11 takes in the northern half of old Ward 16 and western end of old Ward 15; Ward 12 is similar to old Ward 17 and Ward 13 to old 18; Ward 14 includes old Ward 19 and adjacent part of old Ward 22 (as far as Perkins and Centre streets); Wards 15 and 16 cover old Ward 21 and the northern part of 22 (as far as Boylston street); Wards 17, 18 and 19 cover that part of old Ward 16 south of Dudley street and all of old Ward 20; Wards 20 and 21 cover the eastern half and western half respectively of old Ward 24 (as far as Blue Hill avenue and Walk Hill street); Ward 22 includes the southern half of old 22 below Boylston street and the northern end of old Ward 23 to Whipple avenue, Walk Hill, South and Allandale streets; Ward 23 is unchanged except as to its northern boundary just stated, and Ward 24 takes in Mount Hope section, east of railroad, Mattapan and Hyde Park. Wards 25 and 26 cover the southern half and northern half respectively of old Ward 25, Brighton.

POPULATION OF BOSTON, 1915, BY GEOGRAPHICAL DISTRICTS.

East Boston (*i. e.*, Wards 1 and 2, including the islands), 65,680 or 7,192 more than in 1910; Charlestown (*i. e.*, Wards 3 and 4), 39,601 or 1,843 less than in 1910; Boston proper (*i. e.*, Wards 5, 6, 7, 8 and northern portions of Wards 12, 13 and 14), 196,300 or 3,026 more than in 1910; South Boston (*i. e.*, Wards 9 and 10 and northern part of Ward 11), 69,745 or 1,958 less than in 1910; Roxbury (*i. e.*, most of Wards 12, 13 and 14, also 15 and 16), 127,683 or 9,956 more than in 1910; Dorchester (*i. e.*, most of Ward 11, Wards 17, 18, 19, 20, 21 and part of 24), 138,119 or 22,339 more than in 1910; West Roxbury, including Jamaica Plain and Roslindale (*i. e.*, Wards 22 and 23), 56,071 or 10,477 more than in 1910; Brighton (*i. e.*, Wards 25 and 26), 34,782 or 8,207 more than in 1910; Hyde Park (*i. e.*, most of Ward 24), 17,458 or 1,951 more than in 1910. Maximum population per acre, 117.9, in Ward 6; minimum, 4.5, in Ward 23, the largest ward in area, *i. e.*, 4,743 acres of land. Average for city, 26.9 per acre.

As the minor districts have no fixed boundaries, their population can be reckoned only by grouping such precincts as are commonly assumed to belong to them. The superintendent of mails, Boston Post Office, has a system of mail delivery whereby the Boston postal district is divided into 84 sub-districts, extending northerly to include Stoneham, easterly including Winthrop, southerly including South Weymouth and westerly including Wellesley. Population of whole district computed at Post Office according to 1915 census as approximately, 1,400,000 and of these subdistricts in Boston as follows: Allston, 14,931; Back Bay, 29,892; Essex Street, 21,186; Grove Hall, 29,028; Hanover Street, 32,097; Jamaica Plain, 31,092; Mattapan, 8,351; North Postal, 44,294; Roslindale, 17,153; Roxbury Crossing, 48,363; Station A, 61,781; Upham's Corner, 46,085.

The population of Boston was about equal to the combined population of the following 20 cities in 1915. Cambridge, 108,822; Lynn, 95,803; Malden, 48,907; Chelsea, 43,426; Newton, 43,113; Quincy, 40,674; Fitchburg, 39,656; Everett, 37,718; Salem, 37,200; Taunton, 36,161; Medford, 30,509; Waltham, 30,154; Revere, 25,178; Gloucester, 24,478; Beverly, 22,959; Attleboro, 18,480; Melrose, 16,880; Woburn, 16,410; Newburyport, 15,311, and Marlboro, 15,250. The population of Dorchester alone was equal to that of Quincy, Everett, Medford and Waltham combined. Chelsea is the most densely populated municipality in the state, *viz.*: 22,856 per square mile, Somerville ranking next, *viz.*, 22,078.

There are 7 cities in the world having over 2,000,000 population, 9 more having over 1,000,000 and 11 others having more than Boston, the latter ranking twenty-eighth in the world.

SETTLEMENT OF BOSTON.

Boston was settled in 1630 by Puritan colonists under Governor Winthrop. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630.

BOSTON, September 20, 1920.

To the Mayor of Boston:

I respectfully request permission to award a contract to Richard T. Green Company, the lowest bidder, for repairs and renewals to the double-screw ferryboat "Noddle Island" at an estimated cost of \$152,400 for a four-roadway boat.

The following bids were received on August 31, 1920, after public advertisement:

	ITEM 1.*	ITEM 2.†
Boston Shipbuilding Company.	\$178,000	\$187,500
Bertelsen and Petersen Engineering Company.	287,000	294,500
Richard T. Green Company,	133,400	152,400
Winnissimmet Ship Yard, Inc.	258,500	302,000

*For rebuilding boat on same lines as it is now constructed.

† For rebuilding boat, changing it to accommodate four roadways, under Alternative Design.

A special appropriation to cover this work has been passed by the City Council.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

SCHOOL COMMITTEE.

On September 24 to A. M. Hume Music Company for upright pianos. Bids opened September 17:

A. M. Hume Music Company, \$300 each; Ivers & Pond Piano Company, \$335 each.

SCHOOLHOUSE DEPARTMENT.

On September 29 to Joseph Rugo for grading yard at the Bowdoin School. Bids opened on September 21:

Joseph Rugo, \$15,918; John McCourt Company, \$16,600; Hub Steel and Iron Works, \$18,800.

SUPPLY DEPARTMENT.

On September 28 to the Washburn-Crosby Company as per following communication and schedule of bids:

BOSTON, September 25, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Under date of September 24, 1920, bids were publicly opened and read at this office for furnishing 135 barrels of bread flour to the Infirmary Department, Long Island.

The Washburn-Crosby Company was the lowest bidder at \$12.90 per barrel. Due to the fact that this company is unfamiliar with our methods, they failed to submit a certified check with their bid.

I respectfully request that this formality be waived and that this contract be awarded to Washburn-Crosby Company, the lowest bidder.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids on 135 barrels bread flour for the Infirmary Department, opened September 24, 1920:

Lord & Webster Company, \$13.50 per barrel; Washburn-Crosby Co., \$12.90 per barrel (no check); Potter & Wrightington, \$13.20 per barrel (in half sacks); Haskell-Adams Company, \$13.75 per barrel (in half sacks).

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

FIRE DEPARTMENT.

On September 23 to the Sewell Cushion Wheel Company as per following communication:

BOSTON, September 20, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I desire to substitute on Hose Car No. 5 and Pumping Engine No. 51 Sewell cushion wheels for the present old type hard tire wheels. These pieces of apparatus when built were equipped with a make of tire which proved unsatisfactory in this city and since we have had the apparatus the original tires have been replaced with old type hard tires.

We have used Sewell cushion wheels extensively in this department and they have been found very satisfactory. I therefore request permission to purchase from the Sewell Cushion Wheel Company two sets of Sewell cushion wheels, without advertising, at five hundred (500) dollars per set, or a total of one thousand (1,000) dollars.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

PARK AND RECREATION DEPARTMENT.

Flag Pole.

On September 23 to the Boston Flag Pole Company as per following communication:

BOSTON, September 22, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—The Board of Park and Recreation Commissioners respectfully ask your approval to accept the proposal of the Boston Flag Pole Company to erect one Oregon pine flag pole, 100 feet high, on the Boston Public Garden for the sum of \$990.

The reason for asking your approval for this award is that we have had this special price submitted to us and in order to find out how it compared with other bids we asked for a proposal from the Pigeon Hollow Spar Company, who submitted a price of \$1,450 for a 100-foot flag pole. One other firm was asked to bid but no proposal was submitted.

It is the opinion of the Board that this is an extremely low price, but as it is so close to \$1,000, the amount which required advertising for proposals, the Board believes your approval should be asked.

They also believe that if we advertise that a much higher bid will be submitted.

Very truly yours,

DANIEL J. BYRNE,
Secretary.

SUPPLY DEPARTMENT.

Sugar.

On September 21 to the American Sugar Refining Company as per following communication:

September 17, 1920.

HON. ANDREW J. PETERS,
Mayor of the City of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract without publicly advertising for same to the American Sugar Refining Company for furnishing approximately 8,169 pounds of granulated sugar to the Boston City Hospital at a price of \$22.50 per hundred-weight. The order covering this delivery was placed under date of August 3, 1920, as an emergency order as the Boston City Hospital was in immediate need of the sugar and through a mistake the matter of asking permission to award the contract to the American Sugar Refining Company was not attended to at the time.

The price quoted, \$22.50 per hundred-weight, was the price prevailing everywhere at the time, and in view of the explanation submitted above, I respectfully request that the permission asked for be granted.

Very truly yours,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

FIRE DEPARTMENT.

An addition, amounting to \$297.30, on contract with George A. Craffey & Co., dated August 31, 1920, as per following communication:

BOSTON, September 28, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On August 31, 1920, the contract for lathing and plastering work at the quarters of Engine Company 26-35, Mason street, was awarded to George A. Craffey & Co., and the contract has been forwarded to you for your approval.

I request your Honor's approval of the following additions to the contract, the prices for which the architect has approved as fair:

1. Cross wall, 46 square yards at \$3.....	\$138 00	
Credit by plastering as per contract.....	43 70	
		\$94 30
2. Staircase hall and aide's room changes, 55 square yards at \$3 per yard.....		165 00
3. Cellar stairs, wall nine square yards at \$2.....		18 00
4. New ceiling in aide's room.....		20 00
		<u>\$297 30</u>

The reasons for the above additions are as follows:

1. A cross wall dividing the main floor into two compartments which was to have been of brick and terra cotta, will now be of brick for the lower portion and metal lath and plaster on studs for the upper portion. The reasons for this change are non-arrival of brick and the extended length of time required to lay same. This change will result in more economical construction, saving about \$100.

2. The second change is at the staircase which has been given a better run resulting in an improved appearance in the apparatus room, and a better location when the second and third stories of this house shall have been remodelled. This work also includes a new wall and closet in aide's room, also construction of small hall at foot of stairs.

3. Plastering brick wall of cellar stairs. This work was not originally intended, but the extremely rough condition of the broken and patched brick wall, after plastering was removed, exposing same, makes this small additional expense seem necessary. A part of this work will be of 2½-inch thickness.

4. The ceiling of the aide's room has partly dropped off, the plaster keys are broken. A entirely new ceiling is required and some patching of cracks in side wall, etc., is necessary.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Approved, September 29, 1920.

ANDREW J. PETERS, Mayor.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To resurface with asphalt macadam Western avenue, from Waverly street to North Harvard street, and repair macadam between North Harvard street and bridge, the estimated cost for labor and material being \$15,000.

To resurface with asphalt macadam Cushing avenue, from Columbia road to Sawyer avenue, the estimated cost for labor and material being \$7,000.

To resurface with asphalt macadam Poplar street, from Beech street to Hyde Park line, the estimated cost for labor and material being \$12,000.

Chessman P. Vinson, for catching toe and crutch in hole and projecting rail in crosswalk west of railroad bridge at Roxbury Crossing, April 25, 1920, by payment of \$150.

U. T. Hungerford Brass and Copper Company of Boston, for refund of amount paid for unused ash tickets by payment of \$1.96.

Francis J. Coleman, for refund of fee paid for use of South Boston Municipal Building for May 8, 1919, said building not being used, by payment of \$20.

Ellen Kelly, administratrix, for damage to property at No. 97 C street during the "police strike" by rioters by payment of \$38.70.

REJECTED CLAIMS.

On September 29 the Law Department disapproved seventeen claims against the city, in eleven of which no amounts were specified, and the other six amounted to \$525, and are classified as follows:

Against the Park and Recreation Department, one, in which no amount was specified; against the Police Department, one, amounting to \$40; against the Public Works Department, fourteen, in nine of which no amounts were specified, and the other five amounted to \$485; against the Street Laying-out Department, one, in which no amount was specified.

All these claims have been disapproved for the reason that there appeared to be no legal liability upon the city.

TEMPORARY LOAN.

BOSTON, September 25, 1920.

THOMAS W. MURRAY,
City Treasurer:

SIR,—You are hereby requested, in pursuance of the authority given by chapter 471 of the Acts of Massachusetts, 1898; chapter 522, Acts of Massachusetts, 1902; chapter 437, Acts of Massachusetts, 1910 and chapter 52, Special Acts

of Massachusetts, 1918, to issue bond certificates of indebtedness of the City of Boston to the amount of \$2,500,000, as authorized by order of City Council, dated March 31, 1920.

ANDREW J. PETERS, Mayor.

The undersigned, in accordance with authority given by chapter 471 of the Acts of Massachusetts, 1898; chapter 522, Acts of Massachusetts, 1902; chapter 437,

Acts of Massachusetts, 1910, and chapter 52, Special Acts of Massachusetts, 1918, hereby determine that the above-described bond certificates shall be payable November 3, 1920, and shall bear interest at the rate of 6 per cent per annum, payable semi-annually, both interest and principal payable at the office of the City Treasurer, Boston, Mass., or the Hanover National Bank, New York City, N. Y.

ANDREW J. PETERS, Mayor.

THOMAS W. MURRAY,

City Treasurer.

J. ALFRED MITCHELL,

City Auditor.

TAKING FOR ADMINISTRATION BUILDING.

BOSTON, September 29, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—At a meeting of the Board held September 16, 1920, and in compliance with the provisions of chapter 473 of the Acts of 1901, and acts in amendment thereof or in addition thereto, it was voted, subject to your approval, to take, for an Administration Building to be occupied by the School Committee, a certain parcel of land with building thereon in the Wendell Phillips District, city proper, bounded and described as follows:

Beginning at the northeasterly corner of Beacon street and Freeman place, thence northwesterly by line of Freeman place 97 feet to land now or formerly of Charles W. Rowell; thence turning and running northeasterly by land of said Rowell 55 feet to land of said Rowell; thence turning and running southeasterly by land of said Rowell 91 feet to line of Beacon street; thence turning and running southwesterly by said line of Beacon street 55 feet to the point of beginning, being the premises No. 15 Beacon street, and contains 5,109 square feet of land. Be all said measurements more or less.

We submit herewith the written approval of the School Committee, and we respectfully request your Honor's approval of the taking of said land, with building thereon, by eminent domain.

Respectfully yours,

J. P. LOMASNEY, Chairman.

Approved September 29, 1920.

ANDREW J. PETERS, Mayor.

SALE OF PIANOS TO SCHOOLS.

BOSTON, September 30, 1920.

HON. ANDREW J. PETERS, Mayor:

SIR,—The Finance Commission is in receipt of your letter of the twenty-fourth instant, inclosing a copy of your letter to Alexander M. Steinert, requesting his immediate resignation from the Art Commission of the City of Boston.

It appears that your Honor, after a review of the transactions between the City of Boston, represented by John A. O'Shea, director of music, and M. Steinert & Sons Company, represented by Alexander M. Steinert, as set forth in two reports of the Finance Commission and in "a communication from the School Committee dated July 26, 1920," concurs with the Finance Commission's findings.

As a result of your Honor's findings, which, we understand, were also concurred in by the Corporation Counsel, Mr. Steinert, upon your request, has resigned from the Art Commission.

The Finance Commission commends the action of your Honor in refusing to follow the course of the School Committee,

which found Mr. O'Shea guilty of a breach of the criminal section of the city charter and of "improper and censurable" acts, and yet retains him in the school service.

Your Honor having decided not to submit this matter to the District Attorney, the Finance Commission has no alternative in the discharge of its duty, under an opinion submitted to it by the Attorney General on November 15, 1917, but to present a report of its findings with such evidence as it has to the District Attorney of Suffolk County.

Respectfully submitted,
THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

LAND TAKING FOR DEARBORN SCHOOL.

Boston, September 24, 1920.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for addition to the yard of the Dearborn School, a certain piece of land in the Dearborn district, bounded and described as follows:

Beginning at a point on the northerly line of Dearborn place 100 feet southeasterly from the corner of Dearborn street and Dearborn place, thence northeasterly by land of Randall 60.90 feet to land of the City of Boston; thence turning and running southeasterly by land of said city 80 feet to land of said city; thence turning and running southwesterly by land of said city 60.90 feet to Dearborn place; thence turning and running northwesterly by line of Dearborn place 80 feet to the point of beginning; and contains 4,880 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding \$6,000, for carrying out the same.

Respectfully,
J. P. LOMASNEY,
Chairman, Schoolhouse Commissioners.

Approved September 28, 1920.

ANDREW J. PETERS, Mayor.

Boston, August 31, 1920.

MR. FRANK V. THOMPSON,
Superintendent of Public Schools:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for addition to the yard of the Dearborn school, a certain piece or parcel of land in the Dearborn district, bounded and described as follows:

Beginning at a point on the northerly line of Dearborn place 100 feet southeasterly from the corner of Dearborn street and Dearborn place, thence northeasterly by land of Randall 60.90 feet to land of the City of Boston; thence turning and running southeasterly by land of said city 80 feet to land of said city; thence turning and running southwesterly by land of said city 60.90 feet to Dearborn place; thence turning and running northwesterly by line of Dearborn place 80 feet to the point of beginning; and contains 4,880 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and Acts in amendment of,

or in addition thereto, we most respectfully ask your written opinion of the above.

Respectfully,
J. P. LOMASNEY,
Chairman, Schoolhouse Commissioners.
FRANK V. THOMPSON,
Superintendent of Public Schools.

LAND TAKING FOR LEWIS SCHOOL.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an Annex to the Roxbury High School, a certain piece or parcel of land in the Lewis District, Roxbury, bounded and described as follows:

Beginning at a point on the southerly side of Dunreath street 264 feet from the corner of Warren and Dunreath streets; thence northeasterly by line of Dunreath street 178 feet to land now or formerly of Doherty; thence turning and running southeasterly by land of said Doherty 95 feet to land of Brown; thence turning and running southwesterly by land of Brown 63 feet to land of Paul; thence turning and running southeasterly by land of Brown 98 feet to line of Copeland street; thence turning and running by line of Copeland street 158 feet to land of Lane; thence turning and running northwesterly by land of Lane 134 feet to land of Paul; thence turning and running northerly by land of Paul 80 feet to the point of beginning; and contains 34,224 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding \$20,000, for carrying out the same.

Respectfully,
J. P. LOMASNEY,
Chairman, Schoolhouse Commissioners.

Boston, August 31, 1920.

MR. FRANK V. THOMPSON,
Superintendent of Public Schools,
Boston, Mass.:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for the purpose of erecting thereon an Annex to the Roxbury High School, a certain piece or parcel of land in the Lewis District, Roxbury, bounded and described as follows:

AMBULANCE DRIVERS, PATROL DRIVERS AND CHAUFFEURS, OCTOBER 8, 1920.

This examination is for the service of the state, all cities in the state, and such towns as are under civil service. Salaries from \$900 to \$1,300.

The examination will consist of a sworn statement of training and experience, the possession of a chauffeur's license, and a physical examination. Application blanks must be filed by October 8, and experience sheets will be mailed immediately thereafter. Those who receive a pass mark and possess the requisite license will be notified to appear before the doctor for physical examination. Ambulances and patrols may be horse drawn, in which case, the examination will consist of a sworn statement of training and experience and a physical examination. Practical driving tests may also be given.

MEDICAL SOCIAL WORKERS (FEMALE), OCTOBER 14, 1920.

Vacancies in the Boston City Hospital at a salary of \$1,000 a year open to women.

Applicants must be between 25 and 45 years of age at the time of filing application, and certificate of birth must be filed with application. Applicants should possess practical social service experience, preferably along medical social lines.

The subjects of examination with their respective weights will be as follows: Training and experience (4); cases and practical questions (3); personality and fitness, as determined by an oral interview (3); total (10). Applicants will be required to obtain at least 65 per cent in experience. Successful applicants will be required to file a certificate from a reputable physician in regard to their physical condition.

STENOGRAPHIC SERVICE, OCTOBER 16 AND OCTOBER 30, 1920.

This examination is for the service of the State and of all cities of such towns in the State as are classified under Civil Service.

Stenographers, Typists, Copyists, Recorders, Etc.

BOSTON NOTES.

METROPOLITAN DISTRICT OR "GREATER BOSTON."

Consists in the most inclusive sense of 40 municipalities, including Boston, or 14 cities and 26 towns, all within 15 miles of the State House. The 7 cities in the first zone, *i. e.*, adjacent to Boston, are these, *viz.*, Cambridge, Chelsea, Everett, Newton, Quincy, Revere and Somerville; the 6 cities in the second zone, not adjacent, are: Lynn, Malden, Medford, Melrose, Waltham and Woburn. The 6 adjacent towns are: Brookline, Dedham, Milton, Needham, Watertown and Winthrop; the 20 other towns are: Arlington, Belmont, Braintree, Canton, Cohasset, Dover, Hingham, Hull, Lexington, Nahant, Reading, Saugus, Stoneham, Swampscott, Wakefield, Wellesley, Weston, Westwood, Weymouth and Winchester. North and northwest of Boston are situated 11 of the cities and 12 of the towns; south and southwest, 2 cities and 14 towns. Area of Northern Division in 1915, 149.18 square miles and population 647,675, or a density of 4,342 per square mile; Southern Division, 219.62 square miles and 193,979 population, or density of only 883 per square mile; in the whole Metropolitan district, 3,851 per square mile. In percentages Boston shows 10.5 per cent of district's area and 47 per cent of population; Northern Division, 36.2 of area and 40.8 of population; Southern Division, 53.3 of area and 12.2 of population. In the period 1910-1915, increase of population 2.18 per cent larger in Northern than in Southern Division.

Total area of district in 1918, 409.5 square miles; population by census of 1915, 1,593,898. Estimated population in 1918, 1,708,860. Of the total population of the state, "Greater Boston" has 43 per cent; of total valuation, 54.66 per cent; of total value of manufactures, 32.56 per cent.

Total valuation of taxable property in district on April 1, 1918, \$2,543,169,288, *i. e.*, for realty and tangible personalty, including bank stock, intangible personalty being exempt from taxation (except income therefrom) in 1917 and thereafter. The said total exceeds the 1917 valuation by \$66,078,893, a gain of 2.67 per cent. Of said total 58.90 per cent was in Boston and 41.10 per cent outside. The four organized metropolitan districts existing for the purpose of constructing and maintaining certain extensive systems of public works under state control are as follows: Metropolitan park district, established by chapter 407, Acts of 1893, including all the cities and towns except Lexington, and managed by a State Board of five commissioners; metropolitan water district, established by chapter 488, Acts of 1895, including 10 cities and 9 towns, and covering an area of 175 square miles; metropolitan sewerage district, established by chapter 439, Acts of 1889, consisting of the north system and south system, including 17 cities and towns in the former system and 8 in the latter, and covering an area of 225 square miles; the last two districts managed by a single state board of three commissioners; Charles River Basin district, established by chapter 465, Acts of 1903, including all the cities and towns except Cohasset and Lexington, and in charge of the Metropolitan Park Commission.

Another metropolitan district, *viz.*, the Fire Prevention District, was organized in 1914; by the enactment of chapter 795. In this district are the 14 cities of "Greater Boston", but only 10 of the towns, to which were added Reading and Rockland, a total of 26 municipalities. The district is in charge of a single commissioner,

assisted by a deputy commissioner, both appointed for a term of three years. The number of fire alarms in the district decreased from 13,477 in 1914 to 10,568 in 1916, and the fire losses in 1916 were less than those of 1915 by \$893,900.

Total gross metropolitan debt for water, parks, sewers and Charles River Basin improvements on July 1, 1918, \$77,064,406; sinking funds, \$23,724,311; net debt, \$53,340,095 or \$1,252,123 less than in 1917. The division of this net debt was: Water supply, \$28,269,187; sewers, \$12,973,168; parks, boulevards, etc., \$8,632,354; Charles River Basin, \$3,465,386. Of the latter, \$1,129,322 is payable by Boston alone, *i. e.*, \$643,359 for Boston Embankment, and \$485,963 for Charles River Bridge. Of 1918 tax rates, the highest among the cities was Revere's (\$26.80) and the highest among the towns, Saugus's (\$27.95); the lowest among the cities was Newton's (\$18.40) and among the towns, Dover's (\$5.30). Mean tax rate of the 13 cities in the district outside of Boston, \$22.64, or \$1.44 in excess of Boston's rate. Mean tax rate of the 26 towns \$18.43 or 68 cents less than in 1917. Mean tax rate in the 23 cities and towns of Northern Division, \$22.99; in the 16 of Southern Division, \$15.96. There were in the district in 1917, 4,409 manufacturing establishments, value of product, \$947,853,776; capital invested, \$616,023,935; value of stock and materials used, \$564,318,619; total wages paid, \$156,950,905; average number of wage earners, 200,106 (maximum number 244,228); increase over 1916 product, 23.9 per cent. Rank, 1 to 10, in value of product: Boston, \$418,096,880; Lynn, \$113,590,818; Cambridge, \$101,605,403; Somerville, \$76,710,204; Watertown, \$35,021,584; Everett, \$28,138,303; Quincy, \$27,866,513; Chelsea, \$26,176,185; Woburn, \$15,930,793; Malden, \$15,713,334. The Northern Division produced 46.26 per cent of district's total manufactures in 1915; the Southern, 7.15 per cent, and Boston alone, 46.59 per cent.

WATER DIVISION, PUBLIC WORKS DEPARTMENT.

Miles of supply and distributing mains, 873.32 on February 1, 1919; number of fire hydrants, 9,669. On January 1, 1918, number of services in use, 105,352, of which 60 per cent were metered. Total receipts for year 1918, \$3,049,453 or \$97,361 more than in 1917. Total expenditures, \$2,920,682 or \$55,030 less than in 1917. Current expenses and extension of mains, \$1,107,442; interest on water debt, \$71,268; metropolitan water assessment for 1918, \$1,741,009 or \$10,996 less than in 1917. Metropolitan Water Works owned by state. Total gallons of water in the 10 storage reservoirs on January 1, 1918, 66,466,000,000; total capacity, 80,680,100,000 gallons. Of all used, about 85 per cent comes from Wachusett Reservoir in Clinton, an artificial lake of 4,135 acres surface area, situated about 32 miles west of Boston and added to the Metropolitan System in 1905. There are also 12 distribution reservoirs with capacity of 2,399,230,000 gallons, and six pumping stations in which 23,608,020,000 gallons of water were pumped during the year 1917, mostly from low-service reservoirs. Daily average amount of water used in Boston during 1918, 94,657,833 gallons (*i. e.*, 12,557,800 gallons more daily than in 1917) or 120 gallons per capita. Net water debt (*i. e.*, for Hyde Park Water Works) February 1, 1919, \$352,000 or \$16,000 less than in 1918. Cochituate debt, *viz.*, \$1,307,750, all covered by sinking fund.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,309,000; Washington Street Tunnel, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,234,471; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1919 for the Dorchester tunnel, \$10,738,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,000,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) are leased to the Boston Elevated Railway Company (which furnishes the equipment) for term of 25 years (except Tremont Street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which is at $\frac{3}{4}$ of one per cent of all annual gross receipts of said company). In accordance with chapter 741, Acts of 1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By chapter 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By chapter 3, Ordinances of 1918, the Transit Department was established, to be in charge of three commissioners, appointed for term of one year.

EXPORTS AND IMPORTS, MASSACHUSETTS CUSTOMS DISTRICT, 1918.

Dating from July 1, 1913, the district includes Boston and the eight minor ports of the state. Value of exports in calendar year, 1918, \$221,477,295, or \$12,509,458 (*i. e.*, 5.99 per cent) more than in 1917; of imports, \$295,907,047 or \$66,665,716 (*i. e.*, 29.08 per cent) more than in 1917; total foreign trade, \$517,384,342, an increase of \$79,175,174 or 18.07 per cent over the same in 1917. Boston's total foreign trade for year 1918, the largest on record, ranks fifth among American ports, New York, Seattle, Philadelphia and New Orleans leading, the latter only slightly. Tonnage of vessels in foreign trade (entered and cleared) in year, 2,427,772, or 547,752 less than in 1917; number of vessels, 1,686 or 352 less than in 1917.

PETITION FOR ADJUSTMENT OF SALARIES.

A petition, signed by the instructors and assistant instructors in manual training, calling attention to the fact that by recent action of the Board assistant instructors in manual training now receive less than teachers in boys' schools, and requesting that the former relation of salaries be restored by increasing the present maximum of assistant instructors and instructors \$48, to take effect Sept. 1, 1920, was presented.

Laid over.

UNFINISHED BUSINESS.

The communication from the Boston Elementary Teachers' Club, laid over at the meeting of Sept. 13, 1920, protesting against the emphasis placed upon the Palmer Method of Penmanship, was taken up and referred to the Board of Superintendents with instructions to consult with representatives of the teachers on the subject, and report its conclusions and recommendations in due course and as promptly as possible to the Board for action.

The communication from the Boston Women Teachers' Union, Local 88, laid over at the meeting of Sept. 13, 1920, requesting the Board to consider the matter of teachers' salaries at an early date, and urging that the necessary steps be taken to bring the subject before the expected special session of the Legislature this Fall before it is too late, was taken up, placed on file, and the Secretary directed to reply thereto to the effect that the Chairman of the Board and the Superintendent have already brought this matter to the attention of His Excellency the Governor, and intend to take such further action as is deemed expedient to obtain favorable consideration by the Legislature at the special session referred to.

The communication from the Boston Elementary Teachers' Club on the same subject, laid over at the meeting of Mar. 1, 1920 (see p. 26), was also taken up, and placed on file.

APPLICATION FOR LEGISLATION TO PROVIDE FUNDS TO INCREASE SALARIES, AND FOR FUEL AND SUPPLIES.

PROCEEDINGS OF CITY COUNCIL.

Monday, September 27, 1920.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President MORIARTY in the chair. Absent—Coun. Collins.

VETO—THOMAS J. CONNOLLY SQUARE.

The following was received:

City of Boston,
Office of the Mayor, September 16, 1920.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council passed on September 13, to give the name of Thomas J. Connolly to the space at the junction of Station and Tremont streets, Roxbury.

I am vetoing this order as the space to be named is substantially the same as that passed in the order of the City Council on July 26 to name the space at the junction of Columbus avenue and Tremont street Thomas J. Connolly square. At that time I called the attention of the City Council to the fact that this space was known as William Pynchon square. I shall be very glad to approve an order giving the name of Thomas J. Connolly square to some place which at present is not named.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—NAMING OF SQUARES.

The following was received:

City of Boston,
Office of the Mayor, September 27, 1920.
To the City Council:

Gentlemen,—I am returning herewith without my signature the following orders passed by the City Council on September 20:

Order changing the name of Linwood square, Roxbury, to William E. Anderson square.

Order changing the name of Dearborn square to John Charles Peterson square.

Order that the space at the junction of Essex street and Harrison avenue be named Thomas Karen square. This space is already known as Phillips square.

Order that the space at the junction of Montgomery, Tremont and Clarendon streets be named and known as Jeremiah W. Sullivan square. This space is already known as Montgomery square.

I am vetoing these orders because they involve changes in the present names of squares, and I have previously indicated my disapproval of such changes.

In addition, I direct your attention to the fact that, for the reason stated above, I vetoed a similar order for the changing of the name of Dearborn square, which the Council passed at its meeting on April 12, 1920.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council, the Mayor submitted the following appointments for terms ending April 30, 1921, viz.:

VARIOUS DEPARTMENT TRANSFERS.

The following was received:

City of Boston,
Office of the Mayor, September 27, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith various requests for transfers within department appropriations, and respectfully recommend the passage of the accompanying orders.

Respectfully,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfer in the appropriations for Municipal Court, Roxbury District:

From the appropriation for A-2, Temporary Employees, Probation Officer, 1 at \$8.62 per day, \$258.60, to the appropriation for D-1, Office, \$258.60.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers in the appropriations for Cemetery Department:

From the appropriation for A-1, Permanent Employees, Laborers, 42 at \$3.50-\$4 per day, \$400, to the appropriation for A-2, Temporary Employees, \$400.

From the appropriation for F-7, Pensions and Annuities, \$400, to the appropriation for D-4, Forage and Animal, \$400.

Referred to the Executive Committee.

TRANSFER FROM RESERVE FUND.

The following was received:

City of Boston,
Office of the Mayor, September 27, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith a request for a transfer from the Reserve Fund, and respectfully recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$119.80, to the appropriation for Municipal Court, West Roxbury district, A-1, Permanent Employees, Probation Officer, Delinquent Children, 1 at \$1,650 per year (\$1,850), \$100; A-2, Temporary Employees, Probation Officer, Delinquent Children, 1 at \$5.43 per day (\$6.09), \$19.80.

Referred to the Executive Committee.

MUNICIPAL BUILDING, OLD WARD 12.

The following was received:

City of Boston,
Office of the Mayor, September 23, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting orders appropriating the sum of \$200,000 for a new municipal building for Ward 12 (old). As I have stated in a previous message, the estimated cost of the building will be \$400,000 and as there is \$201,000 at present available from a previous appropriation, the passage of the accompanying orders will provide ample funds for the work planned. I therefore recommend their passage.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That in addition to the sum already appropriated the sum of \$65,000 be and hereby is appropriated to be expended by the Superintendent of Public Buildings for Municipal Building, Ward 12, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$135,000 from the appropriation for New Ferryboat and Runways to the appropriation for Municipal Building, Ward 12.

Referred to the Executive Committee.

HEADQUARTERS FOR LEGION, BRIGHTON.

The following was received:

City of Boston,
Office of the Mayor, September 23, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a copy of a report just received from the Superintendent of Public Buildings, prepared in connection with the order of the City Council of September 13, 1920, relative to placing the Town Hall, Brighton, in proper condition for headquarters for the American Legion Post, Brighton.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Public Buildings Department,
September 17, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Replying to order of City Council, "that the Superintendent of Public Buildings be requested, through his Honor the Mayor, to submit to the City Council an estimate of the cost of placing the Town Hall, Brighton, in proper condition for headquarters for the American Legion

Post, Brighton," I wish to say that there evidently must be some misunderstanding regarding the possible facilities in this building.

At the present time all of said building, with the exception of the first floor, is leased to the G. A. R. and the first floor is designated as a wardroom, something we must provide according to ordinance for the use of the people.

Further than this there is no available space in the building with the exception of a very small room on the first floor that is now occupied temporarily by this post. The only possibility of providing any quarters for the legion post in this building would be to abolish the wardroom, which I do not believe would be consistent.

Respectfully yours,
FRED J. KNEELAND,

Superintendent of Public Buildings.

Placed on file.

SALE OF FIRE DEPARTMENT MATERIAL.

The following was received:

City of Boston,
Office of the Mayor, September 27, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a communication from the Fire Commissioner relative to the sale of certain old material located on the first floor of the building No. 240-260 Dover street, which building the Fire Department proposes to vacate September 30, 1920; and I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Fire Department, September 17, 1920.
Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—I recommend that permission of the City Council be obtained authorizing the Superintendent of Supplies to sell miscellaneous junk of various kinds, estimated to be worth approximately \$500, after public advertising.

This junk is stored on the first floor of the building No. 240-260 Dover street, which building this department proposes to vacate September 30, 1920.

Yours very truly,
JOHN R. MURPHY,
Fire Commissioner.

Ordered, That the Superintendent of Supplies be and hereby is authorized to sell, after due advertisement, a quantity of miscellaneous junk estimated to be worth approximately \$500, which is located at the building at 240-260 Dover street, used by the Fire Department.

Referred to the Executive Committee.

ORDINANCE CONCERNING CITY FUNDS.

The following was received:

City of Boston,
Office of City Treasurer, September 27, 1920.
Hon. James Donovan,
City Clerk:

Dear Sir,—I herewith hand you a proposed amendment of section 4, chapter 36, of the Revised Ordinances of 1914. Said proposed amendment has been drawn by Mr. Arthur D. Hill, Corporation Counsel of the City of Boston, and the same has the approval of his Honor Mayor Peters.

Under said section 4, chapter 36, of the Revised Ordinances of 1914, it is not possible at the present time for the City Treasurer to take advantage of a profitable exchange of certain tax exempt City of Boston bonds in the George F. Parkman Fund for Liberty Bonds. Under the proposed amendment such an exchange will be possible.

It has been deemed wise to exclude from the proposed amendment the right of the City Treasurer to invest trust funds in mortgages of real estate.

If any further explanations are desired in regard to the proposed amendment, I shall be very glad to go into the matter.

Yours very truly,
THOMAS W. MURRAY,
City Treasurer.

City of Boston,
In the Year Nineteen Hundred and Twenty.
An Ordinance.
Be it ordained by the City Council of Boston, as follows:

Section 1. Section four of chapter thirty-six of the Revised Ordinances of nineteen hundred and fourteen is hereby amended by striking out in the sixth line the word "invest" and inserting the word "hold"; by inserting after the word "properties" the words "as permanent funds. He shall invest and keep invested the said permanent funds"; by inserting in the seventh line after the word "scrip" the words "of the United States or"; by striking out in said seventh line the word "therein" and inserting the words "within the commonwealth"; by striking out in said seventh line the comma after the word "therein" and inserting a period; by striking out at the end of said seventh line the word "or"; by striking out the whole of the eighth line and inserting in place thereof the words "For the purpose of investment and reinvestment, he shall have power from time to time in his discretion to sell any of the securities of which any of the said permanent funds consist, but all purchases and sales shall be with the written approval of the Mayor," so that said section shall read as follows:

Sect. 4. The treasurer, unless the donors have otherwise directed, shall receive all properties given devised or bequeathed to, or deposited with, the city for any specific purpose, and shall use the same, or the income thereof, as designated in the gift, devise, bequest, or deposit. If the income only is to be used, he shall hold the properties as permanent funds. He shall invest and keep invested the said permanent funds in bonds, notes or scrip of the United States or of the commonwealth or of any city or town within the commonwealth. For the purpose of investment and reinvestment, he shall have power from time to time in his discretion to sell any of the securities of which any of the said permanent funds consist, but all purchases and sales shall be with the written approval of the Mayor.

Sect. 2. This ordinance shall take effect upon its passage.

Chapter 590, Section 63, Acts of 1903.

Deposits and the income derived therefrom shall be invested only as follows:

1. In first mortgages of real estate located in this commonwealth not to exceed 60 per cent of the value of such real estate; but not more than 70 per cent of the whole amount of deposits shall be so invested. If a loan is made on unimproved and unproductive real estate, the amount loaned thereon shall not exceed 40 per cent of the value of such real estate. No loan or mortgage shall be made except upon written application showing the date, name of applicant, amount asked for and security offered, nor except upon the report of not less than two members of the board of investment who shall certify on said application, according to their best judgment, the value of the premises to be mortgaged; and such application shall be filed and preserved with the records of the corporation. At the expiration of five years, premises to be revalued. If on revaluation the debt exceeds 60 per cent of the value (or 40 per cent in case of unimproved land), debt must be reduced to bring it within those percentages.

Referred to the Committee on Ordinances.

MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasias have been resumed at the various municipal buildings.

The following buildings have gymnasias and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.
Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.
Cabot Street Gymnasium and Swimming Pool.—Roxbury.
Vine Street Gymnasium.—Corner Vine and Dudley streets.
Dorchester Gymnasium.—Corner Columbia road and Bird street.
Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.
Ward 5 Gymnasium.—Corner Tyler and Oak streets.
D Street Gymnasium.—South Boston.
North Bennet Street Gymnasium.—North End.
Paris Street Gymnasium.—East Boston.
Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasias where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasias.

Basketball is permitted in certain gymnasias on the part of those who participate in class work.

Esthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls and at 7.30 for working girls.

AREA OF BOSTON.

Area to ward lines (26 wards), 30,598 acres (*i. e.*, 47.81 square miles), 2,705 acres being filled land and 1,143 acres water area. Land area only, 27,732 acres (*i. e.*, 43.33 square miles). Original Boston contained about 780 acres of land. Of the twelve leading American cities, five are larger in land area than Boston, viz., New York, Chicago, Philadelphia, St. Louis and San Francisco. The only city in Massachusetts with larger land area is Taunton.

MAYORS OF BOSTON.

In its 97 years of existence as a city Boston has had 36 elected mayors and five *ex officio* acting mayors. Of the 36 men who have held the office for one year or more, five were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England states, 5; in Ireland, 2. The mayor longest in office was Mayor Lincoln, who served 3 years ending 1860 and then 4 years ending 1866. Next in length of service were the first Mayor Quincy and Mayor Fitzgerald, who served 6 years each. Those who served 4 years were Mayors Prince, O'Brien, Matthews (third), Quincy, Hart and Curley. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second), Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five acting mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, United States Representative and United States Senator before becoming mayor. Mayor Armstrong was Lieutenant-Governor and at times acting governor before serving as mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as governor, after their terms as mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, CITY HALL ANNEX, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

MUNICIPAL CALENDAR.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending October 7, 1920.

PARK AND RECREATION DEPARTMENT.

On October 5 to J. C. Coleman & Sons Company for the approximate sum of \$12,455 (without posts) for oak seats and brick walk at Parkman Memorial, Boston Common. Bids opened September 23:

With Seat Posts.—J. C. Coleman & Sons Company, \$14,155; J. A. Singarella, \$17,192.50; John McCourt Company, \$24,037.50.

Without Posts.—J. C. Coleman & Sons Company, \$12,455; Hub Steel and Iron Works, \$14,122.50; J. A. Singarella, \$14,430; John McCourt Company, \$18,257.50.

On October 5 to J. W. Feen & Co. for fence at the Arnold Arboretum. Bids opened September 23:

P. J. Dinn & Co., \$7,452; W. A. Snow Iron Works, Inc., \$5,451; Hub Steel & Iron Works, \$5,336; J. W. Feen & Co., \$4,715.

PUBLIC WORKS DEPARTMENT.

On October 1 the Mayor approved the following:

Permission to award contract for cleaning water pipes in Second, D and L streets, South Boston, and Pearl street, city proper, to the National Water Main Cleaning Company, the only bidder, at \$3,312.

Permission to award contract for sewerage works in Amory avenue, Roxbury, to Timothy Coughlin, the lowest bidder, at \$5,768. The other bidders were:

J. Guarino & Co., \$8,127.50; D. Vozzella Company, \$7,203.85; E. J. Tomascello, \$7,374.75; C. J. Regan, \$8,406.75.

Permission to award contract with the Pitometer Company of New York City for a waste water survey of the entire South Boston distribution system and a portion of the South End distribution system bounded by the New York, New Haven & Hartford Railroad, Northampton street and the South bay, at a cost of \$10,000. The Pitometer Company is the only company qualified to undertake this work, and the results obtained from

their recent surveys in Charlestown and Brighton warrant this expenditure immediately.

Permission to award contract for Topeka pavement in Arbutus street, from Blue Hill avenue to Irma street, to Martino DeMatteo, the lowest bidder, at \$13,085.45. The other bidders were:

Sheet Asphalt.—J. T. Shea, Jr., \$14,313.
Topeka.—Rowe Contracting Company, \$14,061.20; J. T. Shea, Jr., \$14,213; Simpson Brothers Corporation, \$15,563.60.
Bitulithic.—J. T. Shea, Jr., \$14,413; Warren Brothers Company, \$15,275.95.

Permission to award a contract to B. E. Grant Company, lowest bidder, for relaying granite block pavement in Friend street, from Union to Causeway street; Portland street, from Hanover to Causeway street, and Richmond street, from Hanover street to Atlantic avenue, at \$87,311.55. The other bidders were: Coleman Brothers, Inc., \$89,201.40; D'Onfro Brothers, \$93,389.30; John McCourt Company, \$96,240.25.

On October 3 the Mayor approved the following:

Permission to award contract for sewerage works in Cambridge street, between Hano and Wilton streets, Brighton, to Joseph Todesca, lowest bidder, at \$3,126.75. The other bidders were:

A. Cefalo, \$3,309; T. Coughlin, \$3,379; T. Guarino & Co., \$3,848.70; D. Vozzella Company, \$4,025.25; D. Vitiello, \$4,365; M. DeSisto & Co., \$4,652.50; J. Williams & Co., \$4,718; G. J. Regan, \$4,751.50; C. J. Tomasello, \$4,852.50; F. Martiniello, \$4,981.25.

On October 5 to A. Barruffaldi, the second lowest bidder, for building sewerage works in Farragut road extension, South Boston, at an estimated cost of \$37,397.50.

The lowest bidder, Susi Brothers, neglected to include in their bid provision for building a cofferdam, amounting to several thousand dollars, which is necessary in order to construct this sewer, and they state that they are unable to secure the required bond from any surety company to cover the contract.

The following bids were received on September 23, 1920, after public advertisement:

Susi Brothers, \$30,232.50; A. Barruffaldi, \$37,397.50; Sam J. Tomasello, \$45,665; Coleman Brothers, Inc., \$57,740; William Barrett & Co., \$60,531.50.

On October 5 to John McCourt Company for paving the track area on Hyde Park avenue, between Metropolitan avenue and Cleary square.

On September 7, 1920, the Mayor authorized the award of a contract to the Eastern Massachusetts Street Railway Company to do this work in connection with the rebuilding of their track. The Eastern Massachusetts Street Railway Company declines to do this work, and with a view to saving time all of the principal paving contractors were invited to bid on the work. The following bids were received:

John McCourt Company, \$27,380; Martino DeMatteo, \$30,800; Gore, Inc., \$29,000; Coleman Brothers, Inc., \$40,000.

On October 7 to F. J. Burke for Topeka pavement in Pleasant street, from Stoughton street to Savin Hill avenue, Dorchester. Bids opened September 28, 1920:

Sheet Asphalt.—McGuire & McGourty, \$25,131.80.

Topeka.—F. J. Burke, \$20,042.05; Rowe Contracting Company, \$21,070.60; Simpson Brothers Corporation, \$21,764.70; J. T. Shea, Jr., \$24,290.50; McGuire & McGourty, \$24,858.80.

Bitulithic.—J. T. Shea, Jr., \$24,700; Warren Brothers Company, \$23,644.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved of the following:

Permission to the Schoolhouse Department to award contract to Joseph Rugo, for grading yard at the Bowdoin School at \$15,918. The other bidders were:

John McCourt Company, \$16,600, and Hub Steel and Iron Works, \$18,800.

On October 5 to Kenney Brothers & Wolkins, the only bidder, for furnishing and erecting composition blackboards in fifteen portable school buildings. Bid opened October 1:

Kenney Brothers & Wolkins, \$1,455.

On October 5 to Lamont Brothers Company for the erection of a portable public school building in the yard of the Ulysses S. Grant School, East Boston. Bids opened October 1:

R. J. Connolly, \$3,950; Lamont Brothers Company, \$3,736; Hub Steel and Iron Works, \$3,687.

In asking the approval of the Mayor, J. P. Lomasney, chairman, makes the following statement in regard to the choice of the contractor:

"The title of the advertisement for proposals, a copy of which I attach hereto (marked No. 2 in the set of advertisements), designated that the work to be done should be performed by carpenter contractor.

"This Board is of opinion that the said Hub Steel and Iron Works were not entitled to bid on the work above mentioned inasmuch as the firm does not as a general practice engage in the construction of wooden buildings or do other general or special carpentry work, as a perusal of the firm's card submitted herewith will indicate. Had the advertisement been issued under the title 'To General Contractors,' this Board might have properly considered that the firm would be considered entitled to bid on the work as general contractors, which fact was given to this Board by a representative of the said firm as a reason for the submission of the said proposal. I send herewith copies of the standard advertisements for proposals issued to contractors by this department as evidence of the distinction made by this Board in advertising for general contracting work as differentiated from carpentry or other contractual work.

"As chairman of the Board I consulted with a representative of the firm of Lamont Brothers Company, the second lowest bidder, and called his attention to the disparity in the bids submitted and to the condition confronting this Board, which is as follows: That the Superintendent of Public Schools has been endeavoring for several months to provide the appropriation to erect the portable building herein referred to, and urges such construction as soon as possible. I submit herewith copies of various communications received from the superintendent and other school officials in relation thereto.

"If the Board should award the contract to the Hub Steel and Iron Works,

the Board is of opinion that this portable building would not be constructed and ready for occupancy within the time when this Board would expect same to be completed. The Hub Steel and Iron Works would no doubt agree to provide the building within the time required by the Board, but as a matter of practical experience this Board is of opinion that the said work might be delayed in completion from five to eight weeks, and that the answer made by the Hub Steel and Iron Works would be their inability to get material, or other usual explanations.

"The Board is strongly of opinion that the Lamont Brothers Company, if awarded the contract, would be able to construct the building and turn same over to this department for occupancy in a time satisfactory to the department. We base this opinion on these facts: That the Lamont Brothers Company has constructed forty-five portable buildings for this department since 1916, and has also efficiently performed contracts for taking down in one section of the city and removing to other sections of the city fourteen portable buildings within the same period of time. We attach hereto copy of letter to the department from the Lamont Brothers Company, in which they agree to perform the contract for the same price as submitted by the Hub Steel and Iron Works.

"For the various reasons above submitted this Board has voted to award the contract for the erection of said portable building to the firm of Lamont Brothers Company, in the sum of \$3,687, and urgently requests your Honor's approval of the same."

SUPPLY DEPARTMENT.

On October 5 to D. Whiting & Sons for furnishing milk to the Boston City Hospital for a period of six months:

BOSTON, September 28, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids, which were publicly opened and read at this office under date of September 27, 1920, on proposals for furnishing milk to the Boston City Hospital for a period of six months, as per specifications.

I respectfully request that this contract be awarded to D. Whiting & Sons, the lowest bidder, at 12.74 cents per quart.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Bids on milk for the City Hospital Department for six months opened September 27, 1920:

H. P. Hood & Sons, 13½ cents per quart; D. Whiting & Sons, * 12.74 cents per quart.

* Lowest bidder.

On October 3 to bidders indicated in following communication for furnishing hay, grain and straw during the month of October:

BOSTON, September 30, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids, which were publicly opened and read at this office on September 28, 1920, on proposals for furnishing hay, grain and straw to the various city departments during the month of October, 1920.

I respectfully request that contracts be awarded to the lowest bidders in the various districts as indicated on the attached sheet.

In the Brighton district no bids were received on the city's requirements for grain. I have arranged to secure prices from the various dealers for deliveries of grain in this district and will award the orders to the lowest bidders without

entering into formal contract as the amount involved will not equal \$1,000.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

On October 5 to bidder indicated in following communication for furnishing 25,000 yards of bleached absorbent gauze for the Hospital Department:

BOSTON, September 30, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids, which were publicly opened and read at this office under date of September 27, 1920, on proposals for furnishing 25,000 yards of bleached absorbent gauze and 1,000 Bellevue rolls. Since the opening of these bids the Boston City Hospital has requested this department to cancel the item of 1,000 Bellevue rolls as they find that they are fairly well supplied at the present time on this material, and, in accordance with this request, I respectfully ask permission to award the contract for the 25,000 yards of bleached absorbent gauze to the Griswoldville Manufacturing Company, the lowest bidder.

In explanation of the bids of 5 cents per yard, submitted by the New Hartford Cotton Manufacturing Company on the bleached absorbent gauze, would state that this price was submitted on a 20 by 12 gauze, whereas the Boston City Hospital specified that the dimensions should be 20 by 14.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids on dry goods for the City Hospital, opened September 27, 1920:

25,000 Yards Bleached Absorbent Gauze, 20 by 14.—Blodgett, Ordway & Webber, 6½ cents per yard (sample); Griswoldville Manufacturing Company,* 5.2 cents per yard; New Hampshire Cotton Manufacturing Company, 20 by 12, 5 cents per yard, 20 by 16, 5½ cents per yard; Hygienic Fibre Company, 5.3 cents per yard.

1,000 Bellevue Rolls, 28 by 24, 10 Yards Long.—Griswoldville Manufacturing Company,* 78 cents per roll; New Hampshire Cotton Manufacturing Company, 81 cents per roll; Hygienic Fibre Company, \$1.03 per roll.

* Lowest bidder.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without

advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.

On October 6 to the Burton-Furber Coal Company as per following communication:

BOSTON, October 2, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Burton-Furber Coal Company for furnishing approximately 500 tons of Pocahontas semibituminous coal to be delivered in lighter for the Boston City Hospital at a price of \$14 per ton f. o. b. lighter, East Boston.

This coal was bought under the priority orders under rules governed by the Interstate Commerce Commission and in view of the fact that the market price today is higher than the one quoted above, I respectfully request that the permission asked for be granted.

Very respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

On October 7 to the Northern Coal Company, as per following communication:

BOSTON, October 4, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Northern Coal Company, for furnishing two barges of approximately 3,500 tons of New River or Pocahontas coal at a price of \$16 per gross ton alongside Boston, plus demurrage charge of 10 cents per ton per day if over three days are used for discharging, extra harbor tonnage, if any, to be paid by the City of Boston. Settlement will be made on bill of lading weight. One barge is to be delivered alongside the North Ferry and the other is to be delivered alongside pumping station, Cow Pasture.

The following prices were received from different coal dealers:

Northern Coal Company, \$16 per gross ton, New River or Pocahontas; New England Coal and Coke Company, no coal; Castner, Currant and Bullett, no coal; C. H. Sprague & Son, \$16.50 per gross ton New River.

I respectfully request permission to award the contract to the Northern Coal Company, the lowest bidder as indicated above.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

FIRE DEPARTMENT ORDERS.

General Order No. 44.

I. FIRE PREVENTION DAY.

1. President Woodrow Wilson and his Excellency Calvin Coolidge, Governor of Massachusetts, by proclamation have declared October 9, 1920, Fire Prevention Day.

2. The fire loss in the City of Boston for the year ending December 31, 1919, was \$2,435,284. Approximately 80 per cent of the fires causing this loss resulted from carelessness.

3. It is important that the co-operation of the public be obtained to assist the Fire Department in removing the various causes that are responsible for the carelessness which results in fires. In order that this co-operation may be obtained the Fire Department, with the approval of his Honor the Mayor, will participate in the celebration of Fire Prevention Day in the following manner:

4. Deputy chiefs will arrange with the respective district chiefs in their divisions to consult with the masters of the schools in their divisions, and have the officers, Thursday and Friday, October 7 and 8, 1920, address the pupils of the high schools and the sixth, seventh and eighth grades in their respective districts on matters pertaining to fire prevention. A statement of the subjects to be discussed will be forwarded in a special order.

5. The rules covering fire prevention which should be followed by the public will be displayed on the screens of the various motion picture houses throughout the city.

6. There will be a Firemen's Parade at 2 p. m., Fire Prevention Day, October 9, 1920, made up of veteran firemen's organizations, members of the Fire Department on duty, the Fire Prevention Squad and the Repair Squad, together with a display of hand-drawn, horse-drawn and motor-driven apparatus of all types. In addition, all members of the force who are willing to respond from their days off are invited to participate in the parade.

7. The regulation uniform with sack coat, white shirt, white standing collar and white gloves will be worn by members of the department participating in the parade.

8. The parade will start from the corner of Arlington and Beacon streets at 2 p. m., and will pass through the following streets: Beacon, School, Washington and Summer streets to Dewey square, where a demonstration will be held of the operation of each piece of apparatus.

9. At 3 p. m., the box at the corner of Dorchester avenue and Congress street, No. 1411, will be pulled and the apparatus will respond and operate the same as at a fire.

10. The old hand machine, the steam fire engine and the motor-pumping engine will be operated in competition at the demonstration.

By order of the Fire Commissioner,

PETER E. WALSH,
Chief of Department.

TRANSFER OF HORSE.

On October 3 the Mayor approved the transfer of horse, No. 1375, from the Fire Department to the Penal Institutions Department. This horse is seventeen years old and has been in the service of the department eleven years. The veterinary surgeon of the Fire Department has certified that on account of age the horse is of no further use to the Fire Department.

OFFICE OF THE MAYOR,
BOSTON, September 24, 1920.ALEXANDER M. STEINERT, ESQ.,
Boylston Street, Boston, Mass.:

DEAR SIR,—The facts in connection with certain transactions between yourself and John A. O'Shea, Director of Music in the Public Schools, and between him and M. Steinert & Sons Company, make it undesirable in my opinion that you should longer remain an official of the City of Boston. These transactions were brought to my attention by reports of the Finance Commission, dated June 4, 1920, a communication from the School Committee, dated July 26, 1920, and a second report of the Finance Commission, dated August 13, 1920. I have examined these reports with care and have submitted the questions of law involved to the Corporation Counsel who concurs in the opinion herein expressed. The transactions referred to were as follows:

1. The sale in or about October, 1919, of a second-hand Steinway piano, owned by Mr. O'Shea, to the City of Boston. It appears to be uncontroverted that this piano was sold with your knowledge and acquiescence as the property of the M. Steinert & Sons Company and that the true facts as to its ownership were concealed from the city and its representative in the transaction, the Business Agent of the School Committee. The sale, moreover, was passed on by a committee of three School Committee employees, one of whom was Mr. O'Shea. This transaction, in my opinion, was not only a violation of the provision of section 8 of the city charter, which forbids contracts between officers or employees of the city, except after written notice to the city authorities, but was a violation of the ordinary principles of fair dealing which should govern contracts, whether between individuals or between an individual and the city.

2. The payment of \$300 by check of M. Steinert & Sons Company to Mr. O'Shea on or about December 26, 1919. This payment was made within a month of the sale by the M. Steinert & Sons Company to the city of nineteen pianos at a price of approximately \$5,000. It is intimated in the reports of the Finance Commission that it was by way of commissions to Mr. O'Shea. This is denied by you and by other officers and employees of your company, and it is stated that no commissions were paid and that the transaction consisted of a loan made personally by a salesman then in the employ of M. Steinert & Sons Company to Mr. O'Shea. This version of the story has been accepted by the School Committee. Even upon this assumption, however, I am of the opinion that the transaction was an improper one. It is obviously likely to lead to bad results for individuals or corporations having business relations with the city to advance money, direct or indirect, whether as a loan or gift, to city officials who have represented the city in such transactions and are likely to so represent it in the future.

Upon the assumption that the facts in these two transactions are as stated by you and by the witnesses on your behalf, and upon the further assumption that the city in fact sustained no financial loss in the transactions referred to, I am still of opinion (1) that these transactions constitute breaches of section 8 of the city charter, (2) that they show a lack of proper sense on your part of the

obligation which exists on all persons to act fairly and openly in their business dealings with the city and to abstain from payments to city employees or officials which do or may influence their action.

For these reasons I am constrained to request your immediate resignation as a member of the Art Commission.

Very truly yours,

ANDREW J. PETERS, Mayor.

MAYOR'S CIRCULAR.

Boston, October 5, 1920.

To the Heads of Departments:

GENTLEMEN,—In order that this office may be fully informed as to leaves of absence granted to employees, you are hereby directed to notify me of all cases

where such leaves of absence have been in excess of thirty days during the calendar year, and to report monthly additional leaves of absence to such individuals as may occur, with the reasons properly stated.

I am well aware that from time to time employees are incapacitated through injury received and sickness incurred, which merit consideration on the part of the city. I desire to impress upon you, however, the importance of exercising due care in these cases, in order that full justice shall be done to the employees and the city.

It is important that leaves of absence shall be clearly stated on the pay rolls submitted to the City Auditor.

Very truly yours,

ANDREW J. PETERS, Mayor.

SALE OF PIPE ORGAN.

On October 7 the Mayor approved the following request:

PENAL INSTITUTIONS DEPARTMENT.

Boston, October 6, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I respectfully ask permission to dispose of one pipe organ, located in the chapel of the Old Prison at Deer Island, for the sum of two hundred fifty (250) dollars. This organ was built by George Ryder in 1872 and has not been used for some little time.

Yours respectfully,

THOMAS C. O'BRIEN,
Commissioner.

CIVIL SERVICE EXAMINATIONS.

MEDICAL SOCIAL WORKERS (FEMALE),
OCTOBER 14, 1920.

Vacancies in the Boston City Hospital at a salary of \$1,000 a year open to women. Applicants must be between 25 and 45 years of age at the time of filing application, and certificate of birth must be filed with application. Applicants should possess practical social service experience, preferably along medical social lines.

The subjects of examination with their respective weights will be as follows: Training and experience (4); cases and practical questions (3); personality and fitness, as determined by an oral interview (3); total (10). Applicants will be required to obtain at least 65 per cent in experience. Successful applicants will be required to file a certificate from a reputable physician in regard to their physical condition.

STENOGRAPHIC SERVICE, OCTOBER 16 AND
OCTOBER 30, 1920.

This examination is for the service of the State and of all cities of such towns in the State as are classified under Civil Service.

Stenographers, Typists, Copyists, Recorders,
Etc.

Grade I.—Annual compensation not more than \$780 a year. This grade includes persons who obtain a mark of at least 60 per cent in accuracy of transcription with a general average in the entire examination of less than 85 per cent.

Grade II.—Annual compensation more than \$780 and not more than \$1,200 a year. This grade includes persons who obtain a mark of at least 60 per cent in accuracy of transcription with a general average in the entire examination of 85 per cent or over. Applicants who pass the examination for this grade will also be placed on the list for Grade I, if they are willing to accept a Grade I salary.

Stenographers, Secretaries, Office Correspondents, Office and Executive Assistants.

Grade III.—Annual compensation more than \$1,200 a year. Applicants who successfully pass the Grade II examination will have their experience rated and their general average for this grade computed on the following basis: Grade II examination (7); Experience (3); Total (10). They will not be placed upon the Grade III eligible list unless they receive a mark of at least 65 per cent in experience.

The same tests will be given for city service as for Commonwealth service, and persons qualifying in this examination

may have their names placed on the State list as well as on the list for any city or town.

The subjects of examination with their respective weights are as follows: Stenography (5); Rough Draft (2); Plain Copying (1); Business Correspondence (2); Total (10). The dictation is given at the following rates of speed per minute: 80, 100, 120, and 140, the dictation at each rate of speed consisting of a letter of from 300 to 350 words in length. Each applicant elects any two of the four speed tests for transcription, and is obliged to obtain at least 60 per cent in the transcription of one of these speed tests. Specimen examinations may be secured from the Civil Service office, State House. The method by which applicants are placed in grades is not that stated in the specimen examination, but that which is stated in this poster.

DRAWTENDERS AND ASSISTANT DRAWTENDERS, OCTOBER 20, 1920.

(State, Boston, Cambridge, and New Bedford.)

Subjects and weights of examination: Experience, 4; report, 1; arithmetic, 1; practical questions, 4. Physical examination.

GENERAL INFORMATION.

In certifying from the eligible lists established as a result of the examinations named above, preference will be given to veterans as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to residents of the municipality making requisition.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

In order to be entitled to receive a notice for the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding these examinations. Persons filing applications later than this date may be notified at the discretion of the Commissioner of Civil Service.

PUBLIC EMPLOYMENT OFFICE.

G. Harry Dunderdale, Superintendent of the Public Employment Office, 8 Kneeland street, Boston, reports as follows on the work of the office in September:

The month of September has been fairly active according to the records of the Boston Public Employment Office, 6 and 8 Kneeland street, increasing toward the end of the month. The first half of the month shows there were 945 orders calling for 1,366 persons, while the last half shows 1,057 orders calling for 1,867 persons,

making a total for the entire month of 2,002 orders, calling for 3,233 persons, which is an increase of 6 per cent over September, 1919, and 23 per cent over August, 1920, and is the heaviest demand for September in the history of the office. The number of positions reported filled show an increase of 21 per cent over September last year and an increase of 18 per cent over August this year.

The daily attendance of applicants for employment taken one day each week averaged 1,259, as compared with 1,085 in August, 1,135 in July, 1,112 in June, 1,288 in May, 1,223 in April, 1,229 in March, 1,138 in February and 1,360 in January.

During the month 934 service men (656 soldiers, 278 sailors) visited the office, 274 (185 soldiers and 89 sailors) were given introduction cards to employers and 116 (80 soldiers and 36 sailors) obtained employment.

In the men's skilled department mechanics of all kinds for the shipyards has been the dominant demand. The building trades have been very quiet with the exception of a fair demand for carpenters for remodeling purposes, which has been filled. There was a good demand for painters during the early part of the month, but fell off during the last two weeks. There has been a fair demand for engineers, which has been easily filled, but no demand for firemen, with a number of applicants looking for positions.

In the printing trade there has been some demand for two-third compositors, which has been filled, but there has been no demand for pressmen and feeders, with a number of applicants looking for positions. During the past month we have filled 8 positions for draftsmen at salaries ranging from \$1,800 to \$2,700 a year. There has been no demand for clerical workers, with large numbers of applicants visiting the office daily in search of work.

In the men's unskilled department there has been considerable demand for able-bodied laborers in the shipyards and establishments outside the city limits. There has been little or no demand for farmers with few applicants looking for positions. There has been a good steady demand for kitchenmen and dishwashers for hotels and restaurants, both in and out of the city. A fair demand for order cooks has been easily met. Attendants for hospitals have been in fair demand, but very few applicants for positions.

There is considerable difficulty in securing boys for errands, office and factory work. Although wages offered are above pre-war rates, they are not attractive enough to interest applicants.

In the women's skilled department there has been a heavy demand for junior workers to fill the places vacated by children who worked during the summer and have now returned to school, but the wages offered are not attractive enough for girls seeking permanent positions. There has been a good demand for waitresses, which has been filled by girls returning from the summer resorts. The early part of the month showed considerable activity for high grade clerical help, but there was a decided drop in the demand during the latter part of the month. There is a good supply of expert office workers at wages ranging from \$18 to \$30 a week. The needle trades are normal, but it is expected that there will be considerable activity within a week or two. Attendants and nurses for state institutions are in constant demand with a very small supply of applicants.

Dishwashers, kitchenwomen and pantry girls are in heavy demand for hotels and restaurants, both in and out of the city. Housework girls continue to be very scarce.

The average daily demand for help was 129 as compared with 121 in 1919; 113 in 1918, 115 in 1917, 111 in 1916 and 91 in 1915. The average daily numbers of positions filled was 68 as compared with 53 in 1919, 55 in 1918, 61 in 1917, 58 in 1916 and 66 in 1915.

BOSTON CITY CHARTER CHANGES IN 10 YEARS SINCE 1909.

First amendment, chapter 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in section 26. Second amendment, chapter 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in section 32; changing the requirement as to signatures on nomination papers to 3,000 for mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in section 53, also limiting the number of nomination papers issued to 300 for a candidate for mayor and 200 for other candidates, referring to section 54. Third amendment, chapter 37, Special Acts of 1918, annulling the jurat at end of nomination papers. Fourth amendment, chapter 94, Special Acts of 1918, abolishing recall of mayor, and making him ineligible for re-election, i. e., establishing a single term of four years, but not prohibiting the election of any mayor for other than consecutive terms.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 4, 1920.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President MORTIARTY in the chair and all the members present.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor has submitted the following appointments for terms ending April 30, 1921, viz.:

(1) Weighers of Coal: Francis X. O'Brien, 12 Navillus terrace, Dorchester; George L. Batchelder, Jr., 19 Bradlee road, Medford.

(2) John Heavey, 42 Neponset avenue, Dorchester, to be a Weigher of Goods.

Severally laid over under the law.

VETO—APPROPRIATION FOR HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1920.
To the City Council:
Gentlemen,—I am herewith returning without my signature the order of the City Council passed on September 27 appropriating the sum of \$200,000 to be expended by the trustees of the City Hospital for the Thorndike Memorial Building and the Pathological Building.

As the basis for my veto, I shall direct your attention to the following sentences in my veto of a similar order on September 8:

"In the second place, there remains unappropriated at the present time only \$500,000 debt incurring power. With five months of the current year still to cover, it would be exceedingly unwise for the city to appropriate for the purpose mentioned a sum as large as that suggested, for it is at all times necessary for the city to retain a debt incurring power adequate to meet any emergency which may arise."

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—LICENSES TO STORE OIL.

The following was received:

City of Boston,
Office of the Mayor, September 28, 1920.
To the City Council:
Gentlemen,—I am herewith returning without my signature the order passed by the City Council on September 27 disapproving the granting of a license for the keeping, storage and sale of gasoline by the Michigan Tanning and Extract Company on the premises at the corner of East First and P streets, and the order passed by the City Council on September 27 disapproving the granting of a license for the keeping, storage and sale of 20,000 barrels additional of gasoline by the Jenney Manufacturing Company on the premises at West First and D streets.

In returning these orders without my signature, I in no way indicate whether I favor or disapprove the granting of the licenses in question. I do not wish to pass on this question until the Board of Street Commissioners, the body charged with the duty of passing on matters of this kind, has expressed its official opinion either by voting in favor of the granting of the licenses or by disapproving the issuance of such permits. In the former case the permit will come to me for my formal action.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

ARTHUR A. HARTNETT SQUARE.

Coun. COLLINS offered an order—That the space at the junction of Austin, Washington, Chapman and Lynde streets, Charlestown, be named and known as Arthur A. Hartnett square, in honor of said Hartnett, who died in the service during the World War, and that said space be suitably marked by signs.

Passed, under a suspension of the rule.

SCOTT C. CAMPBELL SQUARE.

Coun. COLLINS offered an order—That the space at the junction of Harvard, School and Thane streets, Dorchester, be named and known as Scott C. Campbell square, in honor of said Campbell, who fell in action July 19, 1918, at Belleau Wood, France, fighting for the cause of freedom, and that said place be suitably marked with signs.

Passed, under a suspension of the rule.

INFORMATION ASKED ON BOSTON HOUSING.

Coun. HAGAN offered an order—That the City Planning Board, through his Honor the Mayor, be requested to furnish the City Council with information on the following subjects:

1. To what extent does a shortage exist in housing facilities in the City of Boston at the present time?

2. Have conditions improved or become more acute in the last six months?

3. In the absence of the investment of private capital what, in the opinion of the Board, can the city do to relieve the situation?

Coun. HAGAN—Mr. President, I move a suspension of the rule for the passage of the order. The object of the order is to get the facts, determine the real situation, if possible, as relates to housing conditions in Boston today. I read in the papers but a few days ago a communication from some official connected with the Mayor's Housing Committee, in which he gave the public to understand that the critical period had passed, that there was no acute condition today; but I imagine that anybody who read that article must have been highly amused, for conditions are absolutely just the reverse. They are not at all pleasant to fifty thousand or more people in this town, who have been residents of this city and who want to

move within the confines of municipal Boston, and who are unable to get any housing facilities. I have been personally looking into this matter with considerable care. I think it is most acute, and yet we are assured that there is no acute condition existing. The City Planning Board ought to be in a position to have this information and to give it direct and without prejudice to the City Council and the public. The City Council sometime ago asked the Mayor to take advantage of a legislative act and do something to really deal with the situation, but the Mayor, after getting a report from his Corporation Counsel, took the position that he could not and would not do anything. In short, anyway, nothing has been done, and nothing is being done by the city government of Boston to relieve the situation. The City Council is in itself powerless to do anything without the hearty co-operation and effort of the Mayor. We know that private capital is adverse at the present time to investing in building, because of the high cost of labor and materials. Now, if private capital is not going to invest in building, is not forthcoming, rent profiteering is going to increase, and I assure you that there is going to be a pretty critical condition in this community, with exorbitant rentals being asked for anything that can be called a human habitation. There is absolutely no limit to what is being asked for and being paid for tenements. I personally know of people who are willing to renovate and put in new heating apparatus in certain homes with the purpose of getting a home for themselves. I have investigated and found out that people who were paying about \$30 a month under normal conditions have been advanced in three-family flats to \$75 a month. People who live in three-family houses, as a rule, are not equipped financially to spend \$65 to \$75 a month; and yet they have to do so or vacate, in which event they don't know where to go and have no place to live. I have had one particular case brought to my attention in the Roxbury district, of a three-family house, assessed for \$6,500, the rentals from which today are \$210 a month, or an income upon which the house should be assessed by the assessors for \$21,000. If these landlords can take advantage of conditions in that way, simply because the demand exceeds the supply, the City of Boston, through the Assessing Department, has a weapon in its hands enabling it to go ahead and assess those landlords on a valuation based on their return from the property. In that way we will get a better return from our assessments on real estate, so that instead of having a tax rate of \$24 or \$25 on a thousand the tax rate would thereby be automatically reduced to \$18 on a thousand. It is time for action. I think every effort should be made by the Mayor and the officials of the Mayor's Housing Committee to get rid of buncombe and get right down to cold facts, ascertaining what we can do and doing what we can.

The order was passed under suspension of the rule.

A QUESTION OF PRIVILEGE.

Coun. WATSON—Mr. President, I rise to a question of personal privilege.

President MORIARTY—If there is no objection, Coun. Watson may proceed.

Coun. WATSON—Mr. President, an incident occurred within twenty-four hours concerning me which has brought forth much unpleasant notoriety. In view of the fact that much unpleasant publicity has been given to it, and in view of the fact that much contained in a published article is imagination and the creation of the brain of the writer, I take it to be my duty to myself, my colleagues and my family to make a statement here today. If it were not for the regard, respect and love I have for my good wife, in all probability I would let it pass unnoticed, in view of the fact that it is in line with the conduct of the Boston Post towards me for some years past—that of malicious and bigoted prejudice and feeling. I say this advisedly, having in mind that the owner and proprietor of the Boston Post is a gentleman who would not countenance the use of his paper, with its great circulation, for the purpose of satisfying the malice and spite of some of his subordinates. It is unfortunate that Mr. Grozier lies ill at home, attended by the ablest physicians and specialists, and with the finest medical treatment that his wealth can purchase, surrounded by capable nurses. My heart goes out to him, and my heart goes out also to my good wife, who is situated likewise, and who, because of the unnecessary and extended publicity given a minor incident in the Boston Post this morning, is suffering. I am informed by my physician that it will have considerable effect on her recovery. I have written a letter to Mr. Grozier, asking him if he approves of the conduct of the newspaper he owns in giving vicious, unnecessary, malicious and unlimited publicity to a minor incident, merely for the purpose of hurting me through another. It hurt me much, but hurt some one else more. I would not refer to it as having hurt another or myself if the Boston Post man in charge was not aware of the danger or the probability of serious danger in giving this great publicity to a minor incident. Fellow members of this body, if every man in Boston averaged up to my standard, so far as conduct as a citizen is concerned, there wouldn't be very many bad people in Boston. I am just an average man, and I have the average man's failings. In conclusion,

in view of the fact that the Boston Post article said that the charge preferred against me was not given to the Press, I desire to say that I was taken to the police station—or I went, rather, to the police station—for being present where a game of bridge was being played. In closing, I will make just this one statement. Referring to the people who pen such articles in the newspapers, taking advantage of a man in public life who has the courage of his convictions and who says sharp things at times, if their closets were as clean as mine they would not have to blush when they printed things intended to reflect on honest, decent, truthful, good living men. I have had my say. I would not say a word today except that I am glad to draw this matter to Mr. Grozier's attention through the records of this body. I want to give my thanks to the other Boston morning newspapers who knew the circumstances, knew the incident, but considered it of little value as a news article and did not use it.

SIDEWALK, CORWIN STREET.

Coun. DONOGHUE offered an order—That the Commissioner of Public Works make a sidewalk along Corwin street, westerly side, Ward 18, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

APPROPRIATION FOR CITY HOSPITAL.

Coun. DONOGHUE offered an order—That the sum of \$200,000 be appropriated, to be expended by the trustees of the City Hospital, as follows, viz.:

Thorndike Memorial Building, \$150,000, Pathological Building, \$50,000, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Coun. DONOGHUE—Mr. President, I move a suspension of the rule and passage of the order. In view of the fact that the Mayor has seen fit to veto this order for the second time, giving such weak and senile reasons for the same, I reintroduce the order, hoping it will prevail, for the purpose of calling to his attention the fact that the Boston City Hospital, in my opinion, and in the opinion of the great majority of the citizens of Boston—a place that belongs to the people, is their hospital, a place for those who are ill and sick, where they can be restored to health—is better entitled to such an appropriation than some other purposes for which money has been appropriated since this order was first introduced. The fact that the Mayor says there is but \$500,000 left in the appropriation is inconclusive. That, to my mind, is a sufficiently large item to care for any needs that may arise in this city in the next five months. I want to call to his attention—if it is possible for him to stay on the job as Mayor of this city of ours long enough to let any thought reach his brain—the fact that the people of the city, if a conflagration or emergency of any nature should occur, would be only too glad to do what they could to relieve the condition when it confronted us and the mere bugaboo that we need a certain amount in this fund for any emergency that may possibly happen, to my mind is a very ridiculous argument. In view of the fact that the trustees of the Boston City Hospital, as late as March of this year, said there was urgent need of a pathological building and urgent need that the Thorndike Building be completed, I feel that we owe it to the City of Boston to see that the order for this amount is sent back to the Mayor again, to see if he will sign it this time, the same as he expects the Council to approve of matters that he sends into us more than one or two times. When he sends in a message to us for the second or third time—I have seen it take place in the Council—it has been met by a different attitude than when it was first presented, and possibly the Mayor may see the wisdom of signing this order. I hope that he will.

Coun. COLLINS—Mr. President, three weeks ago when this matter came before us for our consideration a second time I stated that I was opposed to the order because I believed it was, in the first place, a waste of the Council's time to pass it, on account of the Mayor's attitude; second, on account of the borrowing capacity of the city being so low; and third, because of the fact that in all probability the work would not be done this year. I shall vote the same way this time—no.

Coun. HAGAN—Mr. President, the last time this order was presented in the Council, believing that the Mayor might change his mind, I voted for the order when it was offered by Coun. Donoghue. Now that the Mayor has vetoed it twice I think it is a waste of time and energy on the part of the Council to continually send the same thing to the Mayor, something that we know he will veto and that is foredoomed to failure. Therefore, I shall vote against it.

Coun. DONOGHUE—Mr. President, I just want to call the attention of the councilors who

are voting against this order, and particularly the one opposite (Coun. Collins), to the fact that, in spite of the fact that, as he says, the appropriating power of the city is low at the present time, he has within a few weeks voted in favor of the appropriation of a similar amount, about \$200,000, for other purposes; and I feel that the City Hospital is of more importance to the great majority of the people of this city of ours than any other proposition that has come into the Council this year. I feel that it is for the best interests of the city that this order should be passed by the Council, whether the Mayor vetoes it or not. I want to say here and now that, so far as I am personally concerned, I am not going to vote for any other appropriating orders introduced by his Honor the Mayor until such time as he signs this order.

Coun. COLLINS—Mr. President, I would respectfully ask, through the Chair, that Coun. Donoghue name the orders aggregating \$200,000 of the city's borrowing capacity that I have voted for within the last two weeks.

Coun. DONOGHUE—Mr. President, he voted for the transfer of \$160,000 from a \$400,000 appropriation and also for \$65,000 in addition to that. He has done that in the last two or three meetings.

Coun. COLLINS—Mr. President, if Coun. Donoghue cannot distinguish the difference between a transfer and an appropriation from the tax levy or by loan, I cannot help him. The fact is, as we know, that \$200,000 was voted for this purpose by this Council, to be taken from the borrowing capacity of the city, within the past few weeks, in face of a veto of a similar order by the Mayor. That was my reason for voting against the order at that time, and particularly in view of the fact that the work would not be done this year, anyway.

Coun. FORD—Mr. President, I have always agreed with Coun. Donoghue on this appropriation, but I cannot see any value in sending it back to the Mayor for the third time. I voted to send it twice, hoping that he might change his mind, but it appears that he has not. I vote "no" now because I cannot see any value in sending it back for a third time, although I feel with Coun. Donoghue that if \$200,000 could be appropriated for the hospital and there was even a faint hope of getting it through, I would vote "yes." But I feel that we would be merely cluttering the records in sending it back once more, and I think Coun. Donoghue really agrees with me, so far as any hope of its passage is concerned.

Coun. WATSON—Mr. President, it looks like a stack of cards being knocked over, as far as the position of members on this side of the chamber is concerned. My position is like Coun. Ford's. I voted for this twice, and if I thought there was one chance in a thousand I would vote for it again. But I think the chances are a million to one that it will not be signed by the Mayor. I believe the proposition is a good one. I respect the earnestness of the gentleman who introduced it and I admire him for his persistence, but I am compelled to vote against it.

Coun. BRICKLEY—Mr. President, the gentlemen on the opposite side were very strict in standing by the Mayor's appropriation when he sent it in on Station 2. That seemed to show what sort of men they were. They seem to be weakening now on the proposition of Coun. Donoghue. I don't know why. I know, for myself, that I shall vote for the \$200,000 for the City Hospital.

Coun. DONOGHUE—Mr. President, I simply want to say, regardless of what excuses or alibis may be given for not talking for this proposition, or for changing their votes upon it, that the fact remains that it is the same proposition now that it was when it was first introduced—an appropriation of money for a specific purpose, to meet the needs of the Boston City Hospital. Of course, if any of the councilors have decided to change their votes on this particular order, and care to do so, that is their lookout. But, as far as I am concerned, I want to say that, so far as there has been any great amount of cluttering of the records since I have been a member of this Council, it has been done by the other members of the Council who are opposed to this proposition rather than by those who favor it. As far as the talk about the possibility of the Mayor vetoing the order again is concerned, that has no bearing on my position. If I think an order is right I shall vote for it, whether the Mayor vetoes it or anything else happens. That does not make a particle of difference to me. Once I think I am right, I am going to go through.

The rule was suspended and the order was rejected, yeas 4, nays 5.

Yeas—Coun. Brickley, Donoghue, McLaughlin, Moriarty—4.

Nays—Coun. Collins, Ford, Hagan, Lane, Watson—5.

SIDEWALK, ANAWAN AVENUE.

Coun. BRICKLEY offered an order—That the Commissioner of Public Works make a sidewalk on the easterly side of Anawan avenue, West Roxbury, from Park street to Bellevue Station, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

RECESS TAKEN.

The Council voted at 2.58 p. m., on motion of Coun. HAGAN, to take a recess subject to the call of the President.

The members reassembled in the Council Chamber and were called to order by the President at 4.47 p. m.

In connection with the above the following letter was ordered printed, viz.:

77 Kilby Street, Boston, September 29, 1920.

Hon. James T. Moriarty,
President Boston City Council:

Dear Sir,—At a meeting of the representatives of the citizens of East Boston, who are opposing the location of tracks of the East Boston Freight Railroad, they requested I should write your honorable body for an immediate decision in connection with this location.

Will you kindly refer this matter to your body for action?

Yours truly,
P. J. LANE.

FRANK S. DELAND,
Collector of Taxes for the City of Boston.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public, are hereby notified that the taxes and assessments thereon severally assessed for the years hereinafter specified, according to the lists committed by the assessors of taxes of said city to me as collector of taxes for said city, including assessments for the suppression of gypsy and brown-tail moths, remain unpaid, and that the smallest undivided part of said land sufficient to satisfy said taxes and assessments, with interests and all legal costs and charges, or the whole of said land if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, on the second floor of the City Hall Annex on Court street, in said City of Boston, on Wednesday, October 27, 1920, at 9.30 o'clock a. m., for the payment of said taxes and assessments, with interests, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several parcels of land show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said parcels of land is to be sold, but not including the cost and interests thereon and costs and charges incident to this sale:

Collector of Taxes for the City of Boston.

MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasia have been resumed at the various municipal buildings.

The following buildings have gymnasia and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.
Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.
Cabot Street Gymnasium and Swimming Pool.—Roxbury.
Vine Street Gymnasium.—Corner Vine and Dudley streets.
Dorchester Gymnasium.—Corner Columbia road and Bird street.
Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.
Ward 5 Gymnasium.—Corner Tyler and Oak streets.
D Street Gymnasium.—South Boston.
North Bennet Street Gymnasium.—North End.
Paris Street Gymnasium.—East Boston.
Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasia where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasia.

Basketball is permitted in certain gymnasia on the part of those who participate in class work.

Æsthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls; and at 7.30 for working girls.

Tuesday and Friday.—High school boys from 2.30 to 5 p. m. Men from 7.30 to 9.30 p. m.

Saturday.—Grammar school boys from 2 p. m. to 4 p. m. Working boys from 7.30 to 9 p. m.

AID TO THE UNEMPLOYED IN BOSTON.

Boston one of the first—if not the first—of American cities to open municipal free lodging houses for persons out of work and temporarily homeless.

Temporary Home (for destitute women and children) opened in 1870; Wayfarers' Lodge (for men), in 1878. Total number of cases of aid to men in year 1918-19, 14,782; of women and children, 1,548. Less than 5 per cent of men aided have legal settlement in Boston; about 45 per cent are recorded as foreign-born. Work in woodyard required for meals furnished to men.

State Free Employment Office in Boston, established in December, 1906. Number of applications reported filled in year 1918, 18,125, of which 10,319 were for unskilled labor, 5,635 for skilled labor, 1,314 for mercantile positions and 683 for office clerks. Weekly average of persons called for by employers, 570. Annual cost of maintenance about \$23,000.

BOSTON NOTES.

SPECIAL LEGISLATIVE ACTS OF 1919
RELATING TO BOSTON.

Chapter 23, approved February 19, abolishing the reserve police force; chapter 32, approved February 19, requiring the registration of all hospitals with the Building Department annually in April, that the utmost precaution against fire may be assured, violation of act punishable by fine not exceeding \$500; chapter 55, approved February 28, providing that laborers, when pensioned at retirement, shall be allowed one half of final year's salary annually; chapter 87, approved March 20, enlarging the powers of the Board of Art Commissioners by placing under their exclusive control all works of art owned by the city; chapter 93, approved March 20, concerning annuities payable to families of deceased policemen and firemen; chapter 116, approved April 2, authorizing the Public Library Trustees to hold bequeathed or donated property to an amount not exceeding \$10,000,000, etc.; chapter 136, approved April 16, concerning the extension of death benefits of the Boston Police Relief Association; chapter 145, approved April 18, concerning the construction and maintenance of Dry Dock avenue on Commonwealth land in South Boston; chapter 155, approved April 24, amending law relating to the inspection of buildings by Building Department; chapter 156, approved April 24, amending regulations as to size, etc., of structures on the roofs of buildings; chapter 163, approved April 30, concerning the construction, alteration and regulation of hospitals in Boston, with penalty of a fine not exceeding \$500 for violation; chapter 168, approved May 7, changing the date from April 30 to June 1 for the annual listing of officials and employees of the city; chapter 172, approved May 9, authorizing for 1919 (as in 1918) a raise in tax limit of \$3 on each \$1,000 of valuation, \$2.34 for municipal purposes and 0.66 for street repair and reconstruction, the effect of which act was to allow the 1919 budget to be increased by \$4,556,817; chapter 132, approved April 9, increasing the maximum pension of retired school janitors and attendance officers from \$360 to \$500; chapter 188, approved May 29, concerning removals, suspensions and transfers in the Police Department; chapter 199, approved June 10, providing for the construction and furnishing of a building for the Public Latin School, for which the School Committee may appropriate not exceeding \$750,000; chapter 206, approved June 14, permitting appropriations of School Committee to extent of \$5.38 on each \$1,000 of valuation in 1919 and \$5.68 in 1920 and thereafter, the tax limit to be raised for said purpose \$0.88 in 1919 and \$1.18 in 1920 and thereafter [this Act subject to acceptance by Mayor and City Council, except that a four-fifths majority of the School Committee overrules them].

MAYORS OF BOSTON.

In its 97 years of existence as a city Boston has had 36 elected mayors and five *ex officio* acting mayors. Of the 36 men who have held the office for one year or more, five were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England states, 5; in Ireland, 2. The mayor longest in office was Mayor Lin-

coln, who served 3 years ending 1860 and then 4 years ending 1866. Next in length of service were the first Mayor Quincy and Mayor Fitzgerald, who served 6 years each. Those who served 4 years were Mayors Prince, O'Brien, Matthews (third), Quincy, Hart and Curley. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second), Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five acting mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, United States Representative and United States Senator before becoming mayor. Mayor Armstrong was Lieutenant-Governor and at times acting governor before serving as mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as governor, after their terms as mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

STREET COMMISSIONERS.

July 22, 1920.

Ordered, That due notice be given that this Board is of the opinion that, in said city, a public improvement should be made, consisting of the laying out and construction of Whitten street, Dorchester district, as a highway, easterly from Dorchester avenue, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said improvement, and that it appoints 11 o'clock a. m., of August 4, 1920, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, *Secretary*.

October 4, 1920.

Ordered, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Whitten street, Dorchester, as a highway, from Dorchester avenue to Althea street, under the order of the Board of even date herewith, and awards no damages therefor.

Ordered, That this Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it; said estates are shown on a plan marked "City of Boston, Whitten street, Dorchester, Assessment Plan, July 23, 1920, F. O. Whitney, Chief Engineer, Street Laying-Out Department," on file in the office of said department.

Ordered, That this Board, having passed the order of notice recorded on page of its records for the current year, relating to the public improvement hereinafter described, and having caused a copy of said order to be published September 17 and 18, 1920, and September 20 and 21, 1920, in the *Boston Globe* and the *Boston*

Transcript, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making in said city of the public improvements, shown on a plan, marked "City of Boston, Extension of Fargo Street, South Boston, October 7, 1919, F. O. Whitney, Chief Engineer, Street Laying-Out Department," deposited in the office of the Street Laying-Out Department of said city, and named, bounded and described as follows:

An extension of the highway named Fargo street is hereby laid out from C street to B street and ordered constructed. Said extension of said highway as hereby laid out is bounded: Southeast by C street, fifty feet; southwest by the southwesterly line of said extension of Fargo street as hereby laid out four hundred sixty-five and $\frac{87}{100}$ feet; northwest by B street fifty feet; and northeast by the northeasterly line of said extension of Fargo street as hereby laid out four hundred sixty-five and $\frac{87}{100}$ feet.

Approved October 8, 1920.

October 4, 1920.

Ordered, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of an extension of Fargo street, South Boston, as a highway, from C street to B street, under the order of the Board of even date herewith, and awards no damages therefor.

Ordered, That this Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it; said estates are shown on a plan marked "City of Boston, Fargo street, South Boston, Assessment Plan, September 17, 1920, F. O. Whitney, Chief Engineer, Street Laying-Out Department," on file in the office of said department.

LAND TAKING FOR SCHOOL-
HOUSE.

On October 11 the Mayor approved the following:

Boston, October 8, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Edmund P. Tileston School District, Mattapan, bounded and described as follows:

Beginning at a point on the easterly corner of Hebron and Oakland streets, thence northeasterly by line of Hebron street 100 feet to land of Johansen; thence turning and running southeasterly by land of Johansen 110 feet; thence turning and running northeasterly by land of Johansen and Moody 80 feet to land of Moody; thence turning and running southeasterly by land of Moody 100 feet to the line of Kennebec street; thence turning and running southwesterly by line of Kennebec street 210 feet to line of Oakland street; thence turning and running northwesterly by said line of Oakland street 210 feet to the point of beginning; and contains 29,800 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding eminent domain for carrying out the same.

Respectfully,

J. P. LOMASNEY,
Chairman, Schoolhouse Commission.

Boston, October 1, 1920.

MR. FRANK V. THOMPSON,
Superintendent of Public Schools:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Edmund P. Tileston School District, Mattapan, bounded and described as follows:

Beginning at a point on the easterly corner of Hebron and Oakland streets, thence northeasterly by line of Hebron street 100 feet to land of Johansen; thence turning and running southeasterly by land of Johansen 110 feet; thence turning and running northeasterly by land of Johansen and Moody 80 feet to land of Moody; thence turning and running southeasterly by land of Moody 100 feet to the line of Kennebec street; thence turning and running southwesterly by line of Kennebec street 210 feet to line of Oakland street; thence turning and running northwesterly by said line of Oakland street 210 feet to the point of beginning; and contains 29,800 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and Acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

J. P. LOMASNEY,
Chairman, Schoolhouse Commission.

FRANK V. THOMPSON,
Superintendent of Public Schools.

PARADE OF POLICE.

BOSTON, October 9, 1920.

To the City Council:

GENTLEMEN,—The members of the Police Department of the City of Boston will have a parade on Tuesday, October 12, Columbus Day. I have been asked to review the parade from the reviewing stand in front of City Hall, and I hope it will be possible for the members of the City Council to be present with me on the stand on this occasion.

I have noticed that on several occasions recently no members of the City Council have been on the stand to review parades with me. I wish to impress on the City Council at this time the fact that the members are always welcome on the stand and I hope they will always avail themselves of the opportunity to review parades.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Mayor Peters on October 14 made the following statement in connection with the registration of voters:

"It is unfortunate that so many citizens who desired to vote in the coming election in November were unable to register last night, but those who were unable to do so should bear in mind that the city was powerless to extend the time of registration after 10 o'clock last night. According to statute registration has to cease at that hour. I had several times called the attention of the public to the fact that registration for the state election closed on Wednesday, October 13, at 10 p. m., and I urged everybody to register at the earliest possible moment in order that no one would be disappointed.

"The citizens of Boston have had more than two months in which to register and those who were disappointed at the last moment in getting their names on the voting lists have only themselves to blame. It is obviously a human impossibility for the city to make provision for an indeterminate number of citizens who put off doing until the last moment what they had ample opportunity to do over a period of two months. It is, of course, very unfortunate that anyone should by reason of the operation of the law find themselves unable to vote at the presidential election, and I hope that their experience will serve as a warning to others in registering for the city election which is held in December. Registration for this election will begin on November 3 and continue until 10 p. m. on November 24, and I wish to urge everyone to register not on the last two or three days, but as soon as possible when registration opens. If this is done there can be no possibility that anyone will be disappointed at the last moment."

MAYOR'S REPLY TO THE FINANCE COMMISSION.

BOSTON, October 14, 1920

HON. M. H. SULLIVAN.

Chairman Boston Finance Commission:

DEAR SIR,—The report of the Finance Commission dated October 13 is at hand.

As the commission is aware the memorandum to which it endeavors to reply in its report has never had the status of an official statement. It was simply an accurate statement of the facts prepared for my personal information.

Very truly yours,

ANDREW J. PETERS, Mayor.

FINANCE COMMISSION.

BOSTON, October 13, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—On September 18, 1920, the Boston *Herald* published an editorial entitled "The Mayor's Reply to the Finance Commission." This editorial dealt with an alleged "reply" by your Honor to the report of the Finance Commission, dated August 24, 1920, accompanying a detailed study of the general street conditions in Boston as of July 1, 1920, made by the consulting engineer of the Finance Commission.

Your Honor recently informed this commission in writing that you never made or issued any such reply, but you have never publicly repudiated the statements attributed to you in the Boston *Herald's* editorial.

The Finance Commission assumes that you take the responsibility for the statements attributed to you in this editorial, at least so far as the public is concerned, and therefore replies to it as follows:

The *Herald's* editorial represents you as saying that when you took office "only

one radial highway was fit to travel over," namely, Commonwealth avenue, and that today all the radial highways, with two exceptions, are in good condition. The records of the Public Works Department and the investigations of the Finance Commission show conclusively that when you took office not only were there many radial highways that were fit to travel over, but some were in excellent condition and many were in fairly good condition. Among these are the following:

In the East Boston District: Meridian, Chelsea and Bennington streets.

In the South End, Roxbury and Back Bay Districts: Hampden street, Blue Hill avenue, Dudley street, Warren street, Humboldt avenue, Washington street, Columbus avenue, Brookline avenue and Centre street.

In the West Roxbury District: Hyde Park avenue, Belgrade avenue, South street, Walter street, Spring street and portions of Centre street.

In the Brighton District: Tremont street, portions of Cambridge street, Western avenue and Market street.

In the Dorchester District: Washington street, Blue Hill avenue, Adams street,

Neponset avenue, Morton street and Columbia road.

In addition to the radial highways there were many important cross-town thoroughfares, of only secondary importance to the radial highways, that were in good condition, but which are now in a deplorable condition.

The Public Works Department records show also that since your Honor took office no repairs at all have been made on many of the above-named streets, and that a majority of them have had but slight, temporary repairs. The deterioration of many of these streets and their condition today is due to neglect in proper maintenance during the past two and one half years.

You are further quoted as stating that Dorchester avenue is among the highways constructed under your administration. Here again the records of the Public Works Department show that Dorchester avenue, so far as done, has been paved in several sections, all prior to your coming into office, with the exception of three sections, one of which had to be done in connection with the construction of the Dorchester Tunnel, and was provided for before your administration began.

The same is true of Norfolk street, Dorchester, which was laid out in 1916, and work actually begun July 13, 1917. The foregoing facts about these two streets are typical of the claims attributed to you in the *Herald's* editorial.

To the Finance Commission's recommendations that "only machine mixed, bituminous sheet pavements of the best quality" be used, and that "water-bound macadam and bituminous macadam constructed by the penetration method" be abandoned, your Honor's alleged reply is "that policy is exactly what has been followed" throughout your administration, except in a few residential streets of very light traffic.

The published report of the Public Works Department for 1918, which is the latest one available, shows that the work of the day labor force for that year was devoted almost exclusively to resurfacing streets with macadam, including the bituminous variety, constructed by the penetration method. The work of this force in 1919 and 1920 on many streets that were neither residential nor light traffic streets followed the same inefficient and costly method.

The Finance Commission reiterates its belief in the necessity of machine mixed, bituminous sheet pavements of the best quality and also its belief that this character of pavement will never be obtained in the most economical way until this city is adequately equipped with its own asphalt mixing plants.

Your Honor is credited with having said that a special committee appointed by you more than two years ago studied the entire street problem and made recommendations, which have now been practically carried out, and that you had always supposed the Finance Commission approved of those recommendations. The Finance Commission presumes that the committee which your Honor had in mind was the one appointed by yourself in May, 1918, to advise you what streets should be constructed in 1918 and paid from the proceeds of an increase of \$1 in the tax rate for that year for "constructing and repairing streets by contract," and also to give an "approximate estimate of the cost."

The Finance Commission made no objection to your Honor appointing such

a committee, nor did it object to the eighteen streets selected by that committee for reconstruction and repair in 1918. It did thereafter, however, criticize the waste and lack of economy in improving the streets named by this special committee. (See Finance Commission's Reports, volume XIV., pages 163, 172, 174, 180, 183.)

The opposition made by this commission before the Legislature in 1919 to the amount of money that your Honor requested for street purposes was based on the fact that the amount requested could not be economically expended by the Public Works Department. Time has justified this opposition. Not only has the work of the Public Works Department been wasteful and inefficient, but it has never been able to spend all the money that has been appropriated for street construction in any one year since your administration began.

It will continue to be impossible for the Public Works Department to expend economically all of each year's appropriation for street construction and repair, unless the larger and more important contracts are made and work under them begun before the summer is gone. The late fall and early winter can hardly be defended as a proper time for laying asphalt in street construction. Moreover, late fall and early winter street construction would not be necessary if the Public Works Department abandon the notions that it apparently has, that only a few contractors are to do the city's business and that only day laborers are to be relied upon for street repairs.

A point which your Honor has missed, apparently, in the recommendation of the Finance Commission is that a greater portion of the money appropriated for street purposes should be used in repairing radial highways and suburban streets than has been used in the three years of your administration.

Respectfully submitted,

THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

STATEMENT BY MAYOR PETERS ON THE PARADE OF THE POLICE DEPARTMENT.

Boston should be proud of its Police Department. The parade October 12 gave us all a better idea of the fine type of men who compose the force, and of the high spirit of public service which pervades it. I cannot too cordially congratulate Commissioner Curtis, Superintendent Crowley, the officers of the department and every member of it. Boston is fortunate in being able to entrust its protection to this splendid organization of men.

Salary is \$2.50 per session. Applicants should be competent to teach the grammar school branches up to the eighth grade. The subjects of examination with their respective weights will be as follows: Experience, 6; personality, as determined by an oral interview, 4; total, 10. Applications must be filed on or before October 29. Experience sheets will then be mailed to applicants and subsequently those who receive at least 65 per cent in experience will receive notification to appear for the oral interview. Successful applicants will be required to file a certificate from a reputable physician in regard to their physical condition.

**CIVIL ENGINEERING SERVICE, CLASS 27,
NOVEMBER 8, 1920.—CIVIL ENGINEERS**

Grade A.—Engineering assistants, drafting assistants, and rodmen, who perform under instruction and supervision elementary or apprentice work in the field or office.

It is *prima facie* evidence that a position in Class 27 is not in Grade A if the salary is less than \$720 a year or more than \$1,079 a year.

Qualification: The successful completion of not less than one year of training in an engineering course at an institution or college of recognized standing, or not less than one year of practical experience in field engineering or office work.

Subjects and weights: Experience (4); mathematics (6); penmanship (1); tracing (3); drawing, or questions on the duties of the position (6); total (20).

Grade B.—Senior engineering, assistants, instrumentmen, and draftsmen (a) who assume responsibility for the execution of definite instructions in a minor division or section of engineering activity; or (b) who direct, under supervision, the operation of minor engineering projects.

It is *prima facie* evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,559 a year.

Qualifications: If appointed by promotion, not less than one year of service in Grade A. If appointed otherwise than by promotion from Grade A, at least two years of practical experience in engineering work of Grade A character and standard; or such training in civil engineering as is evidenced by a professional degree granted on the completion of a standard course of instruction at an institution or college of recognized standing; or the successful completion of not less than two years' study in such institution, plus one year's practical experience in engineering work.

Subjects and weights: (Instrumentmen.) Experience (16); penmanship (2); plotting (6); questions on duties (8); mathematics (8); total (40). (Draftsmen.) Experience (16); drawing (7); mathematics (6); duties (4); plotting (4); tracing (3); total (40).

Grade C.—Assistant engineers, assistant civil engineers, and designing engineers: (a) who assume responsibility for the direction of surveys, the preparation and examination of, or advice upon, plans, designs and specifications for a minor section of a large engineering or a major section of a small engineering project; (b) who supervise or inspect the construction or the operation of work on such a project; or (c) who operate a completed section of such a project; or (d) who make investigations of, and reports upon, such engineering projects as a basis for a report by an engineering superior.

It is *prima facie* evidence that a position

in Class 27 is not in Grade C if the salary is more than \$2,339 a year.

Qualifications: If appointed by promotion within a department or major division thereof, not less than two years of service in Grade B, or, if appointed otherwise than by promotion from Grade B, within a department or major division thereof, at least five years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch of engineering work covered by the position; provided that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of three years of practical experience.

Subjects and weights: Experience (10); design (2); mathematics (2); questions on materials and methods of construction (3); engineering theory (3); total (20).

Grade D.—Senior assistant engineers, senior assistant civil engineers, and senior designing engineers: (a) who supervise and assume complete responsibility for the work of a main division of an engineering organization, involving the direction of surveys and design and construction; or (b) who maintain and operate the major section of a large engineering project; or (c) who make independent investigations of and reports upon engineering projects as a basis for executive, administrative, or judicial action; or (d) who take charge of a large engineering department in the absence of the chief engineer; or (e) who give advice on large or complicated engineering projects which may involve the preparation of plans.

It is *prima facie* evidence that a position in Class 27 is not in Grade D if the salary is more than \$3,599 a year.

Qualifications: If appointed by promotion, within a department or major division thereof, not less than three years of service in Grade C. If appointed otherwise than by promotion, within a department or major division thereof, at least eight years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch covered by the position, and two years of which shall have been in an executive capacity; provided, that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of four years of practical experience.

Subjects and weights: Experience (24); questions on materials and methods of construction (5); engineering theory (5); design (6); total (40).

Grade E.—Engineers and chief engineers: (a) who perform duties which require the highest order of executive or advisory ability and specialized engineering knowledge and ability and which involve the making of decisions in administrative and engineering matters subject to statutory limitation only; or (b) who supervise and have complete responsibility for the work of a department or a large independent bureau of a department; or (c) who supervise the design and construction of engineering projects or works of great magnitude and complexity; or (d) who give independent expert or critical engineering advice of the highest order as a basis for executive, administrative, judicial or legislative action; or (e) who investigate independently and report upon large engineering projects.

It is *prima facie* evidence that a position in Class 27 is not in Grade E if the salary is less than \$3,600 a year.

Qualifications: If appointed by promotion, not less than four years of service in

Grade D. If appointed otherwise than by promotion, at least twelve years of practical experience in engineering work, at least one-half of which shall have been appropriate to the particular branch of engineering covered by the position, and four years of which shall have been in a major executive capacity; provided, that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of four years of practical experience.

No examination will be held for Grade E at this time. Whenever a vacancy occurs in this grade it will be duly advertised and all information regarding salary, duties, subjects and weights of examination, etc., will be stated.

**MATE AND PILOT, BOSTON INFIRMARY
DEPARTMENT, OCTOBER 29, 1920.**

Salary is \$1,500 a year and board. The examination is to consist of a statement of training and experience, the possession of the requisite license, and a physical examination. The date given above is the date on or before which applications should be filed, and experience sheets will be mailed immediately thereafter. Those who receive a pass mark and possess the requisite license will be notified for physical examination.

**BACTERIOLOGIST, BOSTON HEALTH
DEPARTMENT, NOVEMBER 5, 1920.**

Salary is \$1,500 to \$1,800 a year. There are three vacancies. The examination is open to men and women, and applicants must be (a) graduates of a medical school, or (b) graduates of a scientific school in which they have majored in bacteriology. In addition, applicants should have practical training in a public or private bacteriological, or public health laboratory, for at least two years.

The subjects of examination with their respective weights will be as follows: Training and experience, 8; written examination, including bacteriology, protozoology, helminthology, serology, hematology, 8; practical laboratory tests in all the above subjects, 4; total, 20. Applicants must obtain a mark of at least 65 per cent in experience.

Applicants must be not over forty-five years of age at the time of making application. A certificate of date of birth must be filed with the application. Successful applicants will be required to file a certificate from a reputable physician in regard to their physical condition.

**ASSISTANT BACTERIOLOGIST, BOSTON
HEALTH DEPARTMENT, NOVEMBER
5, 1920.**

The salary is \$1,500 a year. There is one vacancy. Examination is open to both men and women, and applicants should be graduates of a medical school or scientific school in which they have majored in bacteriology. The examination will be less rigorous than that for bacteriologist, but will include similar subjects and weights. Applicants must obtain a mark of at least 65 per cent in experience.

Applicants must be not over forty-five years of age at the time of making application. A certificate of date of birth must be filed with the application. Successful applicants will be required to file a certificate from a reputable physician in regard to their physical condition.

**X-RAY TECHNICIAN (MALE), OCTOBER
29, 1920.**

There are two vacancies, one in the Long Island Hospital, Boston Infirmary

Department, at a salary of \$800 a year and board, the other in the Boston Consumptives' Hospital, at a salary of \$3 a day for three days a week. The appointee to the latter place will be required to take and develop plates and also do lantern slide work.

Subjects of examination with their respective weights will be as follows: Experience, 4; practical tests, 6; total, 10. Applicants will be required to obtain a mark of at least 65 per cent in experience and in practical tests.

The date given above is the date on or before which applications must be filed. Experience sheets will then be mailed to applicants, and those who receive a qualifying mark will be notified to appear for the practical tests. Successful applicants will be required to file a certificate from a reputable physician in regard to their physical condition.

OFFICER AND INSTRUCTOR (MALE), HOUSE OF CORRECTION, DEER ISLAND, BOSTON PENAL INSTITUTIONS DEPARTMENT, OCTOBER 29, 1920.

Salary is \$1,000 a year. The duties of the position will be to instruct the inmates three nights a week at the House of Correction in the school of letters. Applicants must be men who have the qualifications necessary for appointment as a teacher in the primary and the grammar schools of Boston.

The subjects of examination with their respective weights will be as follows: Experience, 6; personality, as determined by an oral interview, 4; total, 10. Applications must be filed on or before October 29. Experience sheets will then be mailed to applicants and subsequently those possessing the qualifications required above will receive notification to appear for the oral interview. Successful applicants will be given a physical examination.

GENERAL INFORMATION IN CERTIFYING FROM THE ELIGIBLE LISTS ESTABLISHED AS A RESULT OF THE EXAMINATIONS NAMED ABOVE, PREFERENCE WILL BE GIVEN TO VETERANS AS PROVIDED FOR IN CHAPTER 150 OF THE GENERAL ACTS OF 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to residents of the municipality making requisition.

As far as is practicable these examinations will be held in the following cities: Boston, Brockton (or Taunton), Fall River (or New Bedford), Fitchburg, Haverhill (or Newburyport), Lowell (or Lawrence), Pittsfield (or North Adams), Springfield, and Worcester.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston, or from any of the following Civil Service representatives: Brockton, William C. Drohan; Chicopee, Carrie M. Stebbins; Fall River, Thomas D. Sullivan; Fitchburg, Samuel W. Miller; Gloucester, Charles H. Morrow, M. D.; Haverhill, Edward B. Savage; Holyoke, Clifford S. Lyon; Lawrence, Arthur P. McCormick; Lowell, James H. Carmichael; Marlborough, William H. Murphy; New Bedford, William J. Carter; North Adams, Fred H. Reagan; Pittsfield, Oscar S. Read; Springfield, George H. Hughes; Taunton, Howard A. Briggs; Worcester, Mrs. Robert C. Hunt. When filled out,

application papers should be filed at once in the office of the Department of Civil Service and Registration, Division of Civil Service.

In order to be entitled to receive a notice for the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding these examinations. Persons filing applications later than this date may be notified at the discretion of the Commissioner of Civil Service.

JOSEPH W. BARTLETT,
ARTHUR M. HUDDALL,
Associate Commissioners.

PAYSON DANA,
Commissioner of Civil Service.

CIVIL ENGINEERING SERVICE, CLASS 27, NOVEMBER 8, 1920.

Correction of Salaries,—Grade A and Grade B.

Grade A.—It is *prima facie* evidence that a position in Class 27 is not in Grade A if the salary is less than \$720 a year or more than \$1,200 per year.

Grade B.—It is *prima facie* evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,800 per year.

FREE PUBLIC LIBRARY LECTURES.

NOTICE.

PROPOSALS FOR BUILDING CONCRETE RETAINING WALL IN RALSTON STREET, SOUTH BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for building concrete retaining wall in Ralston street (northerly side), from Boston street about 85 feet easterly, South Boston. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of two thousand (2,000) dollars, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Retaining Wall, Ralston Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, October 22, 1920, with a certified check for six hundred (\$600) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Bay State Dredging and Contracting Company, \$51,393; T. A. Scott Company, \$54,092.30; George M. Byrne, \$65,840.

Permission to award a contract for repairs to boiler No. 6 at Calf Pasture pumping station, Dorchester, to Simpson's Patent Dry Dock Company, the lowest bidder, at an estimated cost of \$2,730. Bids opened October 15, 1920, Simpson's Patent Dry Dock Company: \$2,730; Daniel Russell, \$2,800.

SUPPLY DEPARTMENT.

On October 15 to the Minwax Waterproofing Corporation for furnishing ap-

proximately 8,000 square yards of asphalt saturated fabric to the Transit Department at 35 cents per lineal yard. The Transit Department has notified the Supply Department that the sample of fabric submitted by the Minwax Waterproofing Corporation, the only bidder, is satisfactory and that said sample meets their requirements. Bid, opened October 4, 1920, was as follows:

Minwax Waterproofing Corporation*
35 cents per lineal yard, 36 inches wide.

* Not on our contract form.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

On October 19 the Mayor granted the Public Works Commissioner authority to repair propeller shaft, or put in new one as directed, put on propeller, repair rudder, replace zincs and clean bottom of ferryboat "John H. Sullivan." This work to be done by the Richard T. Green Company, without inviting proposals therefor by advertisement, the estimated cost for labor and materials being \$2,500. The boat lost a propeller October 16 and has been placed on the only available marine railway, that of the Richard T. Green Company. This company is well qualified to do the work expeditiously. Above repairs are found necessary.

SUPPLY DEPARTMENT.

On October 19 the Mayor approved the following:

Permission to award a contract, without publicly advertising same, to the Power Equipment Company for furnishing impeller wearing rings and case protecting rings for the De Laval main pumps at the Sewer Service pumping station; total amount of contract, \$1,176.

No advantage would accrue to the city in publicly advertising these items as they are parts to be used in connection with the De Laval main pumps now installed at the pumping station, and the Power Equipment Company is the agent for the sale of these pumps.

On October 20 the Mayor approved the following request:

Permission to purchase, without advertising, and enter into a contract with the Gamewell Fire Alarm Telegraph Company for circuits, reels, time stamp, telegraph key, gongs, switches, circuit breaker and storage battery cells to be used in connection with the signal service of the High Pressure Water Service. These parts are manufactured by this concern only. Nothing would be gained by publicly advertising. The total amount of the contract is \$1,477.10.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

CHAIRMAN APPOINTED, MAYOR'S COMMITTEE FOR AMERICANISM.

Thomas A. Mullen, a lawyer at 15 Congress street (home address, 110 Congress street), has been appointed chairman of the Mayor's Committee for Americanism.

Mr. Mullen is a graduate of Harvard College. He was for some time Master of the Boston Latin School; during the administration of Mayor Josiah Quincy, Mr. Mullen was his secretary; he was also Assistant City Solicitor, Schoolhouse Commissioner and Acting Sealer of Weights and Measures.

For a number of years now he has been engaged in the general practice of the law.

Mr. Mullen is a platform speaker of note. This accomplishment will, of course, be of value in the work which he is undertaking in connection with the Chairmanship of the Committee for Americanism.

SALE OF LIVE STOCK.

On October 19 the Mayor approved the following:

CONSUMPTIVES' HOSPITAL,
BOSTON, September 30, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Inclosed you will please find bill from Peter McIntyre, 167 River street, Mattapan, Mass., dated February 28, 1920, in regard to the purchase and sale of live stock.

The transactions recorded in that bill date back more than one year. The items in the bill consist in the purchase of a bull and of new cows from Mr. McIntyre, and the sale of old cows to him.

It appears that it has been the habit of the hospital to offset these debits and credits, and further, that transactions in the purchase and sale of pigs and other live stock were included in the same account of credit and debit, and any balance due to or from anybody was settled from time to time. Many months ago the auditor refused to allow this to be done any longer. Finally an account was secured setting forth these various transactions. The inclosed bill is that for the cattle.

There was an amount due the city for \$495 from Peter McIntyre for the sale of pigs. This was finally settled by a check from Mr. McIntyre, which was deposited by the trustees with the City Treasurer April 5, 1920. There remained the inclosed bill for cattle. There was not sufficient money in the budget under C-14, Live Stock, to pay this bill. Recently, under the date of August 20, 1920, the trustees wrote you a letter asking for the transfer of \$455.67 to C-14, Live Stock, in order to have sufficient money to pay the bill. In that letter this matter is very briefly set forth. This request was passed in the City Council August 30, and approved by the Acting Mayor August 31, 1920.

According to the Revised Ordinance of 1914, chapter 3, section 14, the trustees had no right to sell or purchase live stock when the transactions amount to any such figures as those in this bill without the permission of the Mayor. This permission was not asked by the trustees, as of course it should have been. The trustees respectfully request that you give this permission so that the bill from Mr. McIntyre may be paid.

Yours very truly,

JOHN F. O'BRIEN,
Chairman.

SALE OF FOUR HORSES.

FIRE DEPARTMENT.

On October 20 the Mayor approved the following:

Permission to sell to the Public Works Department four horses, Nos. 1246, 1310, 1560 and 1641 for fifty (50) dollars each.

Horse No. 1246 is nineteen years of age and has been in the service of the Fire Department thirteen years. Horse No. 1310 is eighteen years of age and has been in the service twelve years. Horse No. 1560 is fourteen years old and has served eight years. Horse No. 1641 is fifteen years old and has served seven years. The veterinary surgeon has certified that these horses are of no further service to the department.

CIVIL SERVICE EXAMINATIONS.

JANITORS, NOVEMBER 26, 1920.

This examination will be held for the service of the state and all cities and such towns in the state as are classified under civil service.

STATIONARY ENGINEERS, STATIONARY FIREMEN, AND MARINE ENGINEERS, DECEMBER 3, 1920.

The examination will be held for the service of the state and all cities and such towns in the state as are classified under civil service.

The examination for each kind of position will include a statement of training and experience, a physical examination and the possession of a license, either (a) as first, second, or third-class engineer; (b) as first or second-class stationary fireman; (c) as chief engineer for lake, bay, and sound service, the license to qualify a man to operate a vessel of at least 200 gross tons.

The date given above is not the actual examination date, but the date on which, as nearly as possible, applicants who have filed applications during the preceding three months will be given a physical examination.

FIRE SERVICE, DECEMBER 3, 1920.

Boston and Cities and Towns in
the Metropolitan District.

Applicants for the service of Boston must be not less than twenty-two nor

over thirty years of age at the time of filing their applications. Applicants for the service of all other cities and towns in the Metropolitan district must be not less than twenty-two nor over thirty-five years of age at the time of filing their applications.

The questions on duties will be based upon information contained in a manual supplied by the Department of Civil Service and Registration, Division of Civil Service, and known as "The Red Book," a copy of which is sent to every person who files an application. Applicants are, however, cautioned to inquire personally or by letter should they fail to receive this manual of instruction.

Callmen and substitute callmen may make such deductions from their ages as are provided for in Civil Service Rule 10, Classes 20 and 21.

FIRE SERVICE, DECEMBER 17, 1920.

All Cities and Towns Outside of the Metropolitan District.

Applicants are required to be not less than twenty-two nor over thirty-five years of age at the time of filing their applications. Applicants for Worcester fire service are required to be not less than 5 feet 5 inches in height.

The subjects and weights of examination will be the same as given above for Boston and other cities in the Metropolitan district.

GENERAL INFORMATION IN CERTIFYING FROM THE ELIGIBLE LISTS ESTABLISHED AS A RESULT OF THE EXAMINATIONS NAMED ABOVE, PREFERENCE WILL BE GIVEN TO VETERANS AS PROVIDED FOR IN CHAPTER 150 OF THE GENERAL ACTS OF 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to residents of the municipality making requisition.

As far as is practicable these examinations will be held in the following cities: Boston, Brockton (or Taunton), Fall River (or New Bedford), Fitchburg, Haverhill (or Newburyport), Lowell (or Lawrence), Pittsfield (or North Adams), Springfield, and Worcester.

In order to be entitled to receive a notice for the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding these examinations. Persons filing applications later than this date may be notified at the discretion of the Commissioner of Civil Service.

PAYSON DANA,
Commissioner of Civil Service.
JOSEPH W. BARTLETT,
ARTHUR M. HUDDLELL,
Associate Commissioners.

CONSOLIDATION OF PARK AND CEMETERY DEPARTMENTS.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1920.

To the City Council:
Gentlemen,—I am submitting herewith an ordinance concerning the consolidation of the Cemetery Department with the Park and Recreation Department, and I respectfully recommend its passage.

The question of consolidation has been under consideration at various times in the past, and after further study I am convinced of the absolute merit of the proposed consolidation at this time.

The appropriation for maintenance of the cemeteries owned by the city is constantly increasing, and a large part is expended for care of grounds, which, in my opinion, could be more economically performed by the Park Department, due to its organization and equipment. Elimination of activities which are now duplicated could be accomplished in several instances.

As a result of this proposed consolidation, I believe the general condition and appearance of all city-owned cemeteries would be materially improved, with greater satisfaction to the lot owners and the public generally.

Respectfully yours,
ANDREW J. PETERS, Mayor.

CONCERNING THE CONSOLIDATION OF THE CEMETERY DEPARTMENT WITH THE PARK AND RECREATION DEPARTMENT, CHANGING OF THE NAME OF THE PARK AND RECREATION DEPARTMENT TO THE PARK DEPARTMENT AND ESTABLISHING OF THE SALARY OF THE CHAIRMAN OF THE PARK COMMISSIONERS.

Be it ordained by the City Council as follows:

Section 1. The name of the park and recreation department is hereby changed to the park department and the title of the commissioners of the park and recreation department is hereby changed to that of park commissioners.

Section 2. The cemetery department is hereby consolidated with the park department and placed under the charge of the park commissioners.

Section 3. The park commissioners shall exercise the powers and perform the duties now provided by statute or ordinance to be exercised and performed by the trustees of the cemetery department and by the park and recreation commissioners.

Section 4. The park commissioners shall create a division to be known as the cemetery division of the park department.

Section 5. Chapter three of the Revised Ordinances of nineteen hundred and fourteen is hereby amended in section three by striking out in the ninth line thereof the words "the cemetery department secretary, five thousand dollars" and by striking out in the twelfth line thereof the words "and recreation," so that said clause shall read "the park department secretary three thousand dollars." Said chapter three is further amended in section five by striking out the words "The park and recreation commissioners, the chairman five thousand dollars and the deputy commissioner not more than forty-two hundred dollars" and by inserting in place thereof a new clause as follows: "the park commissioners, the chairman seven thousand dollars, and deputy commissioner not more than forty-two hundred dollars."

Section 6. Chapter two of the Revised Ordinances of nineteen hundred and fourteen is hereby amended in section one by striking out in the second paragraph thereof the words "one park and recreation commissioner" and by inserting in place thereof the words "one park commissioner" and by striking out in the seventh paragraph thereof the words "one cemetery trustee."

Section 7. Chapter twenty-four of the Revised Ordinances of nineteen hundred and fourteen is hereby amended by striking out the title thereof and inserting in its place the following: "park department" and by striking out in the first line of section one the words "and recreation." Section one is further amended by striking out in the seventh line thereof the word "five" and inserting in its place the word "seven." Section two of said chapter twenty-four is hereby amended by striking out the word "and" in the fifth line thereof and inserting in its place a comma, and by adding at the end of said section the words "and the trustees of the cemetery department."

Section 8. Chapter nine of the Revised Ordinances of nineteen hundred and fourteen is hereby amended by striking out the title thereof and inserting in its place the following: "cemetery division of the park department" and by striking out section one and inserting in its place the following new section:

"Section 1. The cemetery division of the park department shall be under the charge of the board of park commissioners who shall exercise the powers and perform the duties provided by statute for the cemetery department."

Section 9. This ordinance shall take effect upon its passage.

Referred to the Committee on Ordinances.

COST OF CONVENIENCE STATION, CENTRAL SQUARE.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1920.

To the City Council:
Gentlemen,—I am herewith attaching a report just received from the chairman of the Park and Recreation Department relative to the order of the City Council, dated September 20, in which you requested that I have the Park and Recreation Department inform you what it would cost to build a public convenience station, over or underground, at Central Park, Central square, East Boston.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,

INVITATION TO REVIEW PARADE.

The following was received:

City of Boston,
Office of the Mayor, October 9, 1920.
To the City Council:

Gentlemen,—The members of the Police Department of the City of Boston will have a parade on Tuesday, October 12, Columbus Day. I have been asked to review the parade from the reviewing stand in front of City Hall, and I hope it will be possible for the members of the City Council to be present with me on the stand on this occasion.

I have noticed that on several occasions recently no members of the City Council have been on the

stand to review parades with me. I wish to impress on the City Council at this time the fact that the members are always welcome on the stand and I hope they will always avail themselves of the opportunity to review parades.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

acute and distressing housing condition and likewise inform the City Council what in his opinion will be the most satisfactory method to prevent the continuance of the grasping disposition of a great many property owners in demanding exorbitant and most excessive and prohibitive rents.

Coun. HAGAN—Mr. President, as the order is a request for information, I am going to ask a suspension of the rule for its passage. As a matter of fact, the order is almost identical in tone with a similar order passed here some six weeks ago, asking the Mayor for his opinion and judgment as to what is the best action for the City Council to take to relieve the present housing condition. No reply has been received to that communication. In the pressure of other affairs the Mayor evidently has not been able to reach it as yet. That, perhaps, is the most charitable thing I might say in regard to this neglect. That the situation has become serious and very acute is self-evident to all of us who look beneath the surface of things at all, and as bearing up that condition, these ads which I have picked up are offered as examples of the hardships that citizens of Boston are suffering because of present acute housing conditions. When we read ads like these: "Wanted—a small furnished apartment from month to month, Fenway section, for man, wife and two children. Ordered out. So I'd consider almost anything that would pass for a home for a family of three adults—five-room apartment, two-family or small single; prefer west or southwest of city; \$70 is the limit; would pay six months in advance"—when hundreds of ads of that sort are appearing in the daily papers, showing the acute condition and how difficult it is for people to obtain human habitation, it must be evident that the situation is extremely serious. In addition to that, we find upon inquiry that a great many families are, as we call it, "doubling up." Unable to get suitable quarters by themselves, they are piling in and living with other people who will accommodate them during the winter months. That is not conducive to the health of the community and should be remedied if there is any possible way to do it. I don't know what may be the best way to remedy it. Houses cannot be built in a moment. But houses never will be built until some action is taken by the city government and by people interested in the progress and success of the City of Boston, taking the initiative, developing some thought, formulating some plans and making a start. There is no effort being shown to make a start. We are drifting and matters are going to be a thousandfold worse before they are any better, unless some action is taken. We are informed by representatives connected with the Mayor's Housing Committee that no such acute condition exists; we are told by the Corporation Counsel that the recent legislative act, giving the Mayor certain authority to relieve the situation, has no direct bearing upon the matter. At the last meeting of this City Council, I contradicted what I believed to be the interpretation of the Corporation Counsel in that matter, and I had written into the records press articles that again contradicted the Corporation Counsel. Since then there has come to my observation an editorial that appeared in a recent issue of the *Boston Transcript*, again taking issue with Mr. Hill and his interpretation of the housing problem and the legislative act, and I ask consent to have this incorporated in the records. The editorial which appeared in the *Transcript* of October 5 was as follows:

"MR. HILL AND THE HOUSING PROBLEM."

"It is to be deplored that in a crisis such as that which now exists with reference to the housing facilities in Boston and other cities, discussion of the matter should be approached by any official from the standpoint of party politics. Answering questions put to him by members of the City Council, yesterday, Mr. Arthur D. Hill, Corporation Counsel, is quoted as having said that, when the Legislature passed the law embodied in chapter 554 of the Acts of 1920, it was 'thinking of passing the buck.' In further observations on the same subject, Mr. Hill is quoted as urging partisan action in the Legislature in dealing with the housing problem.

Chapter 554 is the act to authorize cities and towns to provide shelter for their inhabitants in case of emergency. It was enacted by the Legislature with the declaration that the emergency which it was designed to meet was immediate and pressing. It provides that cities and towns, in case of public exigency, emergency or distress because of an insufficient supply of shelter or available dwellings, may acquire real estate by purchase or by eminent domain, and may improve or dispose of it in such manner as to relieve the distress. Mr. Hill, in an opinion given to the Mayor, and reiterated yesterday in his remarks before the Council, takes the ground that this act is unconstitutional. That is Mr. Hill's opinion as a lawyer. But it is only an opinion. The question raised is not settled. Other lawyers differ with the Corporation Counsel.

"Under such circumstances it is to be regretted that Mr. Hill should have accused the Legislature of double dealing. There is not the slightest reason to believe that the Legislature did not act in perfect good faith. An emergency existed. It was, in the opinion of the public as well as of the Legislature, an immediate and pressing emergency. Mr. Hill, in supporting his contention, construes the constitutional provision under which

a city may provide shelter for its people to apply only in time of invasion by enemy forces, earthquake, conflagration or similar calamity. It does not follow that the courts would take Mr. Hill's restricted view of the powers of the Legislature under this provision. Other lawyers are of the opinion that the courts would place a much broader construction on the provision than does Mr. Hill. Mr. Hill is, of course, within his rights in expressing an opinion which is taken by the Mayor as justification for refusal to act under the law, but there is nothing in the presentation of the matter by Mr. Hill which is fairly to be considered as justifying his charge that the Legislature acted in bad faith in passing the law. That is a charge that ought never to have been made.

"The city is now placed in the position of announcing that, under the provisions of chapter 554, it cannot interfere to put an end to existing abuses. The profiteering landlord is told that the city has no right to take possession of his property in accordance with the act passed by the Legislature. Private enterprise is doing little or nothing to relieve the shortage of housing. The Mayor's action, in the opinion of the Corporation Counsel, is a notice that the city will do little or nothing in comparison with what was expected as the result of the Legislature's action."

Mr. President, it is perfectly clear that something must be done, and that something must be done by the Mayor, for the City Council, although a co-ordinate branch of the city government, are absolutely helpless as far as taking the initiative in order to get results is concerned. Every effort must be made to stir up the Mayor to the urgent need and necessity for some action, for it is perfectly clear to anybody with any degree of intelligence, who really wants to do something, that the recent legislative act that we have already discussed gives the Mayor a great deal of power, not to erect houses over night, not to be able to accommodate immediately the great number of people who are looking for human habitation, but to correct an evil that has reached a point where it affords avaricious, greedy and unscrupulous property owners an opportunity to get any price they want for their property without regard to its value or without regard to the interests of the people. Under the legislative act I claim and charge that the Mayor of Boston can within forty-eight hours—it is perfectly clear that he has it within his province and power, and without a dollar of investment of city funds—take property in the City of Boston by right of eminent domain, take a leasehold interest in the property, agreeing to pay the landlord or present owner of the property a fair price for the lease, and sublet it to the tenants at prices we think should be charged them by the present owners. The Mayor has that power, has that privilege, and if he would exercise it would certainly put fear into the hearts of unscrupulous, profiteering landlords, making others who are contemplating taking a similar course when present leases have expired or when the first opportunity presents itself, think twice before doing so. But when they feel that nothing will be done and that they really have the co-operation of the city government in this unscrupulous action, we will see continuous boosting of rents. It will go on and increase until the Mayor of Boston takes some decisive action, action which is within his power. The responsibility is his, the delay is his. Every opportunity has been given to him by this body to at least do something. I think the responsibility should be brought directly home to the Mayor. The object of my order is to get from him some expression of opinion as to how he personally, as Mayor of Boston, feels about this present situation. The order was passed under suspension of the rule.

MONUMENT TO HENRY LEE HIGGINSON.

Coun. HAGAN offered an order—That his Honor the Mayor be respectfully requested to give his serious consideration to the idea as suggested by the City Council, that a committee of public spirited citizens be appointed by the Mayor to raise a fund by private subscription and municipal co-operation to erect a monument or some suitable memorial to commemorate the memory of Boston's illustrious citizen, Henry Lee Higginson, and that said committee would likewise consider the advisability of erecting said monument or memorial on the island plot on the land which Mr. Higginson presented to the city, situated at the junction of Audubon road, Riverway and Avenue Louis Pasteur.

Coun. HAGAN—Mr. President, I am going to ask for suspension of the rule and passage of the order. The order is an exact copy of an order that passed this City Council last May, unanimously. We asked the Mayor to take this matter under consideration. Nothing has been done, no reply has been received, no reply in any way, shape or manner has been forthcoming from the Mayor's office. The same thing is true of many orders presented in and passed by this Council. I have presented a dozen or fifteen such orders within the last fiscal year, asking the Mayor for his co-operation and receiving absolutely no reply. I imagine other members of the City Council have presented similar orders, which have been passed by this body and have received no recognition whatsoever. I don't think it is respectful; I think the City Council, a co-ordinate body with the Mayor, should get some respect from the Mayor's office, should at least receive the courtesy of a reply saying

that he favors or disfavours. I don't care particularly whether the Mayor favors this order or not. I do want some reply from the Mayor one way or the other, saying that he will or will not act. I want him to fish or cut bait, one thing or the other.

The order was passed under a suspension of the rule.

INFORMATION ASKED CONCERNING PARADES.

Coun. HAGAN offered an order—That the Corporation Council be hereby requested to furnish the City Council with his opinion as to whether or not the provisions of sections 3 and 4 of chapter 41 of the Revised Ordinances of 1914, relative to routes of parades, are in force and whether or not the City Council has authority to regulate parades in the matter provided in said section.

Passed, under a suspension of the rule.

SOLDIERS' RELIEF.

Coun. BRICKLEY, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of October, 1920.

Report accepted; orders passed, yeas 9.

CONFIRMATION OF APPOINTMENTS.

President MORIARTY called up unfinished business, Nos. 1 and 2, viz.:

Action on appointments submitted by the Mayor October 4, 1920, viz.:

1. Francis X. O'Brien and George L. Batchelder, Jr., to be Weighers of Coal.

2. John Heavey, to be a Weigher of Goods.

The question came on confirmation. Committee—Coun. Brickley and Watson. Whole number of ballots cast 8, yeas 8, and the appointments were confirmed.

MUNICIPAL BUILDING, WARD 12.

President MORIARTY called up unfinished business, No. 2, viz.:

3. Ordered, That in addition to the sum already appropriated the sum of \$65,000 be and hereby is appropriated to be expended by the Superintendent of Public Buildings for Municipal Building, Ward 12, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On September 27, 1920, the foregoing order was read once and passed, yeas 8, nays 0.

The order was given its final reading and passed, yeas 9.

SIDEWALK, MICHIGAN AVENUE.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Michigan avenue (both sides), between Columbia road and Erie street, Ward 19, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

GENERAL RECONSIDERATION.

Coun. FORD moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 4.45 p. m., on motion of Coun. WATSON, to meet on Monday, October 25, at two o'clock p. m.

SUPPLY DEPARTMENT.

On October 22 the Mayor approved the following:

Boston, October 18, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing canned goods to the Boston City Hospital, which were publicly opened and read at this office under date of October 15, 1920. I respectfully recommend that this contract be awarded to the George D. Emerson Company, the lowest bidder, as indicated.

In explanation of the bids listed on attached sheet would state that the bid submitted by Austin Nichols & Co. was irregular as same was not accompanied with the necessary certified check. Regarding the bid of Eldridge-Baker Company on small beets, No. 2 stringless beans, No. 2 June peas and No. 2 spinach, would state that the representative of this company has notified this department that the bid shown on their proposal was in error as the price submitted by them was for a dozen and the proposal asked for the price per case. This correction had no bearing on the ultimate result as the George D. Emerson Company is the lowest bidder.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

On October 26 the Mayor approved the following:

BOSTON, October 25, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Under date of April 9, 1920, quotations were asked by this department on 30,000 yards of bleached absorbent gauze for delivery to the Boston City Hospital. The only bidder was the Lewis Manufacturing Company at 6½ cents per yard as per attached sheet.

The Hospital Department at the time was in urgent need of the gauze, and through an error at this department the order was placed with the above-named company without the necessary permission being secured to award the contract without advertising. The goods were delivered, and the payment of the bill for same has been held up due to the fact that no contract has been executed for same.

In view of the explanation outlined above, I respectfully ask that permission be granted me to make a contract with the Lewis Manufacturing Company covering this delivery.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids closed April 9, 1920:

Gauze.—Lewis Manufacturing Company, 6½ cents per yard (22 by 18).

No bid was received from Brown Durrell Company; Adams Manufacturing

Company; Shepard-Norwell Company; D. F. Holland Company; Farley, Harvey & Co.; Boston Cotton Goods Company; J. G. Bowden & Son, Inc.; R. H. White Company; Andrew Dutton Company.

On October 22 the Mayor approved the following:

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.

On October 27 the Mayor approved the following:

Permission to award a contract, without publicly advertising the same, to the Coastwise Coal Company, for furnishing approximately 500 tons of Pennsylvania

semibituminous coal to be delivered to the Penal Institutions Department at Deer Island at a price of \$13 per gross ton, alongside wharf East Boston, plus advance in freight charges in effect since August 26, 1920.

This coal was purchased under the priority orders under rules governed by the Interstate Commerce Commission and in view of the fact that the market price today is higher than the one quoted above, request is made that permission be granted for 500 tons.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

INSTITUTIONS DEPARTMENT.

On October 22 the Mayor approved the following request:

Boston, October 21, 1920.

HON. ANDREW J. PETERS.

Mayor of Boston:

DEAR SIR,—On October 15 his Honor the Mayor approved a contract for thirty-eight hundred (\$3,800) dollars with the Simpson's Patent Dry Dock Company for repairs on the steamer "Monitor," the money being provided for by a transfer from the Reserve Fund.

When the boat was put in dry dock, additional work was found necessary to make her seaworthy. The amount of this extra work is fifteen hundred and sixty (1,560) dollars, and I ask your permission to proceed with the same so that the boat may be ready for service as soon as possible.

This will make the account read as follows:

Original contract, \$3,800; extra work, \$1,560; total, \$5,360.

Yours respectfully,

THOMAS C. O'BRIEN.

Commissioner.

PARK AND RECREATION DEPARTMENT.

On October 22 the Mayor approved the following changes in the contract of J. C. Coleman & Sons Company for Fens improvement at Westland Entrance: To construct curved curb of concrete instead of furnishing new granite curb, under contract for Fens Improvement at Westland Entrance, all as follows: Omit Item 7: New curved curb, 350 linear feet of granite curb at \$5.50 per linear foot, \$1,925. Addition: Make curb of concrete composed of one (1) part cement, two (2) parts sand and four (4) parts crushed stone reinforced with two (2) three-quarter ($\frac{3}{4}$) inch steel rods. Concrete curb to match existing granite curb in shape and color and exposed surface shall be bush hammered and the corner rounded. The curb shall be eight (8) inches wide on top, tapering to twelve (12) inches wide at bottom and twenty (20) inches deep. Do all excavating for this work and dispose of all surplus material. Backfill around curb and thoroughly compact the filling. For the construction of approximately 350 linear feet of the above concrete curb the sum of \$4.50 per linear foot will be allowed. Three hundred and fifty linear feet of concrete curb at \$4.50 per linear foot, \$1,575. Original amount of contract (estimated), \$16,032.75; deduction (estimated), \$1,925; additions (estimated), \$1,575; net deductions, \$350; contract as standing, \$15,682.75.

On October 26 the Mayor approved the following changes in the contract of W. A. Snow Iron Works, Inc., dated

The right and easement is taken to lay and maintain sewerage works in the following described lands, said right and easement to continue for three years unless sooner abandoned, reserving to the owners thereof the right to use the

lands for any purpose except such as may injure or obstruct said work, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; said lands are in that part of Boston known as East Boston and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Cottage street, bounded: Northwest by another part of Cottage street, ten feet; northeast by the same, twelve and 50-100 feet; southeast by land hereinafter described as taken from East Boston Company, ten feet; southwest by another part of Cottage street, twelve and 50-100 feet; containing one hundred twenty-five square feet, more or less.

A parcel of land, supposed to belong to the East Boston Company, bounded: Northwest by land before described as taken from owners unknown (Cottage street, ten feet; northeast by other land of said company, forty-two and 54-100 feet; east by the same, two hundred five and 7-100 feet; south by the same, ten feet; west by the same, two hundred feet; southwest by the same, thirty-seven and 47-100 feet; containing twenty-four hundred and twenty-five square feet, more or less.

The sewerage works to be constructed are as follows: 60 feet of 4-foot wood outlet and 200 feet of open ditch, in the above described premises, being part of the private way known as Cottage street and private land.

This Board determines that no person sustains damages in his estate by the taking of said easement and construction of said sewerage works and awards no damages therefor.

COMMUNICATION FROM SCHOOL-HOUSE COMMISSIONER.

BOSTON, October 26, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

MY DEAR MR. MAYOR,—In compliance with section 1 of chapter 274 of the Acts of 1914, I submit the following report on the Ninth Annual Meeting of the National Association of School Accounting and Business Officials of Public Schools, held in the city of Minneapolis, Minn., which I was authorized by your Honor to attend.

I have already forwarded to the City Auditor, in compliance with section 4 of the above named act, an itemized account of the expenses incurred.

The convention was held on May 18, 19 and 20, 1920, at Hotel Curtis, and was called to order by the president of the association, Mr. Henry B. Rose, at 9.30 a. m. on Tuesday, May 18. The regular order of business was suspended, and President Rose introduced the Hon. J. E. Meyers, mayor of Minneapolis, who in a very cordial manner welcomed the members of the association to the city. Mr. C. E. Purdy, member of the Minneapolis Board of Education, on behalf of that Board, and Mr. W. F. Webster, Assistant Superintendent of Public Schools, representing the Superintendent of Public Schools, Mr. B. B. Jackson, also welcomed the members of the association. President Rose then addressed the convention, after which the regular business of the meetings proceeded.

During the various sessions of the convention the following papers were read:

"The Text Book Problem," by Samuel Gaiser, Superintendent of Supplies, Board of Education, Newark, N. J.

"The Elements of a Workable Building Program," by Arthur Kinkade, Secretary-Business Manager, Board of Education, Decatur, Ill.

"The Next Step in the Standard Tests for Schoolhouse Design and Construction," by Frank Irving Cooper, Architect, Boston, Mass., Chairman of the National Education Association Committee on Standardization of Schoolhouse Planning.

"Standardization of School Accounts and School Statistics," by Henry R. M. Cook, Auditor, Board of Education, New York City, N. Y.

"The School Cafeteria," by R. H. Thomas, School Clerk and Business Manager, Portland, Ore.

"A Training Course for Janitor Engineers," by Kenneth G. Smith, Professor of Trade and Industry, Department of Engineering Extension, Iowa State College, Ames, Ia.

"A 'Close Up' of School Accounts," by H. P. Cole, Chief Accountant, Board of Education, Cleveland, O.

"The School Board, the Architect and the Builder," by R. M. Milligan, Architect, Commissioner of School Buildings, St. Louis, Mo.

"The Budget," by R. S. Spobell, Secretary and Business Manager, Board of Education, Erie, Pa.

The above-named papers were very well prepared, and covered the various matters in a masterly manner. After each paper there followed a general and very lively discussion among the various delegates. During the convention a question box was placed in the convention hall for the convenience of the delegates who wished to ask questions or who desired the opinions of delegates from other cities or sections. Over one hundred questions were submitted, bearing on every phase of school administration, and each question was discussed and answered.

The convention was the largest in the history of the organization. One hundred delegates attended, representing twenty-six states and seventy-three cities. In addition to the one hundred registered members, there were present forty-three guests, also representing various states and cities. At the close of the convention letters were received from various cities extending invitations to the association for the 1921 annual convention. Letters were read from representatives of the following cities: Atlantic City, N. J.; Louisville, Ky.; Buffalo, N. Y.; New York City, N. Y.; Rochester, N. Y.; St. Louis, Mo.; Memphis, Tenn.; Davenport, Iowa; Peoria, Ill.; Detroit, Mich.

The committee on nominations reported and the following officers were elected for the coming year: for President, George E. Womrath; Vice-President, George W. Gerwig; Secretary-Treasurer, Arthur Kinkade.

This was the first convention of this organization that I attended, and to my mind it was most valuable, inasmuch as it gave me an opportunity to meet school officials from all the other larger cities of the United States. It provided not only an opportunity to hear first hand the numerous problems of school construction and administration confronting other cities, but also the general discussion and interchange of ideas bearing on the solution of these problems. It was exceedingly interesting, especially this year during this period of high costs, to find that other cities, like Boston, are facing the same difficulty in carrying out their school buildings programs due to the high cost of labor and material.

In conclusion, I might state that I find it almost impossible in a brief report such as this is to do justice in outlining the work done and the ground covered by this last convention. For your files I am sending a copy of the minutes of the convention, which contains also copies of the various papers read, and which your Honor may find it possible at some time to peruse.

Respectfully yours,

JAMES MAHAN,
Commissioner.

STATEMENT OF MAYOR PETERS.

On October 27 Mayor Peters sent the following letter to a number of women's organizations throughout the city:

BOSTON, October 27, 1920.

DEAR MESDAMES,—I am herewith transmitting to you 100 facsimile ballots which are exact copies of the ballots which will be used at the State Election to be held on Tuesday, November 2. You will notice that the words "facsimile ballot" are printed in red across the ballot in order that there may be no possibility of their being used at the polls. This precaution is made necessary by certain terms of the law governing elections.

I had these ballots prepared for distribution among certain of the women's organizations in the city in the thought that the officials of the organizations might desire to use them to familiarize their members with the methods of voting. I have no doubt that these copies will be of great benefit in this direction. I hope that the officials of the organizations will make every effort to see that the ballots do not leave their hands as some confusion might result should any voter mistakenly attempt to cast one of these facsimile ballots.

There is one point I should call to your attention. The first, second and third columns of the ballot will be exactly the same in all of the voting precincts throughout the state. The names in the fourth and fifth columns will, however, vary according to the candidates in the several election precincts, and the last two referenda in the fifth column will appear probably only on the ballots to be cast by the Boston voters.

Before closing I should like to add one word about the next to the last referendum; that is, the one dealing with the adoption of the so-called two-platoon system for firemen. I have at all times, and now have, the welfare and comfort of the firemen most cordially at heart; their working conditions are splendid and I am firmly convinced that the adoption of the two-platoon system by the City of Boston would decrease the efficiency of the force and would increase the annual maintenance cost of the Fire Department between one half and three quarters of a million dollars. There is no sound argument from any point of view in favor of the adoption of the two-platoon system in the Fire Department, and I earnestly urge every voter in the best interests of the City of Boston and of the firemen themselves to vote *No* on the referendum in question.

Very truly yours,

ANDREW J. PETERS, Mayor.

PURCHASE OF BRICKS BY THE SCHOOLHOUSE DEPARTMENT.

On October 26 the Mayor gave his approval to the following request:

BOSTON, October 22, 1920.

To the Mayor of Boston:

The Schoolhouse Department wishes to purchase from this department 20,000 old paving bricks. Your authority is respectfully requested for the sale of these bricks (the property of the Paving Service) at the rate of \$10 per thousand.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

MAYOR SENDS TELEGRAM.

Mayor Peters sent the following telegram to Capt. Marty Welch of the Schooner "Esperanto" at Gloucester: "All following your race with keen interest. Best luck to yourself and crew of 'Esperanto.' Drive her.

ANDREW J. PETERS,
Mayor of Boston."

TAKING OF LAND.

BOSTON, October 22, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Bennett School District, Brighton, bounded and described as follows:

Beginning at a point on Chestnut Hill avenue at the northeasterly corner of the premises of the First Parish in Brighton (Unitarian); thence northwesterly by land of said parish and Warren 2½ feet to a Board of Survey street; thence turning and running northeasterly by line of said street 161 feet to land of Warren; thence turning and running southeasterly by land of said Warren 259 feet to Chestnut Hill avenue; thence turning and running southwesterly by line of said avenue 175 feet to the point of beginning; and contains 43,000 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding eminent domain for carrying out the same.

Respectfully,

J. P. LOMASNEY,

Chairman Schoolhouse Commission.

Approved October 26, 1920.

ANDREW J. PETERS, Mayor.

BOSTON, October 1, 1920.

MR. FRANK V. THOMPSON,

Superintendent of Public Schools:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Bennett School District, Brighton, bounded and described as follows:

Beginning at a point on Chestnut Hill avenue at the northeasterly corner of the premises of the First Parish in Brighton (Unitarian); thence northwesterly by land of said parish and Warren 256 feet to a Board of Survey street; thence turning and running northeasterly by line of said street 161 feet to land of Warren; thence turning and running southeasterly by land of said Warren 259 feet to Chestnut Hill avenue; thence turning and running southwesterly by line of said avenue 175 feet to the point of beginning; and contains 43,000 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

Respectfully,

J. P. LOMASNEY,

Chairman Schoolhouse Commission.

FRANK V. THOMPSON,

Superintendent of Public Schools.

BOSTON, October 22, 1920.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the William E. Endicott School District, bounded and described as follows:

Beginning at a point on the line of Canterbury street 260 feet northwesterly from the corner of Angell and Canterbury streets; thence southeasterly by land of Charles Fottler 290 feet to land of Perry; thence turning and running southwesterly by land of Perry 140 feet to land of Brady; thence turning and running northwesterly by land of said Brady 315 feet to line of Canterbury street; thence turning and running northeasterly by line of Canterbury street 300 feet to the point of beginning; and contains 68,307 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding eminent domain, for carrying out the same.

Respectfully,

J. P. LOMASNEY,

Chairman Schoolhouse Commission.

Approved October 26, 1920.

ANDREW J. PETERS, *Mayor.*

BOSTON, October 5, 1920.

MR. FRANK V. THOMPSON,

Superintendent of Public Schools:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the William E. Endicott School District, bounded and described as follows:

Beginning at a point on the line of Canterbury street 260 feet northwesterly from the corner of Angell and Canterbury streets; thence southeasterly by land of Charles Fottler 290 feet to land of Perry; thence turning and running southwesterly by land of Perry 140 feet to land of Brady; thence turning and running northwesterly by land of said Brady 315 feet to line of Canterbury street; thence turning and running northeasterly by line of Canterbury street 300 feet to the point of beginning; and contains 68,307 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

Respectfully,

J. P. LOMASNEY,

Chairman Schoolhouse Commission.

FRANK V. THOMPSON,

*Superintendent of Public Schools.***STATEMENT FROM THE MAYOR.**

Mayor Peters issued the following statement in connection with the death of Lord Mayor MacSwiney:

"Lord Mayor MacSwiney gave himself unselfishly for his ideal, and that ideal was the freedom of his race. His conduct and utterances in prison have apparently been inspired by idealism which no just man will fail to appreciate. The civilization of today throws into fiercer relief the sacrifice of the Lord Mayor of Cork and must profoundly touch everyone."

FIRE DEPARTMENT ORDERS.

General Order No. 46.

I. COAL.

1. In preparing the budget for 1920-21 the appropriation for fuel was based upon the best information obtainable at that time. Owing to the increase in cost of coal since the budget was passed it has been found necessary to appropriate more money than was appropriated for the fiscal year of 1920-21.

2. In view of this situation I request that the greatest economy be practised in the use of fuel in the various houses of the department. The officers in charge of each fire station are urged to give this matter careful consideration in order that the amount of money expended this year for coal may be kept at a minimum.

II. ASSIGNMENTS.

1. The following assignments of men on probation are hereby announced to take effect at 9 a. m., Friday, October 22, 1920:

Thomas F. Dolan to Engine 45.
David F. Watkins to Engine 48.
John R. Greene to Engine 47.
Lawrence F. Connelly to Engine 31.

III. TRANSFERS.

1. The following transfers are hereby announced to take effect at 9 a. m., Friday, October 22, 1920:

James F. Kenney, from Engine 46 to Engine 26-35.
James P. Rose, from Engine 22 to Engine 42.
William M. Dunden, from Engine 48 to Ladder 10.

Charles L. McDevitt, from Engine 51 to Ladder 14.

Thomas J. Mullen, from Ladder 10 to Engine 46.

George H. Acres, from Ladder 14 to Engine 51.

IV. CORRECTIONS.

1. The following corrections in paragraph 1, General Orders No. 45, c. s., are hereby announced:

Hoseman Michael E. Kelleher of Engine Company 4 to be assistant engineer instead of acting assistant engineer.

Hoseman Paul C. Rodd of Engine Company 12 to be assistant engineer instead of acting assistant engineer.

Fifth marine engineer David J. Lamie of Engine Company 44 to be fourth marine engineer instead of acting fourth marine engineer.

2. These corrections will take effect as of April 23, 1920.

IV. CHANGE OF TIME.

1. Under the daylight saving law time will be retarded one hour at 2 a. m., Sunday, October 31, 1920.

2. At the above stated hour clocks in department stations will be set back one hour. All tower clocks without striking arrangements will be set back one hour at 6.30 a. m., October 31, 1920, and all tower clocks with striking arrangements will be stopped at 6.30 a. m., October 31, 1920, for one hour and then started.

General Order No. 48.

I. RETIREMENT.

The following retirement, which took effect at 9 a. m., Friday, October 22, 1920, is hereby announced:

Hoseman Charles D. Dalton of the Bureau of Supplies and Repairs. Hoseman Dalton was appointed to this department December 18, 1909.

II. COMMENDATION.

Capt. Dennis Driscoll of Engine Company 37 is commended for responding to and working at fire, Box 1642, October 16, 1920, while on a day off.

III. DRILL SCHOOL.

The regular drill school of the department will commence Wednesday, October 27, 1920, at 10 a. m., and drill will be in command of Capt. James Mahoney of Water Tower 2 as drill master. He will be obeyed and respected accordingly.

There will be but one session of the school, namely, the morning session of two hours.

Company commanders will have the following named men report to the drill master at the quarters of Water Tower 2, Bristol street, at 10 a. m., Wednesday, October 27, 1920, and at such other times as the drill master may direct:

Thomas J. Burke, Ladder 11; Charles N. Gardner, Engine 30; Percy L. Richardson, Engine 48; Arthur C. Carnes, Engine 48; Patrick J. Burke, Engine 29; Coleman N. Flaherty, Engine 44; George T. Hathaway, Ladder 10; John C. Langan, Ladder 25; Charles Laubenstein, Chemical 11; Thomas F. Lydon, Engine 49; William H. McAndrew, Ladder 29; Patrick E. Collins, Engine 34; Henry C. Sybertz, Engine 2; Thomas J. Donovan, Engine 31; Timothy S. Buckley, Chemical 7; Albert F. Mitchell, Ladder 28; Patrick Hanley, Chemical 13; Thomas F. Dolan, Engine 45.

By order of the Fire Commissioner,

PETER E. WALSH,
Chief of Department.

RETIREMENT OF LABORERS.

On October 22 the Mayor approved the following:

A meeting of the Retirement Board for City Laborers was held at the Auditor's office on Friday, October 22, at 11 a. m. It was voted to retire the following employees, said retirements to date from Friday, October 22, 1920, at the rate of \$360 per annum:

MAYOR'S STATEMENT REGARDING SPRINKLER SYSTEMS IN TENEMENT HOUSES.

Mayor Peters has announced that prosecutions by the city of violations of the law requiring automatic sprinkler systems in tenement houses would immediately be resumed. In adopting this course the city has no alternative.

The first amendment to the building law requiring automatic sprinkler systems in tenement houses was passed in 1914 and was amended in 1915 so as to require automatic sprinklers in tenements more than three stories in height and housing more than ten families.

The attempted enforcement of this law met with such emphatic protest from owners, real estate operators, builders, etc., that it was decided to withhold prosecutions until these parties had an opportunity to appear before the Legislature to endeavor to have the provisions of the law modified or repealed. They were unsuccessful in this and in 1916 another attempt to enforce the sprinkler provisions was abandoned because of the increase in the cost of installing the work and the suspicion that the sprinkler trade was controlled by a trust. This latter was investigated by the Federal authorities and it is understood they concluded that no illegal combination existed. Because of the war, practically all prosecutions under the building law were abandoned until the spring of 1919, when an energetic campaign to prosecute violations of egress provisions and sprinkler requirements was instituted. Again in the sprinkler cases the protest arose. Prices for the work had nearly trebled. It was claimed that equities would be wiped out if the law were enforced. Owners of the older tenement property were unable to raise the money to meet the expense. In view of all this, the city again abandoned prosecution and notified landlords, members of the Real Estate Exchange, the Master Builders' Association, architects and others, that they would be given this final chance to appeal to the Legislature for relief. Their appeal resulted in some slight modification of the law but gives them practically no relief so far as the expense, classes of property involved, etc., are concerned.

There are approximately 500 tenement houses affected by this section. Of these, approximately twenty-five are new buildings and twenty-five more are of first-class

construction where the requirements may be waived. The rest, about 450, are tenement houses erected prior to 1914, many of them erected long before that. It is in this class of property that the greatest hardship will occur. In many of them the equity amounts to very little; in some cases as low as \$150 or \$200, and the work required in the installation of sprinkler systems in such buildings will be extremely expensive. It is a conservative estimate that the average cost will be \$2,000 or approximately one million dollars to equip the houses affected by the law. This will naturally result in increased rents, the wiping out of equities in some properties and another loud and emphatic protest from tenants, landlords, builders and real estate operators. On the other hand, one life lost in a fire which might have been prevented by a proper sprinkler system would be a serious matter and subject to severe criticism, which may be hard to overcome. The city has no alternative but to enforce the law and prosecute violations. The Legislature is responsible for the law. It seems impossible for the people interested to get relief from the Legislature. The law puts it up to the Building Commissioner and the Law Department as his prosecuting agent. The Building and Law Departments are now taking the preliminary steps in preparing for the prosecution of all these cases and if one is forced to do the work required, all should be forced to do likewise; otherwise there will be further ground for severe and perhaps just criticism.

LAND TAKING FOR SCHOOLHOUSE PURPOSES.

BOSTON, October 18, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an intermediate school, a certain piece or parcel of land in the Charles Sumner School District, Roslindale, bounded and described as follows:

Beginning at a point on Poplar street 256 feet southeasterly from the corner of Florence and Poplar streets, thence northeasterly by land of Murray and Whittemore 250 feet to land of the

City of Boston; thence turning and running southeasterly by land of said city 40 feet; thence turning and running northeasterly by land of said city 120 feet to line of Hawthorne street; thence turning and running southeasterly by said line of Hawthorne street 87 feet to land of Russell heirs; thence turning and running southwesterly by land of Russell heirs and Peters 368 feet to line of Poplar street; thence turning and running northwesterly by line of Poplar street 150 feet to the point of beginning; and contains 46,481 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding eminent domain, for carrying out the same.

Respectfully,

J. P. LOMASNEY,
Chairman Schoolhouse Commission.

MAYOR'S STATEMENT ON TWO-PLATOON SYSTEM.

In commenting on the referendum which will appear on the ballot next Tuesday to determine whether or not the City of Boston shall be compelled to provide for the division into day and night forces of permanent members of the Fire Department, generally known as the two-platoon system, Mayor Peters said:

"I cannot too strongly urge every man and woman who has the real interest of the City of Boston at heart to vote No on the two-platoon referendum which will appear on the ballot next Tuesday.

"The adoption of the act which compels the city to establish the two-platoon system, and it is on the adoption of this act that the voters will mark their ballots next Tuesday, arbitrarily takes away from the Fire Commissioner his most important powers of discipline and control,—two factors which are paramount in the fire-fighting efficiency of the city's fire department. In the first place, the city, if the act is adopted, is arbitrarily compelled to put the plan into effect by February 1, 1921. It is the belief of the Fire Commissioner that it is not humanly possible to do this in so short a time without tremendously decreasing the fire-fighting effectiveness of the depart-

ment, and thus increasing the fire hazard to the citizens of Boston.

"In talking to me of the adoption of the proposed system the Fire Commissioner said:

"It would be a herculean task to appoint 301 green men, interview, question and examine them before appointment, and after appointment drill them and make them competent to do fire duty. November, December and January are the most severe months of the year and we have not the facilities for proper drilling. In addition, the department would have approximately one fourth of the department without any knowledge of fire duty. No man should be held responsible for protecting the City of Boston, with its narrow streets, building construction and immense concentration of values, from fire during a winter like the last with one fourth of the fire force green men."

"The bill leaves no option with the Fire Commissioner as to any adjustment of hours of duty. They can only be changed by act of the Legislature. The day force is entitled as of right to leave the fire house at 6 p. m., although members of the night force have not reported for duty. If

either the day or night force is engaged at a fire and the period of duty expires, as determined by the Legislature, the members then on duty are entitled to leave their work and shift the job of putting out the fire to the incoming force. No discretion is reserved in the law for the Fire Commissioner to order the men to remain on duty, and if the act is interpreted literally, it will justify the day or night forces in abandoning a fire as soon as their working hours have expired. If this should happen, the Fire Commissioner is without authority to discipline any man for such conduct. While the Fire Commissioner, in case of a conflagration, has authority to summon and keep on duty all the members of the fire-fighting force, the act contains no definition of what constitutes a conflagration. Moreover, in case of such a catastrophe it will be impossible for the Fire Commissioner to reach all the members of the fire force and obtain their attendance on duty in time to make their work effective.

"These are not impossible situations. They might arise at any time. Let the voters think long and well before they place the City of Boston in such a perilous position."

Proposed discontinuance of Channing street, city proper, as a public way.

INCREASE OF PUBLIC DEBT IN LEADING CITIES, 1908-1919 (RANKING FROM HIGHEST).

The net debt in the 10-year period increased as follows: (1) San Francisco, \$31,534,084 or 267.57 per cent; (2) Detroit, \$11,561,738 or 118.10 per cent; (3) Baltimore, \$32,797,853 or 98.40 per cent; (4) Cleveland, \$23,673,655 or 72.59 per cent; (5) Buffalo, \$13,026,177 or 61.14 per cent; (6) Pittsburgh, \$20,912,039 or

58.76 per cent; (7) Philadelphia, \$47,282,300 or 57.62 per cent; (8) New York, \$348,840,074 or 50.97 per cent; (9) Boston, \$12,596,050 or 17.11 per cent.

All of Boston's increase was Rapid Transit debt, representing a 41 per cent investment. Omitting this, there was a decrease of \$3,849,927 or 5.23 per cent in Boston's net debt during the period stated.

BOSTON'S 1920 CENSUS INCORRECT.

Letter of Mayor Peters to Director Rogers.

Boston, October 25, 1920.

SAMUEL L. ROGERS, ESQ.,

Director of Census, Washington, D. C.

DEAR SIR,—The City of Boston, I am convinced, was more unfortunate as to its census last January than any other city so far as known. This was perhaps due largely to the frigid weather prevalent here at the time, making it difficult and sometimes hazardous for canvassers to get about. In fact it was just the kind of weather to cause anyone not in robust health to shirk outdoor work and say nothing. There is evidence tending to show that this was done in a section of Ward 14, Roxbury, between Huntington avenue and St. Alphonsus street, where many residences were not visited by the canvasser. An experienced manager of canvassers for the Boston City Directory covered this same district a few weeks after the census and as a result of all he heard, estimated that more than 2,000 people were omitted in said section of Ward 14. This is apparently confirmed by the total enumeration of Ward 14, this being 1,794 less than in 1915. An increase was expected there, Roxbury being one of our growing districts. In Ward 5 (North End), where the population is 61 per cent foreign born, there was at the time a widespread panicky feeling on account of the Government's search for and arrest of "Reds" and kindred revolution breeders. This of course deterred many timid people from giving information to a census-taker or anyone else. The evidence of this is convincing, as the total 1920 population given by the Census Bureau for Ward 5 was only 63,241 or 14,332 less than the ward contained in 1915 as given by the State Census. Furthermore, the Boston Police Census of men twenty years of age or over gave for Ward 5 in 1916 a total of 21,524 and in 1920 of 21,528, no decrease whatever. That there could be a decrease of 14,332 in this ward and not any decrease of men is quite impossible. The legitimate inference is that thousands belonging to families of the foreign born were not counted. No less than eleven wards showed decreases from 1915, of which three were quite large, viz., 5,042 in Ward 9, 4,221 in Ward 13, 3,592 in Ward 2, or 12,855 decrease in three wards, a falling off which is not in the least probable.

An expert statistician in our Statistics Department being familiar with Boston censuses during the past thirty years, and having studied and analyzed the various changes every five years during that period, should fairly be regarded as in a position to discover any defects contained in the 1920 census. Such have been ascertained after a careful and exhaustive investigation, and the facts brought to light are beyond dispute, because based upon the official records of the Boston Health Department, also those of the Massachusetts Bureau of Statistics which had charge of the State Census of 1915. Please note the following findings:

1. The records of the Health Department show excess of births over deaths from 1910 to 1919, inclusive, totalling 69,736 (see appended table), all nonresident deaths and births strictly eliminated.

From said total of children born and still living 5 per cent deduction is made to cover removals from city during the ten years, leaving 66,250 as the net increase of children alone, which, added to the 1910 population (*i. e.*, 670,585), amounts to 736,835 on January 1, 1920.

2. By the state census of 1915, the total number of foreign-born inhabitants was 268,154, or an increase of 24,789 over the total of same in 1910. This officially recorded increase brings the total to 761,624.

3. The 1915 census showed the total of native-born inhabitants as 477,285, or 50,065 more than in 1910. Deducting therefrom the excess of births over deaths from 1910 to 1914, inclusive, or 34,638 (see aforesaid table), because already counted in the 69,736 first mentioned, there remains 15,427 to count as further increase of native-born, or new residents coming from points outside Boston, bringing the total to 777,051.

4. Our annual police census in 1915 showed a total of 222,951 and in 1920 of 236,225, a gain of 13,274, which number should also be added, making the total 790,325.

5. The net increase from immigration (*i. e.*, less emigration) was extremely small from 1915 to 1920. As near as it was possible to ascertain it from data of the Immigration Bureau, the total was only 6,445. The men included in this total being already counted in the police list (before mentioned), representing 40 per cent of same (*i. e.*, 2,578), there remains 3,867 (*viz.*, women and children) to add to the aforesaid total, bringing it up to 794,192.

6. The increase in native-born inhabitants coming from places outside Boston from 1915 to 1920 remains to be added and it is partly reckoned from the observed increase in the police list. Of that total (*viz.*, 13,274) the native-born men numbered 10,696, already counted. The number of women and children that

should be counted here is 7,487, making the aggregate of 801,679 for Boston's population in 1920.

Surely this should be deemed conclusive evidence that Boston's population has been grossly understated. It must be apparent to you that this misleading statement is seriously injurious to our business interests and civic reputation as a progressive and growing metropolis. It advertises to the world that Boston has practically stopped growing since 1915, the increase of population since that year appearing as *one-third of 1 per cent only*.

Although unavoidably late in bringing this matter to your attention and notwithstanding the difficulties there may be in according to Boston a new enumeration, I sincerely feel that this is the only way to make amends for the unfortunate mistake which has been made.

Trusting to hear from you at an early date, I remain,

Very truly yours,

ANDREW J. PETERS, Mayor.

STATEMENT BY MAYOR PETERS RELATIVE TO THE ELECTION NEXT TUESDAY.

There are several matters of the greatest importance which should have the attention of voters and I wish to impress these matters on them at this time.

The number of registered voters in Boston has increased more than 40 per cent over the number last year. It has on the other hand been possible for us to extend the time of voting only one hour. In order therefore to assure everyone of an opportunity to cast their vote, I wish to suggest a plan of procedure, which, if followed, will eliminate confusion and prevent disappointment.

The busiest time at the polls is always from six to nine in the morning. These hours should be reserved for those who work and who can only vote before they go to the office. Those who are comparatively their own masters during the day should delay their voting until after ten o'clock in the morning, but do not leave it until the last moment.

There is grave danger that a great many women who can vote any time during the day may accompany their husbands to the polls before 9 a. m. I hope that such women will delay their vote. Otherwise it is inevitable that the crowd will be so great before nine o'clock that many, being unable to wait, will be deprived of their privilege of voting.

I also wish to call the attention particularly of the women voters to the fact that in a great many instances the place where they registered is *not* the place where they vote.

It is a simple matter to find out in what ward and voting precinct you live. Then learn the location of the voting booth for that ward and precinct. Determination of this fact in advance will save much confusion on election day.

Every man and woman owes to their country as a least return for all that they receive that they should vote. Above all things let every man and woman exercise the right of suffrage.

SUPPLY DEPARTMENT.

On November 2 to John H. McCarthy Company, as per following communication and bids for furnishing meats during November to various departments.

BOSTON, October 30, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing meats to the various city departments during the month of November, 1920, which were publicly opened and read at this office under date of October 29, 1920.

The tabulation of the bids show that John H. McCarthy Company was the lowest bidder in each department, and I respectfully request that permission be granted to award the contract to the above named company.

In connection with these bids would state that the Mohawk Packing Company submitted a bid to the auditor's office in regular form before twelve noon on the day of the opening of the bids, but neglected to furnish the Supply Department with a duplicate bid as provided for in the regulations of this office. For this reason I have taken no recognition of the bid submitted to the auditor's office, and request that permission be granted to award the contract to John H. McCarthy Company, as indicated above.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

Water Pipes in Warren Bridge.

On October 29 to V. Grande as per following communication:

BOSTON, October 26, 1920.

To the Mayor of Boston:

Your permission is respectfully requested for the expenditure of a sum in excess of \$1,000 for the purpose of regulating and renewing the supports under the 20-inch, 30-inch and 16-inch water pipes in Warren Bridge, the work to be done by day labor by V. Grande, contractor for rebuilding the bridge.

The 20-inch pipe was laid under the northeasterly sidewalk of this bridge in 1853, and was relaid in the same location in 1883, and the 30-inch and 16-inch pipes were laid under the southwesterly sidewalk and partly under the roadway of the bridge in 1888. These pipes are now being exposed as the surface of the bridge is torn away during the rebuilding of the bridge, and in places the girders, caps flooring and piles supporting the pipes were found to be badly rotted and dangerously weak.

This work is closely connected with the reconstruction of the bridge and can be done to advantage at the same time. The total amount to be expended cannot be determined until all of the pipes have been exposed, but it will probably not exceed \$4,000.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Coal.

On November 2 to the Burton-Furber Coal Company as per following communication:

BOSTON, October 28, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Burton-Furber Coal Company for furnishing approximately 600 tons of Pocahontas semibituminous coal, to be delivered in lighter for the Boston City Hospital, at a price of \$14 per ton, f. o. b. lighter, East Boston, plus demurrage.

The coal was bought under the priority orders under rules governed by the Interstate Commerce Commission and in view of the fact that the market price today is higher than the one quoted above, I respectfully request that the permission asked for be granted.

Very respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

ARTIFICIAL STONE SIDEWALKS.

PUBLIC WORKS DEPARTMENT.

BOSTON, November 3, 1920.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Gascoigne & Linenthal, Inc., 43 Tremont street, Boston, Mass., is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

The authority requested is hereby given.
ANDREW J. PETERS, *Mayor.*
November 3, 1920.

September 30, 1920.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires that there should be a taking of land and buildings on Beacon street, city proper (being the premises numbered 15 on said street), for school purposes, substantially as shown on a plan on file in the office of this Board that it intends to pass an order to make said taking, and that it appoints 12 o'clock m., of October 19, 1920, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, *Secretary*.

October 29, 1920.

Whereas, The Board of Street Commissioners has passed the order of notice recorded on page of its records for the current year, and has caused a copy of said order to be published October 2 and 9, 1920, in the *City Record*, and has given the public hearing, notice of which was given in said order, and

Whereas, Acting under the provisions of chapter 486 of the Acts of the Legislature of 1909, and all other authority thereto, enabling the Schoolhouse Department of said City of Boston, with the approval of the Mayor, has selected, designated and requested the Board of Street Commissioners of said city to take for said city for school purposes the parcel of land hereinafter described, situated within the limits of a school district designated by the School Committee of said city, in that part of Boston known as Boston proper, it is

Voted, That the Board of Street Commissioners of said City of Boston hereby takes, under the right of eminent domain, in fee for said city for school purposes the said parcel of land bounded and described as follows:

A parcel of land, supposed to belong to the Beacon Hill Trust, bounded:

Southeast by Beacon street, fifty-seven and 52-100 feet; southwest by Freeman place, eighty-four and 77-100 feet; northwest by the same, by two measurements, three and 66-100 feet and three and 5-100 feet; again southwest by the same, five and 98-100 feet; again northwest by part of common passageway, one and 88-100 feet; again southwest by the same, one and 64-100 feet; again northwest by the same, by two measurements, thirty-one and 2-100 feet and seventeen and 31-100 feet, and northeast by land supposed to belong to the Realty Investment Trust, eighty-eight and 38-100 feet; containing five thousand one hundred and eleven square feet, more or less.

This taking is made reserving to the owners of adjoining estates the rights secured thereto by an agreement made April 16, 1903, by and between Frederick R. Sears, Francis I. Amory, Herbert M. Sears and Charles E. Cotting as trustees of the David Sears Real Estate Trust, and Charles R. Evans and Leslie C. Wade as trustees of the Beacon Hill Trust, said agreement being recorded with Suffolk Deeds, Book 2895, page 337.

Said parcel of land is shown on a plan marked "City of Boston, Beacon street, Freeman place, Boston proper, October 1, 1920, F. O. Whitney, chief engineer, Street Laying-Out Department," and on file in the office of said department.

Approved October 29, 1920.

ANDREW J. PETERS, Mayor.

October 29, 1920.

The Board of Street Commissioners finds the amount hereinafter set against the undermentioned estate to be, in the opinion of the Board, a just estimate of the amount that should be paid to said estate for the damage occasioned it by the taking made for school purposes on Beacon street, Boston proper, under the order of the Board of even date herewith, and respectfully submits the same to you for your approval.

	Amount.
Beacon Hill Trust, 5,111 square feet..	\$425.00 00

October 27, 1920.

Ordered, That this Board determines that the undermentioned estate sustains

damages by the making of the public improvement consisting of the widening of River street, Dorchester district, as a highway on the northwesterly side, near Whitney park, under the order of the Board of even date herewith, to the amount hereinafter set against it, and awards said amount therefore.

Heirs of Woodman Jones, 276 square feet.....	Amount. \$250 00
--	---------------------

Ordered, That this Board estimates that no person receives benefit or advantage from the improvement above specified beyond the general advantage to all real estate in said city.

Maria G. Fitzgerald, by Edward P. Fitzgerald, has agreed to accept the sum of \$50 as full payment for all land taken from, all rights acquired in, and all damage occasioned to her estate on Norfolk street by the widening, extension and construction of said street under the Street Commissioners' order of September, 16, 1916.

REPORT OF FINANCE COMMISSION ON THE PAVING OF CENTRE STREET, WEST ROXBURY.

BOSTON, October 28, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—The Rowe Contracting Company executed a contract with the city on June 23, 1920, to pave with bituminous sheet pavement about 7,000 feet of Centre street, from South street to Spring street, West Roxbury, for the sum of \$303,398.20, the work to be completed by November 15, 1920.

This contract required, among other things, the furnishing and laying of 41,300 square yards of Topeka pavement. The kind, quantity and treatment of the materials that enter into this pavement were specified in the contract. The stone to be used was specified as trap rock of the best quality.

On October 19, 1920, an inspection of the work at the mixing plant was made by the consulting engineer of this commission and a sample of the pavement, as prepared for laying was furnished the consulting engineer by an agent of the Rowe Contracting Company. Not only were the materials used inferior to those specified, but they were being mixed improperly and combined in improper proportions. No city inspector was at the plant of the contractor where the paving material was being made.

The sample of the pavement ready for laying that was furnished the commission's consulting engineer was sent to the firm of Dow & Smith, consulting paving engineers of New York City, together with a copy of the specifications of the contract. Their general report to this commission is in the following language:

This is one of the poorest alleged paving mixtures that we have ever seen. It is so excessively rich in bitumen as to be practically useless. It does not comply with the specifications as to bitumen contents, mesh composition, character of rock and amount of filler.

The detailed report of Dow & Smith will be furnished your Honor upon request.

Mr. Flaherty, asphalt tester for the city, states that he has examined from day to day, in accordance with his duties, the paving materials being used on this contract and has found practically the same deficiencies and departures from the specifications as did the firm of Dow & Smith. His reports to that effect have been filed almost daily with the city's chief engineer of the Paving Service. He has also reported to that engineer from the very beginning that no trap rock has been used by this contractor.

The contract will not be finished on November 15, 1920, and may require the whole of next season, thereby involving the city in additional expense.

This case discloses many of the reasons why the City of Boston does not get its streets properly built or properly repaired; does not receive from those who contract to build or repair city streets adequate return for the money expended, and why in many cases its streets that are built and repaired last but one third of the time reasonably expected.

As repeatedly pointed out by this commission to your Honor, and especially in several particular cases this season, the city's interests are not being adequately protected by the supervisory force in the Public Works Department. This is not because there are not plenty of inspectors available, but rather because

they either do not inspect at all, or are indifferent to the city's interests.

Moreover, investigation discloses failure on the part of those in charge of the work to act upon reports received by them, from the laboratory analysis that defective materials and improper mixtures were being used.

The Finance Commission feels it necessary to say again that the streets of Boston will never be properly built or repaired unless the Mayor is determined and acts in accordance with that determination, that street contracts be performed in accordance with their provisions, and unless he insists that inspectors and other officials charged with the duty of seeing that such contracts are performed be competent, constant at their work and loyal to the City of Boston.

The reports made to the chief engineer almost daily from the beginning of this contract show that the stone specified as trap rock, was not being used. To allow substitution of a stone inferior in quality to that on which bids were submitted and

the contract executed not only involves a financial loss to the city, but is unfair to all others who bid for this work. Such favoritism is also one of the causes why wider competition is not secured for city paving work.

The correction of such disregard of the city's interests as this report reveals calls for immediate and summary action by your Honor.

The Finance Commission therefore recommends:

1. That your Honor remove such city employees, of whatever rank, as had a duty to perform for the city under this contract and failed to perform it.

2. That your Honor appoint, or cause to be appointed, in all grades having to do with the inspection and supervision of his contract, men who are competent, who will insist upon the specifications of the contract being complied with, and who are loyal to the city's interests.

Respectfully submitted,

THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

RETIREMENT OF COMMISSIONER OF SOLDIERS' RELIEF DEPARTMENT.

Boston, October 25, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—In accordance with chapter 113, Acts of 1911, I respectfully request that I be retired as Soldiers' Relief Commissioner. I make the request because I am seventy-five years old and feel that I can fairly say that on that account, in spite of the good health I enjoy, that I am incapacitated for further active duty in the sense of the statute. I further request that my retirement take effect January 1, 1921, and I should be very glad, if consistent with the public service, if I could have some leave of absence before my retirement.

Respectfully,

J. E. GILMAN,
Soldiers' Relief Commissioner.

MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasias have been resumed at the various municipal buildings.

The following buildings have gymnasias and shower rooms which are open to the free use of the public every week day:

Roslinde Building.—Corner of Ashland and Washington streets.

Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.

Cabot Street Gymnasium and Swimming Pool.—Roxbury.

Vine Street Gymnasium.—Corner Vine and Dudley streets.

Dorchester Gymnasium.—Corner Columbia road and Bird street.

EXECUTIVE APPOINTMENTS.

Communications were received from his Honor the Mayor making the following appointments subject to confirmation by the City Council:

Harry Nathanson, 187 Bernard street, Dorchester, a Weigher of Coal for the term ending April 30, 1921.

H. B. Thompson, 105 Chestnut avenue, Jamaica Plain, a Weigher of Coal for the term ending April 30, 1921.

Frank Patrick Leonard, 31 Queensberry street, Boston, to the position of Constable of the City of Boston for the term ending April 30, 1921.

Severally laid over under the law.

THE HOUSING SITUATION.

The following was received:

City of Boston,

Office of the Mayor, October 22, 1920.

To the City Council:

Gentlemen,—I am in receipt of your order of October 18, requesting me to advise the City Council what is the best remedy, in my opinion, for the present acute and distressing housing situation, and likewise inform the City Council what would be the most satisfactory method "to prevent the continuance of the grasping disposition of a great many property owners in demanding exorbitant and most excessive and prohibitive rents."

The greatly decreased activity in the building of homes is undoubtedly attributable to the shortage of capital caused by the war. I believe that the solution of this shortage lies in the ordinary working out of economic laws, and I am unable to forecast what immediate developments may be.

It is also impossible for me to forecast what results might follow from proper legislative action to prevent "the continuance of the grasping disposition of a great many property owners in demanding exorbitant and most excessive and prohibitive rents." It would depend entirely upon what legislative control might be evolved.

I should point out at this time that no city or town in the Commonwealth of Massachusetts has found it possible, because of legal restrictions, to organize a housing corporation as recently suggested by the City Council. As far as I have been able to determine, legal opinion has been entirely in accord with that expressed by Corporation Counsel Arthur D. Hill.

Everything that can possibly be done under the law for the relief of tenants is now being done by my Committee on Rent and Housing. Frequent reports of its activities have appeared in the daily papers, and I am convinced that every relief is being afforded by this committee.

Respectfully yours,

ANDREW J. PETERS, Mayor.

COMPROMISE SITE FOR POLICE STATION 2.

The following was received:

City of Boston,

Office of the Mayor, October 22, 1920.

To the City Council:

Gentlemen,—I am in receipt of the order of October 18 requesting me to confer with the City Council in reference to some compromise site for the erection of the police station for Police Division No. 2.

If the City Council has any site in mind which it believes would be suitable for the purpose in question, I shall be glad to confer with the Police Commissioner in regard to such site.

Respectfully yours,

ANDREW J. PETERS, Mayor.

VETO OF LIBRARY PURCHASE, EAST BOSTON.

The following was received:

City of Boston,

Office of the Mayor, October 19, 1920.

To the City Council:

Gentlemen,—I am returning herewith without my signature the order of the City Council

"That the sum of twenty-five thousand dollars (\$25,000) be hereby appropriated for the purchase and equipment of the property at 1032-1034 Bennington street, Ward 1, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount."

I am vetoing this order in view of the fact that the Board of Trustees of the Boston Public Library, after an investigation of the premises, advise against the purchase of this property for permanent library use.

Very truly yours,

ANDREW J. PETERS, Mayor.

EXTENSION OF VOTING TIME.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1920.

To the City Council:

Gentlemen,—In view of the greatly increased registration this year, due to the adoption of the Equal Suffrage Amendment, I believe it is desirable that an additional hour be provided for voting

purposes. My idea is that instead of the voting hours being from six o'clock a. m. until four o'clock p. m., as has been customary in past years, that this year voting hours be from six o'clock a. m. until five o'clock p. m. It would not be advisable to extend the voting time beyond five o'clock because of the difficulty in counting ballots were the time to be further extended.

I am herewith forwarding an order which will accomplish the purpose which I have in mind, and I recommend its immediate passage.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the polls at the election to be held Tuesday, November 2, 1920, shall be opened at six o'clock a. m. and closed at five o'clock p. m.

Ordered, That so much of the election order passed by the City Council October 18, 1920, and approved by the Mayor October 20, 1920, as relates to the time of opening and closing the polls, be and the same hereby is rescinded.

Referred to the Executive Committee.

BURIAL LOT FOR AMERICAN LEGION.

The following was received:

City of Boston,
Office of the Mayor, October 25, 1920.
To the City Council:

Gentlemen,—The trustees of the Cemetery Department after conference with the officials of the Massachusetts Department of the American Legion have set aside a certain burial lot at the Mount Hope Cemetery, containing space for 3,500 graves, this plot to be used for the interment of Boston residents of the World War.

This morning I received a letter from James T. Duane, Commander of the Massachusetts Department of the American Legion, expressing the hope that inasmuch as he has come to an agreement with the trustees of the Cemetery Department as to the location of the plot, that the city will immediately make available the funds necessary to put it in condition and maintain it.

As everyone seems to be in accord on the size and location of the plot in the Mount Hope Cemetery, I am herewith forwarding the order appropriating the funds necessary to carry the matter through to completion, and I recommend its immediate passage.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$20,000 from the Reserve Fund to an appropriation for World War Veterans' Burial Lot, Mount Hope Cemetery. Referred to the Executive Committee.

TRANSFERS FROM RESERVE FUND.

The following was received:

City of Boston,
Office of the Mayor, October 22, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith requests for transfers from the Reserve Fund, and respectfully recommend the passage of the accompanying orders.

Respectfully,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$500, to the appropriation for steamer "Monitor," B-39, General Plant, \$500.

City of Boston,
Institutions Department, October 21, 1920.
Hon. Andrew J. Peters,

Mayor of Boston:
Dear Sir,—When the steamer "Monitor" was placed in the drydock underwater work developed to the amount of fifteen hundred ten (1,510) dollars, which work could not be foreseen.

We have a balance left in our repair appropriation, but not sufficient to cover this amount in its entirety. I am therefore asking you to arrange with the City Council for a transfer from the Reserve Fund of \$500 to meet these repairs and to cover any other contingency that may arise.

Yours respectfully,
THOMAS C. O'BRIEN, Commissioner.

Approved.
RUPERT S. CARVEN,
Budget Commissioner.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$7,692, to the appropriation for Election Department, A-2, Temporary Employees, Assistant Registrars, 52 (116) at \$5 per day, \$2,200; Wardens, 221 at \$9 per day, \$442; Clerks, 221 at \$11 per day, \$442; Inspectors, 884 at \$9 per day, \$1,768; A-3, Unassigned, \$2,840.

The above transfers for wardens, clerks and inspectors are to provide an additional allowance of \$2 each for services at State Election, November 2, 1920.

City of Boston,
Election Department, October 19, 1920.
Hon. Andrew J. Peters,

Mayor of Boston:
Dear Sir,—The Board of Election Commissioners respectfully request additional transfer from the Reserve Fund to provide for the amounts stated below.

The board is of the opinion that an extra allowance of \$2 each for wardens, clerks, and inspectors at State Election, November 2, 1920, should be allowed for increased work caused by additional time of keeping the polls open.

On account of the great volume of work it will be necessary to continue the ten extra men in office day and evening, from October 15 to November 2.

A-2, Assistant Registrars, 116 at \$5 per day, \$2,200; Wardens, 221 at \$9 per day, \$442; Clerks, 221, at \$11 per day, \$442; Inspectors, 884, at \$9 per day, \$1,768; total, \$4,852.

A-3, Expense due to overtime required on account of office force due to large registration of men and women, and referendum petitions, Unassigned, \$2,840.

In our opinion this will cover all expense for personal service up to and including November 2, 1920.

Respectfully,
BOARD OF ELECTION COMMISSIONERS,
MELANCTHON W. BURLIN, Chairman.

Approved.
RUPERT S. CARVEN,
Budget Commissioner.

Referred to the Executive Committee.

TRANSFERS TO HOSPITALS AND INSTITUTIONS.

The following was received:

City of Boston,
Office of the Mayor, October 25, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith requests for transfers to the City Hospital, Consumptives' Hospital and Children's Institutions Departments, and respectfully recommend the passage of the accompanying orders.

Respectfully,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer:

From the appropriation for Fuel, Supplies, etc., \$50,000, to the appropriation for Hospital Department, D-3, Fuel, \$50,000.

City of Boston.
Hospital Department, October 18, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—You may remember that when the budget was prepared for the year 1920-21 it was anticipated that we would install an oil-burning equipment in the power plant of the Hospital Department, and consequently an appropriation was requested for 5,413 tons of bituminous coal from February 1 to September 1, and for 280 tons of anthracite coal for the year; also for 923,680 gallons of oil from September 1 to the end of the fiscal year. On the advice of the Supply Department the price of coal was established at \$10 for bituminous and \$12 per ton for anthracite. The price of oil was estimated at 4½ cents per gallon on the advice of the Fess Rotary Burner Company, so that \$97,500 was requested for this department under D-3. There was allowed \$92,500. After a very careful investigation the trustees learned that there was no assurance that a constant supply of oil would be guaranteed by anybody, at any price, and therefore it was deemed unwise to install an oil-burning equipment this year. Instead of paying \$10 per ton for coal the average price has been nearer \$15, therefore it now becomes necessary to request sufficient money to carry this department over the remainder of the fiscal year. Forty-nine hundred tons of bituminous coal will be required, and the Supply Department has instructed us that the price of the same will be approximately \$16 per ton. This will total about \$78,400. On behalf of the trustees I therefore respectfully request an additional appropriation of \$75,000, and trust that with the strictest economy that amount will be sufficient.

Yours respectfully,
JOSEPH P. MANNING,
President Board of Trustees.

Approved,
RUPERT S. CARVEN,
Budget Commissioner.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Fuel, Supplies, etc., \$11,650, to the appropriation for Consumptives, Hospital Department, D-3, Fuel, \$11,650.

City of Boston,
Consumptives' Hospital Department,
October 21, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—The Superintendent of Supplies, Mr. Cronin, has informed the trustees of the Consumptives' Hospital that he has a contract with the East Boston Coal Company to deliver soft coal to the Consumptives' Hospital at \$11.65 per ton, delivered. This contract expires May 1, 1921. The contract contains a "penalty and premium" clause. There is also a clause requiring that the coal be paid for within ten days of delivery.

The Supply Department believes that it may be very hard to get coal delivered during the coming winter, and therefore wish that this hospital could order now all the coal needed up to May 1, 1921, when the contract expires, and have it delivered and paid for before December 1, 1920, because the East Boston Coal Company have at the present time the necessary amount of coal on hand and because the Supply Department believes that after December 1 the coal Company will not have coal they can deliver, except as received, and further think it quite probable that coal companies will be unable to get coal when wanted. Last winter it was frequently found almost impossible to keep the hospital supplied with coal. Once there was but two hours' supply on hand. The Supply Department would like to avoid the great amount of trouble experienced last year. As I understand it, this hospital is the only city department to which this contract relates. The price of coal per ton under the contract, \$11.65, delivered, is much less than is now being paid by other departments—\$13 to \$16 or \$18, not delivered, I am told. The hospital can store any amount of coal in the bins at the power house and on the ground immediately outside of it.

The hospital has now sufficient coal to last until December 1 next. There will be a deficit in the account, D-3, Fuel, of from \$1,500 to \$2,000 on December 1. Money to meet this has been reserved from balances in the present budget.

The amount of coal estimated as needed between December 1 and May 1 next is 1,500 tons, which at \$11.65 per ton delivered will amount to \$17,475. The trustees believe that if the city can make an additional appropriation of \$17,475, it would be a considerable saving to the city, besides insuring the hospital of a supply of coal.

The trustees, therefore, would respectfully request an additional appropriation of \$17,475 to D-3, Fuel.

Yours very respectfully,
JAMES J. MINOT, Secretary.

Approved,
RUPERT S. CARVEN,
Budget Commissioner.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Fuel, Supplies, etc.,

\$10,879.01, to the appropriation for Children's Institutions Department, Suffolk School for Boys' D-3, Fuel, \$10,879.01.

Referred to the Executive Committee.

CITY COUNCIL'S POWER TO REGULATE PARADES.

The following was received:

City of Boston,
Law Department, October 21, 1920.
To the Honorable the City Council:

Gentlemen,—You have asked my opinion:

1. "Whether or not the provisions of sections 3 and 4, chapter 41, Revised Ordinances of 1914, relative to routes of parades, are in force; and

2. "Whether or not the City Council has authority to regulate parades in the manner provided in the last section."

I assume that the opinion you desire is whether the City Council has authority to make ordinances of a similar character to those contained in the sections in question. In such a matter as this the City Council can act only by ordinance and an attempt at any other method of regulation would be illegal.

Both question should be answered in the affirmative. The ordinances in question are in force and similar ordinances may be enacted by the City Council if it sees fit. The only doubt which arises is by reason of the provisions of chapter 447, Acts of 1908, the effect of which, as already ruled by this department, is to vest in the Board of Street Commissioners the exclusive control of street traffic. The control given the Street Commissioners by this statute remains in spite of and ordinance which has or may be passed by the City Council and parades like other traffic must be in compliance with the Street Commissioners' regulations. However, this does not prevent the City Council from making ordinances dealing with parades, provided they do not trespass on the powers of the Street Commissioners. There may be, and no doubt will be, many reasons why parades should be regulated, other than their relation to the traffic in the streets.

I might add that I am fortified in the correctness of my opinion by the fact that the former opinion, above referred to, as rendered by this department, was given by Judge Corbett on June 3, 1913, and was therefore before Mr. Sullivan and Mr. Adams when, as members of this department, they cooperated with your honorable body in the revision of the ordinances in 1914.

Very truly yours,

ARTHUR D. HILL,
Corporation Counsel.

INVESTMENT OF TRUST FUNDS.

Coun. BRICKLEY, for the Committee on Ordinances, submitted a report on ordinance (referred September 27) concerning investment of trust funds, recommending the passage of the ordinance in the following new draft:

City of Boston.

In the Year Nineteen Hundred and Twenty.
An Ordinance Concerning the Investment of Trust Funds.

Be it ordained by the City Council of Boston, as follows:

Chapter thirty-six of the Revised Ordinances of 1914 is hereby amended by striking out section four in said chapter and inserting in place thereof the following:

Sec. 4. The treasurer, unless the donors have otherwise directed, shall receive all properties given, devised or bequeathed to, or deposited with, the city for any specific purpose, and shall use the same, or the income thereof, as designated in the gift, devise, bequest or deposit. If the income only is to be used, he shall hold the properties as permanent funds. He shall invest and keep invested the said permanent funds in bonds, notes or scrip of the United States or of the commonwealth or of any city or town within the common-

wealth, or in mortgage notes secured in each case by a first mortgage on real estate used for human habitation and not in excess of fifty per cent of the assessed valuation of such real estate. For the purpose of investment and reinvestment he shall have power from time to time in his discretion to sell or exchange any of the securities of which any of the said permanent funds consist, but all purchases, exchanges and sales shall be with the written approval of the mayor.

Report accepted, ordinance passed in new draft.

ALFRED J. MCGURIN SQUARE.

Coun. BRICKLEY offered an order—That the open space at the junction of Bennington, Pope and Saratoga streets be named and hereafter known as Alfred J. McGurin square, in memory of Alfred J. McGurin, who died in the World War, in the service of the United States.

Passed.

OBSERVANCE OF ARMISTICE DAY.

Coun. BRICKLEY offered an order—That his Honor the Mayor be requested to order the city offices to be closed on Armistice Day, November 11, 1920, and that the heads of departments be authorized to grant a holiday, without loss of pay, on that day to all employees whose service can be dispensed with.

Passed under suspension of the rule.

DENNIS J. MCCARTHY SQUARE.

Coun. BRICKLEY offered an order—That the open space at the junction of Shawmut avenue and Broadway be named and hereafter known as Dennis J. McCarthy square, in honor of Dennis J. McCarthy, who gave up his life in the service of the United States in the World War.

SUPPLY DEPARTMENT.

Coal

On November 8 to the Coastwise Coal Company as per following communication:

BOSTON, November 5, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising the same, to the Coastwise Coal Company for furnishing approximately 500 tons of Pennsylvania semibituminous coal to be delivered to Long Island at a price of \$13 per gross ton, alongside wharf, East Boston, plus advance in freight charges in effect since August 26, 1920.

This coal was purchased under the priority orders under rules governed by the Interstate Commerce Commission and in view of the fact that the market price today is higher than the one quoted above, I respectfully request that the permission asked for be granted.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PAVING OF CENTRE STREET.

BOSTON, November 8, 1920.

MESSRS. R. KEITH COMPTON, CLARENCE

D. POLLOCK, GEORGE W. TILLSON.

GENTLEMEN,—I am herewith handing you (1) a copy of the report of the Boston Finance Commission dated October 28, relative to the execution of a contract entered into by the City of Boston with the Rowe Contracting Company for the pavement of about 7,000 feet of Centre street, from South street to Spring street, West Roxbury. At the time the report was rendered pavement had been laid from South street to Belgrade avenue. (2) An official copy of the contract in question. (3) Copies of the daily reports made by the city asphalt tester, as mentioned in the Finance Commission's report.

As a result of the Finance Commission's report, I engaged you gentlemen to examine the pavement already laid as I felt that it would be more satisfactory for everyone concerned were a group of absolutely disinterested experts to examine the pavement and render a report as to the type of work done under the contract.

I request that your committee submit to me after your examination replies to the following questions:

1. Is the pavement in question constructed according to specifications?
2. Has the city received full value in the pavement laid?
3. What is your opinion of the specifications in our paving contracts?
4. Would you recommend any changes in these specifications, and, if so, what?
5. What is your opinion of our present methods of inspection of street construction work?
6. What is your opinion of our street paving policy?
7. Would you recommend any change in this policy, and, if so, what?
8. What is your opinion of the report of the Finance Commission on the subject under investigation? I should like to have as complete a statement as you can make on this subject.
9. Have you any further comments?

As replies to the above questions will undoubtedly raise further questions in my mind, I shall appreciate having an opportunity to again confer with you as soon as possible after you render your report.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

TRANSFER OF SHEEP.

PARK AND RECREATION DEPARTMENT,
BOSTON, October 28, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I desire to ask your approval to transfer to the Institutions Department, without compensation, approximately forty-eight sheep. This is the balance of our flock of sheep.

The reason for the transfer is that it is unprofitable to keep a flock of sheep in Franklin Park at the present time. A new building would be necessary to maintain them in a suitable condition, and there is not the necessity for keeping them now, as in past years, when they were useful in keeping down the grass on the meadows.

Very respectfully yours,

JAMES B. SHEA, *Chairman.*

LAND-TAKING IN LEWIS SCHOOL DISTRICT.

BOSTON, November 2, 1920.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Lewis School District, Roxbury, bounded and described as follows:

Beginning at the southwesterly corner of Walnut avenue and Harrishof street, thence southwesterly by the line of Walnut avenue 175 feet to land of White; thence turning and running northwesterly by land of White and Brown 285 feet to Haley street; thence turning and running northeasterly by line of Haley street 155 feet to line of Harrishof street;

thence turning and running southeasterly by line of said Harrishof street 230 feet to the point of beginning; and contains 39,259 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding eminent domain for carrying out the same.

Respectfully,

J. P. LOMASNEY,
Chairman Schoolhouse Commission.

Approved November 11, 1920.

ANDREW J. PETERS, Mayor.

BOSTON, October 27, 1920.

MR. FRANK V. THOMPSON,

Superintendent of Public Schools:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Lewis School District, Roxbury, bounded and described as follows:

Beginning at the southwesterly corner of Walnut avenue and Harrishof street, thence southwesterly by the line of Walnut avenue 175 feet to land of White; thence turning and running northwesterly by land of White and Brown 285 feet to Haley street; thence turning and running northeasterly by line of Haley street 155 feet to line of Harrishof street; thence turning and running southeasterly by line of said Harrishof street 230 feet to the point of beginning; and contains 39,259 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

Respectfully,

J. P. LOMASNEY,
Chairman Schoolhouse Commission.

FRANK V. THOMPSON,
Superintendent of Public Schools.

CIRCULARS FROM THE MAYOR.

MAYOR'S OFFICE.

BOSTON 9, November 9, 1920.

To the Heads of Departments:

GENTLEMEN,—Kindly deliver at my office not later than December 17, 1920, a statement as concise as possible of the chief accomplishments of your department during the present year.

In this statement should also be included a brief summary of the plans of your department for the year to come, indicating concisely the most important undertakings that you have under consideration.

Very truly yours,

ANDREW J. PETERS, Mayor.

MAYOR'S OFFICE,
BOSTON 9, November 9, 1920.

To Department Heads:

GENTLEMEN,—Your attention is again directed to my letter of April 14, 1920, relative to the Boston Postal Station number plan. It is important that all officers and employees of the city adopt and use these numbers in all addresses both to assist the post office and to insure the prompt delivery of mail.

The correct station number should appear on all stationery, letterheads and

records wherever addresses appear. All mail addressed and sent out should, so far as possible, include the station number in the address of the person to whom mail is sent.

The Boston Post Office is issuing a printed directory, giving the proper station number for all streets in the Boston Postal District, and these directories should be obtained and sent to all stenographers and clerks who send out mail. Information Bureau at the post office, Fort Hill 3800, line 35, will give prompt assistance in furnishing the correct station numbers for any address, and will also provide clerks to assist in placing the correct station numbers on mailing lists. This assistance should be freely invoked.

All stenographers and clerks having to do with the addressing of mail from the departments or the collecting, entering or preserving of mailing lists and addresses should be instructed to ascertain and include in all addresses the station number.

All mailing lists should be promptly corrected to include the station numbers.

Addressographs and other plates should be provided with the station number so far as possible, without unnecessary expense, and no new plate should be made without including the station number.

All officers, deputy assessors, police officials and all clerks and stenographers who collect or enter addresses should be instructed to ask for or obtain the station numbers and include them therein. It is not sufficient for the success of the plan to include in the address the street number or the number of the ward, but it is necessary that the station number be included.

The post office desires this station number to become as familiar a part of an address as the number of the street, and the City of Boston should co-operate in every way possible to secure this result. The station number should appear after the word "Boston," "Dorchester," "Roxbury," or other district name.

I wish to have it distinctly understood that stationery now in the possession of the departments should not be destroyed. On such stationery the station number can either be typewritten or stamped on it, but on all new stationery, the directions in this letter must be followed.

Very truly yours,

ANDREW J. PETERS, Mayor.

HOSPITAL DEPARTMENT.

BOSTON, November 3, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I herewith respectfully request permission to employ a technician for work in the blood laboratory, in connection with the investigation of pneumonia, and that the salary for this employee, \$14 per week, be paid from G-2.

Yours respectfully,

JOSEPH P. MANNING,
President Board of Trustees.

Approved November 5, 1920.

ANDREW J. PETERS, Mayor.

PURCHASE OF SUBMARINE CHASER.

BOSTON, November 5, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—In accordance with my letter of October 28, 1920, and your reply

thereto dated October 29, with your permission I will go to Washington on Monday for the purpose of finding out the best possible arrangements the City of Boston can make in regard to purchasing a submarine chaser to be used as a fireboat. Allowing for delays, etc., I should return to Boston not later than Thursday or Friday, November 12, 1920.

Subject to your approval I hereby appoint Peter E. Walsh, Chief of Department to be Acting Fire Commissioner during the time I may be absent from Monday, November 8 to Friday, November 12, 1920.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Approved November 6, 1920.

ANDREW J. PETERS, Mayor.

CHANGE IN BULBS.

SUPPLY DEPARTMENT.

BOSTON, November 3, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Referring to contract with the Fottler, Fiske Rawson Company, approved by your Honor on the 11th of August, 1920, this is to advise that the contract has been amended by the substitution of "2,000 Crimson Brilliant" tulip bulbs in lieu of "2,000 Sir Thomas Lipton (Red)" bulbs at the same price as originally quoted by the Fottler, Fiske Rawson Company, \$34 per thousand.

I have checked up these prices with other concerns, and I find that it is reasonable and therefore request that the approval be given for the amendment outlined above.

Yours very truly,

G. J. CRONIN,
Superintendent of Supplies.

Approved November 5, 1920.

ANDREW J. PETERS, Mayor.

RE HIGH PRESSURE FIRE SERVICE.

BOSTON, November 4, 1920.

To the Mayor of Boston:

The auction and discharge mains for the high pressure fire pumps to be established in the Edison station on Atlantic avenue, opposite Pearl street, must be located in a private alley belonging to the Edison Company, leading from the avenue to their plant. Unfortunately the underground conditions in this alley are such that more room must be provided before these mains can be laid. The most feasible and economical way to furnish the necessary space is to abandon and remove one existing Edison 30-duct conduit located in this alley and now in use.

I respectfully request your permission to have the city take over this conduit which the Edison Company has agreed to abandon and remove all their structures therefrom, at a cost of \$7,870.50.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved November 8, 1920.

ANDREW J. PETERS, Mayor.

PROCEEDINGS OF SCHOOL COMMITTEE.

Nov. 1, 1920.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Building, Mason street, at 6:18 o'clock P. M., the Chairman presiding.

Present: Messrs. Bogan, Corcoran, Miss Curtis, Messrs. Lane and O'Connor.

AMENDMENT AND APPROVAL OF RECORDS

On motion, the minutes of previous meetings were amended as follows:

June 21, 1920, on page 105, to provide that item 27 of the list of additional accommodations shall read Henry L. Pierce District instead of "Edward Everett District."

ESTABLISHMENT OF KINDERGARTEN, WASHINGTON ALLSTON DISTRICT.

A communication was received from the Business Agent, under date of Oct. 28, 1920, to whom was referred at the meeting of Oct. 18, 1920 (see p. 190) for consideration and re-

port under the provisions of Section 101 of the rules an order authorizing the establishment of an additional kindergarten in the Washington Allston District, to take effect Oct. 20, 1920, reporting that he has carefully considered this matter, and on account of the greatly increased cost of fuel and supplies he does not believe it safe to authorize any extensions of the school system at the present time, as it would appear that all the money available will be necessary for current expenses of the existing school system, and recommending that the order be referred to the next School Board.

Placed on file, and the recommendation adopted.

TRANSFER OF ITEM IN ANNUAL APPROPRIATION ORDER.

A communication was received from the Business Agent, under date of Nov. 1, 1920, recommending that the sum of seventy-one thousand dollars (\$71,000) be transferred from the item, "General School Purposes"; sub-division, "Salaries of Instructors," to the sub-division, "Fuel and Light," under the same item, inasmuch as the cost of coal far exceeds the amount estimated and allowed for in the budget for the year.

Placed on file.

The following was offered:

ORDERED, That there is hereby transferred from the item, "General School Purposes"; sub-division, "Salaries of Instructors," to the sub-division, "Fuel and Light," of the same item in the appropriation order, the sum of seventy-one thousand dollars (\$71,000.00).

The order passed by the following vote:

YEAS—Messrs. Bogan, Corcoran, Miss Curtis, Messrs. Lane and O'Connor—5.

NAYS—0.

AMENDMENTS TO REGULATIONS.

A communication was received from the Business Agent, under date of Oct. 26, 1920, stating that for a number of years the principals of the Trade School for Girls, the Boston Trade School, and the Continuation School have been allowed a sum of money for the purpose of paying bills for materials which are to enter into products to be sold or otherwise disposed of, street car fares of teachers or pupils engaged in such purchases, express charges, and other small cash transactions, and they have been required to account for such sum, the balance at the end of the financial year to be paid over to the Business Agent for transmission to the City Collector, and recommending that inasmuch as the practice has now been definitely established, that the regulations be amended to incorporate much of the material now included in such orders.

Placed on file.

The following was offered:

ORDERED, That the regulations be amended as follows:

Section 220. Renumber paragraph 5, paragraph 8; renumber paragraph 6, paragraph 9; renumber paragraph 7, paragraph 10.

Insert the following new paragraphs 5, 6, and 7.

5. The principals of the Trade School for Girls, the Boston Trade School, and the Continuation School shall be

authorized to purchase such materials as may be needed for working into products which are subsequently to be sold or otherwise disposed of, and to expend such sums as may be necessary for street car fares of teachers or pupils engaged in such purchases, express charges, and such other small cash transactions as may be necessary in the conduct of a school engaged in productive work, the total expenditures in any one calendar month not to exceed the amount appropriated for that purpose by the School Committee.

6. The principals of the Trade School for Girls, the Boston Trade School, and the Continuation School shall keep a set of books showing all receipts and expenditures of their respective schools which pass through their hands, which shall be audited from time to time by the Business Agent or other person authorized by the School Committee.

7. The principals of the Trade School for Girls, the Boston Trade School and the Continuation School shall be authorized and required to collect and pay over to the Business Agent of the School Committee for transmission to the City Collector all sums received for materials or products sold or work done at their respective schools, on or before the fifth day of each month following such receipt.

Laid over.

The following was offered:

ORDERED, That the regulations are hereby amended as follows:

Section 340, paragraph 1. Insert the following to immediately follow "1913" in the third line—and chapter 311 of the Acts of 1919—so that the paragraph will read as follows:

SECT. 340. 1. The compulsory continuation school is a day school established under the provisions of chapter 805 of the Acts of 1913 and chapter 311 of the Acts of 1919, for minors between the ages of fourteen and sixteen years who are working under employment certificates, or who are at home under special home permits.

Laid over.

Placed on file, and leave of absence granted for the period specified.

TRANSFER OF A JANITOR

A communication was received from the Schoolhouse Custodian, under date of Nov. 1, 1920, submitting a list of applicants desiring transfer to the janitorship of the Miles Standish Schoolhouse, and recommending that Carl I. Priest, janitor of the William Lloyd Garrison Schoolhouse, who stands at the head of the list, be appointed to the position, to take effect Nov. 7, 1920.

Placed on file, and the transfer of Carl I. Priest approved, to take effect on the date stated.

ADDITIONAL COMPENSATION TO REGULAR SUBSTITUTE JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Nov. 1, 1920, recommending that Thomas W. McLean, regular substitute janitor, be paid for services in cleaning the windows of the Noble Schoolhouse during the Summer vacation period, which sum is in accordance with the regular salary schedule, and is in addition to his regular compensation which does not pay enough for this additional work.

Placed on file.

On motion, it was ORDERED, That Thomas W. McLean, regular substitute janitor, be paid the sum of thirteen dollars and thirty-eight cents (\$13.38) for cleaning the windows in the Noble Schoolhouse, which is in addition to his regular compensation, and in accordance with the regular salary schedule.

PROCEEDINGS OF CITY COUNCIL.

Monday, November 8, 1920.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President MORIARTY in the chair and all the members present.

VETO—ALFRED J. MCGURIN SQUARE.

The following was received:

City of Boston,
Office of the Mayor, October 27, 1920.
To the City Council:
Gentlemen,—I am herewith returning without my signature the order passed by the City Council on October 25, "That the open space at the junction of Bennington, Pope and Saratoga streets be named and hereafter be known as Alfred J. McGurin square."

My veto of the order is based on the fact that apparently the three streets mentioned do not come into juxtaposition. I assume that the introduction of the names of the three streets was in error, and I am returning the order simply to clarify the record, and without prejudice.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—CLOSING OF CITY HALL, ARMISTICE DAY.

The following was received:

City of Boston,
Office of the Mayor, October 28, 1920.
To the City Council:
Gentlemen,—I am herewith returning without my signature the order of the City Council, dated October 25, requesting that I direct the closing of city offices on Armistice Day, November 11, 1920, and that the heads of departments be authorized to grant a holiday, without loss of pay, on that day to all employees whose services can be dispensed with.

This day was a holiday last year by proclamation of the Governor. If the Governor sees fit to proclaim this day a holiday this year the request in your order will be complied with, but I believe it would be distinctly unwise for the City of Boston to suspend its business unless it is done universally throughout the city and state.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments for terms ending April 30, 1921, viz.:

- (1) Edward J. Stevens, 5 Bainbridge street, Charlestown, to be a Weigher of Goods.
- (2) Thomas Drummond, 38 Border street, East Boston, to be a Weigher of Coal.

Laid over under the law.

RETIREMENT OF JOSEPH C. BATTS.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1920.
To the City Council:
Gentlemen,—I am attaching an application for the retirement of Joseph C. Batts, an employee of the Park and Recreation Department, together with the physician's certificate testifying to his inability to further perform his duties. I recommend the passage of the accompanying order that the Retirement Board may take suitable action upon the petition.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered That the Retirement Board for Laborers be hereby authorized and requested to retire under the provisions of chapter 765 of the Acts of 1914, as amended by chapter 63 of the Special Acts of 1915, Joseph C. Batts, employed as a carpenter in the Park and Recreation Department of the City of Boston.

Referred to the Executive Committee.

PARKING SPACE AT COURTHOUSE.

The following was received:

City of Boston,
Office of the Mayor, October 26, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting a communication from the Street Laying-Out Department relative to the utilization of the grass plots in front of the Courthouse on Pemberton square as a parking space for automobiles.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Street Laying-Out Department,
October 23, 1920.

Hon. Andrew J. Peters,
Mayor of the City of Boston:

Dear Sir,—In response to the order of the City Council dated June 28, 1920, requesting a report from this Board as to the advisability of utilizing the grass plots in front of the Courthouse, on Pemberton square, as a parking space for automobiles, the foll wing is respectfully submitted:

In view of the fact that the justices of the Supreme Judicial Court are custodians of the Courthouse property, the subject matter of the Council's order was called to the attention of that body. A communication was addressed to Chief Justice Rugg, just before the full bench assembled on the 13th instant, requesting an expression of the justices' opinion as to the merits of the plan. He has just advised us in reply—a copy of his letter is attached hereto—that the justices are unanimously opposed to the adoption of the suggestion, which, he states, they believe to be neither feasible nor advisable.

In view of their unwillingness to consent to the proposed use of the spaces referred to in the Council's order, this Board believes it would be useless to give the matter any further consideration.

Respectfully yours,
JOSEPH F. SULLIVAN, Secretary.

Commonwealth of Massachusetts,
Supreme Judicial Court,
Boston, October 16, 1920.

Joseph F. Sullivan, Esq.,
Secretary, Board of Street Commissioners,
Room 401, City Hall Annex:

Dear Sir,—Your letter of October 9, 1920, is at hand, in which you request an expression of opinion of the justices of the Supreme Judicial Court respecting the "feasibility and advisability of utilizing the space at the easterly front of the Courthouse now occupied by grass plots, and the sidewalk of Pemberton square, for a parking space for automobiles."

We have conferred with the representatives of the various courts whose sessions are held in the building, and with others having intimate knowledge of the Courthouse and its uses. We have given the subject the investigation and consideration which its importance demands.

We are agreed that it is not feasible and is entirely inadvisable to transform the grass plots and sidewalks into parking space for automobiles.

It is essential for the proper conduct of courts that they be held in reasonably quiet places. The parking at the side of the Courthouse of automobiles, with the inevitable noises connected therewith, would be a keen annoyance to all and would actually interfere with the administration of justice.

The grass plots were probably planned as a part of the Courthouse property in some measure to secure its quiet.

To establish this parking space would also constitute a very considerable added peril to the thousands of people who resort to the Courthouse daily. Many of these are aged or infirm, and there are large numbers of women and children. To these the danger of personal injury in passing such a space devoted to the parking of automobiles would be vastly increased.

The present arrangement of the easterly front of the Courthouse doubtless was designed in part to afford an appropriate approach to an important public building. This effect would be destroyed by devoting the sidewalks and grass plots to any such use as a parking space.

We all feel obliged to say that we cannot consent to such a change.

Very respectfully yours,
ARTHUR P. RUGG, Chief Justice.

MEMORIAL FOR BOSTON SERVICE MEN.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1920.
To the City Council:

Gentlemen,—More than a year ago I appointed a committee to recommend some form of memorial for the Boston service men who lost their lives in the war. The main committee appointed a subcommittee to work out a form of memorial and this subcommittee has carefully studied the subject and is now ready to begin the preparation of studies to present to the general committee.

It is desirable that these studies, that is, drawings, should be prepared just as soon as possible and it is estimated that the expense in the preparation of the drawings will amount to approximately \$2,000. As no fund exists for this purpose it is necessary to provide for it at this time and I am, therefore, recommending the passage of the accompanying order to provide this amount.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$2,000 be and hereby is appropriated to be expended under the direction of the Mayor in the preparation of studies for forms of a memorial to Boston soldiers, sailors and marines; said amount to be charged to the Reserve Fund.

Referred to the Executive Committee.

NAMING OF PARKS FOR VETERANS.

The following was received:

City of Boston,
Office of the Mayor, November 2, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a communication received on November 1 from the

Park and Recreation Department relative to the naming of squares and parks in honor of Boston men who lost their lives in the late war.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Park and Recreation Department,
October 5, 1920.

To the Mayor and Council of the City of Boston: Gentlemen,—The Park and Recreation Board of the City of Boston is in receipt of many requests to name squares and parks in memory of men who made the supreme sacrifice in the late war. The Board has recognized many of these appeals by naming squares and parks after these heroes, but in view of the number of requests and the limited number of squares and parks, the time has come when such requests cannot be met with immediate compliance, but must be laid aside for consideration from time to time.

This Board yields to no one in its desire to recognize the services of those who gave up their lives to the cause of humanity, but fairness and justice require that where all cannot be commemorated by parks and squares, future action in the matter of names of parks and squares must be the result of careful selection.

Many of the requests are to name a particular square or park; many of our parks and squares have a historical name, or bear a name associated with a beneficent donor or one who may have rendered distinguished service to the city, and consequently the number of parks and squares at our disposal to commemorate the dead of the late war is limited. Naturally there is a disinclination on the part of any citizen or body of citizens to oppose a request of friends of one who gave up his life, but the perpetuation of the names of these heroes, by parks and squares, must be made with a view to the future as well as the present.

This Board recognizes the fact that the boys from Boston who gave up their lives for their country deserve every consideration from us who have benefited by their sacrifice, and from time to time, where under all the circumstances it seems proper and fitting, we intend to recognize their deeds by the perpetuation of their names, but so many requests have come from the Council, from individuals, and from petitions, that we are writing this communication in order that you may understand why all these requests are not given recognition at the present time, and the limitation of the number of places at our disposal that can be devoted to names in memory is such that our action must be selective and of mature deliberation.

Yours very respectfully,

JAMES B. SHEA,
CHARLES A. COOLIDGE,
JAMES E. MCCONNELL,

Park and Recreation Commissioners.

John L. Kelly, Deputy Commissioner of Institutions.

Placed on file.

THOMAS J. CONNOLLY SQUARE.

Coun BRICKLEY offered an order—That the space at the junction of Columbus avenue, Tremont, Station and Texas streets, Roxbury, be named and known as Thomas J. Connolly square, in honor of said Connolly, who lost his life for the cause of freedom during the World War, and that said space be suitably marked with signs.

Coun. WATSON—Mr. President, I am going to intrude on Coun. Brickley's order to make a suggestion at this time, in order that it may be a matter of record. Heretofore this order has been vetoed by the Mayor because the boundaries were not properly explained by the order, and, furthermore, because the Mayor's office was not acquainted with the particular locality. The order as drawn now and offered by Coun. Brickley names a location that never before has had a name. I make this statement in order that the Mayor may be acquainted with the circumstances.

The order was passed under suspension of the rule.

ALFRED J. MCGURIN SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Pope, Saratoga and Swift streets, East Boston, be named and known as Alfred J. McGurin square, in honor of said McGurin, who died in the United States Service during the World War, and that said space be suitably marked by signs.

Passed, under a suspension of the rule.

DANIEL A. MACCORMACK SQUARE

Coun. BRICKLEY offered an order—That the space at the junction of Ford and Breed streets, East Boston, be named and known as Daniel A. MacCormack square, in honor of said MacCormack, who was killed at the Meuse-Argonne offensive, October 11, 1918, during the World War, and that said space be suitably marked with signs.

Passed, under a suspension of the rule.

SIDEWALK ORDERS.

Coun. BRICKLEY offered an order—That the Commissioner of Public Works make a sidewalk along Centre street (northwest side), from 405B Centre street to South Huntington avenue, Ward 22, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

Coun. BRICKLEY offered an order—That the Commissioner of Public Works make a sidewalk along Centre street (southeast side), from Oakview terrace to Boylston street, Ward 22, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

Coun. BRICKLEY offered an order—That the Commissioner of Public Works make a sidewalk along La Grange street (north side), from Centre street to Landseer street, Ward 23, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Etna street, between Saybrook street and Cushman road (west side), Ward 25, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Quincy street, from No. 484 to Columbia road (westerly side), and from Barry street to Columbia road (easterly side), Wards 17, 18, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Stanley street, from south corner of Quincy street to No. 44; No. 48, and from Kane street to Sunset circle (south side), and in front of Nos. 29, 31, 33, 37 and 39 (north side), Ward 18, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under a suspension of the rule.

SALARY OF PROBATION OFFICER O'BRIEN.

President MORIARTY offered an order—That the salary of Frederick L. O'Brien, probation officer of the East Boston District Court, determined by the justice of said court at \$1,800 per annum, to take effect beginning July 1, 1920, be and the same hereby is approved.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 2.36 p. m., on motion of Coun. BRICKLEY, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 3.36 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following reports, viz.:

1. Reports on petitions (referred today) for children under fifteen years of age to appear at places of amusement—that permits be granted, viz.:

Nellie Ferguson, Paul Revere Hall, November 12.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending November 18, 1920.

PARK AND RECREATION DEPARTMENT.

On November 12 to Joseph Rugo as per following communication and schedule of omissions:

BOSTON, November 10, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—You are respectfully notified that proposals were opened at this office on October 14, 1920, for the construction of a field house on the Allston Playground, as follows:

A. Piotti Company, 708 Dudley street, Dorchester, \$32,399; McIntosh-Gonia Company, 2 Creek square, \$31,976; Archdeacon & Sullivan, 5 East Concord street, \$28,999; Charles H. Mead, 15 Beacon street, \$26,546; D. J. McDonald Company, 164 Dudley street, Roxbury, \$26,370; R. A. Bossi Company, 40 Humphreys street, Dorchester, \$24,930; Hub Contracting Company, 41 Way street, \$24,440; J. J. Bowes Company, 47 Townsend street, \$23,650; Joseph Rugo, 173 Magnolia street, Dorchester, \$23,440.

As the balance of the appropriation for "Park and Playground, Allston" is now \$22,302.15, and the lowest bid is \$23,440, the Board recommends, subject to your approval, a deduction from the contract price of the sum of \$2,565 as per items attached, making the net sum needed on this contract \$20,875. This is a very low bid, and the Board believes it would be

a mistake to reject it and readvertise with the specifications reduced as outlined in the sheet attached. For this reason the Board respectfully asks your authority to award this contract, without advertising for proposals, to Joseph Rugo, 173 Magnolia street, Dorchester, for the sum of \$20,875, same to be charged to the special appropriation "Park and Playground, Allston."

1. Omit gutters, conductors, Akron pipe drains, and substitute wood moldings, etc. Allow the sum of	\$394 00
2. Omit all lockers, checking boxes, hardware and painting pertaining to same. Allow the sum of...	1,100 00
3. Omit plaster frieze and substitute wood moldings, false rafter ends, sheathings, soffit, etc. Allow the sum of	100 00
4. Omit underfloor under asphalt. Allow the sum of	135 00
5. Omit granite composite steps and buttresses and substitute granolithic. Allow the sum of	114 00
6. Omit 8-inch brick backing and substitute interlocking tile with one coat of R I W paint, first story. Allow the sum of	290 00
7. Omit brick backings in underpinning in basement walls and substitute interlocking tile. Allow the sum of	165 00
8. Concrete foundation changed to 14 inches. Allow the sum of	267 00
Total	\$2,565 00

Yours very respectfully,

DANIEL J. BYRNE, *Secretary.*

PUBLIC WORKS DEPARTMENT.

On November 15 to the Central Construction Company for Topeka pavement in Centre street, from Forbes street to Boylston street; and Green street, from Call street to Centre street, West Roxbury. Bids opened November 5, 1920:

Bitulithic.—John J. Lane, \$38,135.10; John Kelly Company, \$42,213.60; Warren Brothers Company, \$43,173.90.

Unionite.—B. E. Grant Company, \$35,328.50.

SUPPLY DEPARTMENT.

On November 15 to H. P. Hood & Sons as per following communication and bids:

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing milk to the Infirmary Department until April 2, 1921. I respectfully request that the contract for furnishing 7,208 cans, more or less, of pasteurized milk be awarded to H. P. Hood & Sons, the lowest bidder, at a price of \$1.12 per can of 8½ quarts.

Regarding the award for the certified milk and medium cream, would state that as the amount involved is considerably under \$1,000, it will not be necessary to make formal contract for same.

Respectfully yours,

G. J. CRONIN,

Superintendent of Supplies.

Bids opened November 10 were as follows:

7,208 Cans Pasteurized.—C. Brigham Company, \$1.147 per 8½-quart can; H. P. Hood & Sons, \$1.12 per 8½-quart can.

1,390 Quarts Certified.—C. Brigham Company, \$0.23 per quart; H. P. Hood & Sons, \$0.25 per quart.

270 Pints Medium Cream.—C. Brigham Company, \$0.15 per pint; H. P. Hood & Sons, \$0.29 per pint.

* Lowest bidder.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.*Birds and Animals.*

On November 15 to Ellis S. Joseph as per following communication:

BOSTON, November 15, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I respectfully request that I be authorized to award a contract, without publicly advertising for same, to Ellis S. Joseph, Australia, for the purchase of birds and animals for the Franklin Park Zoo. This contract will amount to \$1,045 and covers:

1 pair Indian leopards	\$600 00
3 pairs laughing kingfishers	120 00

1 male wallaroo	150 00
1 pair satin bowerbirds	100 00
Total	\$1,045 00

These birds and animals arrived from Australia early last week and it was necessary to take prompt action.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Fire Alarm Boxes.

On November 15 to the Gamewell Fire Alarm Telegraph Company, as per following communication:

BOSTON, November 9, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I respectfully request permission to purchase, without publicly advertising, and enter into contract with the Gamewell Fire Alarm Telegraph Company for eight (8) Gamewell fire alarm boxes, Ideal type, without outside cases, at \$125 each, making a total of \$1,000.

These fire alarm boxes are proprietary; they are a standard in use in the Fire Department of this city and no benefit would accrue to the city by publicly advertising.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

REPORT OF ENGINEERS ON THE PRESENT POLICY OF STREET CONSTRUCTION, ETC.

BOSTON, November 11, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—Referring further to the conference that we held with your Honor in your office on November 8, and the letter which you then gave us in which several questions were asked beyond the scope of the Centre street investigation, we would say that we have examined into these different matters, and would report as follows:

1. IS THE PAVEMENT IN QUESTION CONSTRUCTED ACCORDING TO THE SPECIFICATIONS?

No. See our report of November 10.

2. HAS THE CITY RECEIVED FULL VALUE IN THE PAVEMENT LAID?

Not entirely. As noted in our report of November 10, the work has not been done according to the specifications on account of the variation in the grading and in the mineral aggregate. There is no doubt that the pavement would have been better and would have more successfully resisted heavy traffic had the wearing surface been made according to the specifications. Just how much, however, the financial loss to the city is, it would be very difficult to determine. In order to do this it would be necessary to know just how long the pavement constructed according to the specifications would last, and how long the present pavement would last. The object of the grading as described in the specifications is to get a compact and dense pavement so that it will resist the shocks of traffic. The pavement as we saw it when it was opened for taking samples on last Monday was hard, and it will undoubtedly give very good results, but as compared with the pavement in the specifications, it is, as we have already stated, difficult to say to just what extent.

3. WHAT IS YOUR OPINION OF THE SPECIFICATIONS IN OUR PAVING CONTRACT?

The specifications as far as they go are good, and if followed out would give good results. It seems to us, however, that they are somewhat badly arranged, and in order to make a logical and comprehensive document, they should be revised.

4. WOULD YOU RECOMMEND ANY CHANGES IN THESE SPECIFICATIONS, AND IF SO, WHAT?

Yes. We think that the specifications do not go sufficiently into detail as to character of material, methods of construction, and methods of tests. In the bituminous pavement no provision is made for submitting samples of the bituminous material at the time of bid. This, we think, is important. In many cases the specifications require the use of trap rock. While trap rock is a good material and would probably equal any that would be used, it is often possible to obtain other stone equally as good and which could be had for a much smaller price, so it would seem that it would be advisable to qualify the trap rock specifications by permitting stone equally as good as trap to be used. In the revision of the specifications, we think the specifications of the American Society of Municipal Improvements should be followed, making such changes as would adapt them to local conditions.

In the contract proper, we think that it would be plainly stated that both the Commissioner of Public Works and the division engineer, or their agents, should be given positive and definite authority to stop the work on the street or shut down the plant at any time when they thought the work was being carried on improperly, reporting their action at once to their immediate superior. This would mean that the inspector on the street can stop the work at any time when, in his judgment, it was not being properly carried on, and that the asphalt tester, as soon as he discovered that any action at the plant was improper, could close it, making it, however, incumbent upon him to report such action at once. If this was done, the contractor would appreciate the necessity of having his mix in accordance with the specifications.

5. WHAT IS YOUR OPINION OF OUR PRESENT METHODS OF INSPECTION OF STREET CONSTRUCTION WORK?

As an answer to this question, we would say that the system, as we have found it, is that every piece of construction work has one or more inspectors, as may be necessary, assigned to it to see that the work is being properly done. In addition to this, there is a general inspector who in reality, though it seems not nominally, has authority over all of these inspectors. He visits the work, as nearly as possible, each day to see that the inspectors not only are on the job, but also that they are satisfactorily performing their duties. In addition to this, all of the construction work is under the direct charge of Chief Engineer Atwood, who although nominally has authority over the inspectors, in reality does not seem to. The general inspector reports directly to the division engineer and the division engineer assigns the inspectors to the different pieces of work. It seems to us that by this method there is a conflict of authority, and that it is unnecessarily so. We do not feel that there is any necessity for the general inspector, but that all phases of construction work, including authority over the inspectors, should be vested directly in the chief engineer, he, of course, reporting directly to the division engineer. We feel that the construction work should be so divided that it can be visited every day by an engineer, taking what time is necessary at each place, say from fifteen minutes to a half hour, owing to conditions. We do not think, however, that in a city covering as much area as does that of Boston, where construction work is liable to be separated by many miles, and where, as we are told, there are now some twenty-two pieces of such work now going on, that this could be done satisfactorily by one engineer. If another engineer should be appointed to assist Mr. Atwood and the office of general inspector be abolished, there would be practically no extra expense involved, and there would be no difficulty in placing direct responsibility upon every man connected with street construction. This does not seem possible at the present time.

The organization of the Highway Division provides that the chief engineer of Paving Service shall report directly to the division engineer and the chief inspector and other inspectors shall report directly to the chief engineer. As a matter of fact, this is not done at the present time. As we have already stated, the chief inspector reports directly to the division engineer and inspectors on the street are under his charge. With that arrangement there is always liable to be a dispute, if

bad work is found on the street, as to who is responsible—whether it is the inspector, the chief inspector, or the chief engineer. The arrangement outlined above avoids that possibility as the responsibility would be directly upon the chief engineer.

As an example of how this may work out in practice, we can state that when we visited Beech street on Monday last, where concrete work is being carried on, we found that it was not being properly done. While the proper proportions of stone, sand and cement were undoubtedly being used, the mix was so made that the resulting concrete was not good, the surface being very rough, and the voids in the stone not being filled with mortar, and in many instances not having any mortar in them at all, so that the stone could easily be kicked out by the foot, as was done by some of us. If one should attempt to fix the responsibility for this, the inspector would probably say that it was the engineer's business to look after this, and the engineer might retort that the inspector himself was responsible.

Regarding further this concrete work on Monday, we would say that we visited the same locality on Tuesday afternoon, and while there was no concrete work going on at the time, what had been laid subsequent to our visit on Monday was much better than what was laid before, although even then it was not as good as it should be. The bad condition of the concrete observed on Monday can be improved by grouting all the loose places in the stone with Portland cement mortar. When we visited the work last Tuesday we took a sample of the wearing surface as it was being laid on Belgrade avenue. In order to determine if any change for the better had been made since the laying of the Centre street pavement, we had this sample analyzed by the Arthur D. Little, Inc., of Cambridge.

The result of their work showed a little excess of bitumen (9.3 per cent where the specifications call for from 7 to 9 per cent). The grading of the mineral aggregate while somewhat improved is still defective, as it shows a deficiency in the 200 mesh material and too great an irregularity in the remainder. There is no reason why this grading should not comply with the specifications.

6. WHAT IS YOUR OPINION OF OUR STREET PAVING POLICY?

We understand that your present policy is in accordance with the general plan of first improving the streets in the business section and then improve, in their order of importance, the major thoroughfares extending radially in all directions from the business section to the suburban sections. The practical result of this plan is that you now have the larger part of the business section improved. The following radial thoroughfares have been laid out and partially improved; two outlets to the west between Brookline and Charles river; one to the southwest through the parkway to and through Brookline, with a branch from the Arborway southwest to West Roxbury; two to the south from the center or hub of the city to Milton, with a branch to the southeast to Quincy; also with one to the east to South Boston connecting with Columbia road, bordering on Old Harbor and running thence to the southwest connecting with a major thoroughfare to the south; another due east through South Boston by way of Broadway to the waterfront; one to the north from Charlestown to Chelsea by way of Charlestown Bridge and Chelsea street; one in Charlestown

northerly from City square to Sullivan square; another paralleling this to the west; all to be connected by semi-main thoroughfares either already improved or to be improved in your future program.

We have no hesitancy in indorsing this program as it takes care of your business section and allows traffic to enter and leave this section much more rapidly than if you pursued a haphazard plan with improvements here and there, but disconnected by lack of continuous improvement.

We understand that for the year 1918 you had an appropriation of \$1,500,000 for these improvements and that for each year since 1918 you have had an appropriation of \$1,000,000. In our judgment this is not too great a sum for the City of Boston to expend on the permanent improvement of its streets annually, and we consider it good sound policy to continue these expenditures for some years to come. We had occasion some five or six years ago to examine your streets somewhat in detail and we note that since then there has been a decided improvement in their condition.

7. WOULD YOU RECOMMEND ANY CHANGE IN THIS POLICY, AND IF SO, WHAT?

We would not, in accordance with our answer to question 6, recommend any change in your present policy of street paving.

8. WHAT IS YOUR OPINION OF THE REPORT OF THE FINANCE COMMISSION ON THE SUBJECT UNDER INVESTIGATION?

In regard to this, we would say that this report does not seem to be exactly fair. Some things contained in it are true and others, in our judgment, are in error. At the bottom of page 1 of their report it is stated that the mixing plant of the Rowe Contracting Company was visited by the consulting engineer of the Finance Commission on October 19, 1920, and a sample of the pavement as prepared for laying was furnished the consulting engineer by an agent of the Rowe Contracting Company; that this sample was submitted to Dow & Smith, consulting paving engineers of New York, and the result of their examination, while not given in the report, has been forwarded to your Honor. Any mixture corresponding to that reported by Dow & Smith would not be accepted by any engineer for any pavement as has been stated by us in our report of November 10. It will be noted that the report of the Finance Commission says that the sample was furnished to their consulting engineer by an agent of the Rowe Contracting Company. Engineer Atwood was at the plant with the consulting engineer when the sample was obtained. He states that the sample was brought from some part of the plant; he does not know from just where; whether it was from the mixing box, from the truck, or picked up in the yard, so that there seems to be no evidence or statement from anyone who actually saw the sample taken, nor how the Finance Commission knows that it was a sample of the mixture as prepared for the street. It would seem that if a fair sample of the mixture was desired, that the consulting engineer would have taken the sample in the presence of Chief Engineer Atwood, as both of them were at the plant when the sample was taken. From the reports made by Mr. Flaherty from day to day as he took samples both from the plant and from the street showing the amount of bitumen contained, we cannot believe that the material

obtained by the consulting engineer of the Finance Commission was a fair sample of any truck load or of any mixing box that was prepared for the street. Mr. Flaherty has a laboratory well equipped for making analyses and determining the amount of bitumen contained, and he seems to be intelligent and knows what he is doing. His results are consistent and in almost every case show that the bitumen content is in accordance with the specifications. In fact, there is only one sample from all that he has taken that has not the proper amount of bitumen, and there is a very small variation in that.

In the same paragraph and on the same page, it is also stated that not only were the materials used inferior to those specified, but that they were being mixed improperly and combined in improper proportions. The statement that the materials were being combined in improper proportions, we must agree to. The statement that the materials used were inferior to those specified probably refers to the fact that while trap rock is specified in the specifications, it was not used. There seems to be no question that trap rock was not used in the work. We visited the plant of the contractor on the afternoon of November 8 and examined the stone which he had there for the wearing surface. While not trap rock, it was, in our opinion, not inferior to trap and possibly superior, as it was more nearly cubical in its fracture than trap rock ever is.

In the lower half of page 2 of the report it is said that Mr. Flaherty, the asphalt tester for the city, states that he has examined from day to day the paving materials to be used on this contract and has found practically the same deficiencies and departures from the specifications as did the firm of Dow & Smith, and that his reports to that effect have been filed almost daily with the chief engineer of the Paving Service, and that he has also reported to that engineer from the very beginning that no trap rock had been used by this contractor. The question of the trap rock has already been referred to. Mr. Flaherty's reports, however, do not in all of them show the deficiencies as reported by Dow & Smith. They do, however, show the deficiencies as regards the mineral aggregate, but as we have already stated, the bitumen content, with one exception, and in that the variation was very small, complies fully with the specifications.

On page 4 it is stated that reports made to the chief engineer daily from the beginning of the contract showed that the stone specified, trap rock, was not being used. It is also stated that to allow the substitution of a stone inferior to that in quality on which bids were submitted and the contract executed, not only involves a financial loss to the city, but is unfair to all others who bid for this work.

As an academic proposition, this statement is undoubtedly true, and we do not favor the substitution of any materials specified in any contract unless there is an absolutely good reason for the same, and not unless the material is absolutely as good as the one for which it is substituted. In this particular instance, however, as has already been stated, we do not believe that an inferior material has been used.

We attach herewith the report of Doctor Kleeberg as well as that of the Arthur D. Little, Inc. With the exception of that portion given in writing,

Doctor Kleeberg's report was given to us over the telephone; the report of the Arthur D. Little, Inc., was also given over the telephone but will be confirmed in writing.

Respectfully submitted,

ERECTION OF MEMORIALS.

BOSTON, November 4, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston.

DEAR SIR,—A question of considerable moment is coming before the Art Commission with increasing frequency. It pertains to the erection of memorials, in or upon city property, to the boys who gave their lives in the Great War. It is the outcome of renaming certain squares in the city. The squares are rededicated to the memory of the persons whose names have been substituted for the old ones. In addition to the honor of having a city square named for them, the friends or relatives wish to erect monuments bearing tablets, appropriately inscribed, in most of these renamed squares.

The jurisdiction of the Art Commission in such matters has been established by the Legislature; see Acts of 1898, chapter 410, as amended by Special Act of 1919, chapter 87. For the information of those concerned I quote from section 2 of the amended acts as follows: "No work of art shall become the property of the city by purchase, gift, or otherwise, until it, or a design or model thereof and the situation proposed therefor shall have been approved by the Board; and no work of art, until approved by the Board, shall be erected or placed in, over or upon, or allowed to extend in, over or upon any street, avenue, square, park or other property belonging to the city." Further, section 4: The term, "work of art," as used in this act shall apply to and include all paintings, mural decorations, statues, bas-reliefs, and other structures of a permanent character intended for ornament or commemoration.

A bronze memorial tablet, to be placed on or within some public building, or attached to a monumental stone to be placed on city property, park, or street, we believe comes within the bounds of the above quoted definition. Moreover, we believe it is our duty to see that the standard of civic art is maintained at a high level.

The usual design offered for these memorials is a rough boulder to which is bolted a bronze tablet bearing an inscription. Both the design and execution of these tablets are not of a high order of merit, and so far from being works of art may be better described as commercial wares, made up of stock letters badly designed and badly placed.

The persons interested come to us in ignorance of the law, inexperienced in matters of art and uninformed of the fact that a Great War Memorial is to be erected which is to bear the names of all our city's heroes in the war; and sometimes they come to us with the tablets ready made, telling us that "all arrangements have been made for a dedicatory service on the day after tomorrow." Seemingly a deadlock! But it is not insuperable. It is our wish to be helpful in such matters and if designs were submitted to us, with an ample allowance of time, all the difficulties could be over-

come and a well designed tablet with proper monumental lettering and suitably placed would be substituted for the commercial wares submitted.

While we recognize the sentiment back of the wish to erect these commemorative tablets and believe that it should be considered and encouraged, we feel that the fundamental question is: Shall the city give to any and all persons who apply for the privilege, permission to erect on or in public buildings, or upon streets, squares or parks, commemorative tablets to the individual heroes of the war? We feel that this sporadic action anticipates and conflicts with the plan for a Great War Memorial which your Honor has already taken in hand and appointed a competent committee to consider, and in which all eligible individuals will be given due honor and recognition; and that only in cases of extraordinary merit or valor should the applications for individual memorials be considered.

Respectfully yours,

THOMAS ALLEN,
Chairman Art Commission.

FUEL ADMINISTRATOR.

Mayor Peters has appointed Malcolm E. Nichols as Fuel Administrator for the City of Boston.

It will be the duty of the Fuel Administrator to supervise the equitable distribution of domestic fuel in the city so that no suffering or hardship will be caused. At the present time there is an order in force, issued by the Fuel Administrator for Massachusetts, restricting deliveries to not more than three tons, and then only to consumers having less than a month's supply on hand. In order to do away with red tape and to obviate any possible delay, a request by Mayor Peters for authorization to modify or suspend the three ton delivery restriction in Boston will be approved by the Fuel Administrator for the state.

It will further be the duty of the Fuel Administrator for Boston to satisfy himself that every family in the community has the opportunity to purchase at least a portion of their winter's coal.

REPORT OF ENGINEERS ON THE PAVING OF CENTRE STREET.

BOSTON, November 10, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston.

SIR,—We, the undersigned engineers, appointed by your Honor for the purpose of examining the pavement laid by the Rowe Contracting Company on Centre street in West Roxbury, would say that we met with you in conference on Monday morning, November 8, at 9.30, when we received your letter of instructions as to what we should do and what information you desired. You also informed us orally that you wished us to go into the subject fully and to examine everything in detail and make a complete and positive statement as to results; that if the city were getting a bad pavement you wished to know it, or if the city were getting a good pavement, you also wished to know it; that if we found the pavement bad, we should determine in our judgment, who was responsible for the bad pavement, and say so without regard to the persons responsible or what position they occupy.

After the conference, in your company we visited Centre street and examined in detail the pavement already laid. We had samples of the pavement cut out at eight

different localities; some on the sides, and some in the center, in such a way as to get the average condition of the entire pavement. We also had the concrete base dug through so that we could measure the depth of that.

The specifications call for a Topeka wearing surface 2 inches in thickness, and a concrete base 6 inches in thickness.

Sample No. 1.—This was taken opposite the J. J. Donovan sign about 45 feet from the end of the pavement, near the east line of Manthorne road, and 12 feet and 5 inches from the north curb. We found the wearing surface to be 2½ inches thick and the concrete 6½ inches thick.

Sample No. 2.—This was taken opposite house No. 1721, 22 feet and 6 inches from the south curb. We found here the wearing surface to be 2 inches thick and the concrete 7½ inches thick.

Sample No. 3.—This was taken opposite house No. 1707, and 12 feet from the south curb. We found the wearing surface to be 2½ inches thick and the concrete 5¾ inches thick.

Sample No. 4.—This was taken opposite the west return of the parkway, 30 feet and 4 inches from the north curb. We found the wearing surface 3 inches thick and the concrete 6½ inches thick.

Sample No. 5.—This was taken opposite electric light pole No. 1782, 8 feet from the north curb. We found the wearing surface to be 2½ inches thick and the concrete 6 inches thick.

Sample No. 6.—This was taken opposite house No. 1690, and 13 feet from the south curb. We found the wearing surface 1½ inches thick and the concrete 8½ inches thick.

Sample No. 7.—This was taken opposite property line on the north side, between Central street and Church street, and 28 feet and 5 inches from the south curb. We found the wearing surface 2 inches thick and the concrete 6½ inches thick.

Sample No. 8.—This was taken opposite a driveway to the north, about 35 feet west of the east end of the work, and 12 feet and 9 inches from the north curb. We found the wearing surface 2½ inches thick and the concrete 8½ inches thick.

It will be noticed that while the specifications call for the wearing surface to be 2 inches thick, and the concrete base 6 inches thick, there was but one case where the wearing surface was less than 2 inches, and only one place where the concrete base was less than 6 inches in thickness, and that variation was only ½ of an inch in each case, the average thickness of the wearing surface being 2.23 inches and the average thickness of the concrete being 6½ inches. We would further say that the character of the concrete in every instance was good.

One comment of the Finance Commission was that the bitumen contained in the sample obtained by the Commission's representative was 14.4 per cent, while the specifications only allowed from 7 to 9 per cent; also that the mineral aggregate was combined in improper proportions. In order to have a determination made in this respect independently, samples from each one of these cuts, previously referred to, were sent by special messenger from your office to Dr. Felix Kleeberg, chemist of the Department of Highways, Borough of Manhattan, New York City. Doctor Kleeberg's report shows the average bitumen content of the eight samples taken of 7.5 per cent, although three of the samples were slightly below the minimum. Doctor Kleeberg's report shows practically the same condition as regards mineral aggregate as do

those of Mr. Flaherty. It indicates a great lack of fine material passing an 80 and 200 mesh sieve and a corresponding excess of material of ¼ inch and over in size.

This report, while it does not agree in detail in regard to the grading of the mineral aggregate, does show improper grading, as has just been stated, as to lack of fine and excess of coarse material. While Dow & Smith's report in the sample examined by them contains 14.4 per cent bitumen, the average as reported by Doctor Kleeberg is 7.5 per cent, as has been previously stated. Referring to the sample of wearing surface obtained by the Finance Commission and sent to Dow & Smith for examination, it is stated in the letter of the Commission dated October 28, that this sample was furnished their consulting engineer by an agent of the Rowe Contracting Company. Mr. Atwood states that he was at the plant when this sample was taken and that it was brought to Mr. Emerson by an employee of the contractor, and Mr. Atwood cannot tell whether the sample was taken from the mixing box, or from the truck transporting the mixture to the street, or whether it in any way represented the mixture that was being used in the pavement. We wish to say that we ourselves would not consider that the mixture with the characteristics which Dow & Smith reported this sample to have would be suitable for any pavement, and we cannot think that this sample fairly represented the character of the mixture being made at the plant at that time, or that any load was ever carried to the street with a composition that even approximated this in character. Our reason for this belief is that Mr. Flaherty, the asphalt tester for the city, made tests nearly every day, nine in all, of the mixture being used. The average bitumen content of all of this mixture is 8 per cent, which is really the average called for in the specifications. Mr. Flaherty's results correspond closely with those of Doctor Kleeberg. Mr. Flaherty has a laboratory well equipped for making bitumen determinations, as well as the mechanical analyses of the mineral aggregate. His results are very consistent and his work seems to have been carefully done. We believe that his reports can be depended upon.

As a result of our personal examination of the pavement, we would say that there is no evidence that the contractor attempted in any way to lay a pavement of less thickness than required by the contract for wearing surface and concrete base. We must conclude, however, that the pavement has not been laid according to specifications as regards the mineral aggregate, and that proper care was not taken to see that the specifications were carried out as to the grading of the mineral matter.

In your oral instructions to us, you wished us if we found any defective work, to place the responsibility directly for that work. We find from the examination of the different officials that this work was first under the charge of Division Engineer James H. Sullivan; that next to him in authority came chief engineer of the Paving Service, Joshua Atwood, 3d, who had direct charge of the plant and mixtures and visited the street where the pavement was being laid. We find that there was a chief inspector who reported direct to Division Engineer Sullivan, who visited the different localities where construction work was going on, and had general charge of the inspectors, although according to the construction chart of the

division, all inspectors, including the chief inspector, should report to Engineer Atwood. The chief inspector, however, although he occasionally visited the plant, did not give any direction as to any work that was going on there. In addition to the above, there was an asphalt tester, whose business it is to obtain from the street or plant, or both, either by himself or some assistant, samples of the mixture that is being used and make an analysis and report the result of same to Engineer Atwood. The asphalt tester's name is Mr. Bartholomew M. Flaherty. We find that Mr. Atwood did receive these reports from Mr. Flaherty and that he knew that the mixture was not according to the specifications. He says, however, that he took these reports at once into the office of Division Engineer Sullivan, so that it would seem that both Mr. Atwood and Mr. Sullivan knew how the work was being conducted. Mr. Sullivan says that he told Mr. Atwood to see that the proportions were changed so that the resulting mixture would conform to the specifications, but this does not seem to have been done. Mr. Atwood says also that when Mr. Flaherty made the reports to him, as to conditions, he told Mr. Flaherty to see that the right proportions were used, but it does not seem that Mr. Flaherty himself had any authority, or perhaps any means of enforcing his authority over the contractor in regard to the mixtures.

Mr. Flaherty did say that he attempted to tell the contractor of the changes in the mix that were necessary, but that the contractor refused to listen to him and turned him over to the foreman of the plant, whom he did tell what changes were necessary, but these changes were never made.

It would seem that there should be no difficulty in having as simple a matter as obtaining proper proportions for a mixture carried out when it had been determined what were these proper proportions. When such conditions exist, as did at this plant, where mixtures were made contrary to the specifications from day to day without material change, an inspector should have been placed at once at the plant to see that the right quantities of the different materials were used, and if the contractor refused to obey instructions or for any reason continued to give the improper mixtures, the plant should have been shut down and work discontinued on the street. The plant itself seems to be equipped with the proper appliances, so that with moderate care a proper mixture could be obtained.

The report of the Finance Commission also states that while the specifications called for trap rock in the wearing surface, no such rock as a matter of fact was used. This, upon investigation, seems to be practically true, according to the statements of the engineers. Just why this was so on this contract, when trap rock was being used by other contractors doing the same kind of work, we have been unable to determine. As a matter of fact, however, we do not think that the stone used by the contractor is of inferior quality to the ordinary trap rock. It is hard and tough, and breaks into better shapes than does trap rock.

We would state that in the entire investigation we have found no evidence whatever of any dishonesty, nor the slightest trace of any collusion between the engineers and the contractor, and no attempt of any kind on his part to defraud the city. In fact, we believe that had his mineral aggregate been properly graded

and the entire mixture made so as to conform to the specifications, and the subgrade and the surface of the concrete so prepared that no more of the concrete base nor of the wearing surface would have been required than is called for in the contract, the work would have cost him no more, if as much, as it has at the present time.

We must conclude, however, though reluctantly, that the responsibility for the carrying out of this contract and the fact that the work was performed contrary to specifications, must be placed upon Division Engineer Sullivan and Chief Engineer Atwood. Other contracts were being carried on in the City of Boston of the same character as that of the Centre street work, and the reports of Mr. Flaherty show that the mixtures were in accordance with the specifications. It was a simple matter, therefore, to make up a formula containing the proper amounts of the different materials to be used at the Rowe plant, and have the mixtures made in accordance with this formula. We do not find that any formula was ever given while the Centre street work was going on to any agent of the Rowe Contracting Company for mixing at the plant. There is no question that Division Engineer Sullivan received the reports of this work from Chief Engineer Atwood, and that he told Mr. Atwood to have the work done according to the specifications, and that Mr. Atwood told Mr. Flaherty to see that the contractor made his mixture in accordance with the specifications, but neither Engineer Sullivan nor Engineer Atwood took any steps to see that their orders were carried out. Mr. Flaherty had no authority whatever over the contractor or his agents at the plant. The result of his efforts has been previously stated.

REMOVAL OF SNOW.

The following letter has been sent by the Mayor to various individuals and organizations in the City of Boston.

Boston 9, November 12, 1920.

DEAR SIR,—The suggestion has been made that if, in the event of a heavy snow storm, the various boss teamsters, instead of trying to move a few hundred pounds of freight each, would combine and use their horses, wagons and men to assist the city in clearing a few main thoroughfares leading to freight terminals, before attempting to move any freight, a large amount of time and money would be saved to the business interests. It may be possible to work out, between the business interests and the city officials, some system of co-operative effort which would effect a more rapid clearing of the streets after a snow storm, and thus facilitate the movement of traffic.

The idea may, or may not, be practical, but I believe that it would be well worth the while of those affected to talk it over. For that reason I am asking you and a number of other persons and organizations interested to meet with me on Wednesday, December 1, at 2.30 p. m., in the Old Aldermanic Chamber in City Hall, in order that we may have the fullest possible discussion on the subject. I sincerely hope it will be possible for you to be present.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

LAND-TAKING IN PRINCE SCHOOL DISTRICT.

Boston, November 9, 1920.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Prince School District, Back Bay, bounded and described as follows:

Beginning at the southerly corner of Mountfort and St. Mary's streets, thence southeasterly by line of Mountfort street 180 feet to land of Loren D. Towle; thence turning and running southerly by land of said Towle 45 feet to land of said Towle; thence turning and running southeasterly again by land of Towle 60 feet; thence turning and running southerly by land of Towle 68 feet; thence turning and running southeasterly by land of Towle 96 feet to a passageway; thence turning and running southwesterly by line of said passageway 200 feet to St. Mary's street; thence turning and running northerly by line of St. Mary's street 335 feet to the point of beginning; and contains 44,345 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding eminent domain for carrying out the same.

Respectfully,

J. P. LOMASNEY,
Chairman Schoolhouse Commission.

Approved November 12, 1920.

ANDREW J. PETERS, *Mayor.*

Boston, October 29, 1920.

MR. FRANK V. THOMPSON,
Superintendent of Public Schools:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for the purpose of erecting thereon an elementary school, a certain piece or parcel of land in the Prince School District, Back Bay, bounded and described as follows:

Beginning at the southerly corner of Mountfort and St. Mary's streets, thence southeasterly by line of Mountfort street 180 feet to land of Loren D. Towle; thence turning and running southerly by land of said Towle 45 feet to land of said Towle; thence turning and running southeasterly again by land of Towle 60 feet; thence turning and running southerly by land of Towle 68 feet; thence turning and running southeasterly by land of Towle 96 feet to a passageway; thence turning and running southwesterly by line of said passageway 200 feet to St. Mary's street; thence turning and running northerly by line of St. Mary's street 335 feet to the point of beginning; and contains 44,345 square feet of land. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

Respectfully,

J. P. LOMASNEY,
Chairman Schoolhouse Commission.

FRANK V. THOMPSON,
Superintendent of Public Schools.

REMOVAL OF OFFAL, DORCHESTER DISTRICT.

Boston, November 11, 1920.

To the Mayor of Boston:

The difference in the price to be paid to E. J. Byrne under the contract for collecting and removing offal in the Dorchester district, dated November 1, 1920, and the price stipulated in the contract of Thomas H. Gorman (who has abandoned his work under the contract) is \$1.01 per cubic yard. This difference will be charged to the surety on the bond of Thomas H. Gorman, viz., Maryland Casualty Company.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved November 12, 1920.

CENSUS OF BOSTON.

BOSTON 9, November 17, 1920.

W. M. STEWART, Esq., Assistant Director,
Bureau of the Census, Washing-
ton, D. C.:

DEAR SIR,—Replying to your letter of November 1, in which the Boston population figures contained in my letter of October 25 (to the director) are criticized, I find, on referring the matter to the responsible statistician in our Statistics Department, that your exceptions are well taken as to his inclusion of the deaths of foreign-born persons in computing the total increase of native-born from 1910 to 1919 inclusive. The only table compiled was that which gave the complete record of all births and deaths and this was misleading when the statistics of the native-born came to be considered alone.

The separate figures have now been compiled for the deaths of foreign-born persons in the ten-year period 1910 to 1919 inclusive. Their total was 40,562. Deducting this from the aggregate of deaths for ten years (*i. e.*, 116,222) leaves 75,660 as the total of deaths of native-born persons alone. Subtracting same from the aggregate of births for the ten years (*i. e.*, 135,958) there remains 110,298, which is the total natural native increase and 19,759 in excess of corresponding total for the preceding decade. Dividing this into the two five-year periods, it is found that 53,725 belongs to the period 1910-15 and 46,573 to 1915-20.

The 1915 State Census gave the net increase of native-born persons since the 1910 Federal Census as 50,065, which is but 3,660 less than the 53,725 above stated as the excess of births, 1910-15. This small difference (*i. e.*, 3,660) may properly be said to represent those surviving children who removed from the city from 1910 to 1915 in the natural course of changing conditions. Does it look much like that great exodus from Boston, upon which you lay so much stress?

Now, starting with the total enumeration by 1915 State Census (*i. e.*, 745,439) the net increase by excess of native births over native deaths from 1915 to 1920 was 56,573, bringing up the population to 802,012. The net increase of foreign-born persons cannot be so exactly determined but, conservatively stated, it was 26 per cent of the net increase shown by 1915 census from 1910 to 1915 (*i. e.*, 24,789) or 6,445, which added to the above aggregate makes 808,457. The latter is 60,397 more than your total enumeration for Boston in 1920, *i. e.*, 748,060. Are you inclined to put this entire sixty thousand into your exaggerated exodus? If not, how many?

There is no evidence that the departures from Boston in excess of arrivals in the last five years were dissimilar in number to those of the corresponding half of the decade 1900-10, when they amounted to about thirteen thousand five hundred, not a large number.

In our revised calculation of shortage in the 1920 enumeration the police census is omitted, because probably including persons who should not be counted according to your rules.

If your theory as to large migrations from Boston were tenable there should certainly be evidence of it in our annual lists of assessed polls and school population. In 1915 the total of assessed polls was 209,933 and in 1920 it was 234,938, a net increase of 25,005. Of said 1920 total, 39,144 represents the service men, all specially exempted from poll tax, only a

small number of this class being absent. The school children increased from 132,885 in 1915 to 140,356 in 1920.

We have found that the most reliable check on the increase of population is the percentage relative of assessed polls to population. The record for the seven census years 1885 to 1915, inclusive, shows but slight variation, the percentage being 28.72 in 1885, 28.34 in 1890, 28.67 in 1895, 29.68 in 1900, 30.80 in 1905, 29.65 in 1910, 28.09 in 1915. The percentage for 1920 jumps 3.32 from that of 1915, or to 31.41 per cent. This is a fairly sure indication that the population total for 1920 (as announced) is too low by 53,000 approximately. A total of 801,000 (instead of 748,000) would give the consistent percentage of 29.33 for 1920, the total assessed polls in 1920 being 234,938.

Your theory—convenient for your present purpose—that Boston has been losing much of its population to the neighboring cities and towns of the Metropolitan district cannot be substantiated. It may be true to a small extent but not further. Boston's own suburban districts have gained as notably as these in your list of Metropolitan places. Dorchester, a district with considerably larger population than any Massachusetts city except Worcester, increased in the ten years

1905-15 from 90,011 to 138,119, or 53.45 per cent; Brighton gained 59.51 per cent; West Roxbury, 36.50 per cent; East Boston, 29.33 per cent, and Roxbury, 14.76 per cent. South Boston and Charlestown are the only two districts that have not been gaining, but many from these districts have moved to Dorchester, West Roxbury and other suburban portions of Boston where there are hundreds of acres of unoccupied land and where the tax rate has been for years much lower than in cities and towns outside. There is more lost than gained by moving out of Boston.

The population of the entire Metropolitan district outside of Boston increased from 674,302 in 1905 to 841,654 in 1915, or 24.82 per cent, but Boston's alone increased from 585,380 in 1905 to 745,439 in 1915, or 25.20 per cent. How does that strike you? One brief glance at the inclosed table of the eight censuses, 1885-1920, is enough to convince anyone who knows Boston that the bottom line of figures, when compared with all those preceding, is simply preposterous. Nothing short of a monstrous calamity could have caused such a slump in population.

Very truly yours,

ANDREW J. PETERS, Mayor.

VOTING HOURS, CITY ELECTION.

The following was received:

City of Boston,
Office of the Mayor, November 15, 1920.
To the City Council:

Gentlemen,—In view of the greatly increased registration in the city, and particularly in view of the difficulty experienced by many voters in casting their ballots at the time of the state election before the booths closed, I desire to suggest that the hours for voting at the city election be from 6 a. m. to 5 p. m. This will give the voters an hour more than usual, the polls ordinarily closing at four o'clock. I hope, therefore, that the Council, in passing its order for the time for voting, will make the hours from 6 a. m. to 5 p. m.

Respectfully yours,

ANDREW J. PETERS, *Mayor.*

Placed on file.

EASEMENT FOR ELEVATED RAILWAY.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1920.
To the City Council:
Gentlemen,—On November 10 I received a communication from the general manager of the Boston

Elevated Railway Company relative to the conveyance of a certain easement by the City of Boston to the Boston Elevated Railway Company.

As the letter is self-explanatory, I am attaching a copy, and I earnestly recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, *Mayor.*

Board of Trustees of the
Boston Elevated Railway Company,
November 8, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—Under date of July 9, 1920, you transmitted to the City Council a communication from the Commissioner of Public Works relative to the conveyance of an easement to the Boston Elevated Railway Company to locate certain tracks, etc., upon and across a parcel of land belonging to the city at the junction of Hyde Park avenue and Walk Hill street, and recommended the passage of an order granting such an easement to this company.

When the matter was considered by the Council a majority voted in favor of the adoption of this order, but since the statute required a two-thirds vote in order to authorize such action, the order failed to pass.

The proposed extension is vitally necessary to insure adequate transportation in this city, and permission for this extension has been granted by the Department of Public Utilities. The easement required by us has been certified by the Commissioner of Public Works to be no longer required for public purposes, and the amount which we have agreed to pay therefor, namely five thousand (\$5,000) dollars, was determined by the City Law Department as being a fair sum.

In view of the foregoing facts, I respectfully request your Honor to again lay this matter before the City Council.

I inclose herewith a form of order which is identical with that formerly transmitted by you to the Council, with the exception that there has been inserted a statement of the consideration, for the reason that the law requires that the City Council specify the minimum amount to be paid for such conveyance.

Very truly yours,
EDWARD DANA,
General Manager.

Ordered, That his Honor the Mayor be and hereby is authorized in the name and behalf of the city to execute, in consideration of the sum of five thousand (\$5,000) dollars, a deed in form approved by the Law Department, conveying to the Boston Elevated Railway Company an easement to locate, construct, maintain and operate an elevated railway (but not including the location of the supporting columns therefor), together with the right to construct, maintain and operate surface car tracks, sewer and drain connections and retaining walls in, upon and across a parcel of land at the junction of Hyde Park avenue and Walk Hill street, reserving to the grantor the right at all times to enter on the premises for the purpose of making necessary repairs or constructing additional work in connection with its use thereof for sewerage and drainage purposes, in accordance with the certification by the Commissioner of Public Works to the City Council that such part of said land, easement and right taken for the City of Boston under an order of the Street Commissioners, dated June 24, 1910, for the improvement of Stony brook and its tributaries as is embraced within said easement, is no longer required for public purposes.

Referred to the Executive Committee.

RESERVE FUND TRANSFERS.

The following was received:

City of Boston,
Office of the Mayor, November 15, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith various requests for transfers from the Reserve Fund, and respectfully recommend the passage of the accompanying orders.

Respectfully,
ANDREW J. PETERS, *Mayor.*

MAYORS OF BOSTON.

In its 98 years of existence as a city Boston has had 36 elected Mayors and five *ex officio* Acting Mayors. Of the 36 men who have held the office for one year or more, five were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Lincoln, who served 3 years ending 1860 and then 4 years ending 1866. Next in length of service were the first Mayor Quincy and Mayor Fitzgerald, who served 6 years each. Those who served 4 years were Mayors Prince, O'Brien, Matthews, (third) Quincy, Hart and Curley. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman, (second) Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, United States Representative and United States Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor, after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Doc., Boston Municipal Register, for full list of Mayors from 1822 to 1920, with place and date of birth, years of service and date of death).

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending November 25, 1920.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

On November 23 to Stearns, Perry & Smith Company as per following communication:

BOSTON, November 19, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—The trustees of the Consumptives' Hospital advertised for bids for underground feeder for electric lights at the hospital, Mattapan, according to plans and specifications made by Hollis French & Allen Hubbard, engineers.

Below is given the list of bids received and opened November 15:

Item 1.—Stearns, Perry & Smith Company, \$1,850; Lord Electric Company, \$2,133.

Items 1 and 3.—Connor Electric Company, \$8,100.

Item 2.—Connor Electric Company, \$1,570; Stearns, Perry & Smith Company, \$960; Lord Electric Company, \$1,755.

Item 3.—Stearns, Perry & Smith Company, \$5,994; Lord Electric Company, \$8,282.

Item 4.—Connor Electric Company, \$2,130; Stearns, Perry & Smith Company, \$2,091; Lord Electric Company, \$2,119.

Item 5.—Connor Electric Company, \$1,000; Stearns, Perry & Smith Company, \$1,159; Lord Electric Company, \$1,036.

Item 6.—Connor Electric Company, \$1,280; Stearns, Perry & Smith Company, \$626; Lord Electric Company, \$906.

Items 1 and 3 place all of the high tension wire (3,900 volts) underground. These wires are not in good condition. Twice within this year they have broken, and once nearly fell on a patient. The

rest of the items refer to placing ordinary low tension wires and telephone wires underground. There is no necessity for having these underground.

The trustees desire to consider Items 1 and 3 of the bids only.

The trustees request that a contract for doing the work specified under Items 1 and 3 be awarded to the lowest bidder, Stearns, Perry & Smith Company for \$7,844.

The actual contract form will be sent to you after its approval by the Corporation Counsel.

Yours very truly,

JAMES J. MINOT, *Secretary.*

SUPPLY DEPARTMENT.

On November 23 to the Eastern Salt Company as per following communication and bids:

BOSTON 9, November 18, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing salt to the various departments of the City of Boston, which were publicly opened and read at this office under date of November 1, 1920, the only bidder being the Eastern Salt Company.

In connection with the contract would state that the Commissioner of Public Works has notified this department that owing to the fact that the Water Service Yard at 710 Albany street is now occupied by the contractor, who is rebuilding the Roxbury canal sea wall, it will be impossible to take care of the deliveries of salt at this location as has been the custom in the past. The Commissioner of Public Works further suggests that the contract be amended so that provision will be made for the direct delivery of this salt to the various fire houses with the exception of the amount which will be used by the Water Service for its own work.

In view of the above, I respectfully request that permission be granted me to award the contract to the Eastern Salt Company for furnishing approximately 4,440 sacks of coarse and fine salt and approximately sixty Rota bricks at an estimated cost of \$5,925, free delivery to

be made to the various fire houses in the South Boston, East Boston, Charlestown and city proper districts, with the provision that a charge may be made by the contractor for delivery to the various fire houses in the other districts of the City of Boston.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Coarse Salt.—Eastern Salt Company, \$1.35 per sack (140 pounds).

Fine Salt.—Eastern Salt Company, \$2.95 per sack (200 pounds); \$1.55 per sack (100 pounds); \$0.80 per sack (50 pounds).

Rock Salt.—Eastern Salt Company, \$18.70 per ton (bulk); \$2.75 per sack (200 pounds); \$1.55 per sack (100 pounds).

Rota Salt Bricks.—Eastern Salt Company, 18 cents per brick; coarse, fine, \$1.85 (140 pounds).

On November 23 to the Mattapan Square Garage as per following communication and bids:

BOSTON 9, November 18, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids submitted on proposals for furnishing one Ford runabout and two Ford trucks to the Water Service, Public Works Department, which were publicly opened and read at this office under date of November 15, 1920.

As all bids are identical in every particular, I respectfully request that permission be granted me to award this contract to the Mattapan Square Garage, this decision being arrived at by lot.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.
